SUBJECT: **2014 COMMUNITY AND STUDENT ENGAGEMENT PERFORMANCE RATINGS**

CONTACT: Carla Stevens, (713) 556-6700

In the last state legislative session, House Bill 5 included a local evaluation requirement that is frequently referred to as the *community and student engagement* component. The community and student engagement requirement is an opportunity for districts and campuses to showcase areas of excellence and success as well as recognize areas in need of improvement and set future goals valued in the community.

The statute requires each district to evaluate and designate a performance rating for the district and each of its campuses in the district based on criteria set by a local committee (TEC 39.0545). The law requires that each district and each campus be assigned a rating of exemplary, recognized, acceptable, or unacceptable. The district and campus performance ratings must be reported annually to TEA through PEIMS, and made publicly available by August 8 of each year beginning with the 2013–14 school year. Note: TEA will only require the district and campus ratings to be submitted in PEIMS, and no additional documentation is currently required to be submitted.

The statute provides nine factors for which the district and each campus must be evaluated:

1. Fine arts
2. Wellness and physical education
3. Community and parental involvement
4. 21st century workforce development program
5. Second language acquisition program
6. Digital learning environment
7. Dropout prevention strategies
8. Educational programs for Gifted and Talented (GT) students
9. Compliance with statutory reporting and policy requirements.

HISD used criteria set by a local committee to evaluate district and campus performance under each of the first eight categories (exemplary, recognized, acceptable, or unacceptable) and provide an answer (yes or no) for the compliance category. The committee included representatives from parent groups, teachers, student organizations, students, the superintendent, local business leaders, higher education representatives, school trustees, principals, counselors, accountability and curriculum personnel, and nurses, among others.

The committee determined the criteria used for the evaluation through several processes that included:

- Soliciting feedback from existing district improvement committees and site-based committees
- Student Health Advisory Committee (SHAC) input on physical education and wellness factor
- A survey of parents, students, principals, teachers, local businesses and chambers of commerce asking for their input on areas of excellence as well as areas in need of improvement
- Soliciting input from Parent Teacher Associations (PTA), Parent Teacher Organizations (PTO), and the District Advisory Committee (DAC)
- Gathering input from student council and student body presidents
- Soliciting input from local chamber of commerce members

A rubric was then developed by the local HB 5 Community and Student Engagement Committee to help schools effectively rate their program performance based on the criteria developed by the committee using the following rating definitions:

- Not Applicable rating-the program does not exist on the campus or is in the first year of development
- Unacceptable rating is to be selected if the school does not meet indicator criteria
- Acceptable rating is to be selected if the school meets but does not exceed criteria
- Recognized rating is to be selected if the school exceeds the indicator criteria.
- Exemplary rating is to be selected if the school significantly exceeds the indicator criteria OR exceeds the criteria and has earned other unique designations in the category area (such as Fine Arts state-level awards, unique program offerings, etc.).

The overall performance of the district is summarized in **Table 1**, campus performance is summarized in **Table 2**. The performance of each campus in the district is detailed in **Table 3**.
