

Mrs. Gallardo's Syllabus

**The Skills for Learning and Living Classroom for my current subjects taught;
Math, Science, Reading and Personal Health.**

Currently using the district's curriculum that is an online curriculum that can be accessed by the classroom teacher and students' laptops to complete work. The curricula measure the students' baseline scores and is geared to each student individually.

The measure for each unit is completed monthly with a pre and post assessment. The monthly assessments measure prior knowledge and the post measures any gains after instruction. Employ various measures to increase student knowledge.

The Benchmarks are completed in the beginning of the year to measure any loss and the end of the first semester to actualize any gains and the last benchmark is completed at end of the year to measure total gains.

Goals:

Students will discovery more about themselves

Build their character
