

Guiding Principles: Lee High School

Guiding Principles articulate a school's vision, values, hopes and ideals to the design team. Guiding Principles will be used to "test" the decisions that are made throughout the design process, since every element of the building must be created to support the school's vision and values.

Lee High School's Guiding Principles:

1. We believe it is important to support the whole student.
2. We believe that our students should be supported to become global leaders.
3. We believe it is important to showcase the wide variety of students' talents.
4. We believe it is important that Lee High School allows students to be creative with new and future activities.
5. We believe it is important that flexibility and adaptability are provided to prepare students to meet rapid change.
6. We believe that having people gather and appreciate learning and nature is important.
