

# Guiding Principles: Eastwood Academy High School

Guiding Principles articulate a school's vision, values, hopes and ideals to the design team. Guiding Principles will be used to "test" the decisions that are made throughout the design process, since every element of the building must be created to support the school's vision and values.

## **Eastwood Academy High School's Guiding Principles**

1. Eastwood Academy strives to meet the needs of our students by providing a family atmosphere in which all are welcome, safe, and valued. Students and staff collaborate to provide engaging learning experiences with a personalized approach to student success.
2. Eastwood Academy's Industrial Engineering and Cyber Assurance pathways provide students with cross-curricular project-based learning opportunities and real-world experiences. Our demanding technical education coupled with rigorous coursework prepares students for college, careers and life.
3. Eastwood Academy has identified 21<sup>st</sup> Century Skills that are embedded in the curriculum across subject areas. These essential skills are nurtured and fostered to enable students to be productive members of society and thrive in a complex, global economy.
