Notes/Minutes:

Math data is low- possible Math interventions next year in conjunction with Reading.

School carnival- Spriggs map out activities and create signs for the area. Discussed DADS food and how and where they will cook the meat.

Call ABC Dental to secure bounce house for Spring Carnival.

Parents – Ms. Ford wants to create a VIP Club for parents. Package will be appealing so that parents will attend meetings.

New Projectors – Do a needs assessment before end of school year to determine who will need a new projector.
