Jaquetta Watson	3 rd grade ESL teacher
Tiffany Bennett	1 st grade Math
Jeanette Cortez	1 st grade Reading
Britni Matthews	Pre-K
Christina Barragan	2 nd
M. Daugherty	AP

Dr. Miller started the meeting of all glows and grows for the 2018-2019 school year. Dr. Miller reminded SDMC members of roles and responsibilities. At the meeting everyone should be honest and be a voice for all staff members. SDMC members should be honest and respectful.

A few glows are the budget discussion during meetings, the confidentiality of the members, SDMC decisions that were made during the school year, a lot of changed made and not a lot of kickback, data has improved, and the SDMC group all together.

Dr. Miller discussed the book that was given to the SDMC members to read over the summer. Dr. Miller stated the book will drive the SDMC role. There will be more push next school year. The SDMC members will be the voice with the people.

There were a few options to add to next years calendar. Teachers would like to have scheduled interventions and Math Support for all grade levels.

A Google Doc was presented to the SDMC members for overall review. The Google Doc consisted of items for next school year that will be in the handbook. Over the last month all staff members divided into "Action Item" Groups to review the handbook. Changes were made and added to the google doc. SDMC members reviewed all items to approve or deny the changes. The google doc consisted of Culture and Instruction. There are a few changes overall. The final adjustments will be made during the summer break by all SDMC members.

Dr. Miller thanked all SDMC members for there role throughout the school year.
