How do we access the surveys?

Use the Internet address (a URL) provided below for the survey site and the assigned user ID and password. You will need a computer with Internet access with one of the following browsers; Internet Explorer, Safari or Chrome to take the surveys.

How long does the survey take?

On average, a survey takes about 15 minutes to complete. A Comments field is provided at the end of the survey, so a person who chooses to write extensive comments will, of course, need more than just 15 minutes.

Can we see who has taken the survey?

No. The surveys are anonymous. You can assure all survey-takers that their answers will not be tied to their names. In fact, the survey does not ask for names.
