Mr. Carnes opened the meeting with a brief discussion on where we are with our goals and planning. There has been one week of planning workshops. This was with all grade levels working with the grade level either above or below their grade level. This allows each grade level to observe TEKS of other grade level. LEP and Non-LEP working together. An intervention teacher works with grade levels. The feeling by staff and administration was that the meeting was very successful.

New business was on the assignment of tutors. A discussion on how the various tutors would work and where they would be working. A tentative schedule was established.

The discussion as to where ADVANCE would be housed. This is a weekly meeting and two rooms are needed. It was determined that the adults would use the library every Tuesday and that baby-sitting would be held in the counselor's room.

Meeting was adjourned.
