- Attendance matters for success in school and in life, and absences can easily add up to academic trouble.
- At HISD, missing more than 10 percent (or 17 days) of school a year can lead to a student not receiving a grade or being retained, but more importantly, it represents lost time in the classroom and a lost opportunity to learn.
- **A child is considered chronically absent if they miss two or more days a month.** That includes unexcused and excused absences.
- **Attendance matters as early as kindergarten.** Studies show that children who miss too many days in kindergarten and first grade have trouble mastering reading.
- **By grade 6, chronic absence is a proven warning sign** that a student is at risk of dropping out.
