

HISD PRESS RELEASE

HISD Board of Education to consider resolution to explore District of Innovation designation

May 14, 2020 – The Houston Independent School District Board of Education will consider approving a resolution to initiate the process of designating HISD as a District of Innovation at its virtual meeting today, Thursday, May 14.

The board's virtual regular monthly meeting begins at 5 p.m. and can be viewed live online at www.hisd.tv and on HISD TV (Xfinity channel 18 or AT&T U-verse Channel 99). Click [here](#) to view the full agenda.

By adopting District of Innovation status, HISD could exercise greater local control over decisions impacting positive educational outcomes for students. The resolution presented to the Board of Education outlines specific exemptions from state law that the district would seek, including:

- Starting the school year earlier than the fourth Monday in August
- Hiring qualified industry professionals to teach Career and Technical Education (CTE) courses in areas where the district struggles to fill vacancies
- Exercising flexibility with the minimum attendance for class credit requirement (90% attendance rule)

HISD would join 893 other districts across Texas with a District of Innovation status. The designation would take effect in time for the 2021-2022 school year.

Trustees are also scheduled to vote on negotiating and executing renewal agreements with charter schools that are entering the final year of a three-year contract. The district seeks to improve student achievement, spur educational innovation and provide a framework for increasing the academic and financial oversight of the charter campuses.

During the virtual meeting, trustees will also consider a turnaround plan for Sugar Grove Academy, which is in its second consecutive year as an F-rated campus. The district is required to submit to the Texas Education Agency a plan detailing how it will improve student achievement at the southwest Houston school.

Additionally, board members are set to consider a contract to sanitize and disinfect technology equipment, primarily laptops that currently are being used at home by students and employees

before the devices are reassigned to others. The projected cost of the contract is expected to be about \$400,000 annually for four years.

Also, trustees are scheduled to approve cash gifts of \$500 donated through a partnership between ProUnitas and Give Together Now to support 174 HISD families affected by the COVID-19 pandemic who were identified through Wraparound Services.
