Safety	<i>R. Ruiz</i>	
Parking Lot		
Cell Phones		

SDMC Meeting

January 29, 2020

3:45PM-4:43PM

Safety:

Shelter in place was confusing. The message about what class students were to report to was 4th period at first, and then changed to 3rd period. Messaging on the PA needs to be clearer and more consistent. Mr. Rodriguez asked if we can have a more specific message such as "Mr. Houston" is in the building for Active Shooter Drill, and a different signal for Shelter In Place?

Questions:

- Mr. Rodriguez asked if the PA announcements that asks students to exit the building can be less abrasive announcement?
- Mr. Mayne asked if there has been a consideration for metal detectors to be utilized at school?

Parking Lot:

Vehicle theft in the parking lot was discussed. Mr. Rodriguez asked if there can be a better camera system installed to provide coverage to the parking lots? Mr. Hill suggested that signs be posted on the fences notifying visitors that the parking lot and campus is under video surveillance.

Cell Phones:

Mr. Hill expressed concerns from teachers that there is not consistent enforcement of the cell phone policy in every classroom. He reiterated that there are certain teachers that are consistent about enforcing the cell phone policy.

Mr. Rodriguez says that student resistance to putting up the cell phones is on the rise. It was also expressed the concern for cell phones being stolen from the wall pockets. Mr. Mayne suggested that teachers have a bin that they can put the cell phones in, that are a bit more secure.

Other Topics:

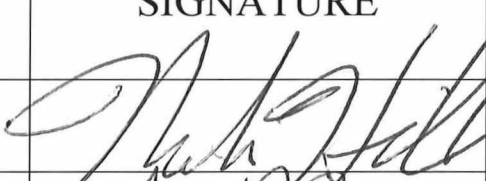

There are not enough teachers checking for ID's on a consistent basis in the classrooms.

Can the backpacks be placed in a more organized manner in the main office, because the sign out in the afternoon is sometimes difficult to access with so many backpacks on the floor.

Members Present: Nicholas Hill, Floyd Mayne, Andre Rodriguez, Tracy Cooper.
