

A Message from Mr. Day – July 1, 2020

Greetings Travis Families,

I hope this finds you well as we all cope with the recent COVID-19 spread in our community.

As we anxiously await finalized plans from HISD for the 2020-2021 school year, I wanted you to know that Travis Elementary is working hard behind the scenes this summer preparing for every learning and safety contingency. Our administrative team and many of our teachers have taken part in summer professional learning, and this week, I met with our faculty and with Travis PTA and Travis Foundation leaders for input and planning for the coming year.

Rest assured, our dedicated teachers will be given the training and tools they need to support our students in this new world of education. And you can be certain that the exceptional student learning, engagement, and community connection that make Travis so unique will carry on in creative ways this fall. Stay tuned.

I wish you well as we continue to navigate these uncertain times. We will get through this together.

Sincerely,

Tom Day
Principal
