Student Tutorial: The Project Wizard & PBL

While students are working remotely, there has never been a better time to engage them with a student-driven passion project. The Renzulli Learning Beta Project Wizard is designed to support project based learning with a simple, scaffolded, step by step process.

The Project Wizard will enable students of all ages to easily organize a project, from younger researchers just starting out to high school students completing Capstone Projects. You have options to prepare and assign projects within your curriculum or let students take the wheel!

This tutorial video will help YOU to help THEM. Check it out and launch your students into passion-based Type III Independent Investigations today! Teachers can use the Contact Us feature under the Help Menu to submit feedback on the Beta Project Wizard.
