

## Carnegie Vanguard HS Chemistry Summer Assignment 2021

### Assignment

---

Due: Aug 23<sup>rd</sup>

- Read, take notes, highlight, and complete the questions in this assignment posted here:  
<https://drive.google.com/open?id=1NQ9aEgQlQfAnSnPAMdWFMx5hBoZzZZq8>  
The assignment is due the first day of school and you will have a quiz over the content on the first Friday back.  
You can print it or do it on separate sheet of paper or do it in OneNote. I recommend printing it out and taking notes/highlight directly on it and answering the questions within the document itself. 😊

### Supplies

---

- Box of tissues.
- Box of disposable gloves.
- It is highly encouraged and will help you be more successful to have a scientific calculator. You don't need the expensive kind. The cheap \$6 ones work just fine.

Need help completing the assignment?

- If you would like to purchase a physical copy of your textbook, the link is here:
  - [Textbook](#)
- If you want to look ahead or practice some chemistry try this amazing resource:  
<https://flexbooks.ck12.org/cbook/ck-12-chemistry-flexbook-2.0/>
- If you like watching video lecture here is a link to a video lecture for every section of your textbook.
