Title I

1. Comprehensive Needs Assessment (CNA)

1.1: Comprehensive Needs Assessment

All schools develop comprehensive needs assessments as part of the planning and decision-making process. Title I schools have additional responsibilities to ensure that the plans and decisions regarding the use of federal dollars align with program requirements and the needs of students. The comprehensive needs assessment (CNA) at this campus was developed by teachers, staff, leadership team, and community stakeholders. Although Edison Middle School has met state standard for the 2022-2023 school year, much growth can still be made. Student achievement will increase with the campus initiatives and strategies outlined with SMART goals. Through rich professional learning experiences, capacity among teachers will be built to directly impact student achievement.

2. Campus Improvement Plan

2.1: Campus Improvement Plan developed with appropriate stakeholders

The Campus Improvement Plan is developed with the involvement of parents, members of the community and individuals who will carry out the plan, including teachers, principals, school leaders, paraprofessionals, and other stakeholders. 2.4: Opportunities for all children to meet State standards

Opportunities for all students to meet the TEKS include these schoolwide reform strategies: Schoolwide implementation of the Gradual Release of Responsibility instructional framework to ensure students receive intentionally planned lessons with time for small group instruction; common assessments created using backwards planning and scheduled into calendar in advance with days built in for reteaching/extension; use of HISD curriculum to ensure teachers and students have access to a rigorous curriculum and assessment questions; intervention block built into the master schedule; credit recovery and tutorial sessions; Multi Classroom Leaders and content-specific tutors.

2.5: Increased learning time and well-rounded education

Ways that we increase learning time and a well-rounded education for our students include: schoolwide implementation of Teach strategies and Lopescaping for SEL; Interventionist servicing students for small group instruction, independent practice, and collaborative learning; intervention block built into the master schedule based on individual student needs (e.g. STAAR, TELPAS); cross-curricular project-based learning offered at all grade levels.

2.6: Address needs of all students, particularly at-risk

An important campus focus is on schoolwide reform strategies that provide opportunities for all students, particularly those students who are at risk of not meeting the challenging State academic standards at advanced and proficient levels of student achievement. The strategies provided are based on evidence-based research to increase achievement for each student group on state tests and other assessments. Examples include the following:

- Building teacher capacity in their content areas and instructional areas: providing ongoing professional learning
- 1 explicit instruction taking place in all content areas: schoolwide implementation of the lesson cycle framework to ensure students receive intentionally planned lessons with time for small group instruction, independent practice, and collaborative learning; coaching sessions with the instructional coach; observation & feedback from appraiser
- Bi-weekly AT BATS: weekly PLCs with teachers and instructional leadership team
- Small Group Instruction based on student data needs: check for understanding questions conducted throughout direct instruction to adjust which students have immediate need of small group instruction; ongoing common assessments with data analysis to determine students not meeting standards/at risk of not meeting and develop interventions, including small group instruction
