Kids trickled in so we were more prepared for them (not all at once) – gave the teachers a chance to get to know a few kids at a time, and so ended up getting to know almost all their f2f students. Sending some students who were non-compliant were given virtual option.

Better – if

Overall communication (announcements for virtual kids, parent contact updated, more heads up to teachers for the week-maybe a weekly email or flier)

A uniform in class policy for cell phones especially because students will now be one to one – for consistency sake

Potentially eliminating ISS?? Replace Thinkery, reflective and skill building practice.
