

Ketelsen Elementary
SDMC Meeting
September 27, 2022
Minutes

- This SDMC meeting was specifically for members to review the 2021-2022 SIP. The principal reviewed each section of the SIP, including campus goals. Feedback was given on math and reading goals and the principal made adjustments as needed. The SDMC was also asked to review the document for proofreading and editing.
- The principal informed the SDMC that once updates were made to the document, it would be shared with the faculty and staff digitally. A survey has been created so that faculty can vote yes or no to approve the 2021-2022 SIP once they had a chance to review.
- The principal shared that the SIP would be translated into Spanish using an outside vendor once it was approved by the district office.
