

Waltrip High School
SDMC Meeting
May 12th, 2022

Minutes

Principal Niggli called the meeting to order at 4:30 pm in the library. It was shared that we are expecting some new curriculum vendors to offer more student support in 2022-23. More will be known after some professional development in June. Mr. Niggli spoke about attendance and how the bell schedule can affect attendance based on where the ADA period is placed. The advantages of where to place the intervention advocacy period were discussed. It could be placed after lunch. The disadvantage there is that some seniors with an off-campus period at the end of the day. Having advocacy in the morning pushes back ADA to the period after advocacy which can mean better attendance recording. Regarding Capital Outlay, the cost of installing water refill stations was brought up. This can be looked into, but Niggli noted that shelves need to be purchased for the new library books that will be arriving. Additionally, there are seats built into the cafeteria tables which need to be replaced. SDMC member Vail agreed that this would be a better way to spend Capital Outlay and then see what is left over. Niggli noted that the budget will be a PUA model next year. Meeting adjourned at 5:15 pm.
