SDMC Committee Meeting

Conference Room 3:30 PM.

May 24, 2023

- Introductions
- SIP / Needs Assessments
- Celebrations
- Miscellaneous
- Feedback – Questions - Ideas

Ms. Cantu welcomes everybody. Ms. Cantu begins by thanking the committee for working diligently and effectively this year. We began with a task of finding ways to support students. She then begins to go over the SIP and if we have met our goals. As a committee we discuss each goal. Mrs. Cantu asks the committee if the money is well spent on the interventionists that supported this year and should we continue. The committee unanimously agreed in keeping the interventionists and also appreciated that we have some for mathematics. The committee also agreed on the planning days to continue in August and the rest of the year. The items will be added to next year's calendar.

The committee continues to look at each aspect of the SIP and the budgetary implications. There were major purchases for this month due to spending the ESSER funding and it was put towards supplies, tutorials and Saturday tutorials.

Members were thanked for their service and reminded who was staying another year and those that were not that we will have a vote for next year.

At 3:45 motion by Mrs. Jaramillo and second by Mrs. Perez to adjourn the meeting. The committee votes unanimously and meeting ends.

Attendees

Ms. Ana Cantu -Principal
