Agenda Topics:
- Article: “A Vision That Changed a School”
- Teacher Survey

OTHER BUSINESS DISCUSSION:

1. Participants read the article “A Vision That Changed a School” and discussed the procedures and strategies that are working well within the school climate and how can we improve it to make it better for our students, families, and staff. Ideas discussed were having more differentiation and grouping for GT students (possible pull-out groups), more vertical planning for all grade levels, aligning of strategies throughout grade levels, parent/teacher conference day(s), pairing upper grade with lower grade for buddy readers, and more cohesive planning.

2. Teacher Survey – No changes were recommended, and the survey will be sent out to teachers.
