November 14, 2013

Members of the Board of Education and
Citizens of the Houston Independent School District:

The Comprehensive Annual Financial Report of the Houston Independent School District (the "District" or "HISD") for the fiscal year ended June 30, 2013, is submitted herewith. The Comprehensive Annual Financial Report is management's report of financial operations to the Board of Education (the "Board"), taxpayers, grantor agencies, employees, the Texas Education Agency, and other interested parties. The government-wide financial statements in this report provide an overview of the District's governmental and business-type activities, as well as its non-fiduciary blended component units. The detailed fund financial statements describe specific activities of each fund group used in accounting for the District's financial transactions. This report was prepared by the District's Office of Finance in accordance with generally accepted accounting principles and reporting standards as promulgated by the Governmental Accounting Standards Board ("GASB").

Responsibility for the accuracy and completeness of the financial statements and fairness of the presentation, including all disclosures, rests with the District. We believe that the data, as presented, is accurate in all material respects; that information is presented in a manner designed to set forth fairly the financial position and results of operations of the District as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain the maximum understanding of the District's financial activities have been included.

Generally accepted accounting principles ("GAAP") require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis ("MD&A"). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

DISTRICT PROFILE

The District was created and incorporated by an act of the Thirty-Eighth Legislature of the State of Texas in 1923. As an independent school district, a nine-member board of trustees elected from single-member districts constitutes the governing body. Based on legislative authority codified in the Texas Education Code, the trustees (1) have exclusive power and duty to govern and oversee the District; (2) can acquire and hold real and personal property, sue and be sued, and hold all rights and titles to school property; (3) shall have power to levy and collect taxes and to issue bonds; (4) can contract for appointed officers, teachers, and other personnel as well as for goods and services; and (5) have the right of eminent domain to acquire real property.

The District, with over 200,000 students and encompassing 301 square miles within greater Houston, is the seventh-largest public school system in the nation and the largest in Texas. HISD is an ethnically diverse district. Recent statistics indicate a student population that is approximately 62.7 percent Hispanic, 24.6 percent African-American, 0.2 percent Native American, 3.5 percent Asian/Pacific Islander, 8.2 percent Caucasian and .8 percent of two or more races. Enrollment is projected to increase to

211,000 students or 3% percent during the next year. This increase is primarily due to the state ordered annexation of the North Forest Independent School District which was effective July 1, 2013.

The District has 276 instructional campuses, including 160 elementary schools, 40 middle schools, 43 high schools and 33 special campuses/alternative learning centers. A list of school buildings with year of construction can be found in the Statistical Data Section.

As required by GAAP, the financial statements of the reporting entity include those of the District (the primary government) and its component units in conformity with GASB Statement No. 14, *The Financial Reporting Entity*.

In accordance with GASB Statement No. 14, a financial reporting entity consists of the primary government and its component units. Component units are legally separate organizations for which the elected officials of the District are financially accountable, or for which the relationship to the District is such that exclusion would cause the District's financial statements to be misleading or incomplete. The District's blended component unit, although a legally separate entity, is in substance part of the District's operations, and data from this entity is combined with data of the primary government.

The criteria used to determine whether an organization is a component unit of the District includes financial accountability of the District for the component unit, appointment of a voting majority, ability to impose the District's will on the component unit, and whether there is a financial benefit or burden to the District.

For financial reporting purposes, the Houston Independent School District Public Facility Corporation ("Public Facility Corporation") is included in the operations and activities of the District because of the fiscal dependency criteria outlined in GASB Statement No. 14.

Organizational Philosophy

The core ideology of the Houston Independent School District outlines the direction of the District and the expectation held for all employees. Our purpose defines what we are, our core values define who we are, and our strategic intent and goals define how we intend to achieve our purpose. Simply, they are the foundation for the District's continued success.

Purpose

The Houston Independent School District exists to strengthen the social and economic foundation of Houston by assuring its youth the highest quality elementary and secondary education available anywhere.

Strategic Intent

To earn so much respect from the citizens of Houston that HISD becomes their K–12 educational system of choice.

Core Values

- **Safety Above All Else**

Safety takes precedence over all else. A safe environment must be provided for every student and employee.

- **Student Learning Is the Main Thing**

All decisions and actions, at any level, focus on and support “the main thing”: effective student learning.

- **Focus on Results and Excellence**

Each employee focuses on results and excellence in individual and organizational efforts.

- **Parents Are Partners**

Parents are valued partners in the educational process, serving as the child’s teacher in the home. All school and district activities will give proper consideration to the involvement of parents.

- **Common Decency**

All members of the organization, both students and employees, deserve and must receive respectful and courteous treatment.

- **Human Capital**

Through recruitment, retention, dismissal and professional development programs, the district will work to make sure students are served by the top talent available, from teachers to superintendents.

ECONOMIC CONDITION AND OUTLOOK

Houston is a dynamic, world-class city. It is the fourth largest and most diverse city in the United States. Houston is a leader in numerous industries including manufacturing, healthcare services, engineering, and oil and gas. In addition to great businesses, you’ll find professional sports, first-class museums and theatre, and an exquisite restaurant scene. Houston is known for many things: Oil, NASA, urban sprawl and business-friendly policies. Forbes’ July 2012 issue named the Bayou City *the Most Coolest City in America* and ranked Houston No. 2 on the list of best big cities with jobs as the city hummed through the recession and enjoyed 2.6% job growth while nearly 50,000 Americans flocked to the city in response. The Houston region is one of the most important

industrial bases in the world and was recently ranked No. 1 among the top U.S. manufacturing cities (Manufacturers’ News Inc., January 2013). Additionally, in January 2013, The New York Times ranked Houston seventh in the world and first in the United States on its list of *Places to Go in 2013*. In July 2013, Houston ranks No.1 on Kiplinger’s top 10 best cities to live due to quality of living for singles, professionals, families, empty-nesters and retirees. “Creative class workers - scientists, engineers, educators, writers and artists — just gives a city a certain sizzle that adds that extra something that you wouldn’t get [elsewhere],” Kiplinger’s Jane Bennett Clark said.

Employment in the Houston-Sugar Land-Baytown Metropolitan Statistical Area stood at 2,800,600 in June 2013, up 97,700 from one year earlier per the U.S. Bureau of Labor Statistics reporting. The same report noted that among the 12 largest metropolitan areas in the country, Houston ranked first in the rate of job growth and third in the number of jobs added.

Houston is no longer a one-industry city. Though energy is the dominant force in the area and oil directed drilling has returned to normal levels, international trade, transportation, education and health care play critical roles in the city's economy.

International Trade

Global Trade magazine ranked Houston as the top city for global trade in the United States. The U.S. Department of Commerce International Trade Administration ranked the Houston metropolitan area as the top export market in the nation with \$110.3 billion in exports. Houston has 94 consulates, the third most of all cities in the nation. Houston is one of only eight cities with a regional office of the U.S. Export-Import Bank. It has 22 foreign banks from 12 nations and 20 active international chambers of commerce and trade associations. The Port of Houston, a 25 mile complex of private and public facilities is consistently ranked first in US imports and handles 65% of all major break bulk post cargo in the United States.

Transportation

The Houston Airport System (HAS) is comprised of three airports: Bush Intercontinental Airport, Hobby Airport and Ellington Airport. HAS supports over 230,000 regional jobs and contributes over \$27 billion to the local economy. In 2012, HAS served over 50 million passengers of which 80% were served by Bush Intercontinental Airport and 20% by Hobby Airport. The Metropolitan Transit Authority of Harris County (METRO) operates a bus and light rail system. For the period, July 2012 to June 2013, METRO had a weekday average ridership of 270,734.

Education and Health Services

According to the Bureau of Labor Statistics, Houston's education and health services sector added 13,500 jobs between June 2012 and June 2013. This is an increase of 4.1% and higher than the national increase average of 1.8%. Houston's education and health service sectors have shown positive employment gains every month since February 1991.

The Texas Medical Center (TMC) represents one of Houston's major economic drivers and core industries with an estimated regional annual economic impact of \$14 billion. The TMC is also one of Houston's largest employers with 92,500 employees.

The internationally renowned, 1,300-acre TMC is the world's largest medical center complex with 52 member institutions, including leading medical, academic and research institutions. Member institutions include 13 hospitals and two specialized patient facilities, 19 renowned academic and research institutions, and 15 support services organizations. TMC's The University of Texas M.D. Anderson Cancer Center continues to be ranked #1 in U.S. News and World Reports' "America's Best Hospitals" for cancer care.

Summary

Houston's strategic location and core strengths, including an expanding energy sector, strong exports and imports, cutting-edge medical advancements, and technology breakthroughs across industries, uniquely position the city to play a vital role in meeting national and global market demands. At a time of unprecedented geopolitical demographic shifts affecting markets worldwide, Houston stands as a leader among U. S. cities of the 21st century.

Accounting Systems and Budgetary Control

The diverse nature of the District's operations and the necessity of legal compliance preclude recording the financial transactions of the District in a single fund. The District's accounting system is organized and operated on a "fund basis." Each fund is a distinct, self-balancing accounting entity. The various funds are fully described in Note 1 of the "Notes to the Basic Financial Statements."

In developing, evaluating, and improving the District's accounting system, consideration is given to the adequacy of the internal control structure. Internal controls are designed to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition and those transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with GAAP. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived, and the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above-mentioned framework. We believe the District's internal control structure adequately safeguards assets and provides reasonable assurance of the proper recording of financial transactions.

As a recipient of federal, state, and local grants, the District is also responsible for an adequate internal control structure that ensures compliance with applicable laws and regulations related to these grants. All funded grants are subject to testing as part of the District's Single Audit as mandated by the Office of Management and Budget ("OMB") Circular A-133. The internal control structure is subject to periodic reviews by management.

As a part of the District's Single Audit, tests are conducted to determine the adequacy of the internal control structure as related to federal award programs as well as compliance with applicable laws and regulations. The major results of the District's Single Audit for the fiscal year ended June 30, 2013, reported no instances of material weaknesses in the internal control structure over federal awards.

The District's financial system allows work-location supervisors access to a variety of business and financial reports on a real-time basis. All reports show summaries and details for transactions.

The District utilizes a line-item budget of proposed expenditures and the means of financing them. The emphasis of the budget process is to identify the activities requiring resources and to rank those activities according to the needs of the entire District. Budgetary control is maintained at the function level by organizational unit through the encumbrance of estimated purchase amounts and other expenditures prior to the execution of contracts, approval of personnel transactions, or release of purchase orders to vendors. Those obligations which would result in an overrun of appropriated funds are not released until additional appropriations are made available.

Capital Projects Funding

The Capital Renovation Fund was created to account for the District's capital projects programs, including Rebuild 2002, Rebuild HISD, 2007 Facilities Capital Program, and the new **2012 Bond Program**.

In November 2012, Houston voters by a margin of nearly 2 to 1 approved a \$1.89 billion bond referendum to replace and repair 40 schools across the district, including 29 high schools. In addition, the bond program includes work that will benefit students across the district such as technology upgrades, replacement of regional field houses, athletic facilities improvements, middle school restroom renovations, and safety and security improvements. The majority of the funding for the 2007 Facilities Capital Program is provided from the \$805 million bond referendum approved in November 2007. As of June 2013, more than 86 percent of the approved work in the 2007 bond program was committed. Among the milestones are 20 new schools and more than 180 construction and renovation projects across the District. The Public Facility Corporation ("PFC") was established to issue bonds to provide for the acquisition of and placement in service of two shared educational facilities in accordance with the Public Facility Corporation Act. In May 2010, the PFC issued bonds to fund construction of four new schools in the 2007 Facilities Capital Program. For the fiscal year ended June 30, 2013, facilities acquisition and construction expenditures for the Capital Renovation Fund and the PFC amounted to \$211,445,988. The primary capital funding was provided through bond issues.

Long-term Financial Planning

The District is subject to a target revenue formula for school district funding. Under the target revenue methodology, the District's maintenance and operations revenue from property taxes and state aid is capped. As collections from property taxes increase, state aid is reduced by the same amount. The District is challenged with providing salary increases and other inflationary fixed costs within a capped budget. Therefore, the District is constantly adjusting future projections as costs in the market shift and as changes are proposed or adopted by the Texas Legislature.

Major Initiatives

In January 2010, the Houston Independent School District Board of Education and administration worked collaboratively to develop a community plan for transforming the District. The outcome of the six month process was an alignment of five core initiatives to the Board's ***Declaration of Beliefs and Vision*** to meet the needs of the HISD's students, parents, and the broader community. The Board identified the following five core initiatives that have enabled the transformation of HISD.

Effective Teacher in Every Classroom

To be the best school system in the country, HISD works to ensure that every student learns from effective teachers. This means bringing the most talented teachers to HISD, giving the teachers the support they need to be successful, and retaining teachers who excel in the classroom. The District is building a new HISD that helps teachers reach their full potential and meet their professional goals with useful appraisals, individualized support, new career pathways, and smart, focused recruitment and selection. The new HISD focuses on what matters most: ensuring that every student is learning and growing.

Effective Principal in Every School

To ensure principals are empowered instructional leaders with clear expectations, the District focuses on key strategies to 1) design and implement a rigorous, fair principal appraisal system; 2) create clear standards and recommended practices to guide decision making; 3) institute stronger principal recruiting practices; 4) implement a more robust instructional leadership development program; and 5) develop standards and support for safe, secure, and healthy school environments.

Rigorous Instructional Standards and Supports

While the District maintains our decentralized model and continues to be a district of choice, HISD has established a common rigorous instructional foundation across all schools with established, specific approaches for addressing under performance so that every student has the support required to achieve and meet the requirements for college and career success.

Data-Driven Accountability

The strategic use of data to track and monitor performance and hold leadership accountable is critical to the District's success. The District is investing in new and more robust technology infrastructure, systems, and processes to address and enable HISD to use key data to inform its decisions and manage high levels of performance districtwide.

Culture of Trust Through Action

A powerful sense of community and a shared direction among all stakeholders is crucial to the successful transformation of HISD. Therefore, throughout the process of developing a plan of transformation, the District moved toward a communications approach that is more interactive and transparent and better takes advantage of new technology. In order for HISD to create a culture of trust through action, the District fosters effective, timely, two-way internal and external communication to engage staff members, parents and community members. The District uses meaningful engagement and increased communication with parents and key stakeholders from the business, philanthropic, religious, and greater community through use of public surveys, public meetings, town hall forums, televised call-in programs, and online feedback.

Transforming HISD is a multi-year effort, and will require patience and collective vigilance to stay focused on the issues that have the greatest potential to improve the academic performance of our students.

Independent Audit

The Texas Education Code Section 44.008 requires an annual audit of the accounts, financial records, and transactions of the District by independent certified public accountants selected by the Board. The District is in compliance and the independent auditors' report has been included in this report.

AWARDS AND ACKNOWLEDGMENTS

Perhaps no responsibility is as great as that of educating our youth, and all of our efforts lead back to the classroom. Given that the District's academic advancements are dependent upon its fiscal successes, it is imperative that HISD continue to improve upon its reporting proficiencies. The following text cites awards received by the District for financial reporting excellence and the related acknowledgments in this regard.

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada ("GFOA") awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2012. This was the 39th consecutive year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a District must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

ASBO Certificate of Excellence

The District received the Association of School Business Officials' ("ASBO") Certificate of Excellence in Financial Reporting for the fiscal year ended June 30, 2012. The District has received this award for more than 25 consecutive years. This award certifies that the Comprehensive Annual Financial Report substantially conforms to the principles and standards of financial reporting as recommended and adopted by the ASBO.

Acknowledgments

The preparation of this report on a timely basis could not be accomplished without the dedicated services of the entire staff of the District's Office of Finance. Also, we would like to express our appreciation to other departments, schools, and individuals who assisted in its preparation.

Moreover, we wish to thank and express appreciation to the administrators and other employees of the District for their interest and support in planning and conducting the financial affairs of the District in a responsible and progressive manner.

Respectfully submitted,

Independent Auditor's Report

The Board of Education
Houston Independent School District:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Houston Independent School District (the "District"), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2013, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of Revenues, Expenditures, and Changes in Fund Net Position – Budget and Actual- General Fund, Special Revenue Fund on pages 5-16 and 65-68 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Introductory and Statistical Sections and the Other Supplementary Information and Individual and Combining Fund Statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Other Supplementary Information and Individual and Combining Fund Statements are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Other Supplementary Information and Individual and Combining Fund Statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Introductory and Statistical Section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 14, 2013 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

Our discussion and analysis of Houston Independent School District's (the "District") financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2013. It should be read in conjunction with the transmittal letter at the front of this report and the basic financial statements which follow this section.

The Management's Discussion and Analysis provides information on both government-wide financial statements and fund financial statements.

FINANCIAL HIGHLIGHTS

On the government-wide financial statements, the assets of the District exceeded liabilities by \$1.798 billion. Of this amount, \$707.8 million is unrestricted. Total net position of the District increased from \$1.682 billion in fiscal year 2012 to \$1.798 billion in fiscal year 2013, an increase of approximately \$116 million. Total revenues decreased \$89.6 million from \$2.143 billion in fiscal year 2012 to \$2.053 billion in fiscal year 2013.

The District's governmental funds financial statements reported a combined ending fund balance in fiscal year 2013 of \$1.374 billion. Of this amount, \$11 million is nonspendable in the General Fund, \$233 million is set aside for other purposes in the General Fund, and \$276.8 million is unassigned in the General Fund and is available for spending at the District's discretion. The combined ending fund balance of the District's governmental funds increased \$117.6 million from \$1.257 billion in fiscal year 2012. This is due to increases in other financing sources, primarily issuance of bonds.

The District prepared a budget for the 2012-2013 fiscal year that had \$39.8 million in increases and 35.5 million in decreases for a net increase to appropriations of \$4.3 million. The primary increases included \$18.5 million in Per Unit Allocation (PUA), \$6 million for electricity, \$3.3 million for property insurance, \$3.1 million for workers' compensation, and \$1 million for district technology software and hardware service and maintenance. Some of the major decreases included \$9.1 million to transfers to the debt service fund for contractual obligations, \$6 million in health insurance, \$5 million for Accelerating Student Progress Increasing Results and Expectations (ASPIRE), \$4.2 million for decline in special populations, \$1.7 million in unique PUA, \$1.6 million department budgets, \$1.3 million in decline of special education enrollment, and \$1.1 million in unemployment.

During the course of 2012-2013 other amendments were made to the District's operating budget such as the carryovers from 2011-2012 which included: encumbrances of \$52.2 million, capital outlay funding of \$38.7 million, unspent school funds of \$10.2 million and a prior year Tax Increment Reinvestment Zone (TIRZ) payment of \$6.9 million. Other budget amendments included items such as the purchase of laptop carts for \$5.7 million, technology initiatives of \$4.8 million, formative assessment of \$3.3 million and an early notice incentive of \$2.5 million. All increases or decreases to the District's budget are presented to the Board of Education for consideration and approval throughout the year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

All of the District's services are reported in the government-wide financial statements, including instruction, student support services, student transportation, general administration, school leadership, facilities acquisition and construction, and food services. Property taxes, state and federal aid, and investment earnings finance most of the activities. Additionally, all capital and debt financing activities are reported here.

The government-wide financial statements are designed to provide readers a broad overview of the District's finances in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the District's financial position is improving or deteriorating.

The *statement of activities* details how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities) from business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges.

The government-wide financial statements include not only the District itself, but also a legally separate entity for which the District is financially accountable. Financial information for this component unit is reported separately in the fund financial statements as a nonmajor governmental fund.

Fund Financial Statements

The District uses fund accounting to keep track of specific sources of funding and spending for particular purposes. The fund financial statements provide more detailed information about the District's most significant *funds*—not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.
- The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Most of the District's activities are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out, and (2) the balances left at year end that are available. However, unlike the government-wide financial statements, governmental fund financial statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information on the subsequent page that explains the relationship (or differences) between them.

The District maintains five governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, the Special Revenue Fund, the Debt Service Fund and the Capital Renovation Fund, all of which are considered to be major funds. Data from the Capital Renovation Fund - Public Facility Corporation is presented as a nonmajor governmental fund on the same statements.

Proprietary funds are used to account for operations that are financed similar to those found in the private sector. These funds provide both long- and short-term financial information. The District maintains two types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The District uses enterprise funds to account for its food service, business development, and medicaid programs. The Food Service Fund is considered a major proprietary fund. The district uses internal service funds to report activities that provide services for the District's other programs and activities, i.e., health insurance, workers' compensation, print shop, and internal services. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities within the government-wide financial statements.

Fiduciary funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations and/or other funds. No fiduciary funds are used as clearing accounts to distribute financial resources to other funds. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

Notes to the Basic Financial Statements

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information that further explains and supports the information in the financial statements. Immediately following the required supplementary information, combining statements are included for the nonmajor enterprise funds, the internal service funds, and the agency funds.

The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements. Figure A-1 summarizes the major features of the District's financial statements, including the portion of the District's government they cover and the types of information they contain.

Figure A-1. Major Features of the District's Government-wide and Fund Financial Statements

Type of Statements	Fund Statements			
	Government-wide	Governmental Funds	Proprietary Funds	Fiduciary Funds

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of the District's financial position. The District's total net position was approximately \$1.798 billion at June 30, 2013. The District's governmental activities net position increased by \$122.6 million. The District's business-type activities net position decreased by \$7 million.

	<i>Governmental Activities</i>		<i>Business-type Activities</i>		<i>Total</i>		
	2013	2012	2013	2012	2013	2012	Difference
Current and other assets	\$ 1,866,465	1,752,482	\$ 62,158	\$ 65,503	\$ 1,928,623	\$ 1,817,985	\$ 110,638
Capital assets	2,982,104	2,806,110	913	387	2,983,017	2,806,497	176,520
Total assets	4,848,569	4,558,592	63,071	65,890	4,911,640	4,624,482	287,158
Current liabilities	539,049	514,752	5,120	868	544,169	515,620	28,549
Long term liabilities	2,569,549	2,426,468	227	265	2,569,776	2,426,733	143,043
Total liabilities	3,108,598	2,941,220	5,347	1,133	3,113,945	2,942,353	171,592
Net position:							
Net investment in capital assets							
assets	1,017,817	849,052	833	387	1,018,650	849,439	169,211
Restricted	56,599	84,479	14,606	8,423	71,205	92,902	(21,697)
Unrestricted	665,555	683,841	42,285	55,947	707,840	739,788	(31,948)
Total net position	\$ 1,739,971	\$ 1,617,372	\$ 57,724	\$ 64,757	\$ 1,797,695	\$ 1,682,129	\$ 115,566

Net investment in capital assets (e.g. land, buildings, furniture, and equipment) less any related debt used to acquire those assets that is still outstanding is \$1.019 billion. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the District's net position of \$71.2 million represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position of \$707.8 million may be used to meet the District's ongoing obligations.

Changes in net position. The District's total revenues were \$2.053 billion. A significant portion, approximately 62 percent, of the District's revenue is from property taxes. Operating grants and contributions provided revenue of 22 percent, 12 percent comes from state aid - formula grants, while only 1 percent relates to charges for services. (See Figure A-2) The total cost of all programs and services was \$1.938 billion.

Figure A-2 District Sources of Revenue

Governmental Activities

The net position of the District's governmental activities increased by \$122.6 million due to increases in property taxes, miscellaneous sources, and reduction in total expenses. The total cost of all governmental activities for the fiscal year ended June 30, 2013 was \$1.818 billion. Funding for these governmental activities is by specific program revenue or through general revenues such as property taxes and investment earnings. The following is a summary of the governmental activities:

- The cost of all *governmental activities* this year was \$1.818 billion.
- Some of the *governmental activities* cost was funded by program revenues directly attributable to specific activities. These program revenues amounted to \$331.4 million.
- The remaining cost of *governmental activities* not directly funded by program revenues was \$1.486 billion of which \$1.267 billion was funded by property taxes and \$249.6 million was funded by state aid - not restricted to specific programs.

Business-type Activities

The net position of the District's business-type activities decreased by \$7 million due to a decrease in food service and medicaid program revenues offset by an increase in expenses for the business-type activities. Funding for these business-type activities is by specific program revenue or through general revenues such as investment earnings and miscellaneous sources. The following is a summary of the business-type activities:

- The cost of all *business-type activities* this year was \$119.8 million.
- The majority of the *business-type activities* cost was funded by program revenues directly attributable to specific activities. These program revenues amounted to \$151.7 million.

Changes in Net Position

The total net position of the District increased by \$116 million due to the following activities:

- Operating grants and contributions decreased by \$74.1 million mainly due to a decrease in Instructional Material Allotment (IMA) and the expiration of the American Recovery Reinvestment Act (ARRA) grants.
- Property tax revenues increased \$127.2 million due to an increase in the total tax levy.
- State aid not restricted to federal programs decreased by \$111.4 million due to an increase in property tax collections which has an offset to state aid as well as state-wide funding cuts.
- Miscellaneous sources decreased \$27.1 million due to a decrease in the sale of capital assets and less funding received for E-Rate.
- Instruction expenses decreased \$17.2 million over prior year primarily due to IMA expenditures. The larger share of IMA funds are received in year one of each biennium of the state's budget, therefore there is a decrease in the second year.
- Data processing services increased \$14 million due to a multi-year district-wide initiative to improve the District's network infrastructure. These were board approved expenditures from the District's unassigned fund balance.

Total Cost of Services

Net Cost of Services

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Governmental Funds The District's accounting records for general governmental operations are maintained on a modified accrual basis as prescribed by the *Financial Accountability System Resource Guide*, Texas Education Agency, with the revenues being recorded when available and measurable to finance expenditures of the fiscal period. Expenditures are recorded when services or goods are received and the fund liabilities are incurred. The general governmental operations include the following major funds: General, Special Revenue, Debt Service, Capital Renovation, and the other nonmajor governmental fund (Public Facility Corporation).

Revenues for general governmental functions totaled \$1.877 billion (excluding other sources) for the fiscal year ended June 30, 2013, a decrease of 6.4 percent from the prior fiscal year. Property taxes were the largest source of revenue received by the District at 67.5 percent of total revenues. Property taxes are part of the District's target revenue funding system established by House Bill 1 of the 79th Texas Legislature. The District earns \$5,007 per weighted average daily attendance ("WADA"). The difference between what the District collects in property taxes and the target revenue per WADA is made up through state funding. As property taxes increase, the amount of funding from the State of Texas decreases and vice versa.

Expenditures for general governmental operations totaled \$2.144 billion during fiscal year 2013, a decrease of 10.1 percent from fiscal year 2012. Decreases in expenditures occurred in the functional areas of instruction, instructional resources and media services, instructional staff development, school leadership, guidance, counseling, and evaluation services, social work services, co-curricular/extracurricular activities, plant maintenance and operations, community services, juvenile justice alternative education program, tax reinvestment zone payments, facilities acquisition and construction.

The governmental funds reported a combined fund balance of \$1.374 billion, an increase of \$117.6 million. The net increase of the combined fund balances was comprised of fund balance increases in the Capital Renovation Fund of \$166.5 million and decreases in the Debt Service Fund of \$17.1 million, the General Fund \$31.7 million. Out of the combined fund balances, \$276.8 million constitutes unassigned fund balance. The remainder of the fund balance is non-spendable, restricted, committed, or assigned to indicate that it is not available for new spending.

The General Fund is the primary operating fund of the District. The fund balance of the General Fund decreased \$31.7 million during the fiscal year primarily due to a decrease in state revenue and miscellaneous local revenue sources, and an overall increase in expenditures. At the end of the fiscal year, the unassigned fund balance represented 19.11 percent of the total General Fund expenditures, while total fund balance represented 35.94 percent of that same amount.

The Special Revenue Fund accounts for all grants received by the District from local, state, and federal sources. The ending fund balance of \$25.3 million consists of \$20.5 million which is restricted for E-rate activities and carryover funds for lost textbooks.

The Debt Service Fund has a total fund balance of \$127 million all of which is restricted for the payment of debt service. The net decrease in fund balance during the period in the Debt Service Fund was \$17.1 million. The District makes semi-annual debt service payments in December/June, January/July, February/August, and March/September of each year. Debt service payments for the period ended June 30, 2013 included all scheduled payments including payments due within 30 days of year end.

The Capital Renovation Fund has a total fund balance of \$694.5 million for which \$573.9 million is restricted for rebuild construction programs. The fund balance increased by \$166.5 million as a result of the sale of bonds for the current Rebuild 2012 Bond Program.

The Capital Renovation Fund – Public Facility Corporation has a total fund balance of \$6.8 million, all of which is restricted for construction of four schools and debt service costs for the Rebuild 2007 Bond Program. There was no significant change in the fund balance.

Proprietary Funds The District maintains both enterprise funds and internal service funds. Information is presented separately in the proprietary fund statement of net position and in the proprietary fund statement of revenues, expenses, and changes in fund net position for the Food Service Fund, which is considered to be a major fund. The net position in the Food Service Fund as of June 30, 2013 was \$15.3 million. Of this amount, \$715 thousand represented the investment in capital assets and \$14.6 million was restricted. For the fiscal year, net position for Food Service Funds increased by \$6.7 million.

General Fund Budgetary Highlights

Over the course of the year, the District revised its budget several times. As a result, actual expenditures were \$171 million less than the appropriated budgeted amounts which resulted in positive variances. These variances are the result of salaries, benefits, consultants, and contracted services being budgeted at a greater amount than expenditures. Following were the key variances:

- \$49.9 million resulted from staffing adjustments (all areas including salaries, subs, stipends, overtime and benefits)
- \$18.0 million resulted from plant maintenance and operations
- \$14.7 million resulted from instructional non-staffing funds
- \$13.0 million resulted from ASPIRE and other district-wide incentive pay
- \$2.4 million resulted from capital outlay
- \$2.0 million resulted from general administration
- \$1.8 million resulted from student transportation
- \$1.7 million resulted from instructional administration

Staffing is budgeted at one hundred percent of actual salary. Budget amounts for vacant positions are monitored to ensure that only limited revisions are allowed for departments. Schools have a more flexible revision policy but cannot take excess salary budgets for non-salary uses.

The final budgeted amount for revenues was \$1.4 billion. Actual revenues are over the revised budget by \$2.9 million.

CAPITAL ASSETS AND DEBT ADMINISTRATION

CAPITAL ASSETS

The District had invested \$2.983 billion, net of depreciation, in a broad range of capital assets, including land, buildings and improvements, furniture and equipment, and vehicles. This amount represents a net increase (including additions, deductions, and depreciation) of \$177 million over last year.

District's Capital Assets

(net of depreciation, in thousands of dollars)

Total	\$ 2,982,104	\$ 2,806,110	\$ 914	\$ 387	\$ 2,983,018	\$ 2,806,497	8.33%

During 2013, the District opened the following schools: Lockhart ES, Neff ES, Reagan K-8 Education Center and Carnegie Vanguard HS. As of June 30, 2013, the District had fully funded construction commitments of \$151,698,156. More detailed information about the District's capital assets is presented in Note 6 of the "Notes to the Basic Financial Statements."

Long Term Debt

As of June 30, 2013, the District had net bonded debt outstanding of \$2.474 billion. The District debt totals included \$312.9 million in Variable Rate Bonds outstanding at fiscal year end. The ratio of net general bonded debt to assessed valuation and the amount of bonded debt per student are useful indicators of the District's debt position. This data reflects an increase in the ratio of net bonded debt to assessed value to 2.22 percent, as compared to 2.17 percent last year.

A bond election held on November 6, 2012 authorized the issuance of \$1.89 billion in bonded debt obligations primarily for building or renovating high schools. On February 14, 2013 debt was issued comprising \$340 million of the newly authorized debt. Refunding bonds were also issued at the same time defeasing \$173 million par value of existing debt in order to reduce future debt service expenditures.

The District increased total variable rate debt by \$130.9 million, the net result of issuing Variable Rate Bonds Series 2013 in the amount of \$147.1 million somewhat offset by the redemption of \$16.2 million in existing variable rate debt. Variable rate debt as a percentage of total bonded debt outstanding as of June 30, 2013 is 12.95 percent.

The District did not issue any contractual obligations or maintenance notes during the year ended June 30, 2013. Contractual obligations, with a remaining balance of \$52,355,000, were issued for the purpose of acquiring personal property assets and are authorized pursuant to the laws of the State of Texas, including the Public Property Finance Act, Section 271.001 of the Texas Local Government Code.

Interest earnings on proceeds from debt issued since May 15, 1989, are subject to arbitrage regulations contained in the Federal Tax Reform Act of 1986. The District records the liability as an assigned part of fund balance, if needed, on an annual basis. As of June 30, 2013 no arbitrage rebate liability exists.

More detailed information about the District's long term debt is presented in Note 8 of the "Notes to the Basic Financial Statements."

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The 2012-2013 fiscal year had a growth in the tax levy of approximately \$73 million (6.2% increase) as compared to the 2011-2012 fiscal year. However, this increase was an offset to state aid due to the state's target revenue funding formula which adjusts the state's share by the changes in the District's tax revenues. In addition to the changes in the tax levy, the District still had a shortfall in state funding due to the state's budget deficit from the 82nd legislature in May 2011. The District's budget was reduced for 2011-2012 and 2012-2013 by approximately \$121 million for the biennium. The 2012-2013 fiscal year shortfall was \$45 million. To cover the deficit for the 2012-2013 fiscal year the District utilized one-time funding sources from Edu Jobs, debt service fund and general fund fund balance in the amount \$18.5, \$17, and \$8.9 million, respectively.

The 2013-2014 state revenue projections are based on an estimated average daily attendance (ADA) of 182,986 students or 252,369 based on a weighted average daily attendance.

In May 2013, the 83rd Legislature put \$3.4 billion back into Public Education for the 2013-2014 biennium. However, the funds were not put back into the funding formula in the same way they were taken out back in 2011. For HISD, the District's allocated portion for fiscal year 2013-2014 will be approximately \$52 million and for 2014-2015 it will be approximately \$6.6 million. Accordingly, the total funding increase to HISD will be approximately \$58.6 million over the biennium.

The Legislature put the funds back in through several changes to the funding formula.

1. The basic allotment was increased from \$4,765 to \$4,950 in 2013-2014 and to \$5,040 in 2014-2015. This basic amount is the base amount generated by every student in HISD.
2. The Regular Program Adjustment Factor (RPAF) in the 82nd Legislature was reduced to in affect take away funds from districts. This is being changed back from .98 (98%) to 1.00 (100%) of funding for the basic program. This puts funds back into the district's budget.
3. The Equalized Wealth Level was changed from \$476,500 to \$495,000 in 2013-2014 and \$504,000 in 2014-2015. This is the level at which a district becomes Chapter 41 ("Robin Hood") and has to send a portion of local property taxes to the state.
4. The Target Reduction Factor (TRF) is being increased from .9235 to .9263 for the biennium. As this number changes it determines how much of the hold harmless you receive from the state for reducing property taxes state- wide in 2007.

For 2013-2014, taxable property value was projected to increase by approximately \$10 billion (9.11%) from the 2012-2013 original budget. In the 2013-2014 fiscal year, the District will move out of the funding formula's ASATR (Available State Aid for Tax Reduction) and will no longer receive supplemental funds for reducing the tax rate in 2006-2007. However, under the hold-harmless provision, the increase in local property value will still be partially offset by state aid. The District is still subject to less Target Revenue due to the funding cuts; however, shifts in property taxes will provide some additional state revenue to the district.

The 2013-2014 General Fund operating budget had a net increase of \$66.2 million. Budget adjustments include the following major items:

Budget adjustments with offsetting revenue of \$5.5 million:

- \$6.2 million decrease in capital outlay
- \$4.3 million decrease in Tax Increment Reinvestment Zones (TIRZ)
- \$5.0 million increase for Texas Connections Academy

Total increases to the budget were \$80.8 million. The following were key budget increases:

- \$19.7 million in salary increases for all staff
- \$16.5 million for supplemental instructional time and service for low performing schools
- \$15.3 million for transfers out to debt service
- \$13.9 million for intervention funding for reading and math failures
- \$3.0 million gasoline for buses
- \$2.1 million for formative assessment
- \$1.7 million in appraisal district fees due to the increase in roll value
- \$1.6 million for AP/IB testing
- \$1.5 million in mandatory increases relating to contractual obligations
- \$1.0 million for Medicare and Retiree Sick Leave
- \$0.9 million for iStation

Total decreases to the budget were \$9.1 million. The following were key budget decreases:

- \$4.0 million in TRS Above State Minimum
- \$1.5 million in unemployment
- \$1.3 million Targeted Assistant Program (re-purposed to the intervention funding for reading and math failures)
- \$1.2 million for Workers' Compensation
- \$0.6 million for Campus Online (re-purposed to formative assessment)

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Chief Financial Officer, at 4400 West 18th Street, Houston, Texas 77092, or call (713) 556-6600.

**HOUSTON INDEPENDENT SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
JUNE 30, 2013**

Total Fund Balances— Governmental Funds \$ 1,374,382,541

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources, and therefore, are not reported as assets in governmental funds. The cost of the assets is \$4,399,495,325 and the accumulated depreciation is \$1,411,391,366. 2,982,103,959

Property taxes and other receivables are not available soon enough to pay for the current period's expenditures, and therefore, are deferred in the funds. 28,200,391

Various internal service fund noncurrent assets included in the proprietary funds statement of net position. (1,833,892)

Internal service funds are used by the District's management to charge the costs of workers' compensation, health insurance, and print shop activities to the funds. A portion of the assets and liabilities of the internal service funds are included with governmental activities. 101,973,574

Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore, are not reported as liabilities in the funds. Long term liabilities at year-end consist of:

Bonds payable	\$ 2,417,003,210	
Accretion of interest payable	114,265,785	
Contractual obligations payable	31,020,000	
Notes payable	50,360,000	
Compensated absences payable	28,486,143	
Lease purchases payable	66,678	
Premium on bonds payable	73,146,691	
Deferred loss on refunding of bonds	(16,137,485)	
Issue costs	(10,424,412)	
Accrued interest payable	57,068,801	
		(2,744,855,411)

Total Net Position of Governmental Activities \$ 1,739,971,162

The notes to the basic financial statements are an integral part of this statement.

**HOUSTON INDEPENDENT SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF
REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2013**

Total Net Change in Fund Balances—Governmental Funds \$ 117,606,760

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Facilities acquisition and construction	211,984,053	
Other Acquisitions and disposals	63,287,814	
Depreciation expense	<u>(99,278,265)</u>	
		175,993,602

Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. Proceeds from the sale of bonds is a source of financing in the governmental funds, but the statement of net position recognizes it as an increase in the long term liabilities. The changes in long term liabilities at year end consist of:

Bonds payable	(207,103,200)	
Contractual obligations payable	21,335,000	
Notes payable	5,125,000	
Amortization of premium on bonds payable	(35,094,266)	
Amortization of deferred loss on refunding of bonds	11,608,911	
Issuance costs	1,761,570	
Amortization of issuance costs	(2,150,061)	
Lease purchase payable, net	(38,410)	
Accretion payable, net	<u>18,124,538</u>	
		(186,430,918)

Property taxes and other receivables, that will not be collected until after the District's fiscal year end, are not considered "available" revenues and are deferred in the governmental funds. Deferred tax revenues, net of allowance for bad debt, and other deferred revenues increased by this amount this year. (691,880)

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus, requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. (1,876,128)

The net effect of various miscellaneous transactions involving capital assets having the effect of decreasing net assets. (606,252)

In the statement of activities, compensated absences (sick pay, state personal leave, vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). This year the amounts earned were exceeded by the compensated absences used. (1,614,021)

Internal service funds are used by management to charge the costs of certain activities, such as workers' compensation, health insurance, and print shop activities, to individual funds. A portion of the net revenue (expense) of the internal service funds is reported with governmental activities. 20,218,074

Change in Net Position of Governmental Activities **\$ 122,599,237**

The notes to the basic financial statements are an integral part of this statement.

***HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013***

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

REPORTING ENTITY

The Houston Independent School District ("District") is an independent school district created and incorporated through legislation enacted by the Thirty-Eighth Texas State Legislature in 1923. The District is the largest school district in Texas and is governed by the Board of Education, composed of nine Board Members, all of whom are elected officials.

In accordance with Governmental Accounting Standards Board ("GASB") Statement No. 14, *The Financial Reporting Entity*, ("GASB Statement No. 14"), a financial reporting entity consists of the primary government and its component units. Component units are legally separate organizations for which the elected officials of the District are financially accountable, or for which the relationship to the District is such that exclusion would cause the District's financial statements to be misleading or incomplete. Discretely presented component units, on the other hand, are reported in a separate column in the basic financial statements to emphasize they are legally separate from the School District. The District's blended component unit, although a legally separate entity, is in substance a part of the District's operations, and so data from this entity is combined with data of the primary government.

The criteria used to determine whether an organization is a component unit of the District includes: financial accountability of the District for the component unit, whether the District appoints a voting majority of the entities board, the ability to impose the District's will on the component unit, fiscal dependency criterion, if it is a financial benefit to or burden to the District, and whether services are provided entirely or almost entirely to the District.

For financial reporting purposes, the Houston Independent School District Public Facility Corporation ("Public Facility Corporation") is included as a blended component unit in the operations and activities of the District. The criteria used to include the Public Facility Corporation as a blended component unit of the District include: the District appoints a voting majority of the Public Facility Corporation's governing body, the District is able to impose its will on the Public Facility Corporation and the Public Facility Corporation serves the District exclusively. The Public Facility Corporation's data is reported in a separate column in the governmental funds financial statements.

For financial reporting purposes, the Houston Independent School District GEAR UP Trust ("GEAR UP Trust") is included in the fiduciary activities of the District because of the financial accountability of the District, the appointment of a voting majority, and the fiscal dependency criteria whereby the GEAR UP Trust serves the District's students exclusively. The GEAR UP Trust was incorporated to ensure that the scholarship funds are properly spent and to guarantee a college scholarship to the eligible students at the participating schools of the GEAR UP program. The GEAR UP financial information is blended with that of the District in the Statement of Fiduciary Net Position for Private-Purpose Trust Funds. Separate financial statements for GEAR UP Trust are not issued.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities of the government-wide financial statements report information on all of the nonfiduciary activities of the District and its blended component unit. The effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Program revenues include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions. Program revenues included in the Statement of Activities reduce the cost of the function to be financed from general

HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

revenues. Taxes and other items not properly identified as program revenues are reported instead as general revenues.

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those clearly identifiable with a function. Depreciation expense is specifically identified by function and is included in the direct expense to each function.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds. In accordance with the provisions of GASB Statement No. 34, the fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds and major enterprise funds are reported as separate columns in the fund financial statements.

MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION

Government-wide Financial Statements -- The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place, regardless of the timing of the related cash flows. Revenues, expenses, gains, losses, assets, and liabilities resulting from nonexchange transactions are recognized in accordance with GASB Statement No. 33. Property taxes are recognized as revenues in the year for which they are levied. Grants, and similar items, are recognized as revenue as soon as all eligibility requirements have been met and funds are available to meet current expenditures.

Fund Financial Statements -- Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. State aid and miscellaneous revenues, other than property taxes, are considered to be available when they are collected within the current period or within 90 days of the fiscal year end to pay liabilities of the current period. Property taxes are considered to be available if collected within 60 days of the fiscal year end. Expenditures are generally recognized under the modified accrual basis of accounting in the accounting period in which the fund liability is incurred, if measurable. However, debt service expenditures are recognized in the current fiscal period for debt service principal and interest payments due within 30 days in the subsequent fiscal period as these funds have been set aside for that purpose. Compensated absences and claims and judgments are recorded only when payment is due. Proprietary fund statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Fiduciary fund statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*.

During the fiscal year 2013, the District adopted GASB Statement 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* ("GASB 63") which amends the net asset reporting requirements in Statement No. 34 and other pronouncements by incorporating deferred outflows of the resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position rather than net assets. Implementation of GASB 63 is reflected in the financial statements.

Funds

The District reports its financial activities through the use of "fund accounting." The activities of the District are organized on the basis of funds. The operations of each fund are accounted for within a separate set of self-balancing accounts to reflect results of activities. Fund accounting segregates funds according to their intended purpose and is used to assist management in demonstrating compliance with finance-related legal and contractual provisions. As required by the Texas Education Agency, the following fund types are included in the financial statements:

HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

Governmental Funds

Governmental Funds are those through which most governmental functions of the District are financed. The acquisition, use and balances of the District's expendable financial resources, and the related liabilities are accounted for through the Governmental Fund Types. The following are the District's major governmental funds:

- *General Fund* -- The General Fund is the general operating fund of the District and accounts for all revenues and expenditures of the District not encompassed within other funds.
- *Special Revenue Fund* -- The Special Revenue Fund is used to account for the proceeds of specific revenue sources (other than private-purpose trust funds or capital projects) such as federal, state or locally financed programs where unused balances are returned to the grantor at the close of specified project periods. Funds are legally restricted to expenditures for specified purposes.
- *Debt Service Fund* -- The Debt Service Fund is used to account for the accumulation of resources for, and the retirement of, general long-term debt and related costs.
- *Capital Renovation Fund* -- The Capital Renovation Fund is used to account for financial resources to be used for the acquisition, renovation or construction of major capital facilities other than those financed by proprietary funds.

Proprietary Funds

Proprietary Funds are used to account for operations that are financed in a manner similar to those found in the private sector, where the determination of net income is appropriate for sound financial administration.

- *Enterprise Funds* -- The Enterprise Funds are used to account for operations that are financed and operated in a manner similar to a private enterprise where the District's intent is to provide services financed primarily through user charges. The Food Service Fund is considered a major proprietary fund as defined by GASB Statement No. 34. The Food Service Fund accounts for services provided to District students and include all federal and state funds for such services.
- *Internal Service Funds* -- The Internal Service Funds are used to account for operations related to the Print Shop, Alternative Certification Program, Athletics, University Interscholastic League ("UIL"), Shared Services, Virtual School, and risk financing activities of the District.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's proprietary funds are charges to customers and other funds for sales and services. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Fiduciary Funds

Fiduciary Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations and/or other funds.

**HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013**

- *Private-Purpose Trust Funds* -- Private-purpose trust funds are used to account for resources legally held in trust under which principal and income benefit individuals, private organizations or other governments. The District's private-purpose trust funds represent scholarship funds being held in trust for students.
- *Agency Funds* -- Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency funds represent school class and club activity funds. The District does not use clearing accounts to distribute financial resources to other funds of the District.

ASSETS, LIABILITIES, AND NET POSITION OR EQUITY

Cash and Cash Equivalents

The District's *Cash Management and Investment Policy* requires all deposits to be fully collateralized with depository insurance; obligations of the United States of America or its agencies and instrumentalities (excluding those mortgage backed securities prohibited by the Public Funds Investment Act); public funds investment pools; or in any other manner and amount provided by law for deposits of the District. At all times, such securities are to have a fair value sufficient to fully collateralize deposit balances as adjusted by the amount of applicable depository insurance pursuant to Texas Government Code Section 2257.022.

The District considers cash and cash equivalents to be cash on hand and demand deposits. All other monetary assets are treated as investments including certificates of deposit, investment pools, money market instruments, and other securities defined under the Public Funds Investment Act.

Investments

Investments are stated at fair value, which is the amount at which the investment can be exchanged in a current transaction between willing parties. Management of the District believes that in the areas of investment practice, management reports, and establishment of appropriate policies, the District adhered to the requirements of the State of Texas Public Funds Investment Act. Additionally, management of the District believes that investment practices of the District were in accordance with local policies.

Receivables and Payables

All trade and property tax receivables are shown net of allowance for uncollectibles. The property tax receivable allowance is 68.87 percent of outstanding property taxes at June 30, 2013.

Inventories

Under the consumption method of accounting for inventories, materials and supplies are carried in an inventory account on the basis of the last invoice cost, which approximates the first-in, first-out method, and are subsequently charged to expenses/expenditures when consumed. Inventories include plant maintenance and operating supplies as well as instructional supplies. Revenue for donated commodities is recognized when the commodities are received. Other inventories are offset at year end by non-spendable fund balance in the governmental fund financial statements.

Grant Fund Accounting

The Special Revenue Fund includes programs that are financed on a project grant basis. These projects have grant periods that range from less than twelve months to in excess of two years. Grants are recorded as revenues when earned, which the District considers to be earned to the extent expenditures have been incurred,

**HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013**

and the District has met all eligibility requirements. Funds received, but not earned, are recorded as deferred revenue until earned.

Indirect costs earned from grant programs are recorded as revenues of the General Fund. These indirect costs are determined by applying approved indirect cost rates to actual expenditures of the programs.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded in the accounting system in order to reserve the portion of the applicable appropriation, is employed in the Governmental Fund Types on the governmental fund financial statements. Encumbrances, which have not been liquidated, are reported as restricted, committed, or assigned fund balances.

Capital Assets

Capital assets, which include land, buildings and improvements, furniture and equipment, and vehicles are reported in the applicable governmental and business-type activities columns in the government-wide financial statements and proprietary fund financial statements. Capital acquisition and construction are reflected as expenditures in governmental funds. Land, buildings and improvements, furniture and equipment, and vehicles are recorded at historical cost or estimated historical cost if purchased or constructed. The capitalization threshold is a unit cost of \$5,000. Donated capital assets are recorded at estimated fair value at the date of donation. Depreciation on all depreciable capital assets begins on the date the asset is placed into service using the straight-line method of depreciation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets are depreciated over the following estimated useful lives:

<u>Asset Classification</u>	<u>Useful Life</u>
Buildings and improvements	40 years
Vehicles:	
Buses	12 years
Medium	7 years
Small	5 years
Furniture	5 years
Equipment	5 years

Interfund Transactions

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds." All other balances between funds are reported as transfers. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide statements as "internal balances."

**HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013**

A description of the basic types of interfund transactions and the related accounting policies are as follows:

- Charges for services are reported as revenues for the performing fund and expenditures/expenses of the requesting fund.
- Transactions to reimburse a fund for expenditures made by it for the benefit of another fund are recorded as expenditures or expenses in the reimbursing fund and as a reduction of expenditures or expenses in the fund that is reimbursed.
- All other interfund transfers, such as legally authorized transfers from a fund receiving revenue to the fund through which the resources are to be expended, are transfers. Transfers are classified as other financing sources or uses in the Statement of Revenues, Expenditures, and Changes in Fund Balances.

For reporting at the government-wide financial statement level, the District eliminates direct interfund charges for services and the balances created within the same activity categories (i.e. governmental vs. business-type). This process ensures neither governmental nor business-type activities report direct internal revenue/expenditures. Interfund activity and balances resulting from transactions with the fiduciary funds are not eliminated. Instead, the fiduciary interfund activity and balances are treated as transactions with an external party. The Internal Service Funds are essentially repositories for income, expenses, assets and liabilities of the District's health insurance, worker's compensation, print shop, alternative certification, athletics, shared services, and UIL.

Compensated Absences

The District's contract employees earn one day of sick leave per month for all months under contract, which may either be taken or accumulated with no limitation. Accumulated sick leave balances are not paid upon termination from the District, except those paid on retirement or death of employees who meet certain eligibility requirements and were hired prior to October 10, 1972.

Twelve-month employees earn vacation ranging from two to four weeks per year based on length of service. Vacation days may be carried over from one contract year to another with a maximum limit of 30 days. For twelve-month employees, the contract runs from September 1st through August 31st.

The District accrues vacation, state personal leave, and eligible sick leave in the government-wide and proprietary fund financial statements. A liability and related expenditure for these amounts is reported in the governmental funds only if they have matured as a result of employee retirements or resignations and are due.

The District's compensatory time policy requires that compensatory time be taken by the end of the school year in which it was earned. At June 30, 2013, the District had no material liability for compensatory time.

Long-term Liabilities

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Deferred losses on refunding and bond issuance costs are amortized over the life of the bonds using the straight-line method.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013**

RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.” The details of this \$175,993,602 difference are as follows:

Facilities acquisition and construction	\$ 211,984,053
Other acquisitions and disposals	63,287,814
Depreciation expense	<u>(99,278,265)</u>
Net adjustment to increase <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i> .	\$ <u><u>175,993,602</u></u>

FUND BALANCES AND NET POSITION

Government-wide Financial Statements

Net assets on the Statement of Net Position includes the following:

Net investment in capital assets -- the component of net position that reports capital assets less both the accumulated depreciation and the outstanding balance of debt and is directly attributable to the acquisition, construction, or improvement of these capital assets.

Restricted for capital acquisition program -- the component of net position that reports the difference between assets and liabilities of the capital acquisition program consists of assets with constraints placed on their use by the bond contracts and covenants contained therein.

Restricted for debt service -- the component of net position that reports the difference between assets and liabilities adjusted on a government-wide basis that consists of assets with constraints placed on their use by the bond covenants.

Restricted for food service -- the component of net position that reports the difference between assets and liabilities of the Food Service Fund that consists of assets with constraints placed on their use by the Department of Agriculture and the Texas Education Agency.

Unrestricted -- the difference between the assets and liabilities that are not reported in net position invested in capital assets, net of related debt, or restricted net assets.

The District applies restricted resources before unrestricted resources when an expense is incurred for which restricted net position is available.

***HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013***

Governmental Fund Financial Statements

In the fund financial statements, governmental funds report fund balances as either a non-spendable fund balance or a spendable fund balance.

Non-spendable Fund Balance

Non-spendable fund balance is that portion of fund balance that is not expendable (such as inventories) or is legally earmarked for a specific use (such as the self-funded reserves program). Non-spendable fund balance reserves may include inventories, prepaid items, deferred expenditures, and long-term receivables.

Spendable Fund Balance

Spendable fund balance is composed of restricted, committed, assigned, and unassigned portions. Components of the spendable fund balance include:

Restricted Fund Balance -- the component of the spendable fund balance constrained to a specific purpose by the provider, such as a grantor. Restricted fund balance includes funds for the child nutrition program, technology program, construction programs, and resources from other granting agencies.

Committed Fund Balance -- the component of the spendable fund balance constrained to a specific purpose by a resolution approved by the Board. Those committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same action used to establish it. Committed fund balance includes funds for potential litigation, claims, judgments, and campus activity funds.

Assigned Fund Balance -- the component of the spendable fund balance that is spendable or available for appropriation, but has been tentatively earmarked for some specific purpose by the Superintendent or Chief Financial Officer. The assigned amounts can only be removed by the Superintendent or Chief Financial Officer. Assigned fund balance includes funds for insurance deductibles, program start-up costs and other legal issues.

Unassigned Fund Balance -- the component of the spendable fund balance which may be spent for any legal purpose. This portion of the total fund balance in the general fund is available to finance operating expenditures.

In general, it is HISD policy to consider restricted resources to have been spent first when an expenditure is incurred for purposes for which restricted and unrestricted (i.e. committed, assigned, or unassigned) fund balances are available, followed by committed and then assigned fund balances. Unassigned amounts are used only after the other resources have been used.

Stewardship, Compliance, and Accountability

The Board of Education adopts an appropriated budget for the General Fund, Special Revenue Fund, Debt Service Fund, Capital Renovation Fund and Food Service Fund. The District is required to present the adopted and final amended budgeted revenues and expenditures and actual revenues and expenditures for the General Fund and Special Revenue Fund, which are considered major funds as defined by GASB Statement No. 34. Both the General Fund Budget and the Special Revenue Fund Budget appear in the required supplementary information section where the District compares the final amended budget to actual revenues and expenditures.

Management's Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the

***HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013***

date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

NOTE 2: HISD PUBLIC FACILITY CORPORATION

The Public Facility Corporation is a public non-profit corporation, the creation of which was sponsored by the District pursuant to the Public Facility Corporation Act, Article 717s, Vernon's Texas Civil Statutes, as amended (the "Public Facility Corporation Act"). The Public Facility Corporation Act authorizes the creation and utilization by school districts of public facility corporations to issue bonds to provide for the acquisition, construction, rehabilitation, renovation, repair, equipping, furnishing and placing in service of public facilities of its governmental sponsor and further authorizes the governmental sponsor to incur lease purchase obligations in favor of the corporation to serve as security for the bonds issued by the Public Facility Corporation.

To accomplish the financings, the Public Facility Corporation and the District have entered into a number of "Leases With An Option to Purchase" pursuant to the terms of which the District will pay to the Public Facility Corporation such lease payments at such times and in such amounts as will be required to pay the principal and premium, if any, and interest on the lease revenue bonds as they become due.

The Public Facility Corporation has utilized this structure to issue Lease Revenue Bonds for building two high schools in 1998, a food warehouse facility in 2006, and the building of four elementary schools in 2010.

NOTE 3: CASH DEPOSITS AND INVESTMENTS

Statutes of the State of Texas and policies mandated by the District's Board of Education authorize the District to invest in obligations of the U.S. Government or its agencies, repurchase agreements, commercial paper, public fund investment pools, mutual funds and money market accounts. All cash balances and investments are held separately in each of its funds.

Funds held at the depository bank were properly secured at all times and the following was disclosed:

- a. Name of depository bank: JP Morgan Chase Bank
- b. Amount of bond or security pledged as of the date of the highest combined balance on deposit was \$5,126,538.
- c. Highest cash, savings and time deposits combined account balances amounted to \$36,611,577 and occurred on July 3, 2012. The total deposits that date included \$36,118,720 in noninterest bearing transaction accounts fully insured by the Federal Deposit Insurance Corporation. Interest bearing accounts on the date of highest deposit totaled \$492,857 requiring \$242,857 in collateral.
- d. Total amount of Federal Deposit Insurance Corporation ("FDIC") coverage at the time of highest combined balance was \$250,000 for interest bearing accounts and was unlimited for non-interest bearing accounts.

Cash Deposits

As of June 30, 2013, the carrying amount of the District's demand and time deposits and cash on hand was \$8,190,274. The \$20,489,315 bank balance was covered by federal deposit insurance through the FDIC or was collateralized by securities held by the District's depository in joint safekeeping at the Federal Reserve Bank in the District's name. The HISD Public Facility Corporation's \$604,800 was held in a money market account at the Bank of New York Trust Company, N. A. The balance of HISD Public Facility Corporation's \$775,896 was invested in Morgan Stanley Government Portfolio through its trustee, the Bank of New York Trust Company, N.A.

***HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013***

Investments

In accordance with the provisions of GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools* ("GASB Statement No. 31"), the District's investments have been recorded at fair value based upon quoted market prices as of June 30, 2013, with the increase or decrease in fair value being recorded as a component of earnings on investments. None of the District's investments have been reported at amortized cost.

The District's investments in public funds investment pools and money market mutual funds include those with the Lone Star Investment Pool ("LSIP"), TexSTAR, and TexPool. The fair value of the District's position in the above pools is the same as the value of the pool shares.

LSIP is a public funds investment pool created pursuant to the Interlocal Cooperation Act of the State of Texas, Article 4413(32c), Vernon's Texas Civil Statutes, as amended, and is designed to provide participating local governments with investment vehicles for (1) local funds that are not required to be spent immediately and are available for investment in securities with maturities and returns generally greater than those for money market instruments and (2) local funds which provide daily liquidity. The objective of the LSIP is to provide participating local governments with the highest possible rate of return for such funds, while maintaining safety of principal and providing participants with access to funds no less frequently than once per month. To achieve its objective, the LSIP invests primarily in obligations issued or secured by the U.S. Government and its agencies and instrumentalities and in commercial paper. Investment advisory services are provided by American Beacon Advisors and BNY Mellon Cash Investment Strategies. The custodial account is managed by The Bank of New York Mellon while CAPTRUST Financial Advisors provides investment consulting services.

The Lone Star Government Overnight Fund is a stable value fund rated AAAM by Standard & Poor's rating service and the Corporate Overnight Plus Fund is a stable net asset value fund seeking to maintain a net asset value of \$0.50 and is rated AAAf/S1+ by Standard & Poor's.

The District's investment in LSIP's Government Overnight Fund and the Corporate Overnight Plus Fund, as of June 30, 2013, was \$96,871,126 and \$424,389,462, respectively, for a total of \$521,260,588, representing 29.33 percent of the total portfolio.

TexPool is a public funds investment pool operated by the Texas Treasury Safekeeping Trust Company, an entity of which the Texas Comptroller of Public Accounts is the sole officer, director, and shareholder. Administrative and investment services are provided by Federated Investors, Inc., and the assets are kept in a separate custodial account at the State Street Bank in the name of TexPool. TexPool is rated as an AAAM money market fund by Standard & Poor's.

As of June 30, 2013, the District's investment in TexPool and TexPool Prime was \$384,757,493 and \$97,462,588, respectively, with a value of \$482,220,081, representing 27.13 percent of the total portfolio. All income from investments associated with each fund has been recognized and recorded as income in each of the District's funds.

TexSTAR was created in April 2003, also under the Interlocal Cooperation Act. It is administered by First Southwest Asset Management, Inc. and JP Morgan Chase while JP Morgan Fleming Asset Management provides investment advisory services. The fund is rated AAAM by Standard & Poor's.

As of June 30, 2013, the District's investment in TexSTAR was \$306,474,869, or 17.25 percent of the portfolio. As with all the investment pools, funds are readily available to support daily cash requirements, while maintaining yields slightly higher than standard bank deposit accounts. The balance includes the HISD Public Facility Corporation's \$1,164,400 invested in TexSTAR through its trustee, the Bank of New York Mellon Trust Company, N.A. These funds are restricted for use in the building of four elementary school projects.

**HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013**

The District has invested in negotiable certificates of deposit issued by Metro Bank and Unity Bank, \$500,000 and \$240,000, respectively, as of June 30, 2013, for a total of \$740,000, or 0.04 percent of the portfolio. The collateral for the Metro Bank certificate is held at the Federal Home Loan Bank of Dallas in the District's name. Unity Bank's certificate is covered in full by Federal Deposit Insurance Corporation ("FDIC"); therefore, it requires no additional collateral under the Public Funds Investment Act Section 2257.022.

The District has invested in U.S. Agency Securities, issued by Federal Farm Credit Bank ("FFCB") and Federal Home Loan Bank ("FHLB"). Investments in these securities total \$416,054,082 and represent 23.43 percent of the value of the total portfolio.

The District has invested in Treasury Bonds, issued by the United States Government. Investments in these U.S. Treasury securities total \$50,142,300 and represent 2.82 percent of the value of the total portfolio.

GASB Statement No. 40, *Deposit and Investment Risk Disclosures*, an amendment to GASB Statement No. 3, establishes and modifies disclosure requirements related to deposits and investment risks: credit risk (including custodial credit risk and concentrations of credit risk), interest rate risk, and foreign currency risk.

To ensure compliance with the various risk factors addressed in GASB Statement No. 40, the District's Investment Advisory Committee reviewed the *Cash Management and Investment Policy*. The *Cash Management and Investment Policy* is reviewed by the Investment Advisory Committee at least annually and presented to the Board of Education for approval. The Investment Officers submit a Quarterly Investment Report to the Board of Education certifying that all investments were purchased in compliance with the *Cash Management and Investment Policy*.

The District's *Cash Management and Investment Policy* contains the following objectives:

- (1) assure the safety of District's funds;
- (2) maintain sufficient liquidity to provide adequate and timely working funds;
- (3) match the maturity of investment instruments to the daily cash flow requirements;
- (4) attain a market average rate of return consistent with (1) and (2) above;
- (5) diversify investments as to maturity, instrument, and financial institution, where permitted, under the laws of the State of Texas;
- (6) actively pursue portfolio management techniques; and
- (7) avoid investments for speculation.

All objectives are approached with the judgment and care, under the circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the safety of the capital, as well as the probable income to be derived. Preservation of District capital is of highest importance. All participants in the investment process seek to act responsibly as custodians of the public trust. Investment officials avoid any transaction that might impair public confidence in the District's ability to govern effectively.

Interest Rate Risk

As a means of limiting its exposure to fair value losses that could occur from rising interest rates, the District's investment policy limits the maturities of investments and prohibits any investment for speculative gains. The available funds in the General Operating Fund may be invested for greater than one year provided that all cash flow requirements have been met. Available monies in all other funds, except for bond proceeds, can be invested for a period of up to ten years provided that cash flow needs are met. Bond proceeds can be invested for a period up to five years provided that the drawdown schedules permit such maturities.

HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

The District recognizes that investment risks can result from market price changes. Portfolio diversification is employed as a way to control risk. Investment officers are expected to display prudence in the selection of securities, as a way to minimize risk. No individual investment transaction shall be undertaken which jeopardizes the total capital position of the overall portfolio.

At June 30, 2013, the District's exposure to interest rate risk as measured by segmented time distribution by investment type is summarized below:

	6/30/2013 Fair Value	Issuer Concentration	Investment Maturities in Years	
			Less than 1	1-5
U.S. Treasury Bonds	\$ 50,142,300	2.82%	\$ -	\$ 50,142,300
FFCB	183,459,563	10.33%	35,001,050	148,458,513
FHLB	232,594,519	13.10%	85,059,699	147,534,820
Total US Agency Investments	416,054,082	23.43%	120,060,749	295,993,333
Lone Star Investment Pool	521,260,588	29.33%	521,260,588	-
TexPool	482,220,081	27.13%	482,220,081	-
TexStar	306,474,869	17.25%	306,474,869	-
Total Investment Pools	1,309,955,538	73.71%	1,309,955,538	-
Certificates of Deposit	740,000	0.04%	740,000	-
Total Investments	\$ 1,776,891,920	100.00%	\$ 1,430,756,287	\$ 346,135,633

As of June 30, 2013, the dollar weighted average maturity of the total portfolio was 142 days. The modified duration as of June 30, 2013 was 0.3897 years.

Credit Risk

The District's *Cash Management and Investment Policy* allows for investments in commercial paper provided it meets the following criteria:

1. the maximum maturity does not exceed 270 days from the date of issuance;
2. it is rated at least A1 or P1 by two nationally recognized credit rating agencies or by one agency when fully secured by an irrevocable letter of credit from a United States (nationally associated) or state (state associated) bank;
3. be issued for a specific face amount;
4. be issued either through a direct placement or through broker dealers;
5. the District will diversify its investment in commercial paper by issuer and by length of maturity; and
6. the maximum the District will have in commercial paper at any time is 30 percent of the District's portfolio.

HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

As of June 30, 2013, the District did not have any investments in commercial paper. The District's exposure to credit risk at June 30, 2013 is presented below by investment category as rated by Standard & Poor's:

	Fair Value	Rating
U.S. Treasury Bonds	\$ 50,142,300	AA+/A-1+
FFCB	183,459,563	AA+/A-1+
FHLB	232,594,519	AA+/A-1+
Total US Agency Investments	416,054,082	
Lone Star Investment Pool	521,260,588	AAAm, AAAf/S1+
TexPool	482,220,081	AAAm
TexSTAR	306,474,869	AAAm
Total Investment Pools	1,309,955,538	
Certificates of Deposit	740,000	Not rated
Total Investments	\$ 1,776,891,920	

Federal Farm Credit Bank and Federal Home Loan Bank are instrumentalities of U.S. Government; otherwise known as government sponsored corporations. These instrumentalities are established by law to implement the Federal Government's various lending programs.

Custodial Credit Risk - Funds on deposit with the depository bank are collateralized by pledged approved securities as specified by Section 45.208, Subchapter G, of Texas Education Code and/or a surety bond as in Section 45.208, Subchapter G, of the Texas Education Code to adequately protect the funds of the District. Further, the District will require pledged securities at least equal to that set forth in Texas Government Code Chapter 2257.022, Subchapter B, Depository: Security For Deposit of Public Funds (currently 110 percent of the amount of the deposit if a reducing value security and equal to the deposit otherwise). The District has the right to designate the amount of approved securities and/or the aggregate amount of the bond to adequately protect the District. The District may not designate an amount less than the balance of school district funds on deposit with the depository bank from day to day, less any applicable Federal Deposit Insurance Corporation insurance. The approved securities shall be valued at market value for purposes of calculating the designated amount of collateral required. The bank shall have the right and privilege of substituting approved securities upon obtaining the approval of the District.

The Federal Deposit Insurance Corporation adopted an interim rule providing a six month extension until December 31, 2010, of the Transaction Account Guarantee (TAG) Program for insured depository institution participating in the TAG program. JPMorgan Chase was not a participating institution. Insurance for interest and non-interest bearing accounts was \$250,000 until December 31, 2010. On December 31, 2010, the Dodd-Frank Deposit Insurance Provision of the Dodd-Frank Wall Street Reform and Consumer Protection Act became effective. Under the provision non-interest bearing transaction accounts are fully insured with no cap limitations. Interest bearing accounts are subject to a \$250,000 insurance cap. The provision expired on December 31, 2012 reverting to deposit insurance limits of \$250,000 for interest and non-interest bearing accounts.

Investments purchased for Houston Independent School District are made in the name of the Houston Independent School District. All investments are purchased with the delivery versus payment method and are recorded in the District's name on the Federal Reserve's book entry system and confirmed to the District via safekeeping receipt maintained on the books of the depository bank's safekeeping department.

HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

Investments purchased for the Houston Independent School District Public Facility Corporation (PFC) are purchased in the name of the PFC and held by the trustee, Bank of New York Mellon, as stipulated in related bond documents.

Concentration of Credit Risk - The investment portfolio is diversified to eliminate the risk of loss resulting from over concentration of assets in a specific maturity, a specific issue, or a specific class of securities. Within the cash flow requirement constraints, investment maturities are staggered in a way that avoids undue concentration of assets in a specific maturity sector.

As of June 30, 2013 no single investment security (FFCB, FHLB, or U.S. Treasury) comprised more than 3.1% of the total investment portfolio.

The maximum asset mix approved by the investment policy is as follows:

<u>Type</u>	<u>District Limit</u>	<u>Issuer Limit</u>
Money Market Accounts	7%	7%
Certificates of Deposit	50%	10%
U.S. Government Securities	100%	100%
U.S. Agency Securities	80%	40%
Municipal Securities	20%	5%
Repurchase Agreements	8%	8%
Investment Pools*	100%	40%
Money Market Mutual Funds	15%	5%
Mutual Funds	15%	5%
Corporate Bonds	15%	5%
Commercial Paper	30%	5%

*The District does not invest its portfolio in any single investment pool. Funds are subdivided between various pools for diversification and security reasons. Investments in any pool will be limited to 25% of the average Net Asset Value of that pool.

The District is prohibited from investing in the following types of investments:

- a. obligations whose payment represents the coupon payments on the outstanding principal balance of the underlying mortgage-backed security collateral and pays no principal;
- b. obligations whose payment represents the principal stream of cash flow from the underlying mortgage-backed security collateral and bears no interest;
- c. collateralized mortgage obligations that have a stated final maturity date of greater than 10 years;
- d. collateralized mortgage obligations whose interest rate is determined by an index that adjusts opposite to the changes in a market index; and
- e. banker's acceptances.

The District neither enters into reverse repurchase agreements nor trades in options or future contracts. Additionally, the District does not participate in any Securities Lending Program.

**HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013**

As of June 30, 2013, the following was the composition of the District's investment portfolio:

Lone Star Investment Pool	29.33%
TexPool	27.13%
U.S. Agency Securities	23.43%
TexSTAR	17.25%
U.S. Treasury Bonds	2.82%
Certificates of Deposit	0.04%
Total	100.00%

Foreign Currency Risk

The District does not engage in any deposit or investment transactions involving foreign currency.

NOTE 4: PROPERTY TAXES AND STATE AID REVENUE

Property Taxes

The appraisal of property within the District is the responsibility of the Harris County Appraisal District ("Appraisal District"). The District's property taxes are levied annually in October on the basis of the Appraisal District's assessed values of property as of January 1 of that calendar year and are due by January 31 of the next calendar year. Such taxes are applicable to the fiscal year in which they are levied and become delinquent with an enforceable lien on property after January 31 of the subsequent calendar year. Delinquent taxes receivable on the government-wide statement of net assets and the governmental fund balance sheet is net of estimated uncollectible taxes.

The District is permitted to levy taxes up to \$1.70 per \$100 of assessed valuation for general governmental services and for the payment of principal and interest on general obligation long-term debt. For the current fiscal year, the Board of Education set a tax rate of \$1.1567 per \$100 of assessed valuation. The maintenance and debt service portions of such rate are \$1.0067 and \$0.15, respectively. The 2012 assessed valuation was \$111,568,771,772 which resulted in a gross tax levy of \$1,290,515,983 for the current fiscal year. The 2012 net tax levy of \$1,257,650,819 reflects an adjustment of \$32,865,164 of frozen homestead exemptions for taxpayers 65 years and older as mandated by state property tax laws.

Property taxes which are measurable (quantifiable) and available (collectible within the current period or soon enough thereafter to finance expenditures of the current period, which the District has estimated to be collected in the two months after the fiscal year end) are recognized as revenue in the year of levy in the governmental fund financial statements. Property taxes, which are measurable but not available, are recorded net of estimated uncollectible amounts, as deferred revenues in the year of the levy in the governmental financial statements. Such deferred revenues are recognized in the fund financial statements as revenue in the fiscal year in which they become available. In the government-wide financial statements, property taxes are recognized as revenues in the year for which the taxes are levied. Uncollectible property taxes in the current period increased the allowance for uncollectible property taxes in the government-wide and fund financial statements by \$4,708,884.

HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

Delinquent taxes receivable and the related allowance for uncollectible taxes in the governmental fund financial statements as of June 30, 2013 are as follows:

	<u>Delinquent Taxes Receivables, Gross</u>	<u>Allowance for Uncollectible Taxes</u>	<u>Delinquent Taxes Receivable, Net</u>
General Fund	\$ 103,065,074	\$ 70,439,563	\$ 32,625,511
Debt Service Fund	<u>12,843,117</u>	<u>9,380,850</u>	<u>3,462,267</u>
Total	<u>\$ 115,908,191</u>	<u>\$ 79,820,413</u>	<u>\$ 36,087,778</u>

State Aid Revenue

The Texas Education Agency, through its application of state law, allocates state revenues to school districts by formula allocation. The District receives two allocations—a per capita allocation and a foundation program allocation. The District also recognizes revenues for the state's share of the contributions to the Teacher Retirement System of Texas (TRS). See Note 11 for additional information on the employee's retirement plan. Other state revenues are received through other state miscellaneous programs on an allocated basis. The components of state aid as shown in the governmental fund financial statements are as follows:

<u>Revenues</u>	<u>Amount</u>
Per Capita Revenues	\$ 85,664,101
Foundation Fund Revenues	175,860,327
Other Foundation	20,000
Other State	18,955,917
TRS on Behalf	60,285,800
Shared Services Arrangement	<u>2,333,454</u>
Total State Aid	<u>\$ 343,119,599</u>

As of June 30, 2013, the District also received state matching funds of \$572,680 in the Food Service Fund.

	DUE TO OTHER FUNDS	\$	<u>(376,450)</u>
<u>OTHER ENTERPRISE FUNDS</u>	General Fund	\$	(40,039,247)
	Debt Service Fund		599
	Special Revenue Fund		4,205
	Food Service Fund		6,543
	Internal Service Funds		(3,599)
	DUE TO OTHER FUNDS	\$	<u>(40,031,499)</u>

***HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013***

INTERNAL SERVICE FUNDS

General Fund	\$ 5,554,806
Capital Renovation Fund	223
Debt Service Fund	(627)
Special Revenue Fund	90,315
Food Service Fund	(835)
Other Enterprises Funds	3,599
DUE FROM OTHER FUNDS	\$ <u>5,647,481</u>

These balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments from funding agencies are received. The primary interfund transactions included amounts due from the Nonmajor Enterprises fund to the General Fund for use of unrestricted revenues.

The following is a summary of the District's transfers for the fiscal year ended June 30, 2013:

\$ 53,712,830	From the General Fund to the Debt Service Fund for interest and principal debt payments
1,095,764	From the Public Facility Corp. to the Debt Service Fund for interest and principal debt payments
15,529,314	From the General Fund to the Capital Renovation Fund to fund the "Pay as you go" initiative and other board authorized projects
12,038,544	From the Capital Renovation Fund to the Debt Service Fund for TIRZ High School payments
39,960,550	From Nonmajor Enterprise Funds to the General Fund for use of unrestricted revenues
\$122,337,002	

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations, and (4) use unrestricted revenues collected in an internal service fund to finance activities in another internal service fund.

Total business-type activities long-term liabilities	<u>\$ 441,255</u>	<u>\$ 253,920</u>	<u>\$ 330,115</u>	<u>\$ 365,060</u>	<u>\$ 138,080</u>

Internal Service Funds predominantly serve the governmental funds. Accordingly, long-term liabilities for them are included as part of the above totals for governmental activities. At year end, \$408,525 of Internal Service Funds' compensated absences payable and \$19,887,669 of claims payable is included in the above governmental activities amounts. For the governmental activities, claims and judgments, and compensated absences are generally liquidated by the General Fund. The above business-type activities include the Food Service Fund and the \$99,025 of compensated absences payable from nonmajor enterprise funds.

Debt Payable-Governmental Activities

At June 30, 2013, the District had outstanding \$2,696,118,201 of general obligation and lease revenue bonds, public property finance contractual obligations, and delinquent maintenance tax notes. Of the \$2,696,118,201 debt payable, \$114,265,785 was attributable to the accretion on capital appreciation bonds. These debt obligations, whose original issuance value was \$3,094,749,708, were issued at various dates from October 15, 1992 through February 14, 2013, with interest rates ranging from 2.0 percent to 6.35 percent for the purpose of new construction and maintenance of facilities. All debt obligations fully mature at various dates through February 15, 2038.

Of the District's \$2,696,118,201 total debt payable outstanding at June 30, 2013, \$107,119,632 of bonds payable and \$29,189,331 of CAB accretions are attributable to lease revenue bonds issued by the Public Facility Corporation.

**HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013**

The District held a bond election on November 6, 2012 for the purpose of authorizing the issuance of \$1,890,000,000 in bonded debt obligations. The election was passed by the electorate. The District utilized \$340,000,000 of the bond authorization through new debt issuance on February 14, 2013 leaving \$1,550,000,000 of authorized but unissued debt.

Bonded debt issuance on February 14, 2013 included a combination of new debt issuance in both fixed and variable rate modes along with refunding transactions intended to realize debt service cost savings.

Limited Tax Schoolhouse and Refunding Bonds, Series 2013A were issued on February 14, 2013 in the amount of \$209,640,000. The new debt issuance utilized \$190,000,000 of the 2012 voter authorization with a par amount of \$166,830,000 and an original issuance premium of \$23,764,073. The sale also included partial advance refunding of the Series 2003 and Series 2005A bonds with a combined par amount of refunding bonds totaling \$42,810,000 and a premium of \$9,831,624. Combined costs of issuance and underwriter's discount for the sale were \$730,543.

The refunding portion of the Series 2013A bond issuance utilized \$1,176,172 of debt service fund balance as a source of funds for the refunding. The refunding resulted in aggregate debt service cash flow savings of \$7,140,574 over the life of the refunding bond debt service compared to the refunded bond debt service. The economic gain on the refunding was \$5,984,052 with a net present value savings of 12.46%. The accounting loss on the transaction of (\$5,000,233) will be deferred and amortized over the life of the refunding bonds.

		\$ 34,760,000

**HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013**

As part of the refunding bond transaction for the Series 2013A issuance, the district placed \$53,655,365 into an irrevocable escrow account which was utilized to purchase a portfolio of U.S. Government Obligations that, together with the interest earned thereon, will provide amounts sufficient to pay when due, the principal of and interest on the bonds which are due in varying amounts through February 15, 2015. The par value of the refunded debt was \$48,020,000. The refunded bonds are considered defeased and no longer included in the debt schedules of the district.

On February 14, 2013 the District issued Variable Rate Bonds, Series 2013B. The Variable Rate Limited Tax Refunding Bonds, Series 2013B were issued as term bonds with initial rate periods expiring on the first day of June in 2014, 2015 and 2016. Following the initial rate period the bonds will convert to and bear interest at a term rate to be determined by the remarketing agent. Subsequent to the initial rate period the interest rate mode may be changed to a weekly rate, monthly rate, quarterly rate, semiannual rate, flexible rate or converted to a fixed rate until stated maturity. Mandatory redemptions equal to the mandatory redemption schedule of the refunded bonds have been established.

The issuance of the Variable Rate Limited Tax Schoolhouse Bonds, Series 2013B utilized \$150,000,000 of the 2012 voter authorization with par principal issued of \$147,130,000 and an original issuance premium of \$3,464,063. The combined costs of issuance and underwriter's discount for the sale of the Variable Rate Limited Tax Schoolhouse Bonds, Series 2013B was \$573,337.

Variable Rate Limited Tax Schoolhouse Bonds, Series 2013B

Maturity June 1st	Initial Rate Period Ending June 1st	Principal	Initial Rate	Initial Yield
2035	2014	\$ 48,030,000	1.00%	0.36%
2036	2015	49,050,000	1.50%	0.59%
2037	2016	50,050,000	2.00%	0.74%
		<u>\$ 147,130,000</u>		

The maximum rate of the bonds cannot exceed the maximum net effective interest rate permitted under Chapter 1204 Texas Government Code as amended. In the event of a failed remarketing a step rate of 6.50% will be invoked until such time as the bonds are successfully remarketed. A failed remarketing will not be considered an event of default.

Limited Tax Refunding Bonds, Series 2013C were issued on February 14, 2013 in the amount of \$92,905,000. The refunding debt included par of \$92,905,000 and an original issuance premium of \$13,129,522. Combined costs of issuance and underwriter's discount for the sale were \$365,598.

Proceeds from the sale of the refunding bonds along with a capital contribution from the debt service fund balance of \$27,922,763 were utilized in order to defease \$124,995,000 in par value of Limited Tax School Building Bonds, Series 2005. The refunding resulted in aggregate debt service cash flow savings of \$32,677,225 over the life of the refunding bond debt service compared to the refunded bond debt service. The economic gain on the refunding was \$19,296,631 for a net present value savings of 15.44%. The accounting loss on the transaction of (\$7,445,969) will be deferred and amortized over the life of the refunding bonds.

Other long-term debt

Arbitrage -- The Federal Tax Reform Act of 1986 requires issuers of tax-exempt debt to make payments to the United States Treasury of investment income received at yields that exceed the issuer's tax-exempt borrowing rates. The U.S. Treasury requires payment for each issue every five years. The District had no arbitrage liability for tax-exempt debt subject to the Tax Reform Act issued through June 30, 2013. The estimated liability is updated annually for any tax-exempt issuances or changes in yields until such time payment of the calculated liability is due. Liabilities resulting from issuances in the General Fund are typically liquidated in the General Fund. Liabilities resulting from issuances in the Capital Renovation Fund are liquidated in the Capital Renovation Fund if unspent proceeds are remaining.

Compensated Absences -- On retirement or death of certain employees who meet eligibility requirements, the District pays any accumulated sick leave as an employer contribution to a 403(b) plan in the employee's name to such employees or the estates of the employees. Individuals employed after October 9, 1972 are not eligible to receive the lump-sum cash payments. Additionally, certain employees are entitled to receive accrued vacation pay in a lump-sum cash payment upon termination of employment with the District. The net increase of \$1,614,118 over the prior fiscal year represents the recorded liability for employees vesting in the accumulated sick leave program adjusted by the amounts paid employees retiring from the District.

Capital Leases – Leased Equipment -- In 2002, the District entered into capital leases with Apple Lease Financing and HP Lease Financing. Each lease meets the criteria of a capital lease as defined by generally accepted accounting principles, which define a capital lease generally as one which transfers benefits and risks of ownership to the lessee.

Capital assets acquired by lease have been capitalized in an amount equal to the present value of the future minimum lease payments at the time of acquisition. Principal and interest payments in fiscal year 2012 totaled \$27,504 and \$2,498, respectively. Principal and interest payments in fiscal year 2013 totaled \$28,569 and \$1,433, respectively. The General Fund has typically been used in prior years to liquidate capital lease liabilities.

HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013

The future minimum lease obligations and the net present value of these minimum equipment lease payments as of June 30, 2013 were as follows:

Year Ending June 30	Governmental Activities
2014	\$ 35,546
2015	35,546
	<hr/>
Total minimum lease payments	71,092
Amount Representing Interest at 6.209%	(4,414)
	<hr/>
Present Value of minimum lease payments	\$ 66,678
	<hr/> <hr/>

NOTE 9: OPERATING LEASES

The District leases office facilities and instructional educational facilities under noncancellable operating leases. Total cost for such leases was \$573,447 for the fiscal year ended June 30, 2013. The future minimum lease payments for these leases are as follows:

Year Ending June 30	Amount
2014	\$ 466,985
2015	322,295
2016	150,061
2017	49,068
	<hr/>
	\$ 988,409
	<hr/>

NOTE 10: RISK MANAGEMENT

The District is exposed to various risks related to torts: theft of, damage to and destruction of assets; errors and omissions; and natural disasters. The District's risk management program encompasses various means of protecting the District against losses through policies with commercial insurance carriers or through self-insurance.

Workers' Compensation

The District maintains a self-insurance program for workers' compensation. Contributions are paid from all governmental and proprietary funds to the Workers' Compensation Internal Service Fund from which all claims and administrative expenses are paid. Claims administration, loss control, and consultant services are provided by a third party administrator. The District maintains a catastrophic loss insurance policy for catastrophic losses exceeding \$1,000,000 per occurrence up to statutory limit of liability.

An accrual for incurred but not reported claims in the amount of \$11,696,669 (discounted at 3 percent), of which \$6,943,362 is the current portion, has been recorded in the fund as of June 30, 2013. Claims payable, including

**HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013**

an estimate of claims incurred but not reported, was actuarially determined based on the District's historical claims experience and an estimate of the remaining liability on known claims.

At June 30, 2013, the fund had net position of \$26,497,497. Changes in claims payable for the fiscal years ended June 30, 2012 and 2013 are as follows:

	<u>2013</u>	<u>2012</u>
Claims payable, beginning of fiscal year	\$ 15,571,772	\$ 16,105,921
Incurred claims and claim adjustment expenses for insured events of the current fiscal year	5,787,453	5,858,358
Increase (decrease) in provision for insured events of prior fiscal year	<u>(5,809,120)</u>	<u>2,631,564</u>
Total incurred claims and claim adjustment expenses	<u>(21,667)</u>	<u>8,489,922</u>
<u>Payments:</u>		
Claims and claim adjustment expenses attributable to insured events of the current fiscal year	1,356,369	3,071,549
Claims and claim adjustment expenses attributable to insured events of the prior fiscal year	<u>2,497,067</u>	<u>5,952,522</u>
Total payments	<u>3,853,436</u>	<u>9,024,071</u>
Claims payable, end of fiscal year	<u>\$ 11,696,669</u>	<u>\$ 15,571,772</u>

Health Insurance

Effective January 1, 2002, the District established a self-insurance program for health insurance. Contributions are paid from all governmental and proprietary funds to the Health Insurance Internal Service Fund from which all claims and administrative expenses are paid. Claims administration and consultant services are provided by a third party administrator. The District maintains aggregate stop loss coverage for medical cost.

The District is insured for covered medical paid and incurred during the plan year by Aetna under an annual aggregate insurance contract. The coverage provides that the insurer will reimburse the District for such paid claims that exceed an annual aggregate attachment point that is determined by a monthly amount per covered employee based on the tier of coverage enrolled.

An accrual for incurred but not reported claims in the amount of \$8,191,000, of which \$7,874,350 is the current portion, has been recorded in the fund as of June 30, 2013. Claims payable, including an estimate of claims incurred but not reported, was actuarially determined based on an estimate of the remaining liability on known claims.

**HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013**

At June 30, 2013, the fund had net position of \$72,954,686. Changes in claims payable for the fiscal years ended June 30, 2012 and 2013 are as follows:

	<u>2013</u>	<u>2012</u>
Claims payable, beginning of fiscal year	\$ 8,319,000	\$ 14,704,685
Incurred claims and claim adjustment expenses for insured events of the current fiscal year	90,598,964	78,485,758
Increase in provision for insured events of prior fiscal year	<u>4,768,366</u>	<u>4,130,829</u>
Total incurred claims and claim adjustment expenses	<u>95,367,330</u>	<u>82,616,587</u>
Payments:		
Claims and claim adjustment expenses attributable to insured events of the current fiscal year	90,720,564	84,552,158
Claims and claim adjustment expenses attributable to insured events of the prior fiscal year	<u>4,774,766</u>	<u>4,450,114</u>
Total payments	<u>95,495,330</u>	<u>89,002,272</u>
Claims payable, end of fiscal year	<u>\$ 8,191,000</u>	<u>\$ 8,319,000</u>

Property, Casualty, General and Professional Liability

The District purchases All-Risk Property Insurance with limits of \$150,000,000. National Flood Insurance Program policies are purchased for those facilities in the 100-year flood plain. General and Professional Liability risks are insured with limits of \$9,750,000. Within these policy limits, the District's exposure for covered losses is limited to the policy deductibles and self-insured retentions. Automobile liability exposures are self-insured in Texas and insurance coverage is purchased for out of state risks with a \$1,000,000 limit. The District has not had any claims in excess of its policy limits in the past three years.

NOTE 11: EMPLOYEES' RETIREMENT PLAN

Plan Description

The District's Teacher Retirement System is a defined benefit plan, in which a retired employee receives a specific amount based on salary history and years of services, and in which the employer bears the investment risk. The District's employees are covered by the Teacher Retirement System of Texas ("TRS"). TRS, a public employee retirement system ("PERS"), is a multiple-employer defined benefit pension plan. It is a cost sharing PERS with one exception: all risks and costs are not shared by the District but are the liability of the State of Texas. By statute, the State of Texas contributes to the retirement system an amount equal to the current authorized rate multiplied by the aggregate annual compensation of all members of the retirement system during that fiscal year. The District's covered payroll and the total payroll for the year ended June 30, 2013 were \$1,039,815,431 and \$1,105,103,241, respectively. For members of the retirement system entitled to the State's statutory minimum salary for school personnel, the District pays the State's contribution on the part of the member's salary that exceeds the statutory minimum.

The District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit postemployment health care plan administered by TRS. TRS-Care Retired Plan provides health care coverage for certain persons (and their dependents) who retired under TRS. The statutory authority for the program is Texas Insurance Code, Chapter 1575.

***HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013***

Types of Employees Covered

All members of public state-supported educational institutions in Texas who are employed for one-half or more of the standard workload and who are not exempted from membership under the Texas Government Code are covered by the plan.

Benefit Provisions and Service Requirements

TRS administers retirement and disability annuities and death and survivor benefits to employees and beneficiaries of employees of the public school system of Texas. It operates primarily under the provisions of the Texas Constitution Article XVI, Section 67 and the Texas Government Code, Title 8, Subtitle C, Chapter 803 and 805, respectively. Service requirements are as follows:

Normal -- Age 65 with 5 years of credited service, or when the sum of member's age and years of credit equals or exceeds 80.

Reduced -- Age 55 with at least 5 years of credited service, or any age below 50 with 30 or more years of credited service.

Members are fully vested after five years of creditable service and are entitled to any benefit for which eligibility requirements have been met.

Funding Policy

Contribution requirements are not actuarially determined, but are legally established each biennium pursuant to the following state funding policy: (1) the state constitution requires the legislature to establish a member contribution rate of not less than 6 percent of the member's annual compensation and a state contribution of not less than 6 percent of the member's annual compensation rate and not more than 10 percent of the aggregate annual compensation of all members of the system during the fiscal year, (2) a state statute prohibits benefit improvements if, as a result of the particular actions, the time required to amortize TRS's unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or if the amortization period exceeds 31 years, the period would be increased by such action.

State law provided for a state contribution rate increased from 6.0 percent to 6.4 percent effective September 1, 2012. The member contribution rate of 6.4 percent remains constant for fiscal year 2013. The State of Texas contributes 6.4 percent of all employees' eligible gross earnings, except for those District employees subject to the statutory minimum rules and those employees being paid from and participating in federally funded programs for the fiscal year 2013. The statutory minimum requirements are based on the State of Texas minimum teacher schedule and then adjusted based on local tax rates. For employees paid by federal programs, the federal programs are required to contribute the state's portion.

The State of Texas and active public school employee contribution rates were 1.0% and 0.65% of public school payroll, respectively, with school districts contributing a percentage of payroll set at 0.55% for fiscal years 2012, 2011, and 2010. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. For the years ended August 31, 2012, 2011, and 2010, the total contributions paid to the pension plan were \$4,240,401,350, \$4,576,381,036, and \$4,498,851,499, respectively; the active member contributions were \$2,188,020,423, and \$2,243,954,725, and \$2,205,017,425, respectively; contributions from the state of Texas were \$1,390,610,141,

**HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013**

\$1,595,771,774, and \$1,574,782,741, respectively; and contributions from reporting employers were \$369,988,429, \$411,889,817, and \$412,268,503, respectively. The District's contributions for the years ended August 31, 2012, August 31, 2011, were \$2,456,172 and \$2,379,969, respectively, and the estimated contribution for the year ending August 31, 2013 is \$3,621,862.

Contributions Required and Made

Employees of the District were required to pay 6.65 percent of their eligible gross earnings to TRS. Of the 6.65 percent, 0.25 percent was a contribution towards TRS-Care retiree health insurance. Effective September 1, 2003, the Texas legislature enacted legislation related to the funding of TRS-Care. House Bill 3459 of the 78th Legislature increased the 0.25 percent active member contribution to 0.5 percent of salary and added a new contribution from school districts for 0.4 percent of salary of each active employee. Effective September 1, 2005, the 79th Legislature enacted changes to increase the 0.5 percent of salary of each active member contribution to TRS-Care to 0.65 percent of salary and increased the 0.4 percent contributions from school districts to 0.55 percent of salary of each active employee. The State of Texas contributes 6.4 percent for all District employees except for employees' salaries paid from federal or local grants since their contributions are paid by the District from funds received from grantor agencies. Both of those rates are set by state statutes. The statutory minimum requirements are based on the State of Texas teacher schedule adjusted by local tax rates. For members funded by federal programs, the federal programs are required to contribute 6.9 percent. Effective September 1, 2012, the Texas legislature enacted legislation to increase the state contribution rate from 6.00% to 6.4% and to decrease the contribution rate for federal funded programs from 7.0% to 6.9%. Contributions made by the State, the District, and its employees; and the District's covered payroll for fiscal years ended June 30, 2011, June 30, 2012, and June 30, 2013 are equal to required contributions and were made as follows:

Pension Contributions

	State Contributions Made on Behalf of the District	District Required Contributions to TRS	Member's Contributions to TRS	Covered Payroll	State Contribution Rate	Member's Contribution Rate
2011	\$68,611,970	\$17,058,027	\$74,421,447	\$1,162,835,115	6.644%	6.40%
2012	\$57,197,148	\$12,317,122	\$67,393,504	\$1,053,023,493	6.000%	6.40%
2013	\$59,665,849	\$13,387,104	\$66,548,188	\$1,039,815,431	6.400%	6.40%

Contributions to TRS-Care

	State Contribution Made on Behalf of the District	District Required Contributions to TRS-Care	Member's Contributions to TRS-Care	Covered Payroll	State Contribution Rate	Member's Contribution Rate
2011	\$693,050	\$5,944,211	\$7,558,428	\$1,162,835,115	1.00%	0.65%
2012	\$577,749	\$5,792,194	\$6,844,653	\$1,053,023,493	1.00%	0.65%
2013	\$299,828	\$5,712,378	\$6,758,800	\$1,039,815,431	0.50%	0.65%

**HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2013**

On-Behalf Payments

The amounts recognized from state revenues and expenditures for on-behalf payments relating to fringe benefits for the year ending August 31, 2013 were as follows:

	<u>Amount</u>
Contributions to pension plan	\$ 59,965,677
Insurance contributions (TRS Care)	6,758,800
Estimated contributions (Medicare Part D)	3,621,862
	<u>\$ 70,346,339</u>

The contributions made by the State on behalf of the District have been recorded in the government-wide financial statements and in the fund financial statement of the General Fund as both state revenues and payroll expenditures. These contributions are the legal responsibility of the State.

TRS issues a publicly available financial report that includes financial statements and required supplementary information for the defined benefit pension plan and TRS-Care. That report may be found by visiting the TRS Web site at www.trs.state.tx.us, by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701, or by calling 1-800-223-8778.

NOTE 12: COMMITMENTS AND CONTINGENCIES

The District received significant financial assistance from numerous federal and state governmental agencies in the form of grants. The disbursements of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies and the Texas Education Agency. Any disallowed claims resulting from such audits could become a liability of the General Fund.

NOTE 13: SUBSEQUENT EVENT

On July 1, 2013 the Texas Education Agency ordered the annexation of North Forest Independent School District by Houston Independent School District. The annexation order included the assumption of all debt by the District totaling \$60 million in principal and the acquisition of all land and property previously owned by North Forest Independent School District. Property tax values of \$1.46 billion will be included within the jurisdiction of Houston Independent School District and approximately 6,000 students will be added to the enrollment of the District.

**HOUSTON INDEPENDENT SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE FISCAL YEAR ENDED JUNE 30, 2013
(UNAUDITED)**

Note 1: Stewardship, Compliance, and Accountability

The District uses the following procedures in establishing the budgets reflected in the financial statements:

- Prior to June 30th of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted to obtain citizens' comments. However, the final priorities and funding of projects are determined by the Board of Education that establishes a tax rate to support the approved budget.
- A meeting of the Board of Education is then called for the purpose of adopting the proposed budget.
- Budgets are approved on a fund-by-fund basis. The District can make amendments to the budget at any time during the year; however, amendments changing functional expenditure categories or revenue object accounts (as defined in the Texas Education Agency's *Financial Accountability System Resource Guide*) must be approved by the Board of Education. Additionally, the Board of Education formally reviews the budget twice during the fiscal year.
- Budgets are considered a management control and planning tool and as such are incorporated into the accounting system of the District.
- Annual budgets are legally adopted for the General Fund, the Special Revenue Fund, the Debt Service Fund, the Capital Renovation Fund, and the Food Service Fund. The budgets are prepared on a basis of accounting that is used for reporting in accordance with generally accepted accounting principles and are monitored by the Budgeting Office. By state law, expenditures may not legally exceed budgeted appropriations, as amended at the function level by fund. Unexpended appropriations lapse at the end of the fiscal year.

(This Page Left Blank Intentionally)

HISD

2013 Combining and Individual Fund Statements and Schedules

Houston Independent School District

NONMAJOR ENTERPRISE FUNDS

The **Business Development Fund** is used to account for the financial operations of the District's Marketing Office. The Marketing Office was organized to help develop and coordinate the District's efforts in marketing and the sale of goods and services to other school districts. Primary relationships between HISD and other school districts are through cooperative purchasing programs or inter-local agreements, both of which are statutorily authorized ways for governmental entities to acquire goods or services. Activities involve the marketing and development of business relationships, both directly related to district products, including curriculum and virtual schools material, and products/services developed through vendor/HISD partnerships, such as benefits programs and an online drivers education program. The Marketing Office also assists other HISD departments in their marketing efforts and schools in fundraising activities. The Marketing Office manages contracts related to marketing and sales activities and participates actively in the development of entrepreneurial approaches to securing funding for various innovative district activities.

The **Medicaid Fund** is used to account for the financial operation of special reimbursement programs offered by the District. For several years, the District has participated in a Medicaid reimbursement program, which is a federal program to provide partial reimbursement for health care services provided to eligible children. The District currently provides Medicaid advisory services to over 425 schools in over 75 Texas school districts.

The **Marketplace Fund** is used to account for the financial operation of the restaurant-style cafeteria on the first level of Hattie Mae White (HMW) Educational Support Center. The District established the Marketplace years ago as a benefit to employees working in the HMW building. The Marketplace currently serves approximately 300 employees on a daily basis as well as provides catering services to departments within and outside of HMW.

INTERNAL SERVICE FUNDS

The **Print Shop Fund** is used to account for all the printing and distribution activities of the District's two print shop facilities. Schools and departments are charged for the costs of printing and distribution requests. During non-peak times, the Print Shop takes in work from other governmental agencies requiring assistance during their peak periods. The District also has reciprocal agreements with other governmental agencies in the event a backlog of jobs is experienced by District users.

The **Health Insurance Fund** is used to account for the health insurance plan administered by the District. The plan is a self-insured plan requiring the District and its employees to contribute the cost. The District contributes approximately 66.85 percent of the annual cost of the plan with employees paying for the remaining 33.15 percent. These contributions are paid from all governmental and proprietary funds to the Health Insurance Fund from which all claims and administrative expenses are paid.

The **Workers' Compensation Fund** is used to account for risk financing activities related to the self-insured workers' compensation program. All employees of the District are covered by this plan for injuries occurring on the job. The District contributes 100 percent of the funding for this program.

The **Internal Services Fund** is used to account for the fee-for-services offered by the District to serve the specific needs of schools and departments. The Alternative Certification, Athletics, UIL, Virtual School, and Shared Services programs are accounted for within this fund.

AGENCY FUNDS

The **Centralized Activity Fund** was created in 1977 for the purpose of providing centralized accounting for school activity funds. As of June 30, 2013, eighty-one schools are in the program. The program also includes accounting for activity funds of various administrative departments or groups. Centralized accounting includes deposits to a central depository, funds invested by the Accounting Department for best utilization of cash balances, check writing, ledger maintenance and reporting provided through the district's accounting system. Schools in the district are required to maintain uniform accounting records. The Activity Fund Section of the Office of the Inspector General reviews the activity funds of these schools during the fiscal year.

The **Noncentralized Activity Fund** represents the activity fund balances for all elementary schools that maintain the accounting records at their respective campuses. Each school has its own bank account and deposits monies into the various activity fund accounts and disburses funds by check from these accounts. The Activity Fund Section of the Office of the Inspector General audits the activity funds of these schools annually.

Houston Independent School District

2013 Statistical Section

Statistical Section

HOUSTON INDEPENDENT SCHOOL DISTRICT

STATISTICAL INFORMATION

(Unaudited)

The Statistical Section of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

CONTENTS

Financial Trends

These schedules contain information to help the reader understand how the District's financial performance has changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the District's major revenue sources.

Debt Capacity

These schedules contain information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the district's financial report relates to the services the District provides and activities it performs.

SOURCES

Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The District implemented GASB Statement No. 54 in 2011 and governmental schedules include the new fund balance classifications. GASB Statement No. 63 was implemented in 2013 and amends GASB 34 to incorporate deferred outflows or resources and deferred inflows of resources into the financial reporting model.

7.55%

NOTE: General Governmental Expenditures include those made by the following funds: General, Special Revenue, Debt Service, Capital Renovation, and the nonmajor governmental fund (Public Facility Corporation). The debt service ratio is calculated by dividing total debt service (principal and interest) by the difference of total expenditures less capital expenditures as noted in the reconciliation of governmental funds to governmental activities.

The current refunding in fiscal year 2012 has been deducted from non-capital expenditures in order to insure comparability between years.

After the 2003-2004 fiscal year, the amounts shown under Community Services do not include the expenditures for the Tax Reinvestment Zones.

Prior to 2005-2006, instructional staff development and curriculum development were one function.

Legal Debt Margin Calculation for Fiscal Year 2013:

Assessed Value	\$111,568,771,772
Maximum Tax Rate (1)	\$0.50
Number of Years (2)	40
Maximum Principal	\$ -
Outstanding Principal (3)	\$ 2,473,907,334

Notes:

(1) Per Section 45.0031 of the Texas Education Code, the District has to have a projected ability to pay the principal of and interest on the bonds from a tax at a rate not to exceed \$0.50 per \$100 of valuation.

(2) Per Section 45.001, the Bonds must mature serially or otherwise not more than 40 years from their date.

(3) Outstanding Principal includes bonded debt, contractual obligations, notes payable, and capital leases net of reserves for retirement of bonded debt. Net debt applicable to the legal debt margin is equal to net bonded debt.

TOTAL DIRECT AND OVERLAPPING DEBT				\$ <u>6,765,576,941</u>

Notes: Information furnished by Texas Municipal Advisory Council, except for the net debt of the Houston Independent School District.

The percentage of overlapping debt is estimated using property market values. Percentages were estimated by determining the portion of the overlapping taxing authority's market value contained within the District's boundaries and dividing it by the overlapping taxing authority's total market value.

Net debt for the Houston Independent School District includes the following:

Bonds	\$ 2,309,883,578
Notes	55,485,000
Contractual Obligations	52,355,000
PFC debt	107,119,632

NOTES:

Population estimates have been restated from 2004 through 2013. Previous financial statements have utilized the Houston-Sugarland-Baytown MSA obtained from the US Bureau of Economic Analysis via DATAbook Houston (June 2006) using an estimated average annual increase from 2006 forward.

Population estimates have been revised utilizing population figures for the Houston Independent School District geographic area only as reported by the National Center for Education Statistics for US census years 2000 and 2010. Intervening years are estimated based upon average annual percentage increases.

Per capita income figures for the fiscal year 2004 were for the Houston-Sugarland-Baytown MSA

and were obtained from the US Bureau of Economic Analysis via DATAbook Houston (June 2006)

Per capita income figures for the fiscal years 2005 - 2010 and 2013 are estimates based on the increase reported by the

US Bureau of Economic Analysis via DATAbook Houston

Per capita income figure for the fiscal year 2011 is an estimate based on the increase reported by Tradingeconomics.com

Per capital income figure for the fiscal year 2012 is an estimate based on the increase reported by the US Department of Commerce

Average Daily Attendance obtained from the Academic Excellence Indicator System

Unemployment rate for the City of Houston, as reported by the US Bureau of Labor Statistics

Total assessed value information obtained from the Harris County Appraisal District - Certified Values Only (Single Family and Mobile Homes)
