

**MEMORANDUM**

July 07, 2022

TO: Board Members

FROM: Millard House II  
Superintendent of Schools

SUBJECT: **CAMPUS DEMOGRAPHIC REPORT, 2021–2022**

CONTACT: Allison Matney, Ed.D. 713-556-6700

Attached is a copy of the Campus Demographic Report for 2021–2022. Overall, 194,141 students were actively enrolled districtwide this school year. This report provides information on the student population, enrollment trends, and transfer demographics for zoned and non-zoned campuses in Houston ISD (N=274). Additional data elements include campus program type and facility capacity and utilization. Supplemental maps are included to visualize student transfers between HISD campuses. Interactive dashboards for both [zoned campuses](#) and [non-zoned campuses](#) are also available for the 2021–2022 school year.

Key findings include:

- The majority of HISD-enrolled students residing within HISD boundaries attended their zoned comprehensive school (n=137,845, or 71% of 194,141). This year's report specifically describes these students for the first time, in the column "Zoned & Attend".
- Over 10,000 students attended Texas Connections, the online charter school authorized by HISD Board. This represents major enrollment growth from 8,020 students in 2020–2021 and from 6,290 students in 2019–2020.
- An estimated 45,637 kindergarten through 12<sup>th</sup> grade students resided within HISD's boundaries but did not attend an HISD campus. The majority of these students (n=42,942) were enrolled with 55 different Charter Management Organizations (CMOs). Almost 300% as many HISD-residing students transferred out to enroll in other ISDs (estimated n=2,695) as transferred in to attend HISD from their ISD of residence (n=934).

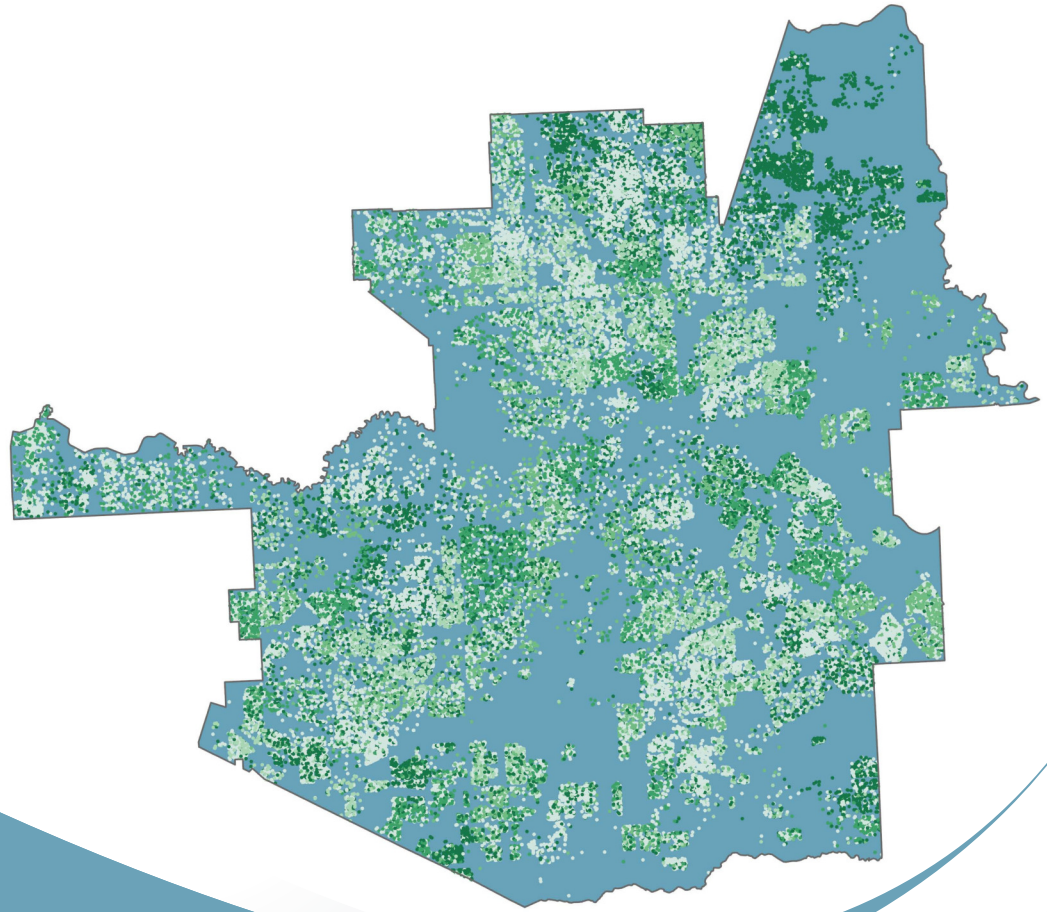

Should you have any further questions, please contact Dr. Allison Matney in Research and Accountability at 713-556-6700.

## Overview

Overall, 194,141 students were actively enrolled districtwide in the 2021–2022 school year. This report provides information on the student population, enrollment trends, and transfer demographics for zoned<sup>1</sup> and non-zoned<sup>2</sup> campuses in the Houston Independent School District (HISD) (N=274).

Below are short definitions to shortlisted variables shown in the Demographics Groups and Race and Ethnicity tables of this report.<sup>3</sup> All values reflect ADA > 0<sup>4</sup> (i.e., campus student membership) at Public Education Information Management System (PEIMS) fall snapshot.<sup>5</sup>

- **Live In Zone:** Students enrolled in HISD whose address of residence is within the zone for this specific campus and attend any HISD school.
- **Transfers Out:** Students enrolled in HISD whose address of residence is within the zone for this specific campus but who do not attend this specific campus.
- **Transfers In:** Students enrolled in HISD whose address of residence is not within the zone for this specific campus and who attend this specific campus. This does not include students who reside out of district (see below).
- **Zoned & Attend:** Students enrolled in HISD whose address of residence is within the zone for this specific campus and who attend this specific campus.
- **Out of District:** Students enrolled in HISD whose address of residence is determined to be outside the district boundaries and who attend this specific campus.
- **Zone Unknown:** Students enrolled in HISD whose zoned campus cannot be determined due to their address, and who attend this specific campus.
- **Total Enrolled:** Students enrolled in this specific campus, regardless of their zone of residence.

### TABLE: DEMOGRAPHIC GROUPS

This table is available for campuses both with and without attendance boundaries. For campuses without attendance boundaries, the available data tables may vary. The table also provides membership and demographic information pertaining to the enrolled students at the campus.

<sup>1</sup> A zoned campus is a campus with an attendance boundary.

<sup>2</sup> A non-zoned campus is a school of choice that does not have an associated attendance zone.

<sup>3</sup> Note that for campuses without attendance boundaries, the available data tables may vary.

<sup>4</sup> ADA-ELIGIBILITY-CODE indicates the eligibility status of the student as reflected in the attendance accounting records of the district.

### TABLE: RACE AND ETHNICITY

This table is available for campuses with and without attendance boundaries. It shows the race/ethnicity groups of HISD students attending the specific school at PEIMS fall snapshot.<sup>6</sup>

### TABLE: HISD SCHOOLS THE ZONED POPULATION ATTEND

This table is available for campuses with attendance boundaries. It lists the top six HISD schools the zoned population attend alongside their campus program type. Various HISD campus programs are outlined below:

- Alternative
- Comprehensive: a school with an associated attendance zone
- Disciplinary Alternative Education Program (DAEP)
- Early Childhood Center (ECC)
- HISD Charter
- Juvenile Justice Alternative Education Program (JJAEP)
- School Choice Enrollment based on application only and not by zone of residence. Exceptions may apply — see School Guidelines for details.
- School-Wide Programs (SWP Magnet): a school with an associated attendance zone where *all* students participate in the magnet theme
- School Within a School (SWAS Magnet): a school with an associated attendance zone where *some* students participate in the magnet theme
- Separate and Unique Schools (SUS Magnet): school of choice *without* an attendance zone where *all* students participate in the magnet theme
- Special Education

In 2021–2022, about a third of HISD-enrolled students living within HISD boundaries attended an HISD campus other than their zoned school (n=56,296, or 29% of 194,141). Nearly forty percent of these students (21,912 or 38.9% of 56,296) enrolled via pathways that were unrelated to campus magnet programs: 10,502 attended other comprehensive schools within HISD, 3,752 attended HISD-authorized charters, 3,731 went to non-magnet HISD schools of choice, 2,963 attended HISD's Early Childhood Centers, and about 950 went to HISD's various alternative education placements. Conversely, over sixty percent (34,384 or 61.0% of 56,296) of these

<sup>5</sup> The PEIMS Fall Submission represents the state of the local education agency as of the PEIMS Fall snapshot date, which is the last Friday in October.

<sup>6</sup> Federal race reporting categories Asian and Native Hawaiian/Pacific Islander were combined into one category prior to 2020–2021 school year. To comply with federal reporting requirements, these groups are now reported separately.

students-on-transfers enrolled via campus magnet programs. Notably, twice as many students transferred via magnet programs at comprehensive schools (n=22,766 for SWPs and SWAS programs) as via magnet programs at schools with no associated zone (n=11,618 for SUS programs).

### TABLE: NON-HISD SCHOOLS THE ZONED POPULATION ATTEND (ESTIMATE)

This table is available for campuses with attendance boundaries. It lists the top six non-HISD schools the zone population transferred to. Population and Survey Analysts (PASA) provided the data used to determine the number of students zoned to each HISD school but not enrolled in those schools. The data contained values with fractions and thus, were rounded down to whole numbers which were finally populated as estimates. The data only includes Charter Management Organization (CMOs) and traditional Independent School Districts (ISDs).

In 2021–2022, over 10,000 students attended Texas Connections (TCAH), the online charter school authorized by HISD Board. This represents major enrollment growth from 8,020 student in 2020–2021 and from 6,290 students in 2019–2020. Notably, most students enrolled in TCAH had an address outside the HISD boundary (9,337 of 10,126).

Together with PASA, our GIS Analyst estimated that 45,637 K–12 students resided within HISD's boundaries but do not attend an HISD campus. The majority of these students (42,942) were enrolled in 55 different Charter Management Organizations (CMOs). Two CMOs represented over half of these students: KIPP Texas (estimated 12,164) and Yes Prep (estimate 11,220). An estimated six CMOs each enrolled between 1,100 and 2,200 HISD-residing students respectively: IL or Intl. Leadership of TX, Harmony - Houston South, Gateway Academy, Southwest School, Promise Community Schools from Baker Ripley, and Raul Yzaguirre.<sup>7</sup>

### TABLE: FACILITY CAPACITY AND UTILIZATION

This table shows the capacity and utilization rate of the campus for the given school year. Information about facility capacity and utilization was derived from MOCA database.

- Overall Facility Capacity: includes capacity of permanent and temporary building(s). Overall facility capacity data was retrieved from MOCA database.

- Overall Facility Utilization: includes utilization rate of permanent and temporary building(s). This is calculated as Fall 2021 campus PEIMS membership count/campus overall building(s) capacity.
- Permanent Facility Capacity: includes capacity of permanent building(s) only. Permanent facility capacity data was retrieved from MOCA database.
- Permanent Facility Utilization: includes utilization rate of permanent building(s) only. This is calculated as Fall 2021 campus PEIMS membership count/campus permanent building(s) capacity

### TABLE: TRANSFERS IN CAMPUS OF RESIDENCE

This table is available for campuses with attendance boundaries. It lists the top six schools from which the enrolled students transferred.

### TABLE: HOME CAMPUS OF ENROLLED STUDENTS

This table is available for campuses without attendance boundaries. It lists the schools from which the enrolled students transferred.

### TABLE: CENSUS ESTIMATE FOR PK-12 POPULATION IN ZONE

This table is available for campuses with attendance boundaries. The table shows the census population estimate of Pre-K through 12<sup>th</sup> grade students living within the school attendance boundary and attending public or private schools. The US Census Bureau 5-year (2020) American Community Survey block group estimates was used to determine the Pre-K through 12<sup>th</sup> grade student population attending public or private schools and living within the school zone. The values were determined by the census block group percent area overlap of each school zone.

<sup>7</sup> A full list of student enrollment estimates of these aforementioned CMOs and an additional 47 CMOs with student enrollment estimates of one thousand or less is available upon request.

Texas Education Agency, Public Information Request #53170, April 12, 2022

## DATA SUMMARY

*Texas Education Agency (TEA) Fall PEIMS Resubmission data was used to determine school populations and demographics.*

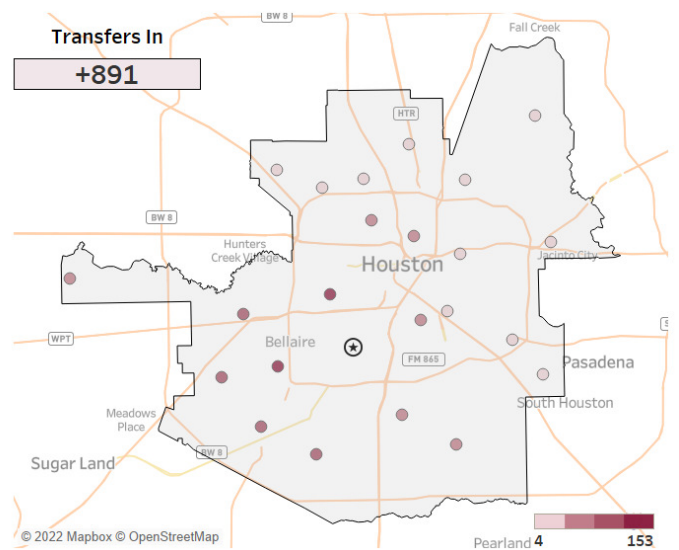

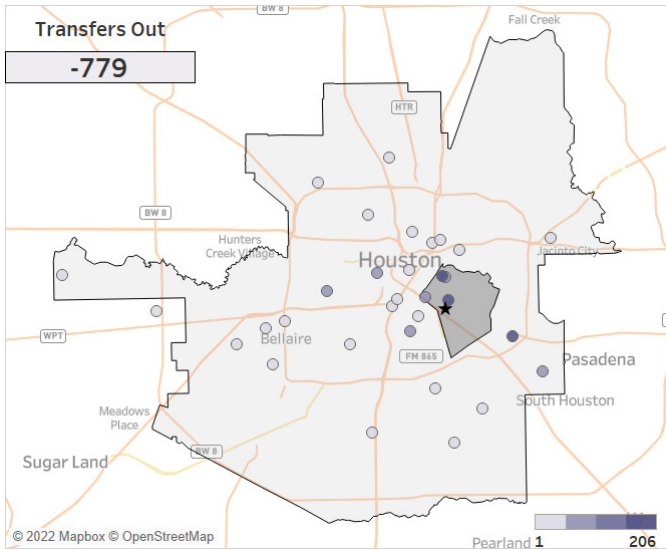

*ArcGIS Pro 2.9 software was used to derive the zoned school for each student, based on the address on file in PowerSchool SIS. Data reshaping and visualization were done in Stata 16 – SE and Tableau 2022.1 respectively.*

*HISD's GIS Analyst collaborated with PASA (Population and Survey Analysts) to estimate the count of students zoned to each HISD campus but who are enrolled with a different district. This estimate was based on the file received from Texas Education Agency (TEA) under Public Information Request on April 12, 2022. Estimates were rounded down to the nearest whole number. These estimates include only traditional school districts ("Public") and charter management organizations ("Charter").*

*Pre-K through 12<sup>th</sup> grade student population estimates in public and private schools living in a school zone were derived from the U.S. Census Bureau and determined by the census block group percent area overlap of each school zone. All Pre-K through 12<sup>th</sup> grades with ages 3years and above were considered.*

*HISD Campus Information List provided the school names and locations of all campuses.*

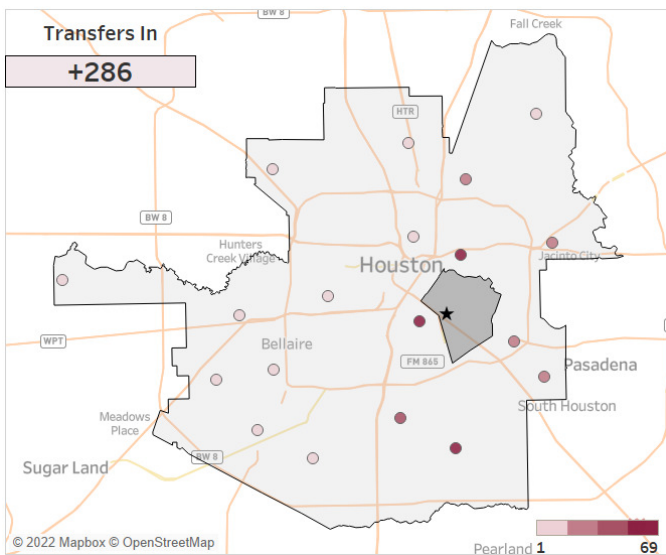

**MAP: TRANSFERS OUT (ZONED)**

This map shows the attendance boundary (grey-colored shape) and physical location of the zoned school (star symbol). Student population density is represented by the graduated colors within the circles. The circles represent the locations of schools those students (transferred out) are enrolled in.

**MAP: TRANSFERS IN (NON - ZONED)**

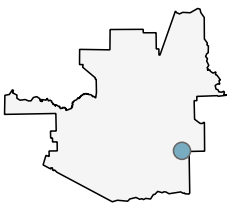

This map is available for campuses without attendance boundaries. The map shows the physical location of the school (star symbol). Student population density is represented by the circular graduated colors. The circles represent the locations of schools where students transferred from.

**MAP: TRANSFERS IN (ZONED)**

This map Shows the attendance boundary (grey-colored shape) and physical location of the zoned school (star symbol). The student population density that transferred into the school is represented by the graduated colors within the circles. The circles represent the locations of schools where students transferred in from.
