

Board Meeting

ITEM A-2

A-2A GOAL PROGRESS MEASURE 4.2. AND 4.3

How many students (per grade level), and teachers are at the following campuses: Secondary DAEP and High School Ahead?

Teachers: HSA – 10; Secondary DAEP – 32

Students: HSA 6th – 27, 8th – 94; Secondary DAEP 6th – 24, 7th – 39, 8th – 51, 9th – 66, 10th – 33, 11th – 12, 12th – 16

Are these teachers eligible for teacher incentives? If not, why?

HISD has announced, beginning in the February strategic plan workshop, a range of incentives for teachers across the district. First and most significantly, the administration's three-year compensation plan will increase the average teacher's salary by more than 17% between June 2022 and August 2024. This is twice as fast as the last roughly 17% increase implemented by prior administrations and prior Board budget approvals - that is, it took current HISD teachers *six* years (since 2015-2016) to earn this level of a multi-year raise. This begins with an average 6.75% increase this summer. This equates to \$4,167 on average - certainly the largest one-time average teacher raise in many years and perhaps ever. The average teacher's salary in August 2024 will be more than \$10,310 higher than it is in June 2022. Every teacher in the district is included in these salary increases.

Second, teachers who teach in HISD-identified critical shortage areas in SY 2022-2023 will receive critical shortage stipends. These stipends are higher and available to more teachers than in SY 2021-2022. Special education teachers, as well as bilingual education teachers and ESL teachers who complete specific requirements set by the Multilingual department, will receive a \$5,000 stipend. Secondary math and science teachers, as well as CTE teachers, will receive a \$2,000 stipend. Every teacher in the district is eligible for these stipends if they teach in one of the critical shortage areas.

Third, new teachers in all schools and all content areas are eligible for recruitment incentives and continuing teachers in all schools and all content areas are eligible for the ""Commit: HISD"" retention incentive. Any newly hired teacher who committed to HISD by April 30th was eligible for a \$4,000 hiring incentive if they have less than two years of prior teaching experience or a \$5,000 hiring incentive if they have at least two years of prior teaching experience. Any teacher hired between May and August will receive a \$2,000 hiring incentive. Every current teacher is eligible to receive a \$5,000 retention incentive if they commit to teach for the next three years by May 6.

Finally, apart from all these generally applicable incentives, there are two other stipends available to teachers in specific schools. Teachers in the 24 RISE schools are eligible for an incentive between \$6,000 and \$10,000. Teachers selected for Multi-Classroom Leader roles in any of the 17 schools participating in Opportunity Culture will earn stipends of at least \$15,000. For reference, RISE schools are listed at <https://www.houstonisd.org/Page/193502> and Opportunity Culture schools are listed at

Board Meeting

<https://www.houstonisd.org/Page/193398>. Secondary DAEP and High School Ahead were not identified as RISE schools because they do not fit the criteria used to identify those schools. They were not identified as Opportunity Culture schools because the Opportunity Culture initiative is being launched with a subset of RISE schools and a group of schools within the ESO1 network; Secondary DAEP and High School Ahead are not in those groups.

Do students return to home campuses for graduation? (Secondary DAEP and High School Ahead)

Students at DAEP return to their home school for graduation. High School Ahead students are 6-8 grade. They do not return to their home campus for graduation, but a similar promotion ceremony is held for these middle school students.

ITEM E-1

Why is this program for Westbury HS only? We should cut it unless absolutely necessary due to budget constraints. Please break down the cost of \$42,088.00.

Other schools in the district have this support but it is grant funded. In the case of Westbury, the school has decided to fund this out of school-based funds because the support is perceived to be needed. Based on local district policy on decentralization, the school has site-based decision making to allocate funds for this.

ITEM F-2

Why? TFA. What are other options? Can HISD personnel be utilized?

Yes, we are fully hiring HISD staff to cover all classes. HISD teachers are still be staffed to teach our summer school classes. The TFA pre-service program would provide HISD students with additional academic supports at no cost to the district. This includes enrichment, small group support while teachers provide HB4545 interventions. TFA staff are partnering with our HISD teachers like an internship or a student teaching experience.

What are the designated schools and their rating?

All schools being considered have previously been Achieve 180 schools that have had D/F ratings. The final selection of schools will be based on final numbers of student enrollment and the number of TFA staff.

ITEM G-1-A

\$300,000 is too high! Please explain in detail. What are other options?

HISD's strategic plan includes a focus on building a range of Grow Your Own programs, and this includes support for educators to prepare for administrative roles in HISD. The total cost to HISD per person through this partnership will be \$7,800 (the first semester and last semester of a multi-year program, with a cost of \$3,900 per semester). Through this investment of \$300,000, nearly 40 educators will receive financial assistance as they earn a master's degree in Educational Leadership. The agenda packet provides information on programmatic elements.

ITEM H-1

Which high school campuses over 40 years old have not received renovations from the 2012 bond?

(For example - Jones High school is leasing chillers because theirs is not functioning. The plumbing needs restoring and the pool is not functioning, but money is spent on its upkeep. The a/c is leaking and destroying the floor in the gym.*

The only high school campuses older than 40 years not renovated/rebuilt under the 2012 Bond are the Houston Academy for International Studies (HAIS) and Wheatley High School; however, HAIS received renovations in 2009 and Wheatley HS was rebuilt in 2007. Please see the [attached](#) for more information regarding the build/renovation dates of HISD's high school campuses.

Does a principal's salary increase as the number of enrolled students increase?

No, a principal's salary will not be based on student enrollment. The number of students enrolled in a school is not an accurate indicator of an individual principal's job scope or complexity, in and of itself. A principal's salary is based on three factors: (1) the grade configuration of the school, (2) the number/intensity of institutional and social barriers for the school, and (3) the principal's years of prior principal experience. This is shown on Page 24 of the March 3rd budget workshop presentation.

\$508,000 is too expensive. Please explain why?

UPDATED 5/6/2022

The cost or value of construction was directly derived from a competitive sealed bid proposal (CSP) and yielded the best value for the district in terms of cost and value. This was space was originally built out as a "white box" space for future retail space. CTE by request of the school programmed the use of this space for a pet clinic. The construction of the mechanical systems had to be reworked due to City of Houston code requirements based on the nature of the actual use.

MAY 2022

Board Meeting

Construction considerations

The cost or value of construction was directly derived from a competitive sealed bid proposal (CSP) and yielded the best value for the district in terms of cost and value.

This space was originally built out as a “white box” space for future retail space. CTE by request of the school programmed the use of this space for a pet clinic.

The construction of the mechanical systems had to be reworked due to City of Houston code requirements based on the nature of the actual use, resulting in additional cost from the original estimate.

If the board of trustees opts not to approve this project, students will remain less prepared to engage in practicum work at veterinary clinics, the intended retail space will go unused, and the district will not get a return on the \$25,000 architecture and engineering fees it has committed to this project thus far. [Click here to see the architect’s drawings.](#)

Determination of program

As part of the 2012 bond build, space was set aside as a worksite location for the business and culinary arts pathways. Just as Smart Financial occupies space at Lamar, the intent was for a coffee shop to operate out of the space in question to support the learning objectives of the culinary arts program of study. When it was determined that too many hurdles exist for the coffee shop to profitably operate, the prospective coffee shop owner pulled out. This left an 1800 square foot room—that was always intended as a CTE learning space—empty and unfinished. The campus determined that the space would best support the animal science pathway in the form of a pet wellness clinic due to the strong connections the program had already cultivated with industry and the high need for pet care in this population-dense area.

District Access to Lamar’s Animal Science (Veterinary Assistant) program

Any student can apply to the program if their zoned campus does not have the same program

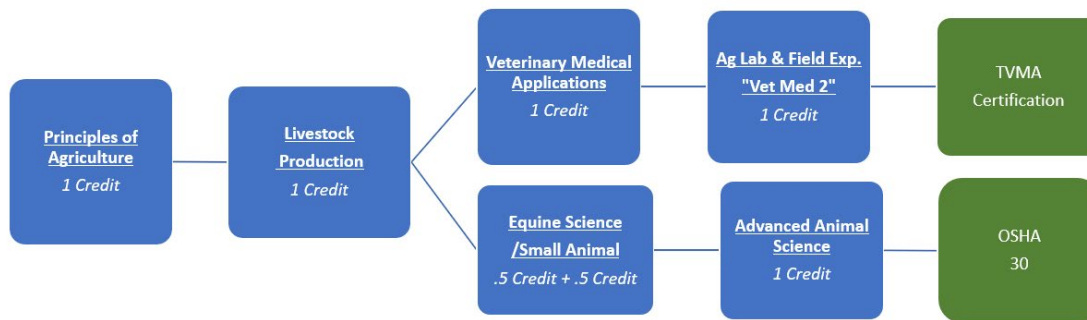

Lamar HS sets the criteria for eligibility

Lamar HS has discretion to determine if a specific number of spots available will be reserved for students outside of Lamar.

Board Meeting

Program of Study course sequence:

ANIMAL SCIENCE

Programs of Study offered at Lamar with enrollment

Arts A/V: 232

Agriculture: 350

Animal Science (new programming will service up to 200)

Business: 1,473

Health Science: 585

Hospitality/Tourism: 350

Human Services: 135

Engineering: 251

Computer Science: 196

Student interest

Building out this program provides students with pre-practicum hands-on experiences needed before students can confidently enter veterinary clinics for their practicum class.

Community support

The proposed pet wellness clinic received favorable support from the campus's PTO, SDMC and Alumni Association.

Work-based learning opportunities

Five partnering veterinary clinics currently staff interns. The school has received letters of support for the facility from the following local veterinary offices:

Bellaire Richmond Pet Hospital- Dr. Huey Beckham

Board Meeting

Richmond Avenue Animal Hospital- Dr. Helen Hansen and vet technicians

Noah's Ark Animal Hospital- Dr. Christine Orengo

IBC availability

Certified Veterinary Assistant

OSHA 30

Job growth

Employment opportunities are projected to grow 20% in the Gulf Coast and 30% annually nationwide.

This link provides job listings for entry level pet care positions in Houston from Indeed. This list has been filtered within a 10-mile radius of 77098, Lamar's zip code:

South EC HS	High
Sterling HS	High
Westside HS	High

The HISD Transfer Procedures were not requested but are included below.

Board Meeting

XVIII. HISD TRANSFER PROCEDURES

Any student who wishes to attend a school other than the one to which the student is zoned must apply and enter the lottery if there are more applicants than seats available. **All transfers are for a full school year, require a full-year commitment, and must be reviewed annually.** Accepting a transfer does not negate a Parent/guardian's right to enroll their child at their zoned campus pending space available, even if the child began the school year at a school of choice on a transfer.

The Parent/Guardian may not, however, apply for a second transfer during the same school year. All student transfers are reviewed annually by the principal and certain transfers can be discontinued at the end of the school year if the student fails to follow Attendance Compliance policy, **Specific Campus requirements**, and/or the Student Code of Conduct. **Beginning with the 2019-2020 school year, students will be approved for only ONE student transfer regardless of transfer type.**

- All transfers are based on space being available.
 - **Space availability is defined as enrollment being less than 95% of building capacity.**
 - A school may not accept transfers if the school has any of the following: (a) class-size waivers at the impacted grade level, (b) a Magnet wait list, or (c) a history of capping. Student Transfer applications and student acceptance into an HISD school may only occur within HISD and the Office of School Choice established timelines, which are published on the HISD School Choice website.
 - When there are more transfer applications than seats available, a lottery will be conducted. The lottery process will be administered by the Office of School Choice. A lottery is not final until confirmed by the Office of School Choice.
- Parents may apply to a combination of 10 School Choice transfers with no more than 5 Magnet applications. For example, a parent/guardian can apply to 4 Magnet and 6 Program Choice transfers or 1 Magnet and 9 Program Choice transfers.

What are the CTE programs offered at each high school?

[A list of schools and their CTE programs is attached.](#)

ITEM I-1

What percentage of expenditures (historically) is central office vs. schools for each of these RFPs? (For Project #21-06-05, #21-06-04, #21-06-03, #21-06-02)

Based on Historical 5-year Spend:

Project	Central Office	Schools
21-06-02	78%	22%
21-06-03	18%	82%
21-06-04	59%	41%
21-06-05	93%	7%

Board Meeting

May I have a detailed list of all these awards? Why are we using the same 4 vendors as with above items?

This response is pending while awaiting clarification from trustee on the project number referenced.

Please explain cost and vendor list.

This response is pending while awaiting clarification from trustee on the project number referenced.

ITEM I-4-B

pgs. 82-85 How do we compare to last 2 budget cycles? I need a deficit comparison with missing \$300 million included.

See report L-1 for the comparison to same period for 2020-2021. There is not any funding missing. The growth in fund balance can be found seen in comparing the district's audited financial statements at <https://www.houstonisd.org/Page/31905>. The review that is being referenced was simply stating that overall fund balance since 2016 has increased by \$300 million. No new money was found. We have shown this increase in Budget Workshop #2 and #5 which can be found at <https://www.houstonisd.org/Page/193298>.

Pgs. 90-92 Same question as above. (How do we compare to last 2 budget cycles?)

See response above.

ITEM L-1

As of March 31, we have only spent 53% of our budget, but the surplus is half of what the leftover revenue would be. Even accounting for the deficit, there is still money I am not seeing. Please break down the math.

This report reflects actual expenditures. We will still be paying salaries and benefits and making other non-salary purchases through the remainder of the year. We do anticipate teacher vacancies having some impact on student outcomes. Having a high-quality certified teacher is critical to student success. We will also continue to collect property taxes and other revenues through year end. In addition, the recapture payment won't be paid until it is due in August and the TIRZ payment will be made in May and transfers out won't occur until June. Those are three large categories where single expenditures haven't happened yet.

The YTD % of Budget for Instruction and Social Work are much lower for this quarter for FY22 than FY21. Please explain why we have been spending less than budgeted in these areas. How do you anticipate that decline in investment to impact each of the student outcome goals?

The primary driver is vacancies we have seen throughout the year. We do anticipate teacher vacancies

Board Meeting

having some impact on student outcomes. Having a high-quality certified teacher is critical to student success. Other than that, under instruction there is a lower expenditure in contracted services which can be partially attributed to funds in ESSER for activities like student tutoring that campuses paid from their regular budgets in the prior year. We don't anticipate a negative impact to the student outcome goals due to the service being provided through other funding sources.

In areas that saw a significant increase in the YTD % of Budget from FY21 to FY22 for this quarter (i.e., Extracurricular, Plant Maintenance and Operations, and Facilities and Construction), are there any areas of concern where the district might exceed the budgeted amount before the end of the year?

We regularly monitor functions that are close and if needed we adjust the budget. We will make a final budget amendment in June 2022 where we do a final review on this specific question to make sure there is sufficient budget by function.

When do we pay out the Contracted Instructional Services Between Public Schools?

Payment is due to TEA by August 15th.

Why do we have a deficit in the Debt Service Fund?

This was a planned use of fund balance as reflected in the budget amendment in February 2022. We will be paying off about \$69 million in debt during 2021-2022 using some fund balance. The Debt Service fund does not have any structural deficit.

We appear to be in a better place for the Child Nutrition Fund at this point this year compared to past year. Will the deficit in the Child Nutrition Fund for FY22 be mitigated before end-of-year close-out or will you need to transfer funds from General Fund?

Child Nutrition is asking for an increase to budget under I-4 due to a significant increase in food costs which will create an additional deficit. They have sufficient fund balance for 2021-2022 so we do not anticipate an impact to the general fund. We are still working on the 2022-2023 Nutrition Services budget.

BUDGET WORKSHOP

Is support staff receiving a raise?

What is the compensation table for support staff? Compensation table for all employees?

Will the minimum wage be brought to \$15 an hour? (Please see 2019 budget amendment)

What is the dollar amount for averaging ADA and enrollment-based funding that I proposed last week?

Trustees will be given the opportunity to submit questions related to the 2022-2023 budget after the May 5 budget workshop for the next budget workshop Q&A document.

			Engineering Design and Problem Solving (1) *	
			Political Science I (1)	
			Political Science II (1) *	
Public Service	Law and Public Service	Legal Studies	Business Law (1)	
			Project Based Research (1) *	
			Principles of Health Science (1)	
Public Service OR STEM	Health Science	Healthcare Diagnostics	Medical Terminology (1)	
			Anatomy and Physiology (1)* AND Health Science Theory (1) *	
			Practicum in Health Science (2)* OR	
			Pathophysiology (1)*	

WHEATLEY	Business and Industry	Arts, A/V Technology and Communications	Design and Multimedia Arts	Principles of Arts, A/V Technology, and Communications (1)
				Animation I (1)
				Animation II (1) *
				Career Preparation I (2) *
		Hospitality and Tourism	Culinary Arts	Principles of Hospitality and Tourism (1)
				Introduction to Culinary Arts (1)
				Culinary Arts (2)
				Advanced Culinary Arts (2) *
		Information Technology	Web Development	Principles of Information Technology (1)
				Project Based Research (1) *
				Career Preparation I (2) *
				(none)
	Public Service	Transportation, Logistics and Distribution	Automotive	Principles of Transportation Systems (1)
				Automotive Basics (1)
				Automotive Technology I: Maintenance and Light Repair (2) *
				Practicum in Transportation Systems (2)*
		Law and Public Service	Government and Public Administration	Principles of Government and Public Administration (1)
				Dimensions of Diplomacy (1)*^
				Planning and Governance (1) *
				Prac. in Local, State and Federal Govt (2)* OR Public Mgmt. (1) *
		Education and Training	Early Learning (PTECH)	Principles of Education and Training (1)
				Child Development (1)
				Child Guidance (2) *
				Career Preparation I (2)*
WISDOM	Business and Industry	Architecture and Construction	Carpentry	Principles of Construction (1)
				Construction Technology I (2)
				Mill and Cabinetmaking Technology (2) *
		Business, Marketing, and Finance	Business Management	Principles of Business, Marketing and Finance (1)
				Business Information Management I (1)
				Business Information Management II (1)* C
				Human Resource Management (0.5) * AND Global Business (0.5)
				Practicum in Business Management (2)*
		Manufacturing	Welding	Introduction to Welding (1)
				Welding I (2)
				Welding II (2)*
	Business and Industry OR STEM	STEM	Engineering	Principles of Applied Engineering (1)
				Engineering Design and Presentation I (1) *
				Engineering Design and Presentation II (2)*
				Engineering Design and Problem Solving (1)*
		Programming and Software Development		Fundamentals of Computer Science (1)
				Computer Science I (1)
				Computer Science II (1)*
				Practicum in Information Technology (2)*
	Public Service	Education and Training	Teaching and Training	Principles of Education and Training (1)
				Human Growth and Development (1)
				Instructional Practices (2) *
				Practicum in Education and Training (2)*
		Law and Public Service	Law Enforcement	Principles of Law, Public Safety, Corrections and Security (1)
				Law Enforcement I (1)
				Correctional Services (1)*
				Federal Law Enforcement and Protective Services (1)

WORTHING	Business and Industry	Agriculture, Food and Natural Resources	Animal Science	Principles of Agriculture, Food and Natural Resources(4)
				Livestock Production(1) *
				Small Animal Management (0.5) OR Equine Science (0.5)
				Practicum of Agriculture, Food and Natural Resources(2)*
		Hospitality and Tourism	Lodging and Resort Management	Principles of Hospitality and Tourism(4)
				Hotel Management (1)
				Travel and Tourism Management(1)
				Practicum in Hospitality Service(2)*
		Information Technology	Web Development	Principles of Information Technology(4)
				Project Based Research (1) *
	Web Design (1) *			
	Web Game Development (1) *			
	Public Service	Education and Training	Teaching and Training	Principles of Education and Training (1)
				Human Growth and Development (1)
Instructional Practices (2)*				
Practicum in Education and Training (2)*				
YATES	Business and Industry	Arts, A/V Technology, and Communications	Design and Multimedia Arts	Principlesof Arts, Audio/Video Technology, and Communications (1)
				Digital Media(1)
				Commercial Photography I(1)
				Commercial Photography II(1)*
			Digital Communications (1)	Principlesof Arts, Audio/Video Technology, and Communications (1)
				Professional Communications (0.5) AND Web Communications (0.5)
				Digital Audio Technology I (1)
				Digital Audio Technology II (1) *
		Digital Communications (2)	Principle of Arts, Audio/Video Technology, and Communications (1)	
			Audio/Video Production (1)	
			Audio/Video Production II(2)*	
			Practicum in Audio/Video Production (2) *	
		Business, Marketing and Finance	Marketing and Sales	Principles of Business, Marketing, and Finance (1)
				Marketing (1)
				Fundamentals of Real Estate (2) *^
				Practicum in Entrepreneurship (2) *^
	Transportation, Distribution, and Logistics	Distribution and Logistics	Principles of Distribution and Logisti(4)	
			Management of Transportation Systems(4)	
			Distribution and Logisti(4) *	
			Practicum in Distribution and Logisti(2) *	
YWCPA	STEM OR Public Service	STEM	Biomedical Science	Principles of Biosciences (1)
				Biotechnology I (1)
				Biotechnology II (1)*
				Practicum in STEM (2) * OR Scientific Research and Design (1) *
	Business and Industry OR STEM		Engineering	Principles ofApplied Engineering (1)
				Engineering Design andPresentation I (1) *
				Engineering Design and Presentation (2)*
				Engineering Design and Problem Solving (1) * OR Practicum in STEM
			Programming and Software Development	AP Computer Science Principle(1)
				Computer ScienceI (1) *
				Advanced Cloud Computing(1)*
				Career Preparation I (2)*

* TEA Advanced CTE course
