## SUBJECT: 2021 ADVANCED PLACEMENT (AP) RESULTS

CONTACT: Allison Matney, Ed.D., 713-556-6700
The results from the Advanced Placement (AP) Examinations have been released by the College Board. Due to the COVID-19 pandemic, the College Board offered AP exam administration on three test dates, in early May, late May, and early June. In 2021, all AP exams were full length and covered the full scope of course content. Moreover, the exam mode, digital and paper, varied by subject. There is a total of 38 AP Exams offered in seven subject categories. HISD schools administered all 38 AP Exams in 2021. The AP grade scale ranges from 1 to 5 , and a score of 3 or higher qualifies a student to earn advanced placement, college credit, or both.

Key findings include:

- The number of students districtwide taking at least one AP Exam decreased by 16 percent to 13,297 in 2021 from 15,862 in 2019, reflecting, in part, the impact of the COVID-19 pandemic.
- The percentage of these exams scored at a 3 or higher in 2021 decreased from 39 percent in 2019 to 36 percent in 2021. Figure 1 presents the eleven-year trend for the number of AP Exams taken districtwide and the number scored 3 or higher.
- In 2020-2021, the district had a total of 2,018 high school AP Scholars, with 296 recognized with Honor and 654 recognized with Distinction.

Figure 1. AP Exams Taken and Number Scored 3+, Districtwide, 2010-2020

Sources: College Board AP data files, September 9, 2021; Advanced Placement Report 2019-2020 Note: Due to the COVID-19 pandemic, 2020 data are not comparable to previous or subsequent years.

## Administrative Responses

## Postsecondary Programming:

The district is committed to providing opportunities for students to earn college credit during middle school and high school via the Advanced Placement Program ${ }^{\circledR}$ (AP) at no cost to students and families.

COVID-19 presented several challenges for Advanced Placement ${ }^{\circledR}$ students in 2021. Among these, AP exams were most impacted by:

- Mixing paper and pencil format with online digital.
- Digital Exams and paper and pencil exams having different format/question structure.

The Department of Postsecondary Programming is dedicated to increasing access and success with the $A P^{\circledR}$ program. Ongoing strategies include, and are not limited to:

1) Investing in the purchase of the Pre-AP ${ }^{\circledR}$ curriculum from College Board and making it available to all schools. The nine (9) comprehensive high schools with the lowest AP passing rates will be required to utilize this common curriculum and administer benchmarks, assessments and mock exams to monitor student performance, as will any high school that chooses to use the Pre-AP ${ }^{\circledR}$ designation for their courses. The teachers in these courses will be required to participate in training on implementing the curriculum and on-going professional development to ensure effective instruction is taking place. By increasing the rigor of the $9^{\text {th }}$ and $10^{\text {th }}$ grade courses in a structured way that is directly aligned to the AP courses students will eventually take, more students will be prepared for the rigor of the AP courses that are offered in the $11^{\text {th }}$ and $12^{\text {th }}$ grades.
2) Increasing Pre-AP ${ }^{\circledR}$ and $A P$ teacher effectiveness by offering numerous professional development opportunities throughout the school year and summer: AP Summer Institute training, Fall and Spring AP workshops at Rice University, National Math and Science Initiative ${ }^{\circledR}$ (NMSI) Laying the Foundation, NMSI Fall and Spring workshops, NMSI AP Reader Training, AP and Pre-AP Preparedness workshops, AP PLC trainings, and direct teacher support at campuses by PSP Curriculum Specialists. AP Summer Institute trainings are centrally funded for all AP teachers every year, and ESSER funds are being allocated to cover the cost of all other trainings and professional development for the next two years. An individual scope and sequence of professional learning opportunities will be provided for each Pre-AP and AP Course so that the teachers and campus leadership can plan ahead and ensure participation by all teachers providing instruction in Pre-AP and AP courses.
3) Offering AP Saturday Exam Preparation Academies throughout the school year for student and teacher development.
4) Supplementing instruction with tutors from the University of Houston ACES (Advancing Community Engagement \& Service) Institute who will support learning, and provide ondemand resources for studentsus. Tutors will become AP-trained readers who can provide support for evaluating student work and providing prompt, meaningful feedback to students in the writing-heavy courses. Tutoring will also be made avaiable via a Virtual Academic Support Center to give students after-hours access to support for homework completion and ondemand tutoring appointments.
5) Offering weekly Virtual Study Hall Tutorials throughout the school year to all AP students to receive extra instructional support and assistance with homework.
6) Assisting campuses in creating effective postsecondary programming goals using AP score data, AP Potential ${ }^{\circledR}$ data, and AP Instructional Planning Reports.
7) Educating families about the benefits of AP and providing online resources to empower decisions regarding postsecondary options.
8) Partnering with the National Math and Science Initiative ${ }^{\circledR}$ (NMSI) to provide comprehensive mentoring opportunities and campus-based supports at NMSI partner schools.

## Secondary Curriculum and Development:

Secondary Curriculum and Development is committed to developing district curriculum resources for all secondary students that build and enhance the reading, writing, and analysis skills needed for success in college-level coursework, including AP courses and AP examinations. The district's master course lessons and other instructional supports for every core course in grades six through twelve regularly incorporate opportunities for students to, for example: develop and practice critical thinking skills such as the analysis of texts, primary and secondary resources, and other data sets; propose and evaluate solutions to problems; create and express well-reasoned and evidenced-based justifications for conclusions and arguments; and explore and investigate relevant research questions.

In addition, the assessments developed by Secondary Curriculum and Development require students to consistently employ evaluation and analytical thinking through open-ended responses and performance tasks. Additionally, assessments in secondary core-content courses are written using AP-style questions and scoring guides. This allows students to develop familiarity and the ability to respond to free response questions. When possible, questions for high school courses are derived from graphs or tables in sample AP questions provided by College Board.

Lastly, Secondary Curriculum and Development continues to work in collaboration with the Innovation and Post-Secondary Programming department to provide instructional coaching and professional development support to AP teachers as requested.

Should you have any further questions, please contact Allison Matney in Research and Accountability at 713-556-6700.

# ADVANCED PLACEMENT <br> 2021 

## Executive Summary

The Advanced Placement (AP) program represents a critical element in HISD's efforts to inject rigor into the high school classrooms. Since 2011, the AP course offerings in HISD have been vastly expanded, with more campuses offering a wider selection of AP courses that exposes a larger percentage of the high school population to college level academic rigor. Due to the COVID-19 pandemic, the College Board offered AP exam administration on three test dates, in early May, late May, and early June. All AP exams were full length and covered the full scope of course content. Moreover, the exam mode, digital and paper, varied by subject. For example, the language exams were only administered in a school or school-proctored location to ensure security and fairness. In addition, this marked the second year in which school districts were required to order their AP exams in the fall. College Board made this change as students are "more motivated to take the exam" when they make a commitment at the beginning of the year and it leads to more students testing ${ }^{1}$ (Matthews, 2018).

## Highlights of AP in 2021

- The number of students districtwide taking at least one AP Exam decreased by 16 percent to 13,297 in 2021 from 15,862 in 2019, reflecting, in part, the impact of the COVID-19 pandemic.
- The number of AP Exams taken districtwide decreased by 14 percent to 24,355 in 2021 from 28,219 in 2019.
- The number of AP Exams scored 3 or higher decreased by 19 percent to 8,884 in 2021 from 11,003 in 2019, and the proportion of exams scored 3 or higher decreased from 39 percent in 2019 to 36 percent in 2021.
- History and Social Sciences represented the largest category among the seven AP categories with 47 percent of all AP Exams taken districtwide, followed by 17 percent in English.
- For the 2020-2021 school year, 29.6 percent of high school students enrolled in at least one AP course.
- In 2021, the College Board discontinued awards, such as the National AP Scholar, that encouraged students to take a large number of AP exams. ${ }^{2}$
- Fifteen campuses earned more AP Scholar Awards in 2021 than in 2019 including three campuses that increased the number of AP Scholar Awards earned by double-digits.
- In 2020-2021, the district had a total of 2,018 high school AP Scholars, with 296 recognized with Honor and 654 recognized with Distinction.

[^0]
## Introduction

The College Board's Advanced Placement (AP) Program provides participating high school students with the opportunity to take college-level courses and earn college credit, advanced placement, or both. A possible 38 examinations in Arts, AP Capstone, English, History and Social Science, Mathematics and Computer Science, Sciences, and World Languages and Cultures are administered in early May, late May, and early June at participating schools (for a complete list of examinations in each category, see Appendix A, p. 31). As reported by the College Board, most four-year colleges and universities, as well as institutions in 100 other countries, grant credit, placement, or both to students receiving a qualifying score (i.e., 3 or higher on a scale of 1 to 5) on an AP Exam. ${ }^{3}$

Studies show that students who take AP courses and exams are more likely to succeed in college. ${ }^{4}$ Families may also experience tangential financial benefits if students receive advanced placement, college credit, or both. Other benefits afforded to students include opportunities that lead to scholarships or recognition. The AP Program recognizes high school students who have demonstrated outstanding college-level achievement through AP courses and exams with the AP Scholar Awards (Appendix G-1, p. 42). Although there is no monetary award, each award-winning student receives a certificate, and the award is acknowledged on any AP score report that is sent to colleges after the award has been conferred.

For the 2020-2021 school year, all courses labeled as "AP" by HISD were authorized through the College Board AP Course Audit process. This audit process ensures that courses meet "AP" requirements, and that colleges and universities have a venue to review authorized courses offered by secondary schools. ${ }^{5}$

## Administration and Submission

Typically, AP Exams are administered each year in May over a two-week period. There is a make-up exam testing period as well as an exception testing period for students that had a conflict with a scheduled AP test. Due to the COVID-19 pandemic in 2021, AP exams were administered on three test dates, in early May, late May, and early June. In addition, students were offered two exam modes, paper and digital. Furthermore, all AP Exams were offered in a school or school-proctored location and select exams were offered at home. For 2021, the AP Exams were full-length and covered the full scope of the course.

## Scoring

For 2021, there was a change in the AP format so that each exam consisted of only free responses. The final score is reported on a 5-point scale as follows:

- 5 = extremely well qualified
- 4 = well qualified
- 3 = qualified
- 2 = possibly qualified
- $1=$ no recommendation

[^1]"Qualified" means that the student has demonstrated the capability of doing introductory-level coursework in a particular subject at college. Many colleges and universities grant credit and placement for scores of 3,4 or 5 ; however, each college decides which scores it will accept.

The free-response section (essays and open-ended questions) is scored at the annual AP Reading held in June. Specially appointed college professors and experienced AP teachers score this section of the exam; however, due to the pandemic, AP Readers scored the exams online from home. The total scores from the free-response section and the multiple-choice section are combined to form a composite score. These composite scores are then translated into the 5-point scale using statistical processes designed to ensure that a score of 3 this year reflects the same level of achievement as a score of 3 last year.

For more details on the methods used in analyzing the data presented in this report, see pages 27-28.

## Program Costs and Funding Source

The AP Exam fees are outlined in Table 1. The district pays for all AP exams regardless of a student's family income level. The total costs for the district increased slightly to $\$ 1,345,830$ when compared to the previous two years. The AP examination fee is $\$ 95$ per exam (minus a $\$ 9$ College Board rebate) resulting in an $\$ 86$ cost per exam for the 2020-2021 school year. The College Board provides a $\$ 33$ fee reduction per exam for students in financial need that qualify, and the state subsidy per AP exam is $\$ 32$ making the total cost $\$ 21$ per exam for eligible students for 2020-2021 compared to $\$ 23$ per exam for 2019-2020. The cost per AP Seminar and AP Research exam is $\$ 144$ and $\$ 61$ for students with financial need.

| Table 1. AP Exam Fees, 2018-2019 through 2020-2021 |  |  |  |
| :--- | ---: | ---: | ---: |
|  | $2018-2019$ | $2019-2020$ | $2020-2021$ |
| Total costs | $\mathbf{\$ 1 , 3 0 0 , 0 0 0}$ | $\mathbf{\$ 1 , 3 0 0 , 0 0 0}$ | $\mathbf{\$ 1 , 3 4 5 , 8 3 0}$ |
| AP examination fee | $\$ 94$ | $\$ 94$ | $\$ 95$ |
| College Board rebate | $(\$ 9)$ | $(\$ 9)$ | $(\$ 9)$ |
| Net AP fee per exam | $\$ 85$ | $\$ 85$ | $\$ 86$ |
| Reductions for Economically <br> Disadvantaged students: |  |  |  |
| College Board fee reduction | $(\$ 32)$ | $(\$ 32)$ | $(\$ 33)$ |

## Results

## Exam Participation and Performance

Due to the impact of COVID-19 on the educational experiences of students, participation rates decreased over the past two years, and 2020 AP results are not comparable to previous or subsequent years. The total number of exams taken by HISD students decreased by 3,864 exams to 24,355 in 2021 from 28,219 in 2019. The number of AP Exams taken across the district and the number and percent scored 3 or higher are shown in Figure 1 (p. 4).

Figure 1. AP Exam Participation and Performance, Districtwide, 2011-2021

Sources: College Board AP data file, September 9, 2021; Advanced Placement Report, 2019-2020
Note: This graph displays a duplicated count of exams districtwide. Values may differ from previous reports. Due to the COVID-19 pandemic, 2020 data are not comparable to previous or subsequent years.

Figure 1 indicates the following:

- The number of AP Exams taken by students districtwide increased by 12 percent to 24,355 in 2021 from 21,659 in 2011, although there was a 14 percent decline from 2019.
- The number of AP Exams scored 3 or higher in $2021(8,884)$ increased by 30 percent compared to $2011(6,858)$.
- The percentage of AP Exams scored 3 or higher in 2021 decreased by 3 percentage points compared to 2019 and increased by 4 percentage points compared to 2011.
- Based on students' opportunity to earn at least 3 college credits for each AP Exam score of 3 or higher, 8,884 AP Exams meeting the criteria at the high school level represents 26,652 estimated college credits. College Board calculates an average rate of $\$ 369.88$ per credit hour for 2021 indicating a total potential savings for the district's students and families of $\$ 9,858,041.76^{6}$

## Comparison with State and Nation

The College Board provides AP data for the state of Texas and the nation. Between 2011 and 2021, the number of AP Exams taken by all students in Texas increased by 46 percent. Between 2011 and 2021 the number of AP Exams taken nationwide increased 32 percent. As mentioned above, HISD experienced an increase in the number of AP Exams taken by 12 percent since 2011.

Figure 2 (p.5) presents the proportion of all AP Exams scored 3 or higher for HISD, Texas, and the Nation from 2011 through 2021. Figure 2 indicates the following:

[^2]- While the proportion of AP Exams scored 3 or higher has stayed relatively flat for Texas and the Nation from 2012 to 2019, the district, state, and nation have shown an abrupt increase in performance in 2020 that can be attributed to COVID-19. These factors associated with COVID-19 included remote testing, the population of students tested, and the modifications made to tested material and format. For these reasons, 2020 data are not comparable to previous or subsequent years.
- In 2021, the proportion of AP Exams scored at 3 or higher in HISD is lower than that of Texas by 9 percentage points, and lower than the nation by 18 percentage points. These gaps have closed significantly from 2011 where it was 12 percentage points for Texas and 24 percentage points for the nation.

Figure 2. AP Exam Performance (HISD, Texas, National), $\mathbf{8}^{\text {th }} \mathbf{- 1 2}^{\text {th }}$ Grade, 2011-2021

Sources: District, 2021 College Board AP data files, September 9, 2021; Texas and Nation: Texas-Public Schools Overview, 2020-2021; Previous years: Advanced Placement Report, 2019-2020
Note: Due to the COVID-19 pandemic, 2020 data are not comparable to previous or subsequent years.

## By Exam Category

Table 2 ( p .6 ) shows the number of AP Exams taken by HISD students by the seven AP Exam subject categories outlined in Appendix A (p. 31) and the percentage of exams scored 3 or higher.

| Table 2. AP Exam Particip <br> AP Exam Category | AP Exams Taken |  | AP Scores $\geq 3$ |  |
| :---: | :---: | :---: | :---: | :---: |
|  | N | \% of Total | N | \% of Exams |
| History \& Social Science | 11,460 | 47\% | 3,324 | 29\% |
| English | 4,231 | 17\% | 1,307 | 31\% |
| Sciences | 2,759 | 11\% | 983 | 36\% |
| Math \& Computer Science | 2,693 | 11\% | 1,115 | 41\% |
| World Languages \& Culture | 2,328 | 10\% | 1,538 | 66\% |
| AP Capstone | 597 | 2\% | 452 | 76\% |
| Arts | 287 | 1\% | 165 | 57\% |
| HISD Totals | 24,355 | 100\% | 8,884 | 36\% |

Source: 2021 College Board AP data file, September 9, 2021
Notes: This table displays a duplicated count of exams taken by students who tested districtwide. Figures may not sum to 100 due to rounding.

Table 2 indicates the following:

- AP Exams taken in the History \& Social Science category represented the largest category (47 percent) followed by English (17 percent).
- Success rates ranged from 76 percent (AP Capstone) to 29 percent (History \& Social Science).
- While two percent of exams were in AP Capstone, the success rate was among the highest at 76 percent.

## By Student Group

The total number of test-takers, the number of AP Exams taken and the number of exams scoring 3 or higher by HISD students decreased in 2021 compared to 2019; similarly, the percentage of exams scoring 3 or higher decreased by three percentage points from 39 percent in 2019 to 36 percent in 2021 (Table 3, p. 7). This trend can be attributed, in part, to the COVID-19 impact.

Table 3 presents the number of HISD students districtwide in 2019 and 2021 who took an AP Exam, the number of exams taken, and the number of exams scored 3 or higher by race/ethnicity, gender, economic status, English Learner (EL) status, special education status, homeless status, and gifted and talented (G/T) status. The number of students tested reflects an unduplicated count of students who took an AP Exam, and the number of exams taken is a duplicated count of exams. In other words, a given student is counted once and all the exams that the student has taken are counted as well.

- Approximately six out of ten ( 60 percent) HISD students who took an AP Exam in 2021 were Hispanic. The number of Hispanic students who took AP Exams decreased by 20 percent, and the number of exams taken by Hispanic students decreased by 3,183 exams compared to 2019. The proportion of exams scored 3 or higher decreased from 2019 ( 30 percent in 2019 compared to 24 percent in 2021).

| Student Group | N Tested |  | AP Exams Taken |  | AP Scores $\geq 3, \mathrm{~N}$ |  | AP Scores $\geq 3$, \% of Exams |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 2019 | 2021 | 2019 | 2021 | 2019 | 2021 | 2019 | 2021 |
| African American | 2,653 | 2,085 | 4,140 | 3,345 | 656 | 560 | 16\% | 17\% |
| Asian | 1,246 | 1,224 | 3,502 | 3,404 | 2,685 | 2,446 | 77\% | 72\% |
| Hispanic | 9,888 | 7,916 | 16,239 | 13,056 | 4,846 | 3,153 | 30\% | 24\% |
| White | 1,807 | 1,785 | 3,800 | 3,928 | 2,500 | 2,336 | 66\% | 59\% |
| Two or more races | 181 | 211 | 400 | 468 | 271 | 304 | 68\% | 65\% |
| Missing | 44 | 33 | 77 | 73 | 26 | 47 | 34\% | 64\% |
| Econ Disadv. | 10,914 | 8,392 | 17,760 | 13,619 | 4,874 | 2,953 | 27\% | 22\% |
| Non-Econ Disadv | 4,904 | 4,872 | 10,382 | 10,663 | 6,103 | 5,884 | 59\% | 55\% |

| Missing | 44 | 33 | 77 | 73 | 26 | 47 | 34\% | 64\% |
| HISD Totals | 15,862 | 13,297 | 28,219 | 24,355 | 11,003 | 8,884 | 39\% | 36\% |

Sources: College Board AP electronic data file, September 9, 2021 and September 11, 2019; EL, G/T, special education, homeless, and economic status source: SIS Demographics, July 19, 2021 and Chancery, May 8, 2020
Notes: This table displays an unduplicated count of students tested and a duplicated count of exams taken by students districtwide. For 2019 and 2021, economic status, EL, special education, homeless and G/T status could not be determined for 44 and 33 students, respectively, except for 54 missing EL students in 2021. Race/ethnicity, grade level, and gender were extracted from the demographic files rather than the AP data files.

- African American students represented the second largest racial/ethnic group who took an AP Exam, accounting for 16 percent of all AP test takers in 2021. When compared to 2019, the number of African American students who took AP Exams decreased by 21 percent and the number of exams taken by African American students decreased by 19 percent. The proportion of exams scored 3 or higher taken by African American students increased by 1 percentage point compared to 2019.
- White students represented the third largest racial/ethnic group of students who took an AP exam, accounting for 13 percent of all AP test takers in 2021. Compared to 2019, the number of White students who took AP Exams decreased by 1 percent, while the number of exams taken increased by 3 percent. The proportion of exams scored 3 or higher decreased from the previous year ( 66 percent in 2019 compared to 59 percent in 2021). White students in HISD score at or above a 3 on the AP exam at rates at rates 2.5 and 3.5 times higher than Hispanic and African American students, respectively.
- Asian students accounted for 9 percent of AP test takers in 2021. When compared to 2019, the number of Asian students who took AP Exams, and the number of exams taken by Asian students decreased
by 2 percent and 3 percent, respectively. The proportion of exams scored 3 or higher taken by Asian students decreased compared to 2019 ( 77 percent in 2019 and 72 percent in 2021).
- Economically disadvantaged students accounted for 63 percent of AP test takers in 2021. When compared to 2019, the number of economically disadvantaged students who took AP Exams and the number of exams taken by economically disadvantaged students decreased by 23 percent. The proportion of exams scored 3 or higher decreased compared to the 2019 (27 percent in 2019 and 22 percent in 2021). Non-economically disadvantaged students passed the AP exam at rates 2.5 times higher than economically disadvantaged students (55 percent vs. 22 percent).
- Performance gaps exist between African American and Hispanic students compared to their White peers. In 2019, White students outperformed their African American peers by 50 percentage points. This dropped to 42 percentage points in 2021. Comparing 2019 to 2021, the gap in passing rates between African American and White students decreased by 8 percentage points. The Hispanic-White gap decreased by 1 percentage point from 2019 to 2021.

The College Board provides a measure to assess both equity and excellence for the district (Table 4). The calculation shows the proportion of a district's senior class who scored a 3, 4 or 5 on an AP Exam at any point during high school. Students who met the standard (scores of 3,4 , or 5 ) on multiple exams are counted only once. A total of 14.5 percent of 2021 HISD seniors scored a 3,4 , or 5 during their high school tenure, reflecting a 3.8 percentage-point decrease compared to 2019. Students receiving special education services were the only student group for which there was an increase ( 2.2 percentage-points) when compared to 2019.

Table 4. Equity and Excellence for Seniors and by Student Group, 2019-2021

|  | 2019 |  |  | 2020 |  |  | 2021 |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Race/Ethnicity | District N | AP Scores 3+ | \% | District N | AP Scores $3+$ <br> 3+ | \% | District N | AP Scores $3+$ | \% |
| HISD Seniors | 11,618 | 2,131 | 18.3 | 11,693 | 1,844 | 15.8 | 12,533 | 1,822 | 14.5 |
| African American | 2,674 | 178 | 6.7 | 2,578 | 133 | 5.2 | 2,744 | 173 | 6.3 |
| American Indian | 23 | 1 | 4.3 | 22 | 1 | 4.5 | 26 | * | * |
| Asian | 512 | 294 | 57.4 | 486 | 280 | 57.6 | 538 | 281 | 52.2 |
| Hispanic | 7,144 | 1,284 | 18.0 | 7,326 | 1,055 | 14.4 | 7,744 | 979 | 12.6 |
| Pacific Islander | 7 | * | * | 8 | * | * | 8 | * | * |
| White | 1,150 | 341 | 29.7 | 1,151 | 340 | 29.5 | 1,337 | 353 | 26.4 |
| Two or more races | 108 | 33 | 30.6 | 122 | 34 | 27.9 | 136 | 33 | 24.3 |
| Econ. Dis. | 8,681 | 1,309 | 15.1 | 8,945 | 1,019 | 11.4 | 9,353 | 959 | 10.3 |
| EL | 1,594 | 158 | 9.9 | 1,761 | 105 | 6.0 | 1,899 | 112 | 5.9 |

| Homeless | 568 | 66 | 11.6 | 463 | 38 | 8.2 | 524 | 30 | 5.7 |
| G/T | 2,102 | 1,095 | 52.1 | 2,168 | 1,054 | 48.6 | 2,357 | 1,033 | 43.8 |

Sources: College Board AP data file, various years; Race/ethnicity, EL, G/T, homeless, special education, and economic status source: Chancery, various years; On Suite Demographic senior enrollment file, 2021
Note: Seniors with On Suite demographic data and AP data were included in this analysis. This report may differ from previous reports. Due to the COVID-19 pandemic, 2020 data are not comparable to previous or subsequent years. Excludes Community Services, HCC Life Skills, JJAEP, Soar Center, and TH Rogers.

Appendix B-1 (p. 32) shows the proportion of HISD's senior class who scored a 3, 4, or 5 on an AP Exam at any point during high school by campus. Out of 42 campuses that tested 10 or more students in 2021, six campuses met the criterion for 50 percent of their seniors which is two fewer campuses than in 2019.

## By Subject

Appendix B-2 (p. 33) compares the mean scores by subject for HISD students with the mean scores of students in Texas and all AP test-takers. For 2021, HISD participated in all 38 examinations.

For 2021, students in HISD scored a mean of 3 or higher on a five-point scale on 13 of the 38 AP subject examinations where five or more students were tested. Typically, a score of 3 qualifies a student to receive advanced placement and/or college credit. HISD students exceeded the global mean score for seven out of 38 subject examinations in Music Theory, European History, Physics 2, Physics C: Mechanics, German, Italian, and Japanese Language and Culture. Mean scores ranged from 1.72 in Physics 1 to 4.3 in Japanese Language and Culture. World History represented the subject test taken by the highest number of students $(\mathrm{N}=3,204)$; however, mean scores for this exam were lower than the global mean scores by 0.73 .

Appendix B-3 (p. 34) shows the gaps in the mean exam scores between African American, Hispanic, and White students for 2019 compared to 2021. The White-African American gap decreased on 17 exams, and the White-Hispanic gap decreased on 19 exams. The largest gap decreases for White-African American students occurred on the Spanish Literature and Culture exam, and the largest gap decreases for WhiteHispanic students occurred on the Chinese Language and Culture exam. The White-African American gap increased on 9 exams, and the White-Hispanic gap increased on 11 exams.

## By Campus

Figure 3 (p. 10) shows the number of AP Exams taken by HISD students districtwide and the number of exams scored 3 or higher for each campus in 2019 and 2021. All AP Exams are represented in this figure, regardless of whether the student was enrolled in the AP course. Appendix C (p. 35) provides additional details for the number of AP Exams taken and the corresponding performance by campus.

Figure 3. AP Exam Participation and Performance by Campus, Districtwide, 2019 and 2021
Ranked by the number of AP Exams taken in 2021

| CampusShortName | 2019 |  | 2021 |  | Change, 2019 to 2021 |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Exams Taken N | $\begin{gathered} \text { Exams } \geq 3 \\ \mathrm{~N} \end{gathered}$ | Exams Taken N | $\begin{gathered} \text { Exams } \\ \mathrm{N} \end{gathered}$ |  |  | Exan |  |
| Bellaire HS | 2,682 | 2,189 | 2,773 | 1,878 |  | 91 |  | -311 |

Sources: 2021 College Board AP electronic data file, September 9, 2021; HISD Research and
Accountability Department, 2019 Advanced Placement (AP) Results
Notes: The district total includes a small number of tests ( $N=7$ ) incorrectly attributed to closed campuses. Bellaire, Chavez, Heights, and Lamar high schools offer the International Baccalaureate (IB) Program in addition to Advanced Placement (AP). This figure displays a duplicated count of exams. E-STEM West HS closed for the 2020-2021 school year and it merged under one campus number with E-STEM Southeast HS. Due to the COVID-19 pandemic, 2020 data are not comparable to previous and subsequent years. $\pm$ Campus is closed. <>Ninth grade students attributed to a middle school campus by the College Board.

Figure 3 (p.10) indicates the following:

- Students at Bellaire High School took the largest number of AP Exams in $2021(2,773)$ while 3 exams were taken at T.H. Rogers.
- In 2021, exams taken at Bellaire, Carnegie, Westside, and DeBakey high schools tested 34 percent of all AP Exams taken in HISD but accounted for 59 percent of all exams that were scored 3 or higher.
- For the 44 campuses with two years of participation data and five or more testers, 12 campuses increased the number of AP Exams taken, and 32 campuses decreased the number of AP Exams taken.
- For the 44 campuses with two years of performance data and five or more testers, the number of AP Exams scored 3 or higher increased at 9 campuses and decreased at 35 campuses.

## By Exam and by Campus

Appendix D (pp. 36-39) presents the results of students who took each AP Exam and the number and percentage of exams scored 3 or higher for each exam type by campus and district total in 2021.

- AP participation and performance across campuses varies markedly. Passing rates ranged from 2 percent at Leland YMCPA, Yates, and Wheatley high schools to 89 percent at Middle College HSFraga.
- In 2021, no students passed an AP exam in Chemistry, Physics 1, and Microeconomics for at least 53 percent of campuses where five or more students were tested.
- World History (3,204), English Language \& Composition $(2,646)$, United States History $(2,367)$, and Human Geography $(2,091)$ had the highest number of students taking those exams.

## Course Participation and Performance: AP Course Offerings

Figure 4 (p. 12) shows the number of AP courses offered in HISD schools in 2018-2019 and 2020-2021 and the change in the number of courses from 2018-2019 to 2020-2021.

Figure 4 indicates the following:

- In 2021, 57 HISD schools offered at least one AP course—reflecting a decrease by three schools compared to 2018-2019. E-STEM West HS closed in 2019-2020.
- Of the 57 schools that were open and offered AP courses in both 2018-2019 and 2020-2021, 17 schools increased the number of AP courses offered from 2018-2019, 18 schools decreased AP course offerings, and 22 schools had no change.
- The largest increase in AP courses offered in 2020-2021 compared to 2018-2019 occurred at Bellaire High School with an addition of six courses.
- The largest decrease in AP courses offered in 2020-2021 compared to 2018-2019 occurred at Leland YMCPA and Austin High School with a reduction of four courses.

Figure 4. Distinct AP Courses Offered by Campus, 2018-2019 and 2020-2021

| School Name | 2018-2019 | 2020-2021 | Change |

Files, July 19, 2021.
Note: Courses displayed had at least one student enrolled within the respective academic year. Lanier and the Mandarin Immersion Magnet offered a Chinese course that was not an AP Chinese course. Bellaire, Chavez, Heights, and Lamar High Schools offer the International Baccalaureate (IB) Program in addition to Advanced Placement (AP). Due to the COVID-19 pandemic, 2020 data are not comparable to previous and subsequent years.
$\pm$ Campus is closed.

## By Student Group

Table 5A presents the number and percent of HISD students in grades $9-12$ who completed at least one AP course by student group including race/ethnicity, economic status, English Learner ( EL ) status, gender, gifted and talented ( $\mathrm{G} / \mathrm{T}$ ) status, special education status, and homeless status. This table reflects an unduplicated count of students for courses. Students who were enrolled in the second semester of a two-semester course and/or those enrolled in a one-semester course were eligible to complete an AP course.

| Student Group | Grades 9-12 Enrollment |  | Students Enrolled in at Least One AP Course |  | Students Completing at Least one AP Course |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | N | \% | N | \% | N | \% |
| African American | 12,701 | 22.7 | 3,031 | 23.9 | 2,482 | 81.9 |
| American Indian | 132 | 0.2 | 32 | 24.2 | 24 | 75.0 |
| Asian | 2,120 | 3.8 | 1,304 | 61.5 | 1,254 | 96.2 |
| Hispanic | 34,157 | 61.0 | 9,799 | 28.7 | 7,732 | 78.9 |
| Pacific Islander | 60 | 0.1 | 26 | 43.3 | 24 | 92.3 |
| Two or More | 702 | 1.3 | 250 | 35.6 | 227 | 90.8 |
| White | 5,826 | 10.4 | 2,135 | 36.6 | 2,005 | 93.9 |

Sources: End of Year SIS Grades files, July 19, 2021
Notes: Table displays an unduplicated count of HISD students enrolled in grades 9-12. AP course completion is defined as enrolled in an AP course and earning a passing grade at the end of the course ( 70 or higher). This table may differ from previous reports. There are 326 students missing race/ethnicity, economic status, EL status, gender, G/T status, special education status, and homeless status.

Table 5A (p. 13) indicates the following:

- Hispanic and African American students are less likely to enroll in AP courses compared to their Asian and White counterparts. Only 28.7 and 23.9 percent of Hispanic and African American students, respectively, were enrolled in AP courses in 2020-2021 compared to 36.6 percent and 61.5 percent of White and Asian students, respectively.
- Hispanic (78.9 percent) and African American (81.9 percent) students had lower completion rates compared to their White ( 93.9 percent) and Asian ( 96.2 percent) counterparts.
- For 2020-2021, AP completion rates ranged from 71.9 percent for EL students to 96.2 percent for Asian students.
- Among students enrolled in 2020-2021, 29.6 percent enrolled in at least one AP course and 24.6 percent ( 82.9 percent of those enrolled in at least one AP course) completed at least one AP course.

Table 5B (p. 15) presents the number and percent of HISD students in grades 9-12 who completed at least one AP course by student group and learning mode (remote or face-to-face (F2F)). This table reflects an unduplicated count of students for courses. As students and families chose the location of instruction, remote and face-to-face results are descriptive of performance and not an evaluation of instructional method.

- Among students enrolled in 2020-2021, a higher percentage of remote students took at least one AP course (32.2 percent) compared to face-to-face students (23.5).
- Among students enrolled in 2020-2021, remote students enrolled in AP coursework completed at least one AP course ( 85.5 percent) compared to face-to-face instruction ( 74.6 percent).
- Completion rates for remote and face-to-face learners were higher among White and Asian students compared to African American and Hispanic students.
- Completion rates for remote learners were higher for G/T (90.5 percent) and Homeless students (86.1 percent) than their Non-G/T ( 81.9 percent) and Non-Homeless ( 85.5 percent) counterparts.
- Completion rates for face-to-face learners were higher for special education students (77.2 percent) than their Non-special education ( 74.5 percent) counterparts.

Table 5B. AP Course Enrollment and Completion by Student Group, Remote and Face-to-Face (F2F), $9^{\text {th }}-12^{\text {th }}$ Grade, 2020-2021

| Student Group | Grades 9-12 Enrollment |  |  |  | Students Enrolled in at Least One AP Course |  |  |  | Students Completed at Least One AP Course |  |  |  |

Sources: End of Year SIS Grades files, July 19, 2021
Notes: Table displays an unduplicated count of HISD students enrolled in grades 9-12. AP course completion is defined as enrolled in an AP course and earning a passing grade at the end of the course ( 70 or higher). This table may differ from previous reports. There are 326 students missing race/ethnicity, economic status, EL status, gender, G/T status, special education status, and homeless status.

## By Campus

Table 5C (p. 17) shows the percentage of students in grades 9-12 who completed at least one AP course in 2020-2021 by campus for all students and by learning mode (remote and face-to-face). For enrollment at a campus, a student was required to have at least one grade or conduct mark for each semester of a year-long course. Unduplicated counts are provided districtwide. For the unduplicated total, a student in grades $9-12$ is counted only once if the student took and completed one or more AP courses. The campus attribution is based on the SIS Grades file for the respective year. Percentages are based on AP courses taken by students in grades 9-12.

Table 5C indicates the following:

- In 2020-2021, 82.9 percent of students enrolled in at least one AP course districtwide completed and passed at least one AP course.
- Students enrolled in remote instruction outperformed students receiving face-to-face instruction based on completion rates and AP Exams receiving scores of three or higher for the 2020-2021 school year.
- In 2020-2021, the percent of students enrolled in at least one AP course and in grades 9-12 who completed and passed at least one AP course ranged from 53.4 percent at Chavez HS to 100 percent at Long Academy.
- The percent of students who took at least one AP Exam ranged from 4.4 percent at Wheatley High School to 96.1 percent at Carnegie High School.
- The percent of students who passed at least one AP Exam ranged from 2.8 percent at Wheatley High School to 88.9 percent at Middle College HS at HCC Fraga.
- None of the students who took at least one AP Exam and received face-to-face instruction at Furr High School passed at least one AP Exam, and none of the students who took at least one AP Exam and received remote instruction at Yates High School passed at least one AP Exam.
- Although 92.1 percent of E-STEM Central High School students completed and passed at least one AP course, only 8.0 percent passed at least one AP exam. Similarly, there were thirteen additional campuses that had at least 70 percent or more of their students who completed and passed at least one AP course but had less than 10 percent of their students pass at least one AP Exam. These included: Austin, Kashmere, Liberty, Scarborough, North Forest, Washington, Wheatley, Wisdom, Worthing, and Yates high schools as well as Long Academy, Middle College HS at Fraga, and TCAH.
- Approximately five times as many students at Westbury High School taking remote instruction (21.2 percent) passed at least one AP Exam compared to those students taking face-to-face instruction (4.1 percent).

Sources: End of Year SIS Grades file, July 19, 2021
Notes: Table displays an unduplicated count of HISD students enrolled in grades 9-12. AP course completion is defined as enrolled in an AP course and earning a passing grade at the end of the course ( 70 or higher). There are 326 students missing race/ethnicity, economic status, EL status, gender, G/T status, special education status, and homeless status. TCAH is a virtual campus that does not offer face-to-face instruction. Data quality issues attributed students taking face-to-face instruction for AP Exams taken and passed. The lowest values for passing a course and an exam are in red, and the highest values are in green.
--denotes no data available
*Masked for number tested < 5

## Course and Exam Participation and Performance

Figure 5 shows the number of students enrolled in grades $9-12$ who completed at least one AP course, the number who took at least one AP Exam, and the number who received a score of 3 or higher on at least one AP Exam by learning mode (all students, remote, and Face-to-Face) for 2021. Figures for each series reflect an unduplicated count of students.

Figure 5. AP Course Completion and Exam Performance by Learning Mode, $9^{\text {th }}-12^{\text {th }}$ Grade, 2021

Sources: College Board AP data file, September 9, 2021; End of Year SIS Grades Files, July 19, 2021
Note: This graph displays an unduplicated count of students enrolled in grades 9-12. AP course completion is defined as receiving a passing grade ( 70 or higher) at the end of the second semester of a two-semester course or receiving a 70 or higher for a one-semester course. Students could take the AP Exam without completing the AP course or could have taken the AP course outside of HISD.

Figure 5 indicates:

- For 2021, enrollment numbers were higher for remote learners compared to face-to-face learners.
- The number of remote students taking at least one AP course, passing at least one AP course, taking an AP exam, and passing an AP exam exceeded face-to-face learners in all categories.
- Among students enrolled in grades 9 through 12 in 2020-2021, 29.6 percent had taken at least one AP course, 82.9 percent had passed an AP course, and 8.2 percent of enrolled students had scored a three or higher on at least one AP Exam.

## By Campus

AP course enrollment and exam data are presented by campus in Appendix $E$ (p. 40). Data analyzed include the number of AP courses taken, the number and percentage of AP courses completed (passed), and the number and percent of AP Exams taken and scored 3 or higher.

## By Exam Category

Figure 6A (p. 20) shows the distribution of the grades in AP courses disaggregated by AP Exam scores, and Figure 6B (p. 21) shows the distribution of AP Exam scores by the grades in AP courses categorized by the seven AP subject areas. These figures include students that took an AP Exam and did not take the corresponding course.

Figures 6A and 6B indicate the following:

- Approximately 72 percent of all AP Exams taken by students with a score of 1 have an associated course grade of $C$ or higher, and 79.5 percent of all AP Exams taken by students with a score of 2 have a course grade of $C$ or higher (see Figure 7A).
- Forty-nine percent of the students who earned an A in an AP course also earned an AP Exam score of 1 or $2,74.7$ percent of the students who earned a B in an AP course also earned a 1 or 2 on the associated AP Exam, and 85.1 percent of the students who earned an AP course grade of $C$ also earned a 1 or 2 in the associated AP Exam (see Figure 6B).
- Forty-five percent of students who failed their World Languages \& Culture AP course also scored 3 or higher on the corresponding AP Exam (see Figure 6B).
- At least eighty-two percent of students who earned an A in AP Capstone ( 83.5 percent) and World Languages and Cultures ( 82.9 percent) scored a 3 or higher on the corresponding AP Exam.
- Approximately 60 percent of students who took an AP Exam in World Languages \& Culture, but did not take the corresponding AP course, scored a 3, 4, or 5 on the AP Exam, reflecting the highest percentage of students receiving a qualifying score without taking the requisite AP course.

## By Exam Title

Figure 6C ( p .23 ) shows the relationship between AP Exam passing rates and AP course grades. It shows, by AP exam title, the percent of students earning an exam score of 3 or higher compared to the percent of those students earning a course grade of 80 or higher. The subjects are sorted by magnitude of the differential between the AP exam passing rate and the course grade. For example, Microeconomics had the largest difference (65.4 percentage points) between the AP Exam passing rate (20.4 percent) and the corresponding AP course grade ( 85.8 percent); whereas Spanish Language and Culture had the smallest difference between AP Exam passing rate ( 72.4 percent) and the corresponding AP course grade (66.9 percent). Results are shown for 32 areas for which at least 20 students were tested with a corresponding course grade.

- Spanish Language and Culture was the only AP Exam for which the passing rate exceeded the course grade by 5.5 percentage points.
- There were 31 exams where course grades exceeded AP Exam performance. This difference ranged from 10.9 points to 65.4 points.
- There were 26 areas where course grades exceeded AP Exam performance by at least 20 percentage points. These included: Microeconomics, Macroeconomics, French Language and Culture, English Literature \& Composition, United States Government and Politics, Physics 1, Calculus AB, United States History, Psychology, World History, Physics C: Electricity \& Magnetism, Environmental Science, Computer Science Principles, Comparative Government and Politics, English Language \& Composition, Biology, Chemistry, Human Geography, Statistics, Music Theory, Computer Science A, Studio Art: Drawing Portfolio, European History, Research, and Spanish Literature and Culture.

## "Emerging Scholars" $8^{\text {th }}$ and $9^{\text {th }}$ Grade

Though AP courses and exams are usually taken by students in grades 10-12, increasingly, students in middle school and ninth grade are taking advantage of the opportunity to earn college credits early in their academic careers. The most common courses and exams taken by middle school students and ninth graders are Human Geography and Spanish language courses and exams. Table 6 presents AP course and exam participation and performance for students in grades 8 and 9. Due to COVID-19, families could choose whether their child attended face-to-face or remotely.

|  | All Students | Remote | F2F | All Students | Remote | F2F | All Students | Remote | F2F |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

Sources: End of Year SIS Grades data files, July 19, 2021; College Board AP electronic data file, September 9, 2021 Notes: AP courses and AP Exams are linked--these graphs display AP Exams for which a corresponding AP course grade exists. Table displays a duplicated count of exams taken by students enrolled in grades 8 and 9 only. AP course completion is defined as enrolled in an AP course and earning a passing grade at the end of the course ( 70 or higher) for the second semester of a two-semester course.

Table 6 indicates the following:

- In 2020-2021, 3,549 district eighth and ninth grade students enrolled in an AP Course, and of those, 2,655 ( 74.8 percent) of those students completed the course, and 39.5 percent completed the course and took the associated AP Exam, scoring three or higher.
- In 2020-2021, remote learners in grades 8 and 9 outperformed face-to-face learners. Approximately 79 percent of remote learners completed an AP course compared to 67.5 percent of face-to-face learners. Moreover, 41.2 percent of remote learners in grades 8 and 9 completed an AP course, took the associated AP Exam, and scored a 3 or higher compared to 35.7 percent of face-to-face learners.

Table 7 ( p .25 ) presents the type of AP Exams taken by $8^{\text {th }}$ grade students enrolled at a middle school. AP Exam participation and performance for $8^{\text {th }}$ grade students by exam and campus are presented in Appendix F (p. 41) for 2018-2019 and 2020-2021.

| Table 7. AP Exam Participation and Performance by Exam, 8th Grade, 2021 |  |  |  |  |
| :--- | ---: | ---: | ---: | :---: |

Source: College Board AP electronic data file, September 9, 2021
Note: This table displays a duplicated count of exams taken by students enrolled in 8th grade. There were some students who self-reported they were in eighth grade and tested at a high school campus or took other subjects or tested at a middle school and self-reported a higher grade level. These subjects include: Human Geography ( $\mathrm{N}=2$ ) and Computer Science Principles ( $\mathrm{N}=1$ ). These exams are included in the totals.

Table 7 indicates the following:

- Out of 440 exams taken in 2021 by eighth grade students, 314 (71 percent) earned a score of 3 or higher.
- Eighty-eight percent of the exams taken by eighth grade students for 2021 were the AP Spanish Language \& Culture exam and 74 percent earned a score of 3 or higher.
- Of the 52 Chinese Language \& Culture exams taken by eighth grade students, 29 (56 percent) earned a score of 3 or higher.

## AP Scholar Awards

The AP Program offers several AP Scholar Awards to recognize high school students who have demonstrated college-level achievement through AP courses and exams. This achievement is acknowledged on any score report that is sent to colleges the following fall. Notifications about AP Scholar Awards are sent to students and schools in October of each year. The following AP Scholar Awards are offered by the College Board: AP Scholar, AP Scholar with Honor, AP Scholar with Distinction, AP Capstone Diploma, and AP Seminar and Research Certificate. The criteria for receiving these awards are shown in Appendix G-1 (p. 42).

Appendix G-2 (p. 43) shows the number and category of AP Scholar Awards earned by campus in 2019 and 2021. Key findings include:

- At campuses that had an AP Scholar in 2021, the number of AP Scholar Awards earned by HISD students decreased by 16 percent, or 390 awards, to 2,018 in 2021 from 2,408 in 2019. This decrease can be partly attributed to the discontinuation of the National AP Scholar award earned by 249 students in 2019.
- Seventy-three percent of all AP Scholar Awards were earned by students at five campuses: Bellaire HS (20 percent), Carnegie HS (28 percent), DeBakey HS (9 percent), Kinder HSPVA (7 percent), and Westside HS (9 percent).
- Fifteen campuses earned more AP Scholar Awards in 2021 than in 2019 including three campuses that increased the number of AP Scholar Awards earned by double-digits.
- In 2021, the College Board discontinued awards, such as the National AP Scholar, that encouraged students to take a large number of AP exams. ${ }^{2}$

## Conclusion

The purpose of this report was to examine the participation and performance of HISD students on Advanced Placement exams and courses. The investigation was also designed to supply a comparison of current year AP results with those from the previous year, although due to the COVID-19 pandemic in 2020, results are not entirely comparable for several reasons. Students moved from face-to-face learning to a virtual environment in mid-March. Although action steps were taken on the part of the district to ensure equitable learning environments, the district faced challenges. Not all HISD students had access to a web-enabled device or internet, although the district was constantly reaching out to support students. Family situations further complicated both the learning and testing environments. For example, students indicated on the form that was sent to capture AP testing issues that family disruptions may have negatively impacted a student's ability to complete an AP exam or that students experienced interruptions to internet service. For these reasons, comparisons were made to 2019 instead of 2020.

The results from this report indicate that the number of HISD middle and high school students earning a score of 3 or higher on an AP Exam had been increasing through 2019 but dropped in 2021. Moreover, the proportion of students who earn a score of 3 or higher has decreased from 2019. Relatedly, the success rate on the exams students with the highest number of testers, History \& Social Sciences and English, were lower than that of other exams. While the number of students from historically underrepresented groups (such as African Americans, Hispanics, and those who are economically disadvantaged) who take AP Exams is increasing, they typically are less likely to pass AP Exams compared to their White, Asian, and non-economically disadvantaged counterparts. Additionally, AP performance varies markedly across the district.

During the 2020-2021 school year, families could elect face-to-face or remote instruction. For high school students, those who enrolled in remote instruction outperformed students receiving face-to-face instruction based on completion rates and percentage of AP Exams receiving scores of three or higher. As students and families chose the location of instruction, these results are descriptive of performance and not an evaluation of instructional method.

A comparison was made looking at the AP course grade (A's or B's) and AP Exam scores of 3-5. There were 26 AP Exams where the differences were at least 20 percentage points. These large discrepancies between class grades and AP passing rates suggest lack of alignment and rigor. Alternatively, one AP Exam, Spanish Language and Culture, showed more students passing than earning an A or B in course work.

Approximately 30 percent of HISD high school students enrolled in at least one AP course for the 20202021 school year. Hispanic and African American students are less likely to enroll and complete an AP course compared to their Asian and White counterparts. For 2020-2021, families could select whether their children would receive face-to-face or remote instruction each grading cycle. A higher percentage of students took and completed at least one AP course through remote instruction compared to those receiving face-to-face instruction. When campus-level data are examined, participation and performance vary markedly. For example, the percent of students who passed at least one AP exam ranged from 2.8
percent at Wheatley High School to 88.9 percent at Middle College HS at Fraga. Additionally, none of the students who took at least one AP Exam and received face-to-face instruction at Furr High School received a 3 or higher.

When examining the equity and excellence indicator for seniors for African American and Hispanic students, only 6.3 and 12.6 percent of seniors, respectively, scored 3 or higher on an AP exam during their high school tenure. This contrasts markedly with 52.2 percent of Asian and 26.4 percent of White seniors who scored a 3 or higher on an AP exam during their high school tenure. African American and Hispanic students are not participating or performing at the same rates as White or Asian students in AP classes or on AP exams.

The district had a total of 2,018 AP Scholar Awards with 219 students earning an award with Honor and 654 earning an award with Distinction. Moreover, there were 137 students earning an AP Capstone Diploma, reflecting a 27 percent increase from 2019. HISD students exposed to Advanced Placement courses continue to have to the opportunity to earn college credits while still enrolled in high school.

## Methods

## Data Limitations

The College Board receives Advanced Placement (AP) data from the Educational Testing Service (ETS). It is important to understand that the extracts are made from a dynamic database that changes from one day to the next as scoring and adjustments to individual student records progresses in the months following the examination administration. Therefore, discrepancies may exist between the sources of data that are used for AP Exam reporting purposes, namely the College Board Report AP Online Score Reports and the College Board (electronic) data file based on the time of the data download. AP data for the current school year (2020-2021) were downloaded from the College Board portal on September 9, 2021 in the form of electronic files.

To provide disaggregated student level demographic information, the College Board AP electronic file was matched on race/ethnicity, gender, grade, economic status, special education status, gifted and talented status, homeless status, and English Learner (EL) status to PowerSchool Student Information System (SIS) data file (date of extraction: 7/19/2021) and A4E. Campus-level data were used from the test file by matching the Attending Institution Code (AI Code) to the Campus Information List CEEB Code to extract the 3-digit campus code, with some exceptions. Due to campuses merging, four campuses were recoded to organization number 321. The four campuses included: Beechnut Academy, Energized for Stem Academy Southwest, Energized for STEM Southeast Middle School, and Energized for STEM Academy Central.

Students who were identified as enrolled in AP courses were required to be active students as of the end-of-year (EOY) database and to have completed the course with a final semester grade or final grade in the second semester of a two-semester course. The number of AP courses offered by campus included all AP courses in which at least one student was enrolled. Bellaire, Chavez, Heights, and Lamar High Schools offer the International Baccalaureate (IB) Program in addition to Advanced Placement (AP). As such, it is possible for students at these campuses to take an IB course in one subject-instead of the AP courseand to also take the AP Exam in the same subject.

There were discrepancies regarding the campus of enrollment and the campus at which a student was attributed by the College Board. For example, Beechnut Academy has been closed, but three student were attributed to that campus. There were ninth, tenth, eleventh and twelfth grade students that were attributed to middle school campuses, but they were enrolled at a high school campus according to the SIS data file.

The student information platform changed from Chancery in 2019-2020 to PowerSchool SIS in 2020-2021. Due to this change, course grade data files are not directly comparable since PowerSchool SIS is a dynamic system and the Chancery System is not. Moreover, when analyzing AP courses with the corresponding AP exam, there were instances when students took the AP exam, but were not enrolled in the corresponding AP course. For example, Lanier Middle School students enrolled in a Chinese Language course, but it was not an AP Chinese Language course. These students also took the AP Chinese Language and Culture Exam.

The COVID-19 pandemic impacted participation in AP exams for both 2020 and 2021. For 2020, the College Board offered AP exams online using an open book, open note format so that students could test remotely. To ensure equity of opportunity, the AP tests covered material only through March, marking the transition from face-to-face learning to online learning. Although the district worked with the College Board to ensure that all students had the resources such as internet and a web-enabled device with which to access and submit their exams, students had issues depending on the particular AP exam. These issues included, but were not limited to, submission errors, technology disruptions, interruptions from family members, sickness, power outages, battery failures, and Other (Department of Research and Accountability, 2020). For these reasons, comparison of AP exams taken in 2020 are not comparable to those taken previously or subsequently. For 2021, AP exams were offered over three administration windows in digital and paper format. Language exams were only offered in school or school-proctored locations.

College Board discontinued reporting on state and national AP test results this year. The Texas and U.S. Public school's data were requested and provided in a pdf format, Texas-Public Schools Overview 20202021.Through the years, the College Board has changed their website so that certain reports are no longer available. For example, from 2011 to 2015, the College Board provided a District Summary by School. With the redesign in the College Board website, certain reports can no longer be downloaded as a single file, but by school and subject.

In the past, data analyses used self-reported data such as grade level, gender, and race/ethnicity to match the College Board reports viewed by program personnel and to ensure data accuracy. Due to a high number of no responses as well as data quality errors, district demographic files are being now being used. Previous years AP data calculations were re-analyzed using Chancery demographic data files.

## Participants, Data Collection and Analysis

AP Exam fee information was collected from program personnel as well as information provided on the College Board website for the 2020-2021 school year.

AP Trends in College Pricing were computed by downloading the Trends in College Pricing report and using Table CP-5 to make the calculation to determine the cost per credit hour for Texas. This cost is used to estimate the number of credits by multiplying the number of exams scored at 3 or higher by 3 credit hours. Once the number of credit hours has been determined, total savings is estimated by multiplying the cost per credit by the total number of credits.

AP Texas Public School performance and United States Public School performance were calculated by dividing the number of AP Exams scored at 3 or higher by the number of AP Exams Taken, using the Texas-Public Schools Overview, 2020-2021 as the data source.

AP Exams by AP Exam Category were calculated by matching the AP Exam code in the AP data file to the Exams Codes and Title, and then aggregating by AP Exam Category for those exams taken in 2021 and having a valid score of 1 to 5 . The Exam Codes and Title data file is updated every year to note discontinued exams and changes in Exam Titles using the most recent data file format available on the College Board website. AP Exams were counted if they had received a score at the time of data retrieval. Any AP Exam without a corresponding score was excluded from analysis.

To determine the percentage of AP Exams scored 3 or higher by race/ethnicity, the total number of tests scoring a 3 or higher was divided by the total number of tests taken (for which a score was received) for each racial/ethnic category.

Equity and excellence calculations for the current year matched the AP data file to the On Suite senior enrollment file for 2021. Students that did not match were excluded from the analysis. The calculation shows the proportion of a district's senior class who scored a 3, 4, or 5 on an AP Exam at any point during high school. Students who met the standard were divided by the district's senior enrollment. These calculations were also made by race/ethnicity, economically disadvantaged, EL, Special Education, Homeless, and G/T. Appendix B-1 (p. 32) shows the equity and excellence calculations by campus.

Appendix B-2 (p. 33) uses Global Scores to compare the mean scores by subject for HISD students with the mean scores of students in Texas and all AP test-takers (Global). The College Board Subject Score Roster, Aggregated for Districts retrieved on September 13, 2021, was used to report state and global mean scores by exam. The College Board data file, September 9, 2021, was used to calculate the mean scores and the number of exams taken for the district.

Appendix $B-3$ (p. 34) shows the gaps in mean exam scores between African American and White students as well as Hispanic and White students, by subtracting the mean scores for each exam and arriving at a differential. This differential score was compared to those in 2019 to see if the gap was increasing, decreasing, or remain unchanged.

AP course participation rates for freshman, sophomores, juniors, and seniors were calculated by dividing the number of students enrolling in at least one AP course by the SIS snapshot of enrollment for the same group. Participation rates for freshman, sophomores, juniors, and seniors were calculated across the district, by campus, and by student group.

The number of students enrolled in AP courses consisted of those enrolled in the second semester of a two-semester course as per the SIS database and/or those enrolled in a one-semester course. For duplicated and unduplicated counts, the campus variable in the end-of-year SIS Grades data file was used. The demographics for the courses used those demographics included in the End of year SIS PowerSchool grades data files, extracted on 7/19/2021.

Course completion was determined by counting those students who received a semester grade of 70 or higher or a grade of 70 or higher on the second semester of a two-semester course. Once this number was computed, it was divided by the total number of students who were enrolled in an AP course.

Learning Mode was extracted from the End of Year SIS Grades files. A student was considered face-toface (F2F) if they were "IP" for 2 out of 3 grading cycles or if they were missing Learning Mode. A student was considered "RV" (remote) if they were "RV" for 2 out of 3 grading cycles.
Comparison of AP Exam Scores and AP Course Grades used crosstabulation of the student-level AP Course Grades matched to the AP data file. Figures 7 a and 7 b report the distribution of AP courses disaggregated by AP Exam Scores and AP Exam scores by the AP course grades. Figure 7c compares AP Exams Scores of 3 to 5 to AP Course Grades of A or B. For Figure 7c, only those exams for which at least 20 students were tested. The percentage of students scoring 3 or higher was subtracted from the percentage of the corresponding course grade of $A$ or $B$. The differential was then sorted by largest to smallest.

For Appendix E (p. 40), the AP course file and AP test file were linked. The number of courses for which a student received a cycle grade or conduct mark for the second semester of a two-semester course, and one semester of a one-semester course were analyzed. Passing the AP course meant that the average grade for the second semester of a two-semester course or one semester of a one-semester course was greater than or equal to 70 . The number of AP courses taken with the corresponding AP test was analyzed. A student did not have to complete the AP course to take the exam since only a cycle grade or conduct mark was required. From this subset, the number and percentage of students receiving a 3 or higher were analyzed.

The College Board provides information about the AP Scholar Awards, including new awards and discontinued awards. This information is updated annually. The Scholar Summary, Aggregated for Districts for the current and past year were downloaded from the College Board online score report tool on August 7, 2020 and November 9, 2021, and were used to report the total number of students who earned an AP Scholar Award.

## Appendix A

## 2020-2021 Advanced Placement Exams by Category

## Arts (5)

- Art History
- Music Theory
- 2-D Art and Design
- 3-D Art and Design
- Drawing

AP Capstone (2)

- Seminar
- Research

## English (2)

- English Language and Composition
- English Literature and Composition

History \& Social Science (9)

- Comparative Government and Politics
- European History
- Human Geography
- Macroeconomics
- Microeconomics
- Psychology
- United States Government and Politics
- United States History
- World History: Modern

Math \& Computer Science (5)

- Calculus AB
- Calculus BC
- Computer Science A
- Computer Science Principles
- Statistics

Sciences (7)

- Biology
- Chemistry
- Environmental Science
- Physics 1
- Physics 2
- Physics C: Electricity and Magnetism
- Physics C: Mechanics

World Languages \& Cultures (8)

- Chinese Language and Culture
- French Language and Culture
- German Language and Culture
- Italian Language and Culture
- Japanese Language and Culture
- Latin
- Spanish Language and Culture
- Spanish Literature and Culture

Sources: College Board AP data files, various years; Chancery, various years; On Suite Demographic senior enrollment file, 2021
Notes: Seniors with Chancery/On Suite data and 2021 AP data were included in this analysis. Enrollments for Community Services, HCC Life Skills, JJAEP, SOAR Center, and TH Rogers were excluded. This report may differ from previous reports. *Scores are not reported for less than 5 students. $\pm$ Campus E-STEM West HS is no longer an active HISD campus for this reason the enrollment is N/A. Due to the COVID-19 pandemic, 2020 data are not comparable to previous or subsequent years. Performance data at schools where no one tested are denoted as "- -". Excludes Community Services, HCC Life Skills, JJAEP, Soar Center, and TH Rogers.

Notes: Bellaire, Chavez, Heights, and Lamar High Schools offer the International Baccalaureate Program in addition to Advanced Placement. This table displays an unduplicated count of all students tested and a duplicated count of exams taken by students. Combined School totals for Long Academy, Sharpstown International, and YWCPA include middle school students. Due to the COVID-19 pandemic, 2020 data are not comparable to previous or subsequent years.
*Masked number tested < 5; $\pm$ School is closed

Sources: End of Year SIS Grades file, July 19, 2021; College Board AP data file, September 9, 2021
Notes: AP courses and exams are linked--these graphs display a duplicated count of AP Exams taken by students enrolled in grades 9-12 for which a corresponding AP course grade exists. Students did not need to finish the AP course to be included in the category of AP courses taken. Bellaire, Chavez, Heights, and Lamar High Schools offer the International Baccalaureate (IB) Program in addition to Advanced Placement (AP).

Sources: College Board AP data files, September 11, 2019, and September 9, 2021
Notes: Table displays a duplicated count of exams taken by students who tested at a middle school. For 2021, there were 5 students who were in eighth grade according to SIS but tested at a high school campus. There was one student who tested in a nonlanguage subject at a middle school. Other subjects include: Human Geography ( $\mathrm{N}=2$ ) and Computer Science Principles ( $\mathrm{N}=1$ ). These results are included in the total counts. Due to the COVID-19 pandemic, 2020 data are not comparable to previous and subsequent years.
*Masked \# tested < 5

## Appendix G-1

Advanced Placement Award Levels Available to HISD Students

| Award | Criteria |
| :---: | :---: |
| AP Scholar | Granted to students who receive scores of 3 or higher on three or more AP Exams. |
| AP Scholar with Honor | Granted to students who receive an average score of at least 3.25 on all AP Exams taken, and scores of 3 or higher on four or more of these exams. |
| AP Scholar with Distinction | Granted to students who receive an average score of at least 3.5 on all AP Exams taken, and scores of 3 or higher on five or more of these exams. |
| AP International Diploma | Granted to students who receive a 3 or higher on five or more exams. Exams taken multiple times only count once. The highest score will be used for award calculation. Students attending a school within the U.S. must indicate on their AP Exam answer sheet that their scores will be sent to a university outside the U.S. Exams must fulfill the following content areas: 1). Two AP Exams from two world languages and culture courses. The language must be different in each course; or 2). Two AP Exams from one world language and culture course and one English course. |
| AP Seminar and Research Certificate | Granted to students who earn scores of 3 or higher in both AP Seminar and AP Research. |
| AP Capstone Diploma | Granted to students who earn scores of 3 or higher in AP Seminar and AP Research and on four additional AP Exams of their choosing. |
