## SUBJECT: 2022 ADVANCED PLACEMENT (AP) RESULTS

CONTACT: Allison Matney, Ed.D., 713-556-6700
The results from the Advanced Placement (AP) Examinations have been released by the College Board. There is a total of 38 AP Exams offered in seven subject categories. HISD schools administered all 38 AP Exams in 2022. The AP grade scale ranges from 1 to 5 , and a score of 3 or higher qualifies a student to earn advanced placement, college credit, or both.

Key findings include:

- The number of students districtwide taking at least one AP Exam increased by four percent to 13,823 in 2022 from 13,297 in 2021, reflecting, in part, the impact of the COVID-19 pandemic.
- The percentage of these exams scored at a 3 or higher in 2022 increased from 39 percent in 2019 to 41 percent in 2022. Figure 1 presents the four-year trend for the number of AP Exams taken districtwide and the number scored 3 or higher.
- Twenty-nine campuses earned more AP Awards in 2022 than in 2021 including eight campuses that increased the number of AP Scholar Awards earned by double-digits.
- In 2021-2022, the district had a total of 1,074 high school AP Scholars, with 335 recognized with Honor, 719 recognized with Distinction, and 4 earning the AP International Diploma.

Note: Due to the COVID-19 pandemic, 2020 data are not comparable to previous or subsequent years.

## Administrative Response

The vision for the AP program in HISD is to ensure all students have the opportunity to participate and be exposed to college level, rigorous curriculum alongside the opportunity to earn college credit. The school's office is sharing the data from this report to high school principals and leadership for the purposes of reflecting on campus AP practices, begin planning for 2023-2024 master schedules, and follow up data conversations at the campus level to review AP offerings, as well as student success on AP exams in relation to grades given in class.

High school support officers are monitoring campus usage of AP potential to schedule students in AP and Pre-AP courses in addition to engaging in TTESS calibration walks. These walks are used to observe rigor of lessons in AP and Pre-AP courses and provide productive feedback to ensure equitable access to course curriculum.

The Schools Office, Research and Accountability, and College Readiness Departments will assist campuses with program evaluation and long-term planning with regard to their advanced academics strategies. Additionally, Project Explore and AVID courses will remain accessible to RISE and targeted campuses with increasing student readiness for AP courses and curriculum.

Should you have any further questions, please contact Allison Matney in Research and Accountability at 713-556-6700.

It is the policy of the Houston Independent School District not to discriminate on the basis of age, color, handicap or disability, ancestry, national origin, marital status, race, religion, sex, veteran status, political affiliation, sexual orientation, gender identity and/or gender expression in its educational or employment programs and activities.

# ADVANCED PLACEMENT REPORT <br> 2022 

## Executive Summary

The Advanced Placement (AP) program represents a critical element in HISD's efforts to inject rigor into the high school classrooms. Since 2011, the AP course offerings in HISD have been vastly expanded, with more campuses offering a wider selection of AP courses that exposes a larger percentage of the high school population to college level academic rigor. The 2022 AP Exams were administered over a two-week period in May in a paper-and-pencil format. There were two exceptions: AP Chinese and AP Japanese exams were administered in schools on computers.

## Highlights of AP in 2022

- The number of students districtwide taking at least one AP Exam increased by four percent to 13,823 in 2022 from 13,297 in 2021.
- The number of AP Exams taken districtwide increased by four percent to 25,339 in 2022 from 24,355 in 2021.
- The number of AP Exams scored 3 or higher increased by 18 percent to 10,484 in 2022 from 8,884 in 2021 , and the proportion of exams scored 3 or higher increased from 36 percent in 2021 to 41 percent in 2022.
- History and Social Sciences represented the largest category among the seven AP categories with 45 percent of all AP Exams taken districtwide, followed by 17 percent in English.
- For the 2021-2022 school year, 33.0 percent of high school students enrolled in at least one AP course.
- Twenty-nine campuses earned more AP Awards in 2022 than in 2021 including eight campuses that increased the number of AP Scholar Awards earned by double-digits.
- In 2022, the district had a total of 1,074 high school AP Scholars, with 335 recognized with Honor, 719 recognized with Distinction, and 4 earning the AP International Diploma.

## Introduction

The College Board's Advanced Placement (AP) Program provides participating high school students with the opportunity to take college-level courses and earn college credit, advanced placement, or both. A possible 38 examinations in Arts, AP Capstone, English, History and Social Science, Mathematics and Computer Science, Sciences, and World Languages and Cultures are administered in May at participating schools (for a complete list of examinations in each category, see Appendix A, p. 28). As reported by the College Board, most four-year colleges and universities, as well as institutions in 100 other countries grant
credit, placement, or both to students receiving a qualifying score (i.e., 3 or higher on a scale of 1 to 5 ) on an AP Exam. ${ }^{1}$

Studies show that students who take AP courses and exams are more likely to succeed in college. ${ }^{2}$ Families may also experience tangential financial benefits if students receive advanced placement, college credit, or both. Other benefits afforded to students include opportunities that lead to scholarships or recognition. The AP Program recognizes high school students who have demonstrated outstanding college-level achievement through AP courses and exams with the AP Scholar Awards (Appendix G-1, p. 39). Although there is no monetary award, each award-winning student receives a certificate, and the award is acknowledged on any AP score report that is sent to colleges after the award has been conferred.

For the 2021-2022 school year, all courses labeled as "AP" by HISD were authorized through the College Board AP Course Audit process. This audit process ensures that courses meet "AP" requirements, and that colleges and universities have a venue to review authorized courses offered by secondary schools. ${ }^{3}$

## Administration and Submission

Typically, AP Exams are administered each year in May over a two-week period. There is a make-up exam testing period as well as an exception testing period for students that had a conflict with a scheduled AP test. For 2022, the AP Exams were full-length and covered the full scope of the course.

## Scoring

The final score is reported on a 5-point scale as follows:

- $5=$ extremely well qualified
- 4 = well qualified
- 3 = qualified
- 2 = possibly qualified
- 1 = no recommendation
"Qualified" means that the student has demonstrated the capability of doing introductory-level coursework in a particular subject at college. Many colleges and universities grant credit and placement for scores of 3 , 4 or 5 ; however, each college decides which scores it will accept.

The free-response section (essays and open-ended questions) is scored at the annual AP Reading held in June. Specially appointed college professors and experienced AP teachers score this section of the exam; All AP subjects have AP readers scoring at Reading sites; however, at-home scoring is available for selected AP subjects. The total scores from the free-response section and the multiple-choice section are combined to form a composite score. These composite scores are then translated into the 5-point scale using statistical processes designed to ensure that a score of 3 this year reflects the same level of achievement as a score of 3 last year.

For more details on the methods used in analyzing the data presented in this report, see pages 25-27.

[^0]
## Program Costs and Funding Source

The AP Exam fees are outlined in Table 1. The district pays for all AP exams regardless of a student's family income level. The total costs for the district decreased to $\$ 1,126,931$ when compared to the previous year. The AP examination fee is $\$ 96$ per exam (minus a $\$ 9$ College Board rebate) resulting in an $\$ 87$ cost per exam for the 2021-2022 school year. The College Board provides a $\$ 34$ fee reduction per exam for students in financial need that qualify, and the state subsidy per AP exam is $\$ 40$ making the total cost $\$ 13$ per exam for eligible students for 2021-2022 compared to $\$ 21$ per exam for 2020-2021. The cost per AP Seminar and AP Research exam is \$144 and \$61 for students with financial need.

| Table 1. AP Exam Fees, 2018-2019 through 2021-2022 |  |  |  |  |
| :--- | ---: | ---: | ---: | ---: |
| Total costs | $2018-2019$ | $2019-2020$ | $2020-2021$ | $2021-2022$ |
| AP examination fee | $\$ 1, \mathbf{3 0 0}, 000$ | $\$ 1, \mathbf{2 4 3 , 3 2 1}$ | $\mathbf{\$ 1 , 3 4 5 , 5 5 1}$ | $\mathbf{\$ 1 , 1 2 6 , 9 3 1}$ |
| College Board rebate | $\$ 94$ | $\$ 94$ | $\$ 95$ | $\$ 96$ |

## Results

## Exam Participation and Performance

Due to the impact of COVID-19 on the educational experiences of students, participation rates on AP exams decreased markedly in 2020. Moreover, the AP exams administered in 2020 were not full length, did not cover the full scope of the course, and were administered remotely. Therefore, 2020 results are not comparable to previous or subsequent years. The total number of exams taken by HISD students increased by 984 exams to 25,339 in 2022 from 24,355 in 2021. For 2022, exams covered the full scope of the course, were full length, and not offered remotely. The number of AP Exams taken across the district and the number and percent scored 3 or higher are shown in Figure 1 (p. 4).

Figure 1. AP Exam Participation and Performance, Districtwide, 2019-2022

Sources: College Board AP data file, August 24, 2022; 2021 Advanced Placement (AP) Results
Note: This graph displays a duplicated count of exams districtwide. Values may differ from previous reports. Due to the COVID-19 pandemic, 2020 data are not comparable to previous or subsequent years.

Figure 1 indicates the following:

- The number of AP Exams taken by students districtwide increased by 4.0 percent to 25,339 in 2022 from 24,355 in 2021 although there was a ten percent decline from 2019.
- The number of AP Exams scored 3 or higher in $2022(10,484)$ increased by 18.0 percent compared to $2021(8,884)$.
- The percentage of AP Exams scored 3 or higher in 2022 increased by two percentage points compared to 2019 and increased by five percentage points compared to 2021.
- Based on students' opportunity to earn at least 3 college credits for each AP Exam score of 3 or higher, 10,484 AP Exams meeting the criteria at the high school level represents 31,452 estimated college credits. College Board calculates an average rate of $\$ 400.53$ per credit hour for 2022 indicating a total potential savings for the district's students and families of $\$ 12,597,469.56{ }^{4}$

## Comparison with State and Nation

The long-term impact of COVID-19 is evidenced by the vacillating participation and performance for the district, state, and nation. The College Board provides AP data for the state of Texas and the nation. Between 2019 and 2022, the number of AP Exams taken by all students in the district, Texas, and nation decreased by ten percent, four percent, and eight percent, respectively. HISD and the state of Texas experienced an increase in the percentage of AP Exams scored 3 or higher by two percentage points and one percentage point, respectively, whereas the nation experienced a three percentage point decline from 2019 to 2022.

[^1]Figure 2 presents the proportion of all AP Exams scored 3 or higher for HISD, Texas, and the nation from 2019 through 2022. Figure 2 indicates the following:

- The proportion of AP Exams scored 3 or higher for the district, state, and nation have shown an abrupt increase in performance in 2020 that can be attributed to COVID-19. These factors associated with COVID-19 included remote testing, the population of students tested, and the modifications made to tested material and format. For these reasons, 2020 data are not comparable to previous or subsequent years.
- In 2022, the proportion of AP Exams scored at 3 or higher in HISD is lower than that of Texas by eight percentage points, and lower than the nation by 14 percentage points. These gaps have closed from 2019 where it was nine percentage points for Texas and 19 percentage points for the nation.

Figure 2. AP Exam Performance (HISD, Texas, National), $\mathbf{8}^{\text {th }}-12^{\text {th }}$ Grade, 2019-2022

Sources: District, College Board AP data files, August 24, 2022; Texas and nation: Texas-Public Schools Overview, 2021-2022; Previous years: 2021 Advanced Placement (AP) Results
Note: Due to the COVID-19 pandemic, 2020 data are not comparable to previous or subsequent years.

## By Exam Category

Table 2 (p. 6) shows the number of AP Exams taken by HISD students by the seven AP Exam subject categories outlined in Appendix A (p. 28) and the percentage of exams scored 3 or higher.

| Table 2. AP Exam Particip AP Exam Category | AP Exams Taken |  | AP Scores $\geq 3$ |  |
| :---: | :---: | :---: | :---: | :---: |
|  | N | \% of Total | N | \% of Exams |
| History \& Social Science | 11,415 | 45\% | 3,675 | 32\% |
| English | 4,244 | 17\% | 1,849 | 44\% |
| World Languages \& Culture | 3,019 | 12\% | 1,916 | 63\% |
| Sciences | 2,916 | 12\% | 1,166 | 40\% |
| Math \& Computer Science | 2,773 | 11\% | 1,249 | 45\% |
| AP Capstone | 637 | 3\% | 474 | 74\% |
| Arts | 335 | 1\% | 155 | 46\% |
| HISD Totals | 25,339 | 100\% | 10,484 | 41\% |

Source: College Board AP data file, August 24, 2022
Notes: This table displays a duplicated count of exams taken by students who tested districtwide. Figures may not sum to 100 due to rounding.

Table 2 indicates the following:

- AP Exams taken in the History \& Social Science category represented the largest category (45 percent) followed by English (17 percent).
- $\quad$ Success rates ranged from 32 percent (History \& Social Science) to 74 percent (AP Capstone).
- While three percent of exams were in AP Capstone, the success rate was the highest at 74 percent.

## By Student Group

The total number of test-takers, the number of AP Exams taken and the number of exams scoring 3 or higher by HISD students increased in 2022 compared to 2021; similarly, the percentage of exams scoring 3 or higher increased by five percentage points from 36 percent in 2021 to 41 percent in 2022 (Table 3, p. 7).

Table 3 presents the number of HISD students districtwide in 2021 and 2022 who took an AP Exam, the number of exams taken, and the number of exams scored 3 or higher by race/ethnicity, gender, economic status, at-risk status, emergent bilingual (EB) status, special education status, homeless status, and gifted and talented (G/T) status. The number of students tested reflects an unduplicated count of students who took an AP Exam.

- Approximately six out of ten (61 percent) HISD students who took an AP Exam in 2022 were Hispanic. The number of Hispanic students who took AP Exams increased by six percent, and the number of exams taken by Hispanic students increased by 964 exams compared to 2021. The proportion of exams taken by Hispanic students scored 3 or higher increased from 2021 ( 24 percent in 2021 compared to 30 percent in 2022).
- African American students represented the second largest racial/ethnic group who took an AP Exam, accounting for 15 percent of all AP test takers in 2022. When compared to 2021, the number of African American students who took AP Exams decreased by less than one percent and the number of exams taken by African American students decreased by 5 percent. The proportion of exams scored 3 or higher taken by African American students increased by 6 percentage points compared to 2021.

| Student Group | N Tested |  | AP Exams Taken |  | AP Scores $\geq 3, \mathrm{~N}$ |  | AP Scores $\geq 3$, \% of Exams |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 2021 | 2022 | 2021 | 2022 | 2021 | 2022 | 2021 | 2022 |
| African American | 2,085 | 2,077 | 3,345 | 3,524 | 560 | 797 | 17\% | 23\% |
| Asian | 1,224 | 1,220 | 3,404 | 3,374 | 2,446 | 2,610 | 72\% | 77\% |
| Hispanic | 7,916 | 8,418 | 13,056 | 14,020 | 3,153 | 4,169 | 24\% | 30\% |

| Non-Homeless | 13,167 | 13,473 | 24,130 | 24,787 | 8,803 | 10,329 | 36\% | 42\% |
| G/T | 6,197 | 6,458 | 13,114 | 13,711 | 6,737 | 7,828 | 51\% | 57\% |
| Non-G/T | 7,065 | 7,288 | 11,168 | 11,505 | 2,100 | 2,610 | 19\% | 23\% |
| Female | 7,731 | 7,737 | 13,840 | 14,199 | 4,891 | 5,794 | 35\% | 41\% |
| Male | 5,533 | 6,009 | 10,442 | 11,017 | 3,946 | 4,644 | 38\% | 42\% |
| Missing | 33 | 77 | 73 | 123 | 47 | 46 | 64\% | 37\% |
| HISD Totals | 13,297 | 13,823 | 24,355 | 25,339 | 8,884 | 10,484 | 36\% | 41\% |

Sources: College Board AP data file, August 24, 2022 and September 9, 2021; at-risk, emergent bilingual, special education, homeless, G/T and economic status source: SIS Demographics, various years
Notes: This table displays an unduplicated count of students tested and a duplicated count of exams taken by students districtwide. For 2022 and 2021, economic status, EL, special education, homeless and G/T status could not be determined for 77 and 33 students, respectively, and for 54 missing EB students in 2021. Race/ethnicity, grade level, and gender were extracted from the demographic files rather than the AP data files.

- White students represented the third largest racial/ethnic group of students who took an AP exam, accounting for 13 percent of all AP test takers in 2022. Compared to 2021, the number of White students who took AP Exams decreased by three percent, while the number of exams taken decreased by six percent. The proportion of exams scored 3 or higher increased from the previous year ( 59 percent in 2021 compared to 67 percent in 2022). White students in HISD score at or above a 3 on the AP exam at rates 2.2 and 2.9 times higher than Hispanic and African American students, respectively.
- Asian students accounted for nine percent of AP test takers in 2022. When compared to 2021, the number of Asian students who took AP Exams and the number of exams taken by Asian students each decreased by less than one percent. The proportion of exams scored 3 or higher taken by Asian students increased compared to 2021 ( 72 percent in 2021 and 77 percent in 2022). Asian students outperformed all racial/ethnic groups for both 2021 and 2022 when looking at the proportion of exams scoring 3 or higher.
- Economically disadvantaged students accounted for 66 percent of AP test takers in 2022. When compared to 2021, the number of economically disadvantaged students who took AP Exams, the number of exams taken by economically disadvantaged students, and the proportion of exams scored 3 or higher increased by nine percent, 13 percent, and 48 percent. Non-economically disadvantaged students passed the AP exam at rates 2.2 times higher than economically disadvantaged students (62 percent vs. 28 percent).
- At-Risk students accounted for 36 percent of AP test takers in 2022. Compared to 2021, the number of at-risk test takers, the number of exams taken, the proportion of exams scored 3 or higher for at-risk students increased by 49 percent, 54 percent, and 92 percent, respectively. Non-at-risk students passed AP exam at rates 2.1 times higher than at-risk students (49 percent vs 23 percent).
- Performance gaps in passing rates exist between African American and Hispanic students compared to their White peers. In 2022, White students outperformed their African American and Hispanic peers by 44 and 37 percentage points, respectively. Comparing 2021 to 2022, the gap in passing rates between African American and White students as well Hispanic and White students increased by 2 percentage points.

The College Board provides a measure to assess both equity and excellence for the district (Table 4). The calculation shows the proportion of a district's senior class who scored a 3, 4 or 5 on an AP Exam at any point during high school. Students who met the standard (scores of 3,4 , or 5 ) on multiple exams are counted only once. A total of 19.3 percent of 2022 HISD seniors scored a 3, 4, or 5 during their high school tenure, reflecting a 4.8 percentage-point increase compared to 2021 . The percentage of students scoring a 3 or higher increased for all students and all student groups compared to 2021, with the exception of students receiving special education services.

Table 4. Equity and Excellence for Seniors and by Student Group, 2020-2022

|  | 2020 |  |  | 2021 |  |  |  | 2022 |  |

Sources: College Board AP data file, August 24, 2022; 2021 Advanced Placement (AP) Results
Note: Seniors with Fall PEIMS demographic data and AP data were included in this analysis. This report may differ from previous reports. Due to the COVID-19 pandemic, 2020 data are not comparable to previous or subsequent years. Excludes Community Services, HCC Life Skills, JJAEP, SOAR Center, Secondary DAEP and TH Rogers. * Masked for number tested <5

Appendix B-1 (p. 29) shows the proportion of HISD's senior class who scored a 3, 4, or 5 on an AP Exam at any point during high school by campus. Out of 40 campuses that tested ten or more students in 2022, Carnegie High School had 98.8 percent of their enrolled seniors scoring a 3, 4, or 5 on an AP Exam during their high school tenure, reflecting the highest percentage of all campuses.

## By Subject

Appendix B-2 (p. 30) compares the mean scores by subject for HISD students with the mean scores of students in Texas and all AP test-takers. For 2022, HISD participated in all 38 examinations.

For 2022, students in HISD scored a mean of 3 or higher on a five-point scale on 12 of the 38 AP subject examinations where five or more students were tested. Typically, a score of 3 qualifies a student to receive advanced placement and/or college credit. HISD students exceeded the global mean score for five out of 38 subject examinations in Music Theory, European History, Calculus BC, German, and Italian Language and Culture. Mean scores ranged from 1.20 in Comparative Government and Politics to 3.88 in Calculus $B C$. World History represented the subject test taken by the highest number of students $(\mathrm{N}=3,239)$; however, mean scores for this exam were lower than the global mean scores by 0.71 .

Appendix B-3 (p. 31) shows the gaps in the mean exam scores between African American, Hispanic, and White students for 2021 compared to 2022. The White-African American gap decreased on eight exams (shown by green arrow), and the White-Hispanic gap decreased on 12 exams (shown by green arrow). The largest gap decreases for White-African American students occurred on the Art History exam, and the largest gap decreases for White-Hispanic students occurred on the Physics C: Mechanics exam. The White-African American gap increased on 13 exams (shown by red arrow), and White-Hispanic gap increased on 16 exams (shown by red arrow). There was no change for the White-African American gap for 4 exams (shown by yellow arrow), and no change for the White-Hispanic gap for one exam (shown by yellow arrow).

## By Campus

Figure 3 ( p .10 ) shows the number of AP Exams taken by HISD students districtwide and the number of exams scored 3 or higher for each campus in 2021 and 2022. All AP Exams are represented in this figure, regardless of whether the student was enrolled in the AP course. Appendix C (p. 32) provides additional details for the number of AP Exams taken and the corresponding performance by campus.

Figure 3 indicates the following:

- Students at Carnegie High School took the largest number of AP Exams in $2022(2,838)$ while 12 exams were taken at Middle College HS-Fraga, reflecting the smallest number of exams taken.
- In 2022, exams taken at Bellaire, Carnegie, Westside, and DeBakey high schools reflected 32 percent of all AP Exams taken in HISD, but accounted for 56 percent of all exams that were scored 3 or higher.
- For the 44 campuses with two years of participation data and five or more testers, 26 campuses increased the number of AP Exams taken, and 18 campuses decreased the number of AP Exams taken.
- For the 44 campuses with two years of performance data and five or more testers, the number of AP Exams scored 3 or higher increased at 32 campuses and decreased at 11 campuses, with no change occurring at one campus.

Figure 3. AP Exam Participation and Performance by Campus, Districtwide, 2021 and 2022

Sources: College Board AP data file, August 24, 2022; 2021 Advanced Placement (AP) Results
Notes: Bellaire, Chavez, Heights, and Lamar high schools offer the International Baccalaureate (IB) Program in addition to Advanced Placement (AP). This figure displays a duplicated count of exams.
<>Ninth grade students attributed to a middle school campus by the College Board or middle school students who tested in a subject other than a foreign language.

## By Exam and by Campus

Appendix D (pp. 33-36) presents the results of students who took each AP Exam and the number and percentage of exams scored 3 or higher for each exam type by campus and district total in 2022.

- AP participation and performance across campuses varies markedly. Passing rates ranged from one percent at Wheatley High School to 82 percent at Bellaire High School.
- In 2022, there were campuses for which five or more students were tested where none of the students passed in the following exams: 3-D Art and Design, Music Theory, English Language \& Composition, English Literature and Composition, Human Geography, Macroeconomics, Microeconomics, Psychology, United States Government and Politics, United States History, World History, Calculus AB, Calculus BC, Computer Science A, Computer Science Principles, Statistics, Biology, Chemistry, Environmental Science, Physics 1, and Chinese Language and Culture.
- World History $(3,239)$, English Language \& Composition $(2,547)$, Spanish Language and Culture $(2,481)$, and United States History $(2,314)$ reflect the top four AP exams with the highest number of testers, rank-ordered.

## Course Participation and Performance: AP Course Offerings

Figure 4 (p. 12) shows the number of AP courses offered in HISD schools and the change in the number of courses from 2020-2021 and 2021-2022.

Figure 4 indicates the following:

- In 2022, 55 HISD schools offered at least one AP course—reflecting no change from the previous year.
- Of the 55 schools that offered AP courses in both 2020-2021 and 2021-2022, 17 schools increased the number of AP courses offered from 2020-2021, 20 schools decreased AP course offerings, and 18 schools had no change.
- The largest increase in AP courses offered in 2021-2022 compared to 2020-201 occurred at Bellaire High School with an addition of three courses.
- The largest decrease in AP courses offered in 2021-2022 compared to the previous year occurred at Houston Academy for International Studies (HAIS) and Northside high schools with a reduction of four courses.
- Students attending Lanier Middle School and the Mandarin Immersion Magnet take a Chinese course that is not an AP Chinese course and take the AP Chinese Language and Culture exam.

Figure 4. Distinct AP Courses Offered by Campus, 2020-2021 and 2021-2022
Ranked by the number of courses in 2021-2022

| School Name | 2020-2021 | 2021-2022 | Change |

Source: End of Year SIS Grades Files, July 2021 and July 2022
Note: Courses displayed had at least one student enrolled within the respective academic year. Lanier and the Mandarin Immersion Magnet offered a Chinese course that was not an AP Chinese course. Bellaire, Chavez, Heights, Lamar, Sharpstown International, and Yates high schools offer the International Baccalaureate (IB) Program in addition to Advanced Placement (AP).

## By Student Group

Table 5A presents the number and percent of HISD students in grades $9-12$ who completed at least one AP course by student group including race/ethnicity, economic status, Emergent Bilingual (EB) status, gender, gifted and talented (G/T) status, special education status, and homeless status. This table reflects an unduplicated count of students for courses. Students who were enrolled in the second semester of a two-semester course and/or those enrolled in a one-semester course were eligible to complete an AP course.

| Student Group | Grades 9-12 Enrollment |  | Students Enrolled in at Least One AP Course |  | Students Completing at Least one AP Course |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | N | \% | N | \% | N | \% |
| African American | 13,122 | 22.8 | 3,200 | 24.4 | 2,315 | 72.3 |
| American Indian | 126 | 0.2 | 36 | 28.6 | 31 | 86.1 |
| Asian | 2,314 | 4.0 | 1,338 | 57.8 | 1,238 | 92.5 |
| Hispanic | 35,507 | 61.8 | 11,906 | 33.5 | 8,287 | 69.6 |
| Pacific Islander | 61 | 0.1 | 24 | 39.3 | 23 | 95.8 |
| Two or More | 764 | 1.3 | 281 | 36.8 | 241 | 85.8 |
| White | 5,575 | 9.7 | 2,157 | 38.7 | 1,879 | 87.1 |
| Non-Econ. Disadv. | 13,061 | 22.7 | 5,633 | 43.1 | 4,748 | 84.3 |
| Econ. Disadv. | 44,401 | 77.3 | 13,309 | 30.0 | 9,266 | 69.6 |
| Not-At-Risk | 20,591 | 35.8 | 10,527 | 51.1 | 8,932 | 84.8 |
| At-Risk | 33,141 | 57.7 | 8,105 | 24.5 | 4,937 | 60.9 |
| Non-EB | 43,045 | 74.9 | 15,749 | 36.6 | 12,064 | 76.6 |
| EB | 14,424 | 25.1 | 3,193 | 22.1 | 1,950 | 61.1 |
| Female | 28,713 | 50.0 | 10,586 | 36.9 | 7,893 | 74.6 |
| Male | 28,752 | 50.0 | 8,356 | 29.1 | 6,121 | 73.3 |
| Non-G/T | 45,677 | 79.5 | 11,358 | 24.9 | 7,674 | 67.6 |
| G/T | 11,792 | 20.5 | 7,584 | 64.3 | 6,340 | 83.6 |
| Non-Special Education | 51,760 | 90.1 | 18,287 | 35.3 | 13,565 | 74.2 |
| Special Education | 5,709 | 9.9 | 655 | 11.5 | 449 | 68.5 |
| Non-Homeless | 53,958 | 93.9 | 17,763 | 32.9 | 13,276 | 74.7 |
| Homeless | 3,511 | 6.1 | 1,179 | 33.6 | 738 | 62.6 |
| HISD Totals | 57,469 | 100.0 | 18,942 | 33.0 | 14,014 | 74.0 |

Sources: End of Year SIS Grades files, July 2021 and July 2022
Notes: Table displays an unduplicated count of HISD students enrolled in grades 9-12. AP course completion is defined as enrolled in an AP course and earning a passing grade at the end of the course ( 70 or higher). This table may differ from previous reports. There are 7 students missing economic status, 4 students missing gender, and 3,737 missing At-Risk status.

Table 5A (p. 13) indicates the following:

- Hispanic and African American students are less likely to enroll in AP courses compared to their Asian and White peers. Only 33.5 and 24.4 percent of Hispanic and African American students, respectively, were enrolled in AP courses in 2021-2022 compared to 38.7 percent and 57.8 percent of White and Asian students, respectively.
- Hispanic ( 69.6 percent) and African American (72.3 percent) students had lower completion rates compared to their White (87.1 percent) and Asian (92.5 percent) counterparts.
- For 2021-2022, AP completion rates ranged from 60.9 percent for At-Risk students to 83.6 percent for G/T students.
- Among students enrolled in grades 9-12 for 2021-2022, 33.0 percent enrolled in at least one AP course and 74.0 percent completed at least one AP course.

## By Campus

Table 5B (p. 15) shows the percentage of students in grades 9-12 who completed at least one AP course and passed at least one AP exam in 2020-2021 and 2021-2022 by campus. For enrollment at a campus, a student was required to have at least one grade or conduct mark for each semester of a year-long course. Unduplicated counts are provided districtwide. For the unduplicated total, a student in grades 9-12 is counted only once if the student took and completed one or more AP courses. The campus attribution is based on the SIS Grades file for the respective year. Percentages are based on AP courses taken by students in grades 9-12.

Table 5B indicates the following:

- In 2021-2022, 74.0 percent of students enrolled in at least one AP course districtwide completed and passed at least one AP course.
- In 2021-2022, the percentage of students enrolled in at least one AP course and in grades 9-12 who completed and passed at least one AP course ranged from 45.0 percent at Sharpstown High School to 96.3 percent at YWCPA.
- The percentage of students who took at least one AP Exam ranged from 4.4 percent at TCAH to 99.3 percent at Carnegie High School.
- The percentage of students who passed at least one AP Exam ranged from 1.9 percent at Wheatley High School to 86.7 percent at Carnegie High School.
- Although 90.8 percent of Energized for STEM Academy High School students completed and passed at least one AP course, only 5.9 percent passed at least one AP exam. Similarly, there were six additional campuses that had at least 60 percent or more of their students who completed and passed at least one AP course but had less than 10 percent of their students pass at least one AP Exam. These included: Furr, Leland YMCPA, Scarborough, Washington, Wheatley, and Yates high schools.
- A lower percentage of students took and passed an AP course in 2022 compared to 2021.

Table 5B. Students Enrolled, Completed and Passed at Least One AP Course, and Took and Passed at Least One AP Exam

| 20212022 |  |  |  |  |  |  |  |  |  |  |

Notes: Table displays an unduplicated count of HISD students enrolled in grades 9-12. AP course completion is defined as enrolled in an AP course and earning a passing grade at the end of the course ( 70 or higher). There are 7 students missing economic status, 4 students missing gender, and 3,737 missing At-Risk status. The lowest values for passing a course and an exam are in bold red font, and the highest values are highlighted in green.

## Course and Exam Participation and Performance

Figure 5 shows the number of students enrolled in grades $9-12$ who completed at least one AP course, the number who took at least one AP Exam, and the number who received a score of 3 or higher on at least one AP Exam for 2021 and 2022. Figures for each series reflect an unduplicated count of students.

Figure 5. AP Course Completion and Exam Performance, $9^{\text {th }}-12^{\text {th }}$ Grade, 2021 and 2022

Sources: College Board AP data file, August 24, 2022; End of Year SIS Grades Files, July 2022; 2021 Advanced Placement Results
Note: This graph displays an unduplicated count of students enrolled in grades 9-12. AP course completion is defined as receiving a passing grade ( 70 or higher) at the end of the second semester of a two-semester course or receiving a 70 or higher for a one-semester course. Students could take the AP Exam without completing the AP course or could have taken the AP course outside of HISD.

Figure 5 indicates:

- For 2022, enrollment numbers were higher by 1,445 students compared to 2021.
- Among students enrolled in grades 9 through 12 in 2021-2022, the number of students passing at least one AP course exceeded 2021 by 259 students.
- In 2022, the number of students taking and passing at least one AP exam were higher by 511 and 1,109 students, respectively, compared to 2021.

## By Campus

AP course enrollment, completion, and exam performance are presented by campus in Appendix E (p. 37). Data analyzed include the number of AP courses taken, the number and percentage of AP courses completed (passed and failed), and the number and percent of AP Exams taken and scored at 1 or 2 and 3 or higher.

## By Exam Category

Figure 6A (pp. 17-18) shows the distribution course grades disaggregated by AP Exam scores, and Figure 6B (p. 19) shows the distribution of AP Exam scores by the grades in AP courses categorized by the seven AP subject areas. These figures include students that took an AP Exam and did not take the corresponding course.

Figures 6A and 6B indicate the following:

- Approximately 79.3 percent of all AP Exams taken by students with a score of 1 have an associated course grade of $C$ or higher, and 82.4 percent of all AP Exams taken by students with a score of 2 have a course grade of $C$ or higher (Figure 6A).
- Approximately 45 percent of the students who earned an A in an AP course also earned an AP Exam score of 1 or $2,68.7$ percent of the students who earned a B in an AP course also earned a 1 or 2 on the associated AP Exam, and 82.9 percent of the students who earned an AP course grade of C also earned a 1 or 2 in the associated AP Exam (Figure 6B).
- Forty-one percent of students who failed their World Languages \& Culture AP course also scored 3 or higher on the corresponding AP Exam (Figure 6B).
- At least seventy-eight percent of students who earned an A in AP Capstone (80.4 percent) and World Languages and Cultures ( 78.3 percent) scored a 3 or higher on the corresponding AP Exam.
- Approximately 54 percent of students who took an AP Exam in World Languages \& Culture, but did not take the corresponding AP course, scored a 3, 4, or 5 on the AP Exam. Other than AP Capstone, where only seven students did not take the corresponding AP course, the World Languages \& Culture category reflected the highest percentage of qualifying scores.

## By Exam Title

Figure 6C (p. 21) shows the relationship between AP Exam passing rates and AP course grades. It shows, by AP exam title, the percent of students earning an exam score of 3 or higher compared to the percent of those students earning a course grade of 80 or higher. The subjects are sorted by magnitude of the differential between the AP exam passing rate and the course grade. For example, Comparative Government and Politics had the largest difference ( 63.0 percentage points) between the AP Exam passing rate ( 3.7 percent) and the corresponding AP course grade ( 66.7 percent); whereas Italian Language and Culture had the smallest difference between AP Exam passing rate ( 90.0 percent) and the corresponding AP course grade ( 83.3 percent). Results are shown for 34 areas for which at least 20 students were tested with a corresponding course grade.

- There were five exams where the passing rate exceeded the course grade: Italian Language and Culture (6.7), Studio Art: 2-D Design Portfolio (12.0), Spanish Language and Culture (13.5), Chinese Language and Culture (34), and German Language and Culture (35.0).
- There were 29 exams where course grades exceeded AP Exam performance. This difference ranged from 10.7 points to 66.7 points.
- There were 24 areas where course grades exceeded AP Exam performance by at least 20 percentage points. These included: Comparative Government and Politics, Art History, Physics 1, Microeconomics, United States Government and Politics, Macroeconomics, Spanish Literature and Culture, United States History, Computer Science Principals, World History, Calculus AB, Chemistry, English Language \& Composition, Environmental Science, Human Geography, Studio Art: Drawing Portfolio, Physics C: Electricity \& Magnetism, English Literature \& Composition, Computer Science, Psychology, French Language and Culture, Statistics, Seminar, and Biology.

- AP Exams 3-5 ■ Course Grades A or B

Sources: End of Year SIS Grades data files, July 2022; College Board AP data file, August 24, 2022 Notes: AP courses and AP Exams are linked--these graphs display AP Exams for which a corresponding AP course grade exists. Graph displays a duplicated count of AP courses/Exams taken district wide.

## "Emerging Scholars" $8^{\text {th }}$ and $9^{\text {th }}$ Grade

Though AP courses and exams are usually taken by students in grades 10-12, students in middle school and ninth grade are increasingly taking advantage of the opportunity to earn college credits early in their academic careers. The most common courses and exams taken by middle school students and ninth graders are Human Geography and Spanish language courses and exams. Table 6 presents AP course and exam participation and performance for students in grades 8 and 9.

## Table 6. AP Course and Exam Participation and Performance, 8th-9th Grade, 2021-2022

|  | All Students | All Students | All Students |
| :--- | :---: | :---: | :---: |
|  | Grade 8 | Grade 9 | Grades 8 \& 9 |
| AP Course Enrollment | 403 | 3,393 | 3,796 |
| AP Course Completion (N) | 376 | 2,164 | 2,540 |
| AP Course Completion (\%) | 93.3 | 63.8 | 66.9 |
| AP Course Completed and AP Exams Taken (N) | 322 | 1,690 | 2,012 |
| AP Course Completed and AP Scores $\geq 3(\mathrm{~N})$ | 242 | 638 | 880 |
| AP Course Completed and AP Scores $\geq 3(\%)$ | 75.2 | 37.8 | 43.7 |

Sources: End of Year SIS Grades data files, July, 2022; College Board AP data file, August 24, 2022
Notes: AP courses and AP Exams are linked--these graphs display AP Exams for which a corresponding AP course grade exists. Table displays a duplicated count of exams taken by students enrolled in grades 8 and 9 only. AP course completion is defined as enrolled in an AP course and earning a passing grade at the end of the course (70 or higher) for the second semester of a two-semester course.

Table 6 indicates the following:

- In 2021-2022, 3,796 district eighth and ninth grade students enrolled in an AP course Of those, 2,540 ( 66.9 percent) completed the course, and 43.7 percent completed the course and took the associated AP Exam, scoring three or higher.
- A higher percentage of eighth grade students (93.3 percent) completed the AP course compared to ninth grade students (63.8 percent).
- Seventy-five percent of eighth grade students completed the AP course and scored a 3 or higher on the corresponding AP Exam compared to only 37.8 percent of ninth grade students.

Table 7 (p. 23) presents the type of AP Exams taken by $8^{\text {th }}$ grade students enrolled at a middle school. AP Exam participation and performance for $8^{\text {th }}$ grade students by exam and campus are presented in Appendix F (p. 38) for 2020-2021 and 2021-2022.

| Table 7. AP Exam Participation and Performance by Exam, 8th Grade, 2022 |  |  |  |  |
| :--- | ---: | ---: | ---: | :---: |
| AP Exam Title | \# of AP <br> Exams <br> Taken | $\%$ of AP <br> Exams <br> Taken | \# of AP <br> Scores $\geq 3$ | $\%$ of AP <br> Scores $\geq 3$ |
| Spanish Language \& Culture | 367 | $89 \%$ | 262 | $71 \%$ |
| Chinese Language \& Culture | 45 | $11 \%$ | 25 | $56 \%$ |
| Total | $\mathbf{4 1 2}$ | $\mathbf{1 0 0 \%}$ | $\mathbf{2 8 7}$ | $70 \%$ |

Source: College Board AP data file, August 24, 2022
Note: This table displays a duplicated count of exams taken by students enrolled in 8th grade.

Table 7 indicates the following:

- Out of 412 exams taken in 2022 by eighth grade students, 287 (70 percent) earned a score of 3 or higher.
- Eighty-nine percent of the exams taken by eighth grade students for 2022 were the AP Spanish Language \& Culture exam and 71 percent earned a score of 3 or higher.
- Of the 45 Chinese Language \& Culture exams taken by eighth grade students, 25 (56 percent) earned a score of 3 or higher.

## AP Scholar Awards

The AP Program offers several AP Scholar Awards to recognize high school students who have demonstrated college-level achievement through AP courses and exams. This achievement is acknowledged on any score report that is sent to colleges the following fall. Notifications about AP Scholar Awards are sent to students and schools in October of each year. The following AP Scholar Awards are offered by the College Board: AP Scholar, AP Scholar with Honor, AP Scholar with Distinction, AP International Diploma, AP Capstone Diploma, and AP Seminar and Research Certificate. The criteria for receiving these awards are shown in Appendix G-1 (p. 39).

Appendix G-2 (p. 40) shows the number and category of AP Scholar Awards earned by campus in 2021 and 2022. Key findings include:

- In 2022, the district had a total of 1,074 high school AP Scholars, with 335 recognized with Honor, 719 recognized with Distinction, and 4 earning the AP International Diploma.
- The number of all AP Awards earned by HISD students increased by 15 percent, or 306 awards, to 2,323 in 2022 from 2,017 in 2021.
- Seventy-three percent of all AP Awards were earned by students at five campuses: Bellaire HS (19 percent), Carnegie HS (28 percent), DeBakey HS (9 percent), Kinder HSPVA (7 percent), and Westside HS (10 percent).
- Twenty-nine campuses earned more AP Awards in 2022 than in 2022 including eight campuses that increased the number of AP Awards earned by double-digits.

## Conclusion

The purpose of this report was to examine the participation and performance of HISD students on Advanced Placement exams and courses. The investigation was also designed to supply a comparison of current year AP results with those from the previous year.

The results from this report indicate that the number of HISD middle and high school students earning a score of 3 or higher on an AP Exam has increased from 2021 to 2022. Moreover, the proportion of students who earned a score of 3 or higher has increased from 2019. Relatedly, the success rate on the exams with the highest number of testers, History \& Social Sciences and English, were lower than that of other exams. While the number of students from historically underrepresented groups (such as African Americans, Hispanics, and those who are economically disadvantaged) who take AP Exams is increasing, they typically are less likely to pass AP Exams compared to their White, Asian, and non-economically disadvantaged peers. Additionally, AP performance varies markedly across the district.

A comparison was made looking at the AP course grade (A's or B's) and AP Exam scores of 3-5. There were 26 AP Exams where the differences were at least 20 percentage points. These large discrepancies between class grades and AP passing rates suggest lack of alignment, insufficient student support, and rigor. Of the 26 AP Exams with large discrepancies, the AP Exam passing rates for Chinese Language and Culture and German Language and Culture exceeded the course grades indicating lack of alignment. In addition, there were campuses where none of the students passed a particular AP Exam. Extra student support, teacher mentoring, and curriculum alignment would reflect positive strategies.

Approximately 33 percent of HISD high school students enrolled in at least one AP course for the 20212022 school year. Hispanic and African American students are less likely to enroll and complete an AP course compared to their Asian and White counterparts. Active recruitment of underrepresented student groups coupled with student mentoring would create a conducive atmosphere for participation and performance.

When examining the equity and excellence indicator for senior African American and Hispanic students, only 7.4 and 17.7 percent of seniors, respectively, scored 3 or higher on an AP exam during their high school tenure. This contrasts markedly with 60.5 percent of Asian and 31.4 percent of White seniors who scored a 3 or higher on an AP exam during their high school tenure. African American and Hispanic students are not participating or performing at the same rates as White or Asian students in AP classes or on AP exams. Moreover, only 9.1 percent of At-Risk students and 9.9 percent of emergent bilingual students scored a 3 or higher on an AP Exam during their high school tenure.

The district had a total of 1,074 AP Scholar Awards with 335 students earning an award with Honor, 719 earning an award with Distinction, 4 earning an AP International Diploma, 142 earning an AP Capstone Diploma, and 49 earning an AP Seminar and Research Certificate. HISD students exposed to Advanced Placement courses continue to have to the opportunity to earn college credits while still enrolled in high school.

## Methods

## Data Limitations

The College Board receives Advanced Placement (AP) data from the Educational Testing Service (ETS). It is important to understand that the extracts are made from a dynamic database that changes from one day to the next as scoring and adjustments to individual student records progresses in the months following the examination administration. Therefore, discrepancies may exist between the sources of data that are used for AP Exam reporting purposes, namely the College Board Report AP Online Score Reports and the College Board (electronic) data file based on the time of the data download. AP data for the current school year (2021-2022) were downloaded from the College Board portal on August 24, 2022, in the form of electronic files.

To provide disaggregated student level demographic information, the College Board AP electronic file was matched on race/ethnicity, gender, grade, economic status, at-risk status, special education status, gifted and talented status, homeless status, and emergent bilingual (EB) status to PowerSchool Student Information System (SIS) data file (date of extraction: 7/2022) and A4E. Campus-level data were used from the test file by matching the Attending Institution Code (AI Code) to the Campus Information List CEEB Code to extract the 3 -digit campus code, with some exceptions. Due to campuses merging, four campuses were recoded to organization number 321. The four campuses included: Beechnut Academy, Energized for Stem Academy Southwest, Energized for STEM Southeast Middle School, and Energized for STEM Academy Central.

Students who were identified as enrolled in AP courses were required to be active students as of the end-of-year (EOY) database and to have completed the course with a final semester grade or final grade in the second semester of a two-semester course. The number of AP courses offered by campus included all AP courses in which at least one student was enrolled. Bellaire, Chavez, Heights, Lamar, Sharpstown International, and Yates high schools offer the International Baccalaureate (IB) Program in addition to Advanced Placement (AP). As such, it is possible for students at these campuses to take an IB course in one subject-instead of the AP course-and to also take the AP Exam in the same subject.

There were discrepancies regarding the campus of enrollment and the campus at which a student was attributed by the College Board. For example, Beechnut Academy has been closed, but one student was attributed to that campus. There were ninth grade students and students with no grade level that were attributed to middle school campuses.

The student information platform changed from Chancery in 2019-2020 to PowerSchool SIS in 2020-2021. Due to this change, course grade data files are not directly comparable since PowerSchool SIS is a dynamic system and the Chancery System is not. Moreover, when analyzing AP courses with the corresponding AP exam, there were instances when students took the AP exam, but were not enrolled in the corresponding AP course. For example, Lanier Middle School students enrolled in a Chinese Language course, but it was not an AP Chinese Language course. These students also took the AP Chinese Language and Culture Exam.

The COVID-19 pandemic impacted participation in AP exams for 2021. For 2021, AP exams were offered over three administration windows in digital and paper format. Language exams were only offered in school or school-proctored locations.

College Board discontinued reporting on state and national AP test results in 2021. The Texas and U.S. Public school's data were requested and provided in a PDF format, Texas-Public Schools Overview 20212022.Through the years, the College Board has changed their website so that certain reports are no longer available. For example, from 2011 to 2015, the College Board provided a District Summary by School. With the redesign in the College Board website, certain reports can no longer be downloaded as a single file, but by school and subject.

In the past, data analyses used self-reported data such as grade level, gender, and race/ethnicity to match the College Board reports viewed by program personnel and to ensure data accuracy. Due to a high number of no responses as well as data quality errors, district demographic files are being now being used. Previous years AP data calculations were re-analyzed using Chancery, SIS, and PEIMS demographic data files.

## Participants, Data Collection and Analysis

AP Exam fee information was collected from program personnel as well as information provided on the College Board website for the 2021-2022 school year.

AP Trends in College Pricing were computed by downloading the Trends in College Pricing report and using Table CP-5 to make the calculation to determine the cost per credit hour for Texas. This cost is used to estimate the number of credits by multiplying the number of exams scored at 3 or higher by 3 credit hours. Once the number of credit hours has been determined, total savings is estimated by multiplying the cost per credit by the total number of credits.

AP Texas Public School performance and United States Public School performance were calculated by dividing the number of AP Exams scored at 3 or higher by the number of AP Exams Taken, using the Texas-Public Schools Overview, 2021-2022 as the data source.

AP Exams by AP Exam Category were calculated by matching the AP Exam code in the AP data file to the Exams Codes and Title, and then aggregating by AP Exam Category for those exams taken in 2022 and having a valid score of 1 to 5 . The Exam Codes and Title data file is updated every year to note discontinued exams and changes in Exam Titles using the most recent data file format available on the College Board website. AP Exams were counted if they had received a score at the time of data retrieval. Any AP Exam without a corresponding score was excluded from analysis.

To determine the percentage of AP Exams scored 3 or higher by race/ethnicity, the total number of tests scoring a 3 or higher was divided by the total number of tests taken (for which a score was received) for each race/ethnicity category.

Equity and excellence calculations for the current year matched the AP data file to the fall PEIMS snapshot for 2022. Students that did not match were excluded from the analysis. The calculation shows the proportion of a district's senior class who scored a 3, 4, or 5 on an AP Exam at any point during high school. Students who met the standard were divided by the district's senior enrollment. These calculations were also made by race/ethnicity, economically disadvantaged, At-Risk, EB, Special Education, Homeless, and G/T. Appendix B-1 (p.29) shows the equity and excellence calculations by campus.

Appendix B-2 (p. 30) uses Global Scores to compare the mean scores by subject for HISD students with the mean scores of students in Texas and all AP test-takers (Global). The College Board Subject Score

Roster, Aggregated for Districts retrieved on September 22, 2022, was used to report state and global mean scores by exam. The College Board data file, August 24, 2024 was used to calculate the mean scores and the number of exams taken for the district.

Appendix B-3 (p. 31) shows the gaps in mean exam scores between African American and White students as well as Hispanic and White students, by subtracting the mean scores for each exam and arriving at a differential. This differential score was compared to those in 2021 to see if the gap was increasing, decreasing, or remain unchanged.

AP course participation rates for freshman, sophomores, juniors, and seniors were calculated by dividing the number of students enrolling in at least one AP course by the SIS snapshot of enrollment for the same group. Participation rates for freshman, sophomores, juniors, and seniors were calculated across the district, by campus, and by student group.

The number of students enrolled in AP courses consisted of those enrolled in the second semester of a two-semester course as per the SIS database and/or those enrolled in a one-semester course. For duplicated and unduplicated counts, the campus variable in the end-of-year SIS Grades data file was used. The demographics for the courses used those demographics included in the End of year SIS PowerSchool grades data files, extracted on July, 2022.

Course completion was determined by counting those students who received a semester grade of 70 or higher or a grade of 70 or higher on the second semester of a two-semester course. Once this number was computed, it was divided by the total number of students who were enrolled in an AP course.

For Appendix E (p. 37), the AP course file and AP test file were linked. The number of courses for which a student received a cycle grade or conduct mark for the second semester of a two-semester course, and one semester of a one-semester course were analyzed. Passing the AP course meant that the average grade for the second semester of a two-semester course or one semester of a one-semester course was greater than or equal to 70 . The number of AP courses taken with the corresponding AP test was analyzed. A student did not have to complete the AP course to take the exam since only a cycle grade or conduct mark was required. From this subset, the number and percentage of students receiving a 3 or higher were analyzed.

The College Board provides information about the AP Scholar Awards, including new awards and discontinued awards. This information is updated annually. The Scholar Summary, Aggregated for Districts for the current and past year were downloaded from the College Board online score report tool on November 9,2021 , and November 3, 2022, and were used to report the total number of students who earned an AP Scholar Award.

## Appendix A

## 2020-2021 Advanced Placement Exams by Category

Notes: AP courses and exams are linked--these graphs display a duplicated count of AP Exams taken by students enrolled in grades 9-12 for which a corresponding AP course grade exists. Students did not need to finish the AP course to be included in the category of AP courses taken. Bellaire, Chavez, Heights, Lamar, Sharpstown International, and Yates high schools offer the International Baccalaureate (IB) Program in addition to Advanced Placement (AP).

Sources: College Board AP data files, September 9, 2021 and August 24, 2022
Notes: Table displays a duplicated count of exams taken by students who tested at a middle school. For 2021, there were 5 students who were in eighth grade according to SIS but tested at a high school campus. There was one student who tested in a nonlanguage subject at a middle school. Other subjects include Human Geography ( $\mathrm{N}=2$ ) and Computer Science Principles ( $\mathrm{N}=1$ ). These results are included in the total counts.
*Masked for number tested < 5

## Appendix G-1

## Advanced Placement Award Levels Available to HISD Students

| Award | Criteria |
| :--- | :--- |
| AP Scholar | Granted to students who receive scores of 3 or higher on three or <br> more AP Exams. |
| AP Scholar with Honor | Granted to students who receive an average score of at least 3.25 <br> on all AP Exams taken, and scores of 3 or higher on four or more of <br> these exams. |
| AP Scholar with Distinction | Granted to students who receive an average score of at least 3.5 on <br> all AP Exams taken, and scores of 3 or higher on five or more of <br> these exams. |
| AP International Diploma | Granted to students who receive a 3 or higher on five or more exams. <br> Exams taken multiple times only count once. The highest score will <br> be used for award calculation. Students attending a school within the |
| U.S. must indicate on their AP Exam answer sheet that their scores |  |
| will be sent to a university outside the U.S. Exams must fulfill the |  |
| following content areas: 1). Two AP Exams from two world |  |\(\left|\begin{array}{ll}languages and culture courses. The language must be different in <br>

each course; or 2). Two AP Exams from one world language and <br>

culture course and one English course.\end{array}\right|\)| Granted to students who earn scores of 3 or higher in both AP |
