

## MEMORANDUM

August 21, 2008

TO: Board Members

FROM: Abelardo Saavedra  
Superintendent of Schools

CONTACT: Carla Stevens, (713) 556-6700

SUBJECT: **DISTRICT AND SCHOOL SSI PERFORMANCE REPORT:  
2007–2008**

Attached is a copy of the District and School Student Success Initiative (SSI) performance report for 2007–2008. This memo provides the English and Spanish combined districtwide results from the three (3) administrations of the third, fifth and eighth grade reading TAKS and the fifth and eighth grade math TAKS. The number and percent of students that passed were calculated for each of the three (3) administrations of the TAKS in each subject. A cumulative count of students tested combining these three administrations was also calculated by subject and grade. For the first time this year, results from students who took the TAKS-Accommodated are included in the overall results. These results are not included in any data from 2007 and are a possible explanation for the decrease witnessed in the 2008 results specifically for Special Education students.

Some of this year's highlights are as follows.

- When a cumulative rate for the combining of data from all three administrations was calculated based on the March cohort, the results indicated that, of the 14,818 HISD third-grade students tested, 94% passed the reading TAKS and met the state-mandated requirements of the SSI. This left 961 students that did not meet the SSI grade-three requirements.
- The cumulative rate based on the March cohort of the 13,256 fifth-grade students assessed, was that 90% passed the reading TAKS and met the state-mandated requirements of the SSI. The math passing rate of all fifth-graders was 91% of all students tested, while 1,217 students did not pass math.
- The cumulative passing rate for HISD eighth-grade students, based on the 11,699 cohort, was 92% passed the reading TAKS, while 975 students did not pass reading. The cumulative passing rate for eighth-graders in math was 78%, while 2,544 students did not pass math.

Should you have any further questions, please contact my office or Carla Stevens in Research and Accountability at (713) 556–6700.

# STUDENT SUCCESS INITIATIVE 2007–2008

## Introduction

### Program Description

The Student Success Initiative (SSI) was created by the 76th Texas Legislature in 1999 to ensure that all students receive the instruction and support they need to be academically successful in reading and mathematics. Under the SSI grade advancement requirements, students are required to pass the Texas Assessment of Knowledge and Skills (TAKS) grade 3 reading test to be promoted to fourth grade and to pass the TAKS grade 5 reading and mathematics tests to be promoted to sixth grade. Additionally, students are required to pass the TAKS grade 8 reading and mathematics tests to be promoted to ninth grade. As specified by these requirements, a student may advance to the next grade level only by passing these tests or by unanimous decision of his or her grade placement committee that the student is likely to perform at grade level after additional instruction.

The first administration of the reading TAKS to students in third, fifth, and eighth grade was given on March 5, 2008. If unsuccessful after the first administration, students received additional state-mandated instruction and took the reading test again on April 30, 2008. The first math administration to fifth and eighth grade was given on April 8, 2008, with the second retesting opportunity on May 13, 2008. A Grade Placement Committee (GPC) addressed students unsuccessful on the second administration of the reading and/or math sections of the TAKS. The GPC created an educational plan based on the instructional needs of each student. These students were given a third opportunity to pass the TAKS during summer school on July 1 and 2, 2008 for math and reading, respectively. Third-grade students who did not pass the reading TAKS and fifth and eighth-grade students who did not pass the reading and math TAKS after the third opportunity will automatically be retained. However, parents can appeal these results to the GPC, and the committee may decide to promote an individual student if there is consensus that the student is likely to succeed in the next grade.

This report provides the districtwide results from the third administration of the third, fifth, and eighth-grade reading TAKS and the fifth and eighth-grade math TAKS. The number and percent of students that passed were calculated for each of the three administrations. A cumulative count of students tested combining these three administrations was also calculated. This combined count included the results from the following students:

- Students who passed the first administration,
- Students who did not pass the first administration and retook the test during the second and third administrations,
- Students who did not pass the first administration and did not retake the test, and
- Students with a test document for the first administration who took the TAKS for the first time during the second or third administrations.

For the first time this year, results from students who took the TAKS-Accommodated are included in the overall results. These results are not included in any data from 2007 and are a possible explanation for the decrease witnessed in the 2008 results specifically for Special Education students.

## Results

In the following tables, the results from Spring and Summer 2008 TAKS in grades three, five and eight are presented as the percentage of students passing reading in grades three, five, and eight and math in grades five and eight. In the tables, the results of the English and Spanish versions of the TAKS are combined for third and fifth graders, and the results of the English version is for eighth graders. Rates from the first, second, and third administrations are presented along with a cumulative passing rate.

	First Administration		Second Administration		Third Administration		Cumulative Results*

<b>Special Ed.</b>	716	58	284	35	107	27	717	76

\* Cumulative based on First Administration cohort

- On the third administration of the reading TAKS in July 2008, 965 third-grade students were assessed. Of these students, 36% met the 2007-08 state passing standard.
- When a cumulative rate for the combining of data from all three administrations was calculated based on the March cohort, the results indicated that, of the 14,818 HISD third-grade students tested, 94% passed the reading TAKS and met the state-mandated requirements of the SSI. **This left 961 students that did not meet the SSI grade-three requirements.**
- The cumulative results for the White cohort indicated that 98% met the requirements of the SSI, while 91% of the African American cohort and 94% of the Hispanic cohort passed the third-grade reading TAKS.

Table 2: Number Taking and Percent Met Standard Results on English and Spanish TAKS Third-Grade Reading: Cumulative Administration Results for June 2007 and July 2008		
English and Spanish Third-Grade TAKS Reading

Econ. Disadv.	93	93
LEP	94	93
Special Ed.	86	76

- In 2008, the cumulative reading passing rate for third graders on the TAKS was the same as the cumulative passing rate achieved by HISD third graders in 2007.
- While the cumulative results for the African American, Hispanic, and Economically Disadvantaged cohorts stayed constant over the two years, other groups showed slight decreases in the results of 2008 as compared with those in 2007. The Special Education cohort had the biggest decrease this year with a ten percentage-point drop over last year. The White and LEP cohorts, both had a one percentage-point decrease over last year.

Table 3: Number Taking and Percent Met Standard Results on English and Spanish TAKS Fifth-Grade Reading: All Three Administrations and Cumulative Results in 2008

Special Ed.	779	46	384	28	131	15	781	62

\* Cumulative based on First Administration cohort

- On the third 2008 reading TAKS administration, 1,341 fifth-grade students were assessed. Of these students, 22% met the 2007–08 state passing standard.
- When a cumulative rate for the combining of data from all three administrations was calculated based on the March cohort, the results indicated that, of the 13,256 HISD students assessed in

grade five, 90% passed the reading TAKS and met the state-mandated requirements of the SSI. **A total of 1,388 fifth graders did not pass reading.**

- The cumulative results for the White cohort indicated that 98% met the reading requirements of the SSI, while 90% of the African American cohort and 88% of the Hispanic cohort passed the fifth-grade reading TAKS after the final administration.

Table 4: Number Taking and Percent Met Standard Results on English and Spanish TAKS Fifth-Grade Reading: Cumulative Administration Results for June 2007 and July 2008		
	English and Spanish Fifth-Grade TAKS Reading

<b>Hispanic</b>	85	88
<b>White</b>	99	98
<b>Econ. Disadv.</b>	86	88
<b>LEP</b>	72	80
<b>Special Ed.</b>	78	62

- In 2008, the cumulative reading passing rate for fifth graders on the TAKS increased by two percentage points compared with the rate achieved by HISD fifth graders in 2007.
- The cumulative results for the Hispanic, Economically Disadvantaged, and LEP cohorts increased over the two years. The Special Education cohort had the biggest decrease in 2008 with a sixteen percentage-point drop over 2007. The LEP cohort showed the biggest increase this year with a gain of eight percentage points over last year.

Special Ed.	814	55	363	26	121	11	818	68

\* Cumulative based on First Administration cohort

- On the July 2008 math TAKS administration, 1,156 fifth-grade students were assessed. Of these students, 27% met the 2007–2008 state passing standard.
- When a cumulative rate for the combining of data from all three administrations was calculated based on the April cohort, the results indicated that 13,341 HISD fifth-grade students were tested. Of these students, 91% passed the math TAKS, while **1,217 students did not pass math.**
- The cumulative results for the White cohort indicated that 97% met the requirements of the SSI, while 88% of the African American cohort and 91% of the Hispanic cohort passed the fifth-grade math TAKS.

Table 6: Number Taking and Percent Met Standard Results on English and Spanish TAKS Fifth-Grade Math: Cumulative Administration Results for June 2007 and July 2008

Econ. Disadv.	91	90
LEP	87	88
Special Ed.	79	68

- In 2008, the cumulative math passing rate for fifth graders on the TAKS decreased by one percentage point compared with the rate achieved by HISD fifth graders in 2007.

- The LEP cohort was the only group that showed an increase in the cumulative math passing rate for fifth graders in 2008 with a one percentage-point increase over the previous year. The Special Education cohort had the biggest decrease this year with an eleven percentage-point drop over last year.

	First Administration		Second Administration		Third Administration		Cumulative Results*

<b>Special Ed.</b>	913	50	401	21	147	8	917	61

\* Cumulative based on First Administration cohort

- On the July 2008 reading TAKS administration, 618 eighth-grade students were assessed. Of these students, 12% met the 2007–2008 state passing standard.
- When a cumulative rate for the combining of data from all three administrations was calculated based on the March cohort, the results indicated that 11,699 HISD eighth-grade students were tested. Of these students, 92% passed the reading TAKS, while **975 students did not pass reading.**
- The cumulative results for the White cohort indicated that 98% met the requirements of the SSI, while 91% of the African American and Hispanic cohorts passed the reading TAKS.

The SSI requirements were phased in for the grade 8 reading and mathematics tests beginning in the 2007-2008 school year. Therefore, the cumulative results of grade 8 TAKS reading are not available from the year of 2007 for comparison.

<b>Special Ed.</b>	910	23	660	9	284	14	919	34

\* Cumulative based on First Administration cohort

- On the July 2008 math TAKS administration, 2,277 eighth-grade students were assessed. Of these students, 26% met the 2007–2008 state passing standard.
- When a cumulative rate for the combining of data from all three administrations was calculated based on the April cohort, the results indicated that 11,720 HISD eighth-grade students were tested. Of these students, 78% passed the math TAKS, while **2,544 students did not pass math.**
- The cumulative results for the White cohort indicated that 93% met the requirements of the SSI, while 72% of the African American cohort and 79% of the Hispanic cohort passed the eighth-grade math TAKS.

The SSI requirements were phased in for the grade 8 reading and mathematics tests beginning in the 2007-2008 school year. Therefore, the cumulative results of grade 8 TAKS math are not available from the year of 2007 for comparison.
