

## MEMORANDUM

June 19, 2007

TO: Board Members

FROM: Abelardo Saavedra  
Superintendent of Schools

SUBJECT: **DISTRICT AND SCHOOL CUMULATIVE 3<sup>rd</sup> AND 5<sup>th</sup> GRADE READING AND 5<sup>th</sup> GRADE MATH RESULTS OF THE STUDENT SUCCESS INITIATIVE FROM THE SPRING 2007 ADMINISTRATION**

**CONTACT:** Carla Stevens, 713-556-6700

Enacted by the 76th Texas Legislature in 1999, the Student Success Initiative's (SSI) goal is to ensure that all students receive the instruction and support they need to be academically successful in reading and mathematics. Grade advancement requirements were applied to the Grade 3 reading test starting in 2002–03, and to the Grade 5 reading and mathematics tests beginning with the 2004–05 school year. The SSI requirements will be phased in for the Grade 8 reading and mathematics tests beginning in the 2007–08 school year. As specified by these requirements, a student may advance to the next grade level only by passing these tests or by unanimous decision of his or her grade placement committee that the student is likely to perform at grade level after additional instruction.

The first administration of the reading TAKS to students in third and fifth grade was given on February 20, 2007. If unsuccessful after the first administration, students received additional state-mandated instruction and were retested in reading on April 18, 2007.

The first administration of the Texas Assessment of Knowledge and Skills (TAKS) mathematics test to students in fifth grade was given on April 3, 2007. If unsuccessful after the first administration, students received additional state-mandated instruction and took the math test again on May 15, 2007.

A Grade Placement Committee (GPC) will address students unsuccessful on the second administration of the reading and/or math sections of the TAKS. The GPC will create an educational plan based on the instructional needs of each student. These students will be given a third opportunity to pass the TAKS during summer school on June 26, 2007. Fifth-grade students who do not pass the reading and math TAKS after the third opportunity will automatically be retained. However, parents can appeal these results to the GPC, and the committee may decide to promote an individual student if there is consensus that the student is likely to succeed in the next grade.

The results from the first administration were released previously. **This memo provides the districtwide and school-level results from the second administration of the third and fifth grade reading TAKS and the districtwide and school-level results from the second administration of the fifth grade math TAKS.** The number and percent of students that passed were calculated for the April and May administrations. A cumulative count of students tested combining these two administrations was also calculated.

The combined count for the Reading administration included the results from the following students:

- Students who passed the February Administration,
- Students who did not pass the February administration and retook the test in April,
- Students who did not pass the February Administration and did not retake the test in April, and
- Students with a test document in February who took the reading TAKS for the first time in April.

The combined count for the Math administration included the results from the following students:

- Students who passed the April Administration,
- Students who did not pass the April administration and retook the test in May,
- Students who did not pass the April Administration and did not retake the test in May, and
- Students with a test document in April who took the math TAKS for the first time in May.

### Reading Results

In the following tables, the results from the Spring 2007 English and Spanish TAKS are presented as the percentage of students passing reading in grades three and five. Rates from the February and April administrations are presented along with a cumulative passing rate.

\* Cumulative based on April cohort

- On the April 2007 English math TAKS administration, 12,412 fifth-grade students were assessed. Of these students, 81% met the 2006–07 state passing standard.
- On the May 2007 Math TAKS administration, 2,347 fifth-grade students were assessed. Of these students, 46% met the 2006–07 state passing standard.
- When a cumulative rate for the combining of data from both the April and May administrations was calculated based on the April cohort, the results indicated that, of the 12,450 HISD fifth-grade students tested, 11,096, or 89%, passed the math TAKS. **Conversely, 1,354 students did not**

meet the state-mandated requirements of the SSI and have one last opportunity this summer to pass.

- The cumulative results for white students indicated that 97% have met the requirements of the SSI, while 85% of the African American students and 89% of the Hispanic students have passed the fifth-grade math TAKS as of the second administration.

\*\* Less than five students tested

- On the April 2007 Spanish math TAKS administration, 79 fifth-grade students were assessed. Of these students, 49% met the 2006–07 state passing standard.
- On the May 2007 math TAKS administration, 16 fifth-grade students were assessed. Of these students, 31% met the 2006–07 state passing standard.
- When a cumulative rate for the data from both the April and May administrations was calculated based on the April cohort, the results indicated that, of the 79 HISD fifth-grade students tested on the Spanish math TAKS, 56% passed the state-mandated requirements of the SSI. **However, there are 35 fifth graders that still must pass math on the Spanish TAKS in order to meet the SSI standard.**

\* Less than five students tested

- In 2007, the cumulative passing rate for fifth graders on the English TAKS was four percentage points higher than the cumulative passing rate achieved by HISD fifth graders in April of 2006.

- The cumulative results for white students indicated for both 2006 and 2007 that 97% met the requirements of the SSI after the second testing opportunity. The cumulative rates for Hispanic students rose by three percentage points and for African American students, rose six percentage points in 2007.
- In 2007, the cumulative passing rate for fifth graders on the Spanish TAKS was 19 percentage points lower than the cumulative passing rate achieved by HISD fifth graders in Spring of 2006.

School-level results are included in the attached tables. Data are included for fifth-grade performance on the English and Spanish math TAKS for the first two administrations in the Spring of 2007. Cumulative results for both administrations are also included. The following notable results were found.

- Of the 177 HISD schools that had reportable fifth-grade math English TAKS cumulative results, 93, or approximately 53%, had a cumulative passing rate of 90% or greater. Ten schools, Atherton, Dodson, Hartsfield, Harvard, Horn, Peck, T.H. Rogers, Sherman, West University and Young Scholars elementary schools, had a cumulative passing rate of 100%. The following schools accomplished a 99% passing rate: Energized for Excellence, Kolter, River Oaks, and Twain elementary schools. Of the 177 HISD schools that had reportable fifth-grade math English TAKS cumulative results, the lowest cumulative passing rate was 50% at Provision Inc.
- There were two HISD elementary campuses that had reportable math Spanish TAKS cumulative results for their fifth graders. Burnet Elementary School had a passing rate of 92% and Emerson Elementary School had a passing rate of 35%.
