

## MEMORANDUM

August 11, 2014

TO: School Board Members

FROM: Terry B. Grier, Ed.D.  
Superintendent of Schools

SUBJECT: **GRADUATION AND DROPOUT ANALYSIS: 2012–2013**

CONTACT: Carla Stevens (713) 556-6700

Attached are the graduation and dropout data (four-year and five-year) for the 2012–2013 academic year. The 2013 four-year longitudinal cohort includes students who attended ninth grade for the first time in the 2009-10 school year while the 2012 five-year cohort includes students attending ninth grade for the first time in the 2008-2009 school year. Annual rates are reported at the district and campus level, and analyzed on the basis of ethnicity and economically disadvantaged status. In addition, rates for English language learners (ELL) and Students with Disabilities (SWD) are reported in the appendices.

State accountability ratings were not assigned in 2012 because the public school accountability system was undergoing a statutorily mandated redesign (TEC §39.053). In 2011, TEA introduced six criteria that exclude a student from the longitudinal rate calculations for campus and district reporting (see **Appendix A**). The impact of the exclusions in 2013 is as follows: an increase of 2.8 percentage points in the four-year graduation rate, a reduction of 1.3 percentage points in the four-year dropout rate in grades 9-12, and no change in the annual dropout rate in grades 7-8.

Comparisons with years prior to 2011 should be based on the results without exclusions (**Figures 1a, 1b, and 3a, and Appendices B, D, and E**). The results with exclusions are aligned with the new state accountability system and should be used for 2011 and subsequent years (**Figures 2, and 3b, and Appendices C, D, and F**).

North Forest schools are not reported for the class of 2013 but will be included in class of 2014.

### **Administrative Response**

The following priorities have been established by the office of Dropout Prevention in order to increase the graduation rate and decrease the dropout rate:

- The Dropout Prevention Office collaborated on the creation of the Early Warning Indicator. The purpose of Early Warning Indicator is to identify students at risk of dropping out of high school.
- This report will be user-friendly, is exportable into Excel, and permits the deletion of columns to suit specific needs of Administrator, by categorizing students (as needed). The Early Warning Indicator will be placed onto the Achievement and Principal Dashboards, unlike the DPEW Report which will remain on Chancery.
- Phase Two of the Early Warning Indicator will include further options to be determined by IT, the office of Dropout Prevention, and other department stakeholders.
- The Dropout Recovery Report which has been historically provided for the annual Grads Within Reach Walk will be located on the Principal and Achievement Dashboard and will reflect students who have dropped out of high school per campus, thus increasing its usefulness to principals.
- All high school campus Graduation Support Meetings, with the support of the High School Office, will be mandated to be implemented on all campuses on a regular basis.
- District-wide Graduation Support Meetings will be conducted by the offices of Dropout Prevention and Leadership Development throughout the year and hosted by various high school campuses who have implemented best dropout prevention and recovery practices as evidenced in the annual dropout data. The High School Office is mandating each high

school to send their Leaver or Graduation Support Meeting Representative to gain further knowledge of best practices.

- The office of Dropout Prevention will continue to provide monthly reports to the Middle and High School Offices in terms of year-to-date dropout data per campus to help keep focus and assistance on the needs of the schools.
- Student Case Workers will be assisting middle school campuses to establish Graduation Support Meetings as stand-alone meetings or to be a part on-going committees targeting other at-risk youth. The Dropout Prevention offices will further support middle school campuses with the location and recovery of Leaver 98s after all campus efforts have been exhausted by campus staff.

In addition to these priorities, the office of Dropout Prevention will continue to work with:

- Multilingual Department to provide support via office of Dropout Prevention Student Case Workers to help prevent and recover ELL students; and to create programs via the Houston Community College (HCC) to help support Newcomers out of the realm of HISD; and to help increase post-secondary enrollment.
- Special Education Department to provide support via student referrals to service agencies for services and programs to encourage high school graduation.
- College Readiness and CTE to help provide direct support and incentivize overage students enrolled in AVA, Grad Labs, Liberty, and Middle College High Schools by the way of combined College Tours, College and Career Day, and Certification and Employment Fairs.
- The overall surrounding community to help keep dropout prevention on the forefront and for all to exercise Social Responsibility in helping graduate all youth from high school.

# GRADUATION AND DROPOUT ANALYSIS CLASS OF 2013

## Executive Summary

Graduation of the students from the high schools represents the culmination of the collective efforts of the 26,000+ members of the HISD community working collaboratively with the parents and other stakeholders to reach an important milestone without which access to higher education is blocked. The districts' top priorities, along with college readiness, are to maximize the graduation rates, minimize the dropout rates, and close the gaps among the student groups in these vital areas. These metrics not only are part of federal and state accountability and the Board Monitoring System (BMS) but they also attract broad attention across the nation given the district's size (seventh largest in the nation) and the large proportion of economically disadvantaged students that it serves.

Based on Public Education Information Management System (PEIMS) records, the Texas Education Agency (TEA) determined that 13,687 students either entered ninth grade in HISD high schools in the 2009-2010 school year or were added to, or removed from, the 2009-10 cohort in grade 9 over the next three years. Also, 2,004 students left the system for reasons other than graduating, receiving GED certificates, or dropping out. These students are categorized as other leavers. By the fall semester following the spring 2013 anticipated graduation date for the cohort, 11,683 students had been assigned one of four final statuses: graduate, continuer, GED certificate recipient, or dropout. Students with final statuses made up the class of 2013. The final statuses for 107 students could not be determined because of data errors. Data errors can result from missing student records (i.e., underreported students) or misreported student identification information. Another 52 students confined to either juvenile detention or residential treatment facilities were removed from the completion calculations as were the students with data errors. Thus, the completion results for the class of 2013 are based on a class size of 11,524. For state accountability in 2013, an additional 462 students were excluded under TEC §39.053(g-1) and TEC §39.055, and a class size of 11,062 was used for completion calculations.

### Highlights of the Class of 2013 Grade 9 Cohort (State Accountability)

- Out of 11,062 students in the class of 2013, 9,023 (81.6 percent) graduated. The graduation rate for the class of 2013 was 0.1 percentage points lower than the rate for the class of 2012. An additional 744 (6.7 percent) of students continued in high school the fall after their anticipated graduation date, and 68 (0.6 percent) received GED certificates. The longitudinal dropout rate was 11.1 percent based on 1,227 dropouts. The graduation, continuation, or GED certification rate was 88.9 percent.
- Among the four major ethnic groups, White students had the highest graduation rate (91.7 percent) in the class of 2013, and African American students had the lowest graduation rate (79.2 percent). The graduation rate for Asian students was 88.3 percent and 80.6 percent for Hispanic students.
- The longitudinal dropout rate at 11.1 percent for the class of 2013 was 0.2 percentage points lower than the rate for the class of 2012. African American students had the highest longitudinal dropout rate among the major ethnic groups (14.3 percent), followed by

Hispanic students (10.9 percent). White students had the lowest longitudinal dropout rate (4.0 percent), followed by Asian students (6.8 percent).

- The graduation rate for 7,959 (71.9 percent) students in the class of 2013 identified as economically disadvantaged was 81.3 percent, a decrease of 1.5 percentage points over the class of 2012. The longitudinal dropout rate for economically disadvantaged students was 11.0 percent, an increase of 0.3 percentage points over the class of 2012.
- The graduation rate for 1,370 (12.4 percent) students in the class of 2013 identified as Ever English Language Learners (Ever ELL) was 56.6 percent, a decrease of 2.9 percentage points over the class of 2012. The longitudinal dropout rate for Ever ELL students was 20.7 percent, an increase of 0.2 percentage points over the class of 2012.
- The graduation rate for 1,059 (9.6 percent) students in the class of 2013 identified as Students with Disabilities (SWD) was 71.0 percent, a significant increase of 6.4 percentage points over the class of 2012. The longitudinal dropout rate for SWD students was 16.8 percent, a significant decrease of 4.5 percentage points over the class of 2012.

## Introduction

This report provides the four-year longitudinal graduation and dropout rates for students who were expected to graduate from HISD high schools in 2012-13, the five-year extended longitudinal rates for students expected to graduate in previous years, and the annual dropout rates for students who attended district schools in grades 7-8 during 2012-2013.

The longitudinal rates reflect the percentages of students from a class of students beginning in ninth grade who graduate, remain enrolled, receive General Educational Development (GED) certificates, or drop out by the fall following their anticipated graduation date.

The extended longitudinal rates reflect the percentages of students from a class of beginning ninth graders who graduate, remain enrolled, receive GED certificates, or drop out by the fall a year or more after their anticipated graduation date.

The annual dropout rate measures the percentage of students who drop out of school during one school year.

Texas uses the National Center for Education Statistics (NCES) dropout definition. Under this definition, a dropout is a student who is enrolled in public school in Grades 7-12, does not return to public school the following fall, is not expelled, and does not graduate, receive a GED certificate, continue school outside the public school system, begin college, or dies.

Starting in 2010-2011, the Texas Education Agency (TEA) introduced six criteria that exclude a student from the longitudinal rate calculations for campus and district reporting (see **Appendix A**). The exclusions have a positive effect on the completion results.

Note that the class of 2013 includes 11 continuers from North Forest HS who were enrolled in HISD in 2013-2014.

**Figure 3b** indicates the following regarding the annual dropout rates with exclusions in grades 7-8:

- The dropout rates declined by 0.2 percentage points for White students from 0.2 (2011) to 0.0 (2013), and for the Ever ELL group by 0.1 percentage points from 0.4 (2011) to 0.3 (2013).
- The dropout rates remained unchanged for Asian students (0.0 percent), Hispanic students (0.3 percent), and Economically Disadvantaged students (0.3 percent) from 2011 to 2013.
- The dropout rates increased for African American students by 0.1 percentage points from 0.4 (2011) to 0.5 (2013).
- The district was successful in reducing the number of annual dropouts in grades 7-8 from 101 (2012) to 82 (2013) that resulted in a reduction of 0.1 percentage points in the dropout rate.

## Campus Results

**Table 1** shows the list of 19 high schools with class size greater than 20 in 2013 that performed below the district averages on the four-year completion rates with exclusions based on graduation rates (below 81.6 percent), continuer rates (above 6.7 percent), and dropout rates (above 11.1 percent). Campuses that missed the district averages in all three categories are highlighted in red. It is important to note that Advanced Virtual Academy, Hope Academy, Liberty HS, and REACH are alternative schools that serve students at risk of dropping out.

The complete summary of the four-year completion data with exclusions for all high schools is shown in **Table 2**. Campuses are ranked by the graduation rate. The class size in 2013, the number and percent of graduates, continuers, dropouts, and GEDs received are shown. Performance below district averages is highlighted in red.

**Table 3** shows the number of dropouts with exclusions for campuses with grades 7-8 in 2011-2013. The campuses are ranked by the number of dropouts in 2012-2013. The results indicate that the number of dropouts decreased from 101 in 2011-2012 to 82 in 2012-2013.

Three campuses, the first two of which are alternative schools serving over-age students, accounted for 28 (34 percent) of the 82 dropouts in 2012-2013:

- H S Ahead 16
- Inspired West 6
- Long MS 6

**Figure 5. The Distribution of Annual Dropouts with Exclusions in Grades 7-8: 2012-2013**

The data indicates that the following:

- Forty-three (73 percent) of the 59 campuses had no dropouts or one in 2012-2013.
- Twenty-three (37 percent) of the campuses reduced the number of dropouts, 20 (34 percent) campuses showed no change, and 13 (24 percent) showed an increase in 2013 compared to 2012.

## Conclusions

The four-year longitudinal completion results in HISD based on exclusions have been generally steady from 2011 to 2013 with a notable improvement in the results for the SWD group, and negative trends for the Asian students and the Ever ELL group.

Also notable is that the completion performance in the state has improved faster than in HISD with the net result that the gaps have generally increased with the exception of the SWD group in HISD where there appears to be consistent and significant improvements across the board.

### **Reasons for Excluded Records As Defined by the Texas Education Agency**

According to TEA, starting in 2010–2011, a student who meets one or more of the following criteria is excluded from campus and district completion rate calculations used for accountability purposes:

- A student who is ordered by court to attend a high school equivalency certificate program but has not earned a high school equivalency certificate;
- A student previously reported to the state as a dropout;
- A student in attendance but who is not in membership for purposes of average daily attendance  
(i.e., students for whom districts are not receiving state Foundation School Program [FSP] funds);
- A student whose initial enrollment in a school in the United States in Grades 7–12 was as an unschooled refugee or asylee as defined by TEC §39.027(a-1);
- A student who is in a district exclusively as a function of having been detained at a county facility but is otherwise not a student of the district in which the facility is located (TEC §39.054(f) and §39.055); and,
- A student who is incarcerated in a state jail or federal penitentiary as an adult or as a person certified to stand trial as an adult.

According to TEA, starting in 2010–2011, a student reported to have left school for any of the following reasons is **NOT** considered a dropout for accountability reasons:

- A student who **graduated**;
- A student who **died** while enrolled in school or during the summer break after completing the prior school year;
- A student who withdrew from/left school to **return to family's home country**;
- A student who withdrew from/left school to **enter college** and is working towards an Associate's or Bachelor's degree;
- A student who withdrew from/left school for **home schooling**;
- A student who was **removed by Child Protective Services (CPS)** and the district has not been informed of the student's current status or enrollment;
- A student was **expelled** under the provisions of TEC §37.007 and cannot return to school;
- A student who withdrew from/left school to **enroll in a private school** in Texas;
- A student who withdrew from/left school to **enroll in a public or private school outside of Texas**;
- A student was **withdrawn from school by the district** when the district discovered that the student was not a resident at the time of enrollment or had falsified enrollment information, proof of identification was not provided, or immunization records were not provided;
- A student who **graduated outside of Texas, returned to school, and left again**; or
- A student who received a **GED outside Texas**, returned to school to work toward the completion of a high school diploma, and then left; or student earned GED outside Texas after leaving Texas public schools;
- A student who **enrolled in a university HS Diploma Program**;
- A **mover** – TEA identified student in another Texas public school.
