

MEMORANDUM

July 8, 2014

TO: Board Members

FROM: Terry B. Grier, Ed.D.
Superintendent of Schools

CONTACT: Carla Stevens, (713) 556-6700

SUBJECT: **2014 STAAR END OF COURSE (EOC) RESULTS**

In 2007, the state Senate in Texas enacted Senate Bill 1031. This bill called for the development of an end-of-course assessment (EOC), now referred to as State of Texas Assessment of Academic Readiness or STAAR, for secondary-level courses in: Algebra I and II, Geometry, Biology, Chemistry, Physics, English I, II and III, World Geography, World History, and United States History.

In 2013, the 83rd legislature passed House Bill 5, which reduced the number of EOC assessments to five; Algebra I, English I and II, biology, and U.S. History. Since the purpose of this report is to provide an overview of the results from the Spring 2014 administration of the EOC in accordance with the rules and policies adopted by the Texas Education Agency (TEA), changes in the STAAR EOC assessments mandated by HB 5 will be reflected in this report.

The performance standards set by the TEA for these assessments are as follows:

- **Level I: Unsatisfactory Academic Performance** – students are inadequately prepared for the following course.
- **Level II: Satisfactory Academic Performance** (phased in over a five-year time period) – students are sufficiently prepared for the next course.
- **Level III: Advanced Academic Performance** – students are well prepared for the following course.

Findings

- In Algebra I, percent satisfactory (phase-in 1 standard) stayed the same from 2013 to 2014 at 75%. The percentage of students meeting satisfactory (recommended standard) increased from 33% to 35% from 2013 to 2014.
- The percentage of students meeting the standard for percent satisfactory (phase-in 1) for biology increased from 82% in 2013 to 85% in 2014.
- The baseline performance for students meeting the phase-in 1 satisfactory standard for English I was 52%, for English II was 56%, and for U.S. History was 90%.
- The percentage of African American students who met satisfactory for phase-in 1 in Algebra I decreased by two percentage points to 66%, while Asian students' performance stayed at 95% satisfactory, Hispanic students' performance increased by one percentage point to 76%, and White students' performance decreased by one percentage point to 88%.
- Increases in the percentage of students who met satisfactory for phase-in 1 in biology were evidenced for all student groups from 2013 to 2014: African American students by one percentage point to 81%, Asian students by two percentage points to 97%, Hispanic students by four percentage points to 85%, and White students by two percentage points to 96%.

Administrative Response

To improve student achievement on STAAR End-of-Course (EOC) assessments, the division of Academic Services will continue to focus on the following:

- Embedding “Recommendations for Instructional Accommodations for Special Needs Students” (6 – 12 in ELA and mathematics) and “Instructional Accommodations for Diverse Learners” (K – 12 in all content areas) within unit planning guides and exemplar lessons
- Supporting training on, and implementation of, Istation and Think Through Math
- Providing an EOC Intervention Framework document for Algebra I, Biology, English I, and World Geography courses to assist Tier 3 and Tier 4 schools to provide instruction to retesters
- Training department chairs and lead teachers in strategies for improving literacy instruction, in all content areas, for all students in general and for English language learners (ELL) and students with disabilities (SWD) in particular
- Ten new formative assessments per course will be included in unit planning guides that emphasize reading and writing across disciplines in all content areas
- Collaborating with Professional Support and Development (PSD) and SpringBoard (College Board) to train 6 – 12 teachers on reading-writing connections
- Providing clearly delineated writing modules with STAAR-aligned writing lessons
- Training high school content-area teachers to address the academic and linguistic needs of ELL students
- Providing individual academic reports for ELL students determined to be at-risk and then creating individual intervention plans
- Providing all high schools with an annual ELL program report, which includes TAKS/STAAR passing rates, graduation rates, and TELPAS rating percentages. The schools receive a teacher report on the percentage of ELL students who made one or more levels of ESL instructional gain, as determined by TELPAS.
- Providing an online reading program for high school ELL students to increase language and literacy development
- Offering campus and classroom level support for implementing targeted accommodations for students with disabilities in the instruction and assessment process
- Providing campus and classroom-level support for the implementation of targeted accommodations for special education students in general education classes
- Moving student with disabilities to more inclusive placements so that they receive rigorous instruction in all academic areas
- Providing campus and classroom-level support to improve classroom management and student behavior
- Providing access for students with disabilities to assistive technology and supplementary aids so that they can be instructed in inclusive settings
- Expanding the Response-to-Intervention (RtI) plan to provide a cohesive framework for aligning student support services

Additionally, the High School Office is organizing the work to accelerate learning in every high school around five key areas:

1. Advanced Academics (AP, SAT, PSAT, IB)
2. ELL (Accelerating learning of every English Language Learner)
3. Freshmen on Track (Ensuring that every entering 9th grader is ready and prepared to graduate from high school and move on to college.)
4. Instructional Leadership (Supporting principals with identifying effective instructional practices and knowing how to shift the work/priorities when students are not excelling)

5. Secondary Literacy (Increasing proficiency in reading and writing across the content areas.)

In addition to working on these five key areas, the HSO will also:

- Implement a stronger monitoring process for determining students' progress towards all EOC exams.
- Conduct monthly data deep dive sessions with SSO(s) regarding students' performance on EOC interim exams.
- Utilize a reading progress inventory/tracking system for every high school student that will determine students' growth in reading comprehension.
- Formalize review of student writing samples across the district in an effort to improve students' performance on English I and English II EOC Exam.
- Conduct monthly progress meetings with the leadership teams, SSO(s) and CSO of the lowest performing high schools with a goal of ensuring that students are on track to graduate.
- Reinstate the campus-by-campus weekly drop-out prevention support process.
- Study the role of the student service center concept to determine impact on graduation/drop-out rates with a goal of increasing how we provide adolescents with non-academic support.

Should you have further questions, please contact my office or Carla Stevens in the Department of Research and Accountability at (713) 556-6700.

State of Texas Assessments of Academic Readiness (STAAR) End of Course Results, Spring 2014

Introduction

In 2007, the state Senate in Texas enacted Senate Bill 1031. This bill called for the development of an end-of-course assessment (EOC) for secondary-level courses in Algebra I, Geometry, Algebra II, Biology, Chemistry, Physics, English I, English II, English III, World Geography, World History and United States History. The Texas Education Agency (TEA), in collaboration with the Texas Higher Education Coordinating Board (THECB) and Texas educators, developed this new assessment system, which focuses on increasing postsecondary readiness of graduating high school students and helps to ensure that Texas students are competitive with other students both nationally and internationally.

Under House Bill 5 (HB5), passed by the Texas Legislature in 2013, the assessment requirements for high school students were reduced. Beginning in 2013–2014, high school students must now pass five STAAR EOC exams to meet graduation requirements. The five assessments under HB5 include Algebra I, Biology, English I (combined reading/writing), English II (combined reading/writing), and U.S. History. Assessments in Algebra II, Geometry, English III, Chemistry, Physics, World Geography, and World History have been eliminated from the testing requirements. The STAAR EOC cumulative score component has also been eliminated. Therefore, students are only required to retake an EOC assessment if they previously failed that assessment.

Additionally, EOC assessments for higher-level courses include a series of questions designed to measure an individual's college readiness. The assessments are not grade specific, as previous standardized testing in Texas has been. Instead, after a student completes specific coursework, the student takes an assessment associated with that specific coursework. EOC assessments focus on knowledge and skills necessary for student success and preparedness for future academic courses. The process incorporates lower-level course questions within the EOC assessments to determine a student's readiness for more advanced coursework.

STAAR EOC Performance Standards

The performance standards set by the TEA are as follows:

- **Level I: Unsatisfactory Academic Performance** – students are inadequately prepared for the following course and did not meet the minimum passing standard.
- **Level II: Satisfactory Academic Performance** – students are sufficiently prepared for the next course and have scored at the Level II satisfactory performance standard, but did not score at the Level III advanced performance level.
- **Level III: Advanced Academic Performance** – students are well prepared for the following course and scored at the Level III performance standard.

As done previously with the Texas Assessment of Academic Skills (TAAS) and the Texas Assessment of Knowledge and Skills (TAKS), the performance standards for STAAR EOC assessments will be phased in over time. The performance standards that apply to each student are based on the year of the student's first EOC assessment. The results in this report reflect the Phase-in 1 standards, unless otherwise stated.

The performance levels established by TEA are not mutually exclusive. Level II: Satisfactory includes the subset Level III: Advanced. Results for Tables 1-2 and Figures 1-6 utilize these performance levels.

STAAR Test Versions

There are four versions of the STAAR EOC assessment offered to students.

- **STAAR EOC** is available to all students taking high-school level courses, who do not qualify for one of the other STAAR assessments.
- **STAAR L** is a linguistically accommodated English version of the EOC mathematics, science, and social studies assessments. STAAR L is provided for English language learners (ELLs) who meet participation requirements for a substantial degree of linguistic accommodation in these subject areas.
- **STAAR EOC Modified** is for students who meet the modified participation requirements. Admission, review, and dismissal (ARD) committees will use the participation requirements to determine if the STAAR EOC Modified is the appropriate assessment.
- **STAAR EOC Alternate** is designed for the purpose of assessing students in high school courses, who have significant cognitive disabilities and are receiving special education services.

HISD STAAR EOC Results

Current results reflect the passing standards based on scaled scores recently set by the Texas Educational Agency for Algebra I, Biology, English I, English II, and U.S. History.

Figures 1-9 and **Tables 1-9** show the percentages of HISD students who fall into each of the performance levels, for all students and by student group. These performance levels for the regular version of the EOC assessments are established by the state and are not mutually exclusive.

Figure 1 (Table 1a) shows performance rates for all students, by subject, for the spring 2012 – 2014 administrations. **Table 1b** shows participation counts.

Figure 2 (Table 2a) shows performance rates for English Language Learners (ELL), by subject, for the spring 2012 – 2014 administrations. **Table 2b** shows participation counts.

Figure 3 (Table 3a) shows performance rates for economically disadvantaged students, by subject, for the spring 2012 – 2014 administrations. **Table 3b** shows participation counts.

Figure 4 (Table 4a) shows performance rates for students with disabilities (SWD), by subject, for the spring 2012 – 2014 administrations. **Table 4b** shows participation counts.

Figure 5 (Table 5a) shows performance rates on the Algebra I EOC assessment, by ethnicity and subject, for the spring 2012 – 2014 administrations. **Table 5b** shows participation counts.

Figure 6 (Table 6a) shows performance rates on the Biology EOC assessment, by ethnicity and subject, for the spring 2012 – 2014 administrations. **Table 6b** shows participation counts.

Figure 7 (Table 7a) shows performance rates on the English I EOC assessment, by ethnicity and subject, for the spring 2014 administration (English I was not offered for the spring 2012 and 2013 administrations). **Table 7b** shows participation counts.

Figure 8 (Table 8a) shows performance rates on the English II EOC assessment, by ethnicity and subject, for the spring 2014 administration (English II was not offered for the spring 2012 and 2013 administrations). **Table 8b** shows participation counts.

Figure 9 (Table 9a) shows performance rates on the U.S. History EOC assessment, by ethnicity and subject, for the spring 2014 administration (U.S. History was only offered as a field test for the spring 2012 and 2013 administrations). **Table 9b** shows participation counts.

Tables 10-13 show STAAR EOC results by the test version. The number of HISD students tested in each course and the percentage of students included in each performance level for each EOC assessment are reported.

Table 10a shows the results for all students, first-time testers, and retesters in the spring 2013 and 2014 administrations and provides state data where available.

Table 10b shows the results for all students, first-time testers, and retesters in the spring 2014 administrations by subject and grade level.

Table 11 shows the results for students taking the STAAR L in the spring of 2013 and 2014 administrations and provides state data where available.

Table 12 shows the results for students taking the STAAR Modified EOC assessments in the spring of 2013 and 2014.

Table 13 shows the results for students taking the STAAR Alternate EOC assessments in the spring of 2013 and 2014.

Tables 14-23 show campuses, grouped by type, rank-ordered by performance rates, for each subject offered for the spring 2014 administration.

In **Appendix A**, the number of students who took the regular version of each EOC assessment is reported for each campus. **Appendix B** shows the campus-level results, by test level, for the last two years.

Note. % Sat (PH-1) = Percent Satisfactory (Level II) at the Phase-in I Standard; % Sat (Rec) = Percent Satisfactory (level II) at the Recommended Standard; % Adv = Percent Advanced (Level III).

Table 3b. STAAR EOC Participation Counts, Economically Disadvantaged, Spring 2012-2014, All Students (First-Time Testers & Retesters)

Year	Algebra I	Biology	English I	English II	U.S. History
2012	8,328	7,638	---	---	---
2013	8,739	9,203	---	---	---
2014	10,266	9,806	13,198	10,062	7,284

- The percentage of economically disadvantaged students that met satisfactory for phase-in 1 in Algebra I remained the same at 73% from 2013 to 2014.
- The percentage of economically disadvantaged students who met satisfactory for phase-in 1 in biology increased by three percentage points to 83% from 2013 to 2014.
- The percentages of students who met the satisfactory standard in English I and English II were 47% and 51%, respectively. Students who have not met this standard are required to retest and may be off track for graduating in four years.

Note. English I and English II were not offered as a combined assessment in 2013. No comparison data is available for U.S. History in 2013. Previous years contain only field test results.

"All" refers to all students tested in the spring 2013 and 2014 administrations.

"First" refers to students who took that particular EOC for the first time in the spring 2013 or 2014 administration, respectively.

"Retest" refers to students who retook that particular EOC in the spring 2013 or 2014 administration, respectively.
