

**MEMORANDUM**

July 11, 2012

TO: Board Members

FROM: Terry B. Grier, Ed.D.  
Superintendent of Schools

CONTACT: Carla Stevens, (713) 556-6700

SUBJECT: **DISTRICT AND SCHOOL STATE OF TEXAS ASSESSMENTS OF ACADEMIC READINESS (STAAR) END OF COURSE PERFORMANCE REPORT: SPRING 2012**

Attached is a copy of the District and School STAAR End of Course (EOC) Performance Report for spring 2012. Results from the State of Texas Assessments of Academic Readiness are provided for all students by test version and student group. The results presented are the average percent of students who met the different performance standards set by the Texas Education Agency for spring 2012. Since this is the first year that STAAR EOC performance standards were established, comparison data are not available.

**Findings**

- Math performance was strong for the District, with large majorities of students passing Algebra I (79%) and Geometry (96%).
- 84% passed Biology and 73% passed World Geography.
- Results in English were less impressive; 59% passed English I Reading, while 47% passed English I Writing.

Should you have any further questions, please contact my office or Carla Stevens in Research and Accountability at (713) 556-6700.

# District and School State of Texas Assessments of Academic Readiness (STAAR) End of Course Results, Spring 2012

## Introduction

In 2007, the state Senate in Texas enacted Senate Bill 1031. This bill called for the development of an end-of-course assessment (EOC) for secondary-level courses in Algebra I, Geometry, Algebra II, Biology, Chemistry, Physics, English I, English II, English III, World Geography, World History and United States History. The Texas Education Agency (TEA), in collaboration with the Texas Higher Education Coordinating Board (THECB) and Texas educators, developed this new assessment system, which focuses on increasing postsecondary readiness of graduating high school students and helps to ensure that Texas students are competitive with other students both nationally and internationally.

Additionally, EOC assessments for higher-level courses include a series of questions designed to measure an individual's college readiness. Each EOC assessment will be worth 15% of the student's final grade for that course beginning in 2012-2013. The assessments are not grade specific, as previous standardized testing in Texas has been. Instead, after a student completes specific coursework, the student takes an assessment associated with that specific coursework. EOC assessments focus on knowledge and skills necessary for student success and preparedness for future academic courses. The process incorporates lower-level course questions within the EOC assessments to determine a student's readiness for more advanced coursework.

## STAAR EOC Performance Standards

The performance standards set by the TEA are as follows:

- **Level I: Unsatisfactory Academic Performance** – students are inadequately prepared for the following course.
- **Level I: Minimum Academic Performance** – students are inadequately prepared for the following course but have achieved the minimum allowable score for the EOC assessment to be counted toward their graduation requirements.
- **Level II: Satisfactory Academic Performance** – students are sufficiently prepared for the next course.
- **Level III: Advanced Academic Performance** – students are well prepared for the following course.

As done previously with the Texas Assessment of Academic Skills (TAAS) and the Texas Assessment of Knowledge and Skills (TAKS), the performance standards for STAAR EOC assessments will be phased in over time. The Level II standards will follow a two-step process over four years, and the Level III performance standards for English III Reading and Writing and Algebra II will be phased in over two years. The performance standards that apply to each student are based on the year of the student's first EOC assessment. The results in this report reflect the Phase-in 1 standards.

The performance levels established by TEA are not mutually exclusive. Level I: Unsatisfactory includes the subset Level I: Minimum, and Level II: Satisfactory includes the subset Level III: Advanced. Results for Tables 1-2 and Figures 1-6 utilize these performance levels. Results for Figures 7-12 use the following mutually exclusive performance levels:

- **Failed Not Met Minimum (Level I)** – only students who scored in the Level I performance standard but did not achieve the minimum score.
- **Failed Met Minimum (Level I)** – only students who achieved the minimum score in the Level I performance standard.
- **Satisfactory (Level II) Not Advanced** – only students who scored at the Level II performance standard but did not score at the advanced level.
- **Advanced (Level III)** – only students who scored at the Level III performance standard.

### **STAAR Test Versions**

As with the TAKS assessment, there are four versions of the STAAR exam offered to students. **STAAR** is available to all students in grades 3–8 and first-time ninth graders who do not qualify for one of the other STAAR assessments. **STAAR-L** is a linguistically accommodated English version of the STAAR grades 3–8 and EOC mathematics, science, and social studies assessments. STAAR-L is provided for English language learners (ELLs) who meet participation requirements for a substantial degree of linguistic accommodation in these subject areas. **STAAR-Modified** replaced the Texas Assessment of Knowledge and Skills–Modified (TAKS–M) for students in grades 3-9 who meet the STAAR-Modified participation requirements. Admission, review, and dismissal (ARD) committees will use the participation requirements to determine if the STAAR-Modified is the appropriate assessment. The **STAAR-Alternate** (STAAR-Alt) is designed for the purpose of assessing students in grades 3-8 and high school who have significant cognitive disabilities and are receiving special education services.

### **HISD STAAR EOC Results**

Current results reflect the scaled scores recently set by the Texas Educational Agency for Algebra I, Geometry, Algebra II, Biology, Chemistry, Physics, World Geography, World History, U.S. History, and English I, II, and III – Reading and Writing. These results include only students from grades 9 and below. Comparisons should not be made between 2011 and 2012 EOC data because the performance standards were not set until spring 2012. In 2011, the EOC assessments were not considered high-stakes tests, whereas in 2012 the EOC assessments are high-stakes because student results impact graduation readiness.

**Tables 1-4** show STAAR EOC results by the test version. The number of HISD students tested in each course, the average scale scores, and the percentage of students included in each performance level for each EOC assessment are reported. For the regular STAAR EOC, the English results are also grouped by students taking STAAR-L and those not taking STAAR-L.

**Figures 1-6** show the percentages of HISD students who fall into each of the performance levels, broken up by student group. These performance levels for the regular version of the EOC assessments are established by the state and are not mutually exclusive.

**Figures 7-12** show the percentages of students who either passed or failed the regular version of the EOC assessment, by campus. Also, the percentages of students who failed and did not meet the minimum standard, those who failed but met the minimum standard, those who passed without scoring advanced, and those who scored at the advanced level are reported.

In **Appendix A**, the number of students who took the regular version of each EOC assessment is reported for each campus. **Appendix B** shows the percentages of students who met each mutually exclusive performance standard for the regular version of the EOC assessments, by student group for each campus. **Appendix C** reports the STAAR EOC results by test version for each campus, using the TEA set performance standards.

Table 1: HISD STAAR EOC Tests - % Passed/Did not Pass, 2012: All Students							
Subject		# Taken	Scale Score	Did not Pass		Passed	
				Unsatisfactory	At Min.	Satisfactory	Advanced
