

## MEMORANDUM

June 26, 2013

TO: Board Members

FROM: Terry B. Grier, Ed.D.  
Superintendent of Schools

CONTACT: Carla Stevens, (713) 556-6700

SUBJECT: **2013 STAAR END OF COURSE (EOC) RESULTS**

In 2007, the state Senate in Texas enacted Senate Bill 1031. This bill called for the development of an end-of-course assessment (EOC), now referred to as State of Texas Assessment of Academic Readiness or STAAR, for secondary-level courses in: Algebra I and II, Geometry, Biology, Chemistry, Physics, English I, II and III, World Geography, World History, and United States History.

The performance standards set by the TEA for these assessments are as follows:

- **Level I: Unsatisfactory Academic Performance** – students are inadequately prepared for the following course.
- **Level I: Minimum Academic Performance** – students are inadequately prepared for the following course but have achieved the minimum allowable score for the EOC assessment to be counted toward their graduation requirements.
- **Level II: Satisfactory Academic Performance** – students are sufficiently prepared for the next course.
- **Level III: Advanced Academic Performance** – students are well prepared for the following course.

Students must achieve at Level II in order to pass the assessment. However, students scoring at Level I Minimum Academic Performance are able to use the EOC assessment scored as part of their cumulative score which was required for graduation. Additionally, each EOC assessment was to be worth 15% of the student's final grade for that course beginning in 2012-2013.

In 2013, the 83<sup>rd</sup> legislature passed House Bill 5. House Bill 5 eliminated the cumulative score requirement for graduation. HB 5 also reduced the number of EOC assessments to five; Algebra I and II, English I, biology, and U.S. History. Since the purpose of this report is to provide an overview of the results from the Spring 2013 administration of the EOC in accordance with the rules and policies adopted by the Texas Education Administration (TEA) to implement SB 1032 all EOC assessments and Level I Minimum Academic Performance standards are reported. However, beginning in 2013-2014, changes in the STAAR EOC assessments mandated by HB 5 will be reflected in this report.

## Findings

Most Houston Independent School District students showed they are on track to graduate high school prepared for college and rewarding careers, according to STAAR EOC results. Reflecting a statewide trend, HISD student performance was strongest in math and science, while students struggled most with reading and writing. A comparison of 2013 EOC performance between the state and HISD are shown in **Table 1**.

**Table 1. Percent Satisfactory 2012-2013 STAAR EOC, First-Time Testers**

| EOC                 | State 2012 | State 2013 | State 2-Year Difference | HISD 2012 | HISD 2013 | HISD 2-Year Difference |
|---------------------|------------|------------|-------------------------|-----------|-----------|------------------------|
| Algebra I           | 83         | 82         | -1                      | 79        | 77        | -2                     |
| Biology             | 87         | 88         | +1                      | 84        | 84        | 0                      |
| World Geography     | 81         | 80         | -1                      | 73        | 74        | +1                     |
| English I – Reading | 68         | 70         | +2                      | 59        | 62        | +3                     |
| English I – Writing | 55         | 54         | -1                      | 47        | 44        | -3                     |

*Green shading reflects higher 2 year difference for HISD versus the State*

## Administrative Response

To improve student achievement on STAAR End-of-Course (EOC) assessments, the division of Academic Services will continue to focus on the following:

- Embedding “Recommendations for Instructional Accommodations for Special Needs Students” (6 – 12 in ELA and mathematics) and “Instructional Accommodations for Diverse Learners” (K – 12 in all content areas) within unit planning guides and exemplar lessons
- Supporting training on, and implementation of, Istation and Think Through Math
- Providing an EOC Intervention Framework document for Algebra I, Biology, English I, and World Geography courses to assist Tier 3 and Tier 4 schools to provide instruction to retesters
- Training department chairs and lead teachers in strategies for improving literacy instruction, in all content areas, for all students in general and for English language learners (ELL) and students with disabilities (SWD) in particular
- Ten new formative assessments per course will be included in unit planning guides that emphasize reading and writing across disciplines in all content areas
- Collaborating with Professional Support and Development (PSD) and SpringBoard (College Board) to train 6 – 12 teachers on reading-writing connections
- Providing clearly delineated writing modules with STAAR-aligned writing lessons
- Training over 200 teachers in the 2013 Summer Writing Institute on the reading-writing connection, to be followed up throughout the 2013-14 school year with a cohort of 50 teachers
- Training high school content-area teachers to address the academic and linguistic needs of ELL students
- Providing individual academic reports for ELL students determined to be at-risk and then creating individual intervention plans
- Providing all high schools with an annual ELL program report, which includes TAKS/STAAR passing rates, graduation rates, and TELPAS rating percentages. The schools receive a teacher report on the percentage of ELL students who made one or more levels of ESL instructional gain, as determined by TELPAS.
- Providing an online reading program for high school ELL students to increase language and literacy development

- Offering campus and classroom level support for implementing targeted accommodations for students with disabilities in the instruction and assessment process
- Providing campus and classroom-level support for the implementation of targeted accommodations for special education students in general education classes
- Moving student with disabilities to more inclusive placements so that they receive rigorous instruction in all academic areas
- Providing campus and classroom-level support to improve classroom management and student behavior
- Providing access for students with disabilities to assistive technology and supplementary aids so that they can be instructed in inclusive settings
- Expanding the Response-to-Intervention (RtI) plan to provide a cohesive framework for aligning student support services

The High School Office (HSO) is also looking into several curricular programs to improve student performance:

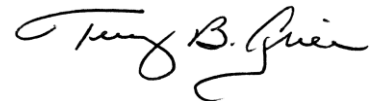

- AgileMind software, from the Dana Center, will be used by 18 lowest performing schools to support Algebra I.
- A science curriculum from Rice University for Biology and possible Chemistry and Physics is being considered.
- Achieve3000, a Lexiled reading and writing support program, will hopefully be piloted at our schools with the greatest need.
- In collaboration with Curriculum, the possibility of changing course sequences will be examined.

The HSO conducts monthly (or more frequent) formal visits at each tier III/IV campus and works in collaboration with NCUST (The National Center for Urban School Transformation) in conducting structured walkthroughs and debriefs. The HSO has also worked with tier III/IV schools to arrive at a set of expectations around their response to the challenge of low student performance as follows:

- Schools will double-block for students requiring extended instructional time in math and reading.
- Intervention for all struggling students will be built into the school day.
- Assistant Principals and Deans will receive training to improve calibration around Assessment & Development.
- Professional Learning Communities (PLCs) will be strengthened and will be the central vehicle to drive instructional planning.
- Schools will have a plan to actively monitor and respond to student failures.
- Schools will meet regularly to debrief with Teacher Development Specialist (TDS) on observed trends.
- Schools will put into place methods to ensure use of appropriate accommodations.
- Writing with meaningful feedback will occur across all classes.
- Schools will be paired with a partner who is more successful in the area of greatest need.

The High School Office (HSO) will further analyze the results to better understand areas of strengths and weaknesses that need to be built upon or addressed. Additionally, the HSO will work with targeted schools to improve teacher retention and training, especially for less experienced teachers.

Should you have further questions, please contact my office or Carla Stevens in the Department of Research and Accountability at (713) 556-6700.

# **District and School State of Texas Assessments of Academic Readiness (STAAR) End of Course Results, Spring 2013**

## **Introduction**

In 2007, the state Senate in Texas enacted Senate Bill 1031. This bill called for the development of an end-of-course assessment (EOC) for secondary-level courses in Algebra I, Geometry, Algebra II, Biology, Chemistry, Physics, English I, English II, English III, World Geography, World History and United States History. The Texas Education Agency (TEA), in collaboration with the Texas Higher Education Coordinating Board (THECB) and Texas educators, developed this new assessment system, which focuses on increasing postsecondary readiness of graduating high school students and helps to ensure that Texas students are competitive with other students both nationally and internationally.

Additionally, EOC assessments for higher-level courses include a series of questions designed to measure an individual's college readiness. The assessments are not grade specific, as previous standardized testing in Texas has been. Instead, after a student completes specific coursework, the student takes an assessment associated with that specific coursework. EOC assessments focus on knowledge and skills necessary for student success and preparedness for future academic courses. The process incorporates lower-level course questions within the EOC assessments to determine a student's readiness for more advanced coursework.

## **STAAR EOC Performance Standards**

The performance standards set by the TEA are as follows:

- **Level I: Unsatisfactory Academic Performance** – students are inadequately prepared for the following course.
- **Level I: Minimum Academic Performance** – students are inadequately prepared for the following course but have achieved the minimum allowable score for the EOC assessment to be counted toward their graduation requirements (no longer used after this administration).
- **Level II: Satisfactory Academic Performance** – students are sufficiently prepared for the next course.
- **Level III: Advanced Academic Performance** – students are well prepared for the following course.

As done previously with the Texas Assessment of Academic Skills (TAAS) and the Texas Assessment of Knowledge and Skills (TAKS), the performance standards for STAAR EOC assessments will be phased in over time. The Level II standards will follow a two-step process over four years, and the Level III performance standards for English III Reading and Writing and Algebra II will be phased in over two years. The performance standards that apply to each student are based on the year of the student's first EOC assessment in that content area. The results in this report reflect the Phase-in 1 standards, unless otherwise stated.

The performance levels established by TEA are not mutually exclusive. Level I: Unsatisfactory includes the subset Level I: Minimum and Level II: Satisfactory includes the subset Level III: Advanced. Results for Tables 1-2 and Figures 1-6 utilize these performance levels. Results for Figures 7-12 use the following mutually exclusive performance levels:

- **Failed Not Met Minimum (Level I)** – only students who scored in the Level I performance standard but did not achieve the minimum score.
- **Failed Met Minimum (Level I)** – only students who achieved the minimum score in the Level I performance standard. Students scoring at this level are considered to have failed the assessment, but their scores were high enough to be included in their cumulative score. The cumulative score was a requirement for graduation but was eliminated due to legislative action of the 83<sup>rd</sup> legislature and is provided here for informational purposes only.
- **Satisfactory (Level II) Not Advanced** – only students who scored at the Level II performance standard but did not score at the advanced level.
- **Advanced (Level III)** – only students who scored at the Level III performance standard.

### STAAR Test Versions

As with the TAKS assessment, there are four versions of the STAAR exam offered to students. **STAAR** is available to all students in grades 3–8 and high school students who do not qualify for one of the other STAAR assessments. **STAAR L** is a linguistically accommodated English version of the STAAR grades 3–8 and EOC mathematics, science, and social studies assessments. STAAR L is provided for English language learners (ELLs) who meet participation requirements for a substantial degree of linguistic accommodation in these subject areas. **STAAR Modified** replaced the Texas Assessment of Knowledge and Skills–Modified (TAKS–M) for students in grades 3–9 who meet the STAAR Modified participation requirements. Admission, review, and dismissal (ARD) committees will use the participation requirements to determine if the STAAR Modified is the appropriate assessment. The **STAAR Alternate** is designed for the purpose of assessing students in grades 3–8 and high school who have significant cognitive disabilities and are receiving special education services.

The Texas Education Agency (TEA) convenes standard-setting panels to recommend passing or “cut” scores for all assessments in Texas. For the State of Texas Assessments of Academic Readiness Alternate (STAAR™ Alternate), standard setting meetings were convened in September 2012. The standard-setting panels, comprised of educators from both the fields of general and special education, considered the increased rigor and need for high expectations to determine recommended cut scores for approval by the Commissioner of Education.

Based on the approved cut scores established by the panel, a student assessed with STAAR Alternate will receive an academic performance standard of “Accomplished Academic Performance,” “Satisfactory Academic Performance,” or “Developing Academic Performance” based on the total number of points earned per subject. The academic performance standards are the cut scores on a test that assigns a student to one of these three levels based on the student’s performance on an assessed subject.

For the 2012-2013 STAAR Alternate administration, the rigor of the assessments was also increased through the implementation of the following guidelines:

- Combination of Complexity Level 1 and 2 tasks is allowable
- Three total assessment attempts allowed, including both complete and incomplete attempts
- ARD Committee may select complexity level of tasks
- ARD Committee required to select complexity level of tasks (effective 2013–2014)
- Complete at least one Complexity Level II or III task to reach proficiency

Finally, it was determined that a student is considered to have passed a given STAAR Alternate assessment only if he/she obtains “Satisfactory Academic Performance” or “Accomplished Academic Performance.” Therefore, a student who is developing, according to their assessments, is not considered to have passed the assessment.

Because of these changes, many students are now considered to have “Not Passed”, even though they are at a “Developing” level. This appears to be an unintended consequence of the guidelines which has resulted in numerous requests from districts and agencies across the state asking for the guidelines to be reevaluated. As a result, legislation has been passed in the Texas legislature that will require TEA to redevelop or adopt assessments for students with disabilities that measure growth and mandates that teachers cannot be required to prepare tasks or materials for a student who will be assessed.

### **HISD STAAR EOC Results**

Current results reflect the scaled scores recently set by the Texas Educational Agency for Algebra I, Geometry, Algebra II, Biology, Chemistry, Physics, World Geography, World History, U.S. History, and English I, II, and III – Reading and Writing. These results include only students from grades 10 and below.

**Tables 1-4** show STAAR EOC results by the test version. The number of HISD students tested in each course and the percentage of students included in each performance level for each EOC assessment are reported. **Table 1a** shows the results for all students, first-time testers, and retesters in the spring 2013 administration. The percent of students scoring at the minimum unsatisfactory level is also provided.

**Figures 1-6** show the percentages of HISD students who fall into each of the performance levels, broken up by student group. These performance levels for the regular version of the EOC assessments are established by the state and are not mutually exclusive.

**Figures 7-12** show the percentages of students who either passed or failed the regular version of the EOC assessment, by campus. These figures are rank ordered by percent passed.

In **Appendix A**, the number of students who took the regular version of each EOC assessment is reported for each campus. **Appendix B** shows the percentages of students who met each mutually exclusive performance standard for the regular version of the EOC assessments. **Appendix C** reports the STAAR EOC results by test version for each campus, using the TEA set performance standards.

**Table 1a: HISD STAAR EOC Assessments % Passed/Did not Pass, All Students, First-time Testers, and Retesters, Spring 2013**

| Subject        |                       | # Tested |        |        | Did not Pass     |       |        |               |       |        | Passed         |       |        |            |       |        |
|----------------|-----------------------|----------|--------|--------|------------------|-------|--------|---------------|-------|--------|----------------|-------|--------|------------|-------|--------|
|                |                       |          |        |        | % Unsatisfactory |       |        | % At Minimum* |       |        | % Satisfactory |       |        | % Advanced |       |        |
|                |                       | All      | First  | Retest | All              | First | Retest | All           | First | Retest | All            | First | Retest | All        | First | Retest |
| Math           | Algebra I             | 11,845   | 11,343 | 502    | 25               | 23    | 72     | 9             | 9     | 20     | 75             | 77    | 28     | 15         | 15    | 1      |
|                | Geometry              | 9,037    | 9,014  | 23     | 18               | 18    | 26     | 9             | 9     | 13     | 82             | 82    | 74     | 15         | 15    | 4      |
|                | Algebra II            | 3,811    | 3,811  | 0      | 6                | 6     |        | 3             | 3     |        | 94             | 94    |        | 57         | 57    |        |

|                | English II - Writing  | 10,486   | 10,486 | 0      | 55               | 55    |        | 10            | 10    |        | 45             | 45    |        | 2          | 2     |        |
|                | English III - Reading | 27       | 27     | 0      | 59               | 59    |        | 0             | 0     |        | 41             | 41    |        | 4          | 4     |        |
|                | English III - Writing | 33       | 33     | 0      | 85               | 85    |        | 12            | 12    |        | 15             | 15    |        | 6          | 6     |        |

"All" refers to all students tested in the spring 2013 administration.

"First" refers to students who took that particular EOC for the first time in the spring 2013 administration.

"Retest" refers to students who retaken that particular EOC in the spring 2013 administration.

\*Students scoring at this level are considered to have failed the assessment, but their scores were high enough to be included in their cumulative score. The cumulative score was a requirement for graduation but was eliminated due to legislative action of the 83rd legislature and is provided here for informational purposes only.

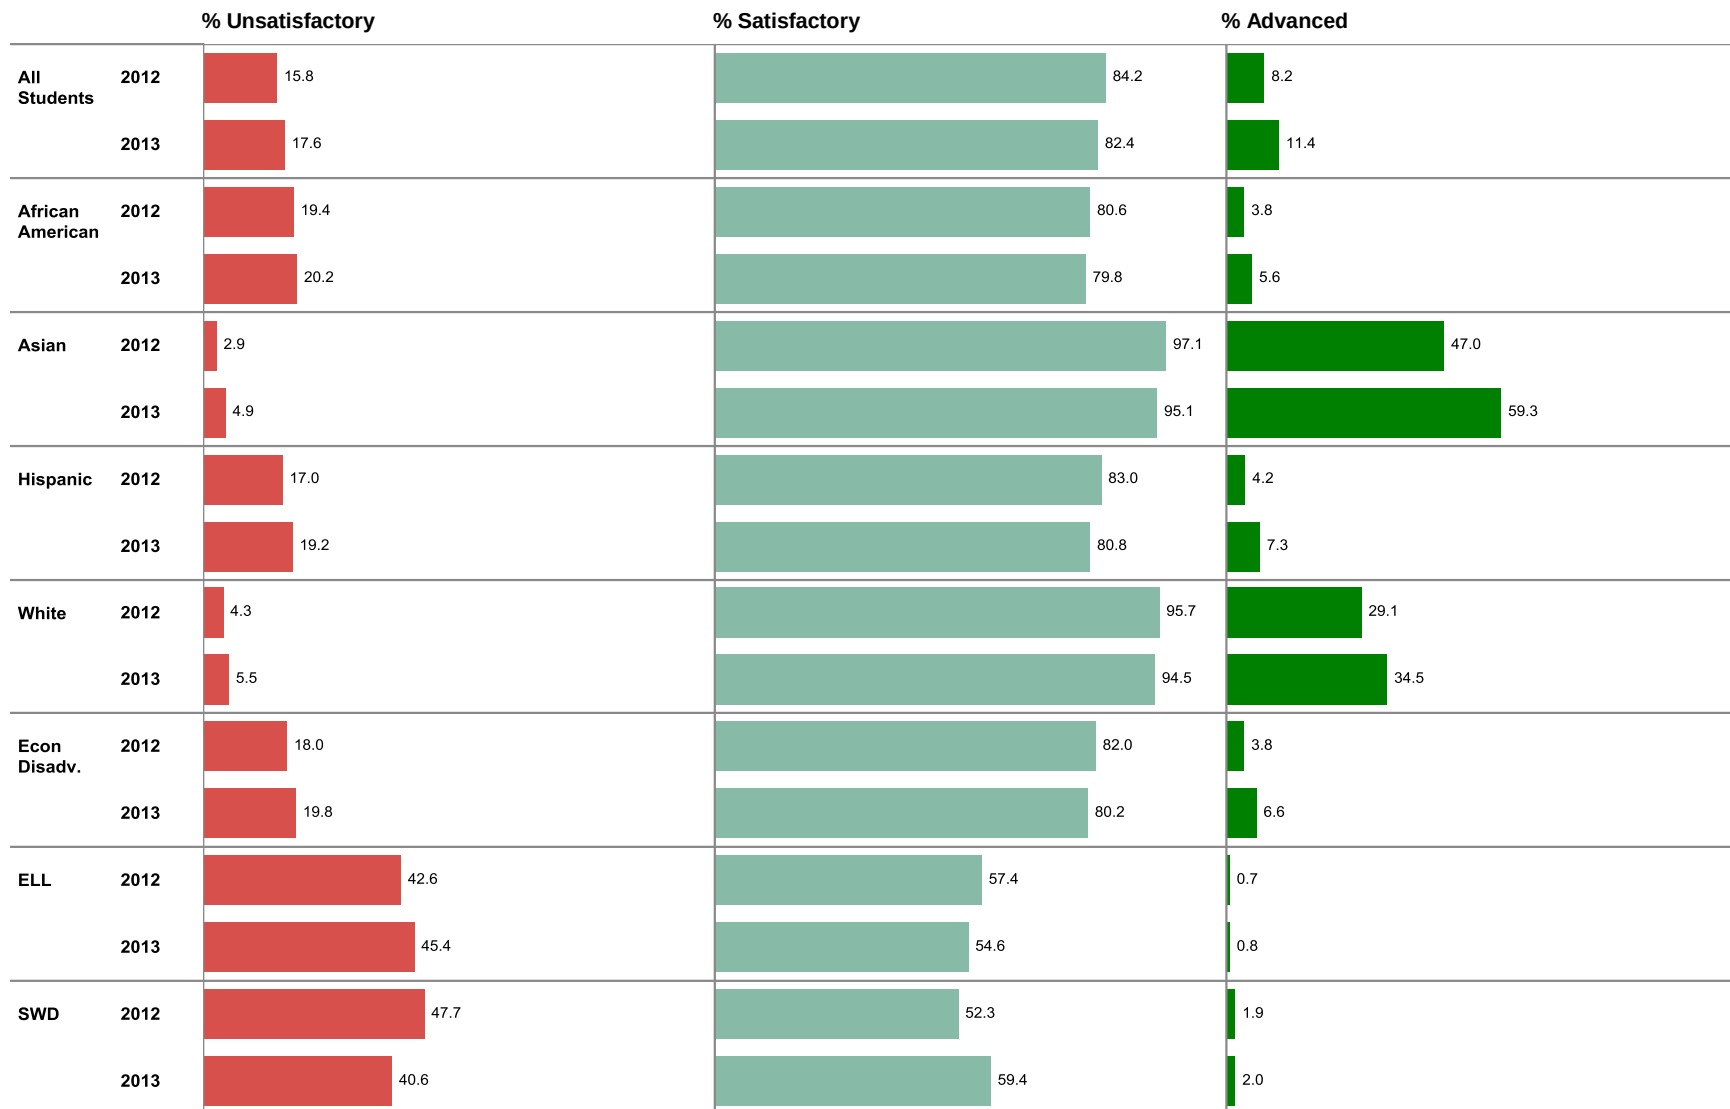

**Figure 1: STAAR EOC Algebra I, % Performance Levels, by Student Group: 2012 and 2013**

STAAR L, STAAR Modified, and STAAR Alternate are not included.

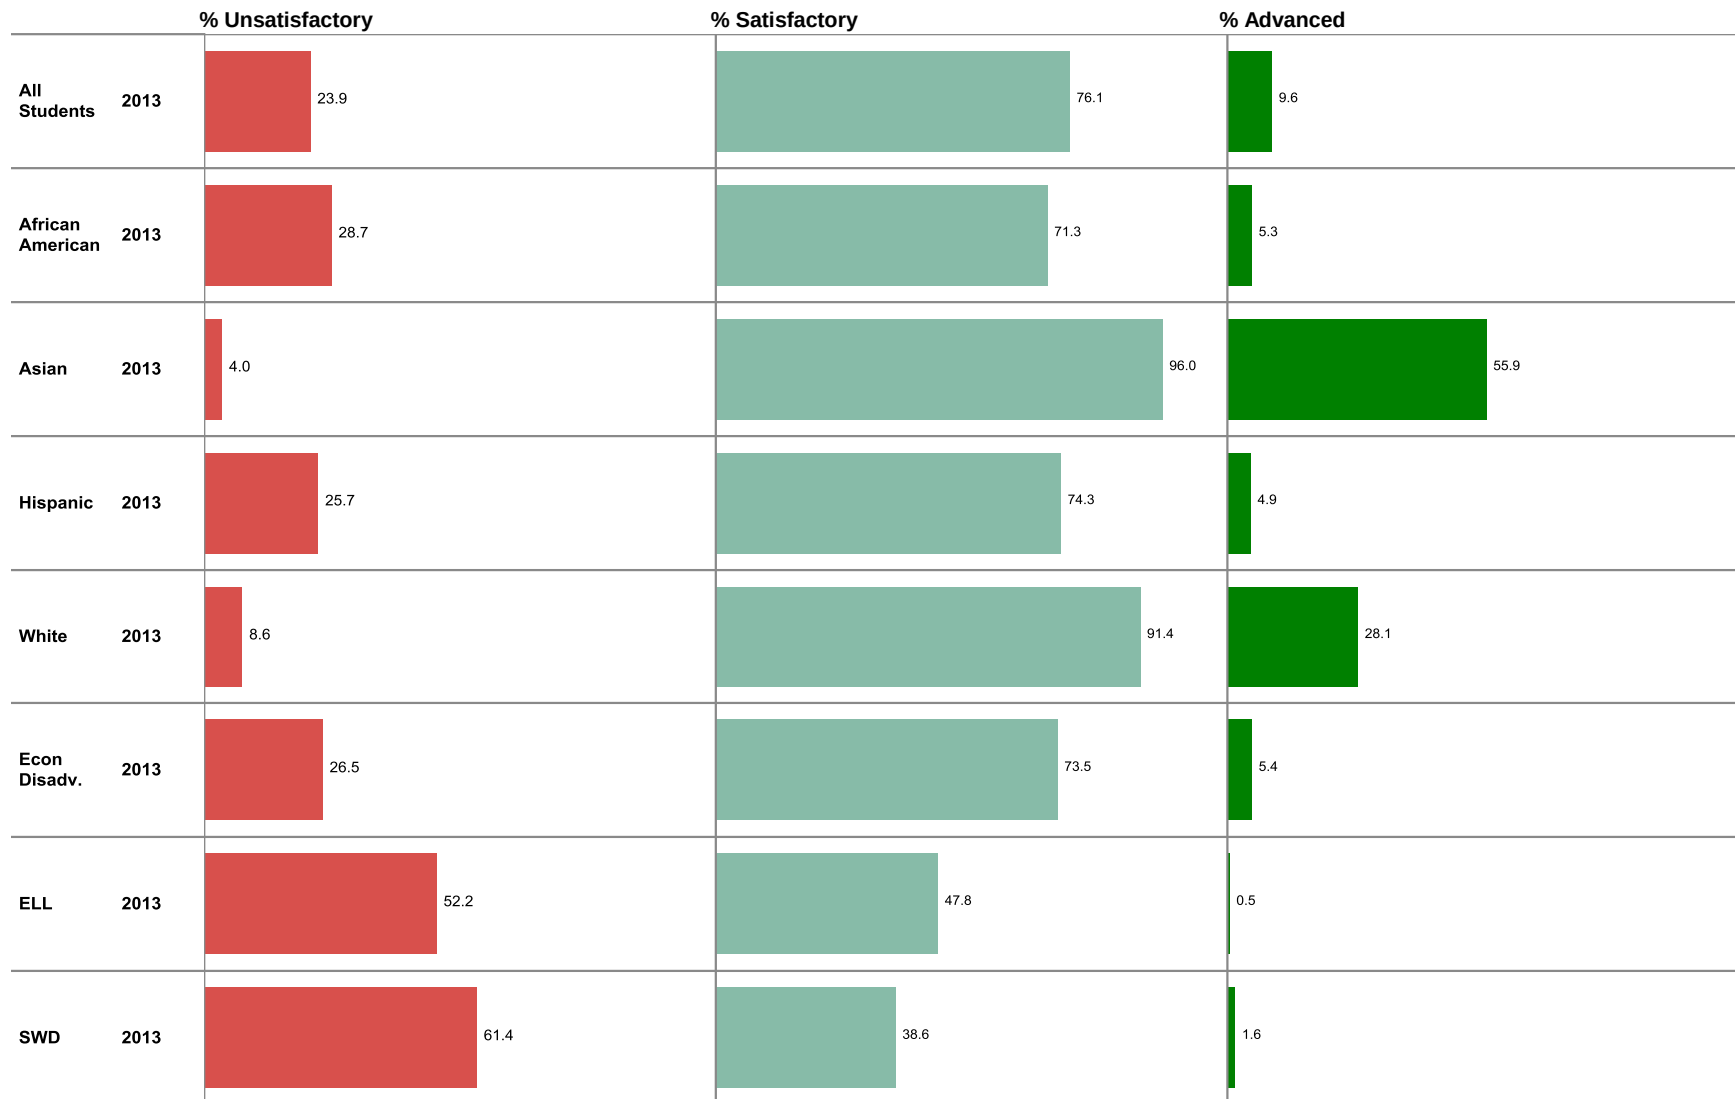

**Figure 2: STAAR EOC Geometry, % Performance Levels, by Student Group: 2012 and 2013**

STAAR L, STAAR Modified, and STAAR Alternate are not included.

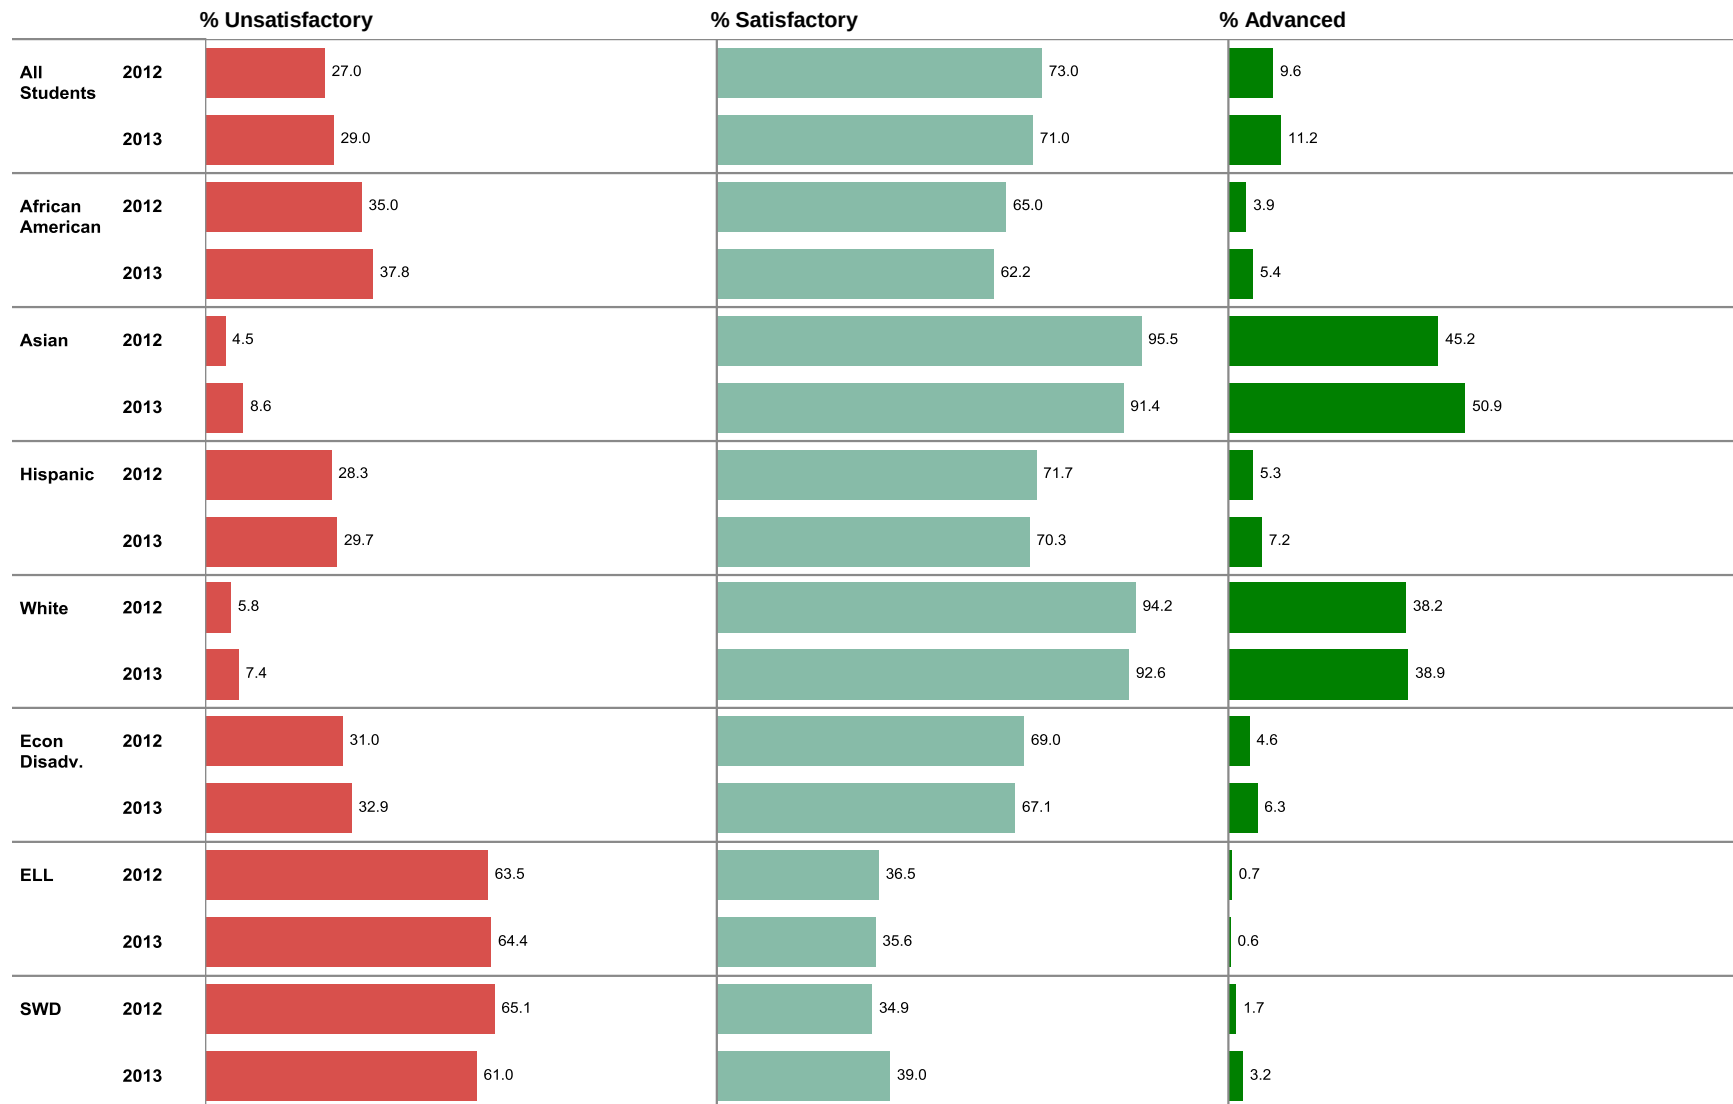

**Figure 3: STAAR EOC Biology, % Performance Levels, by Student Group: 2012 and 2013**

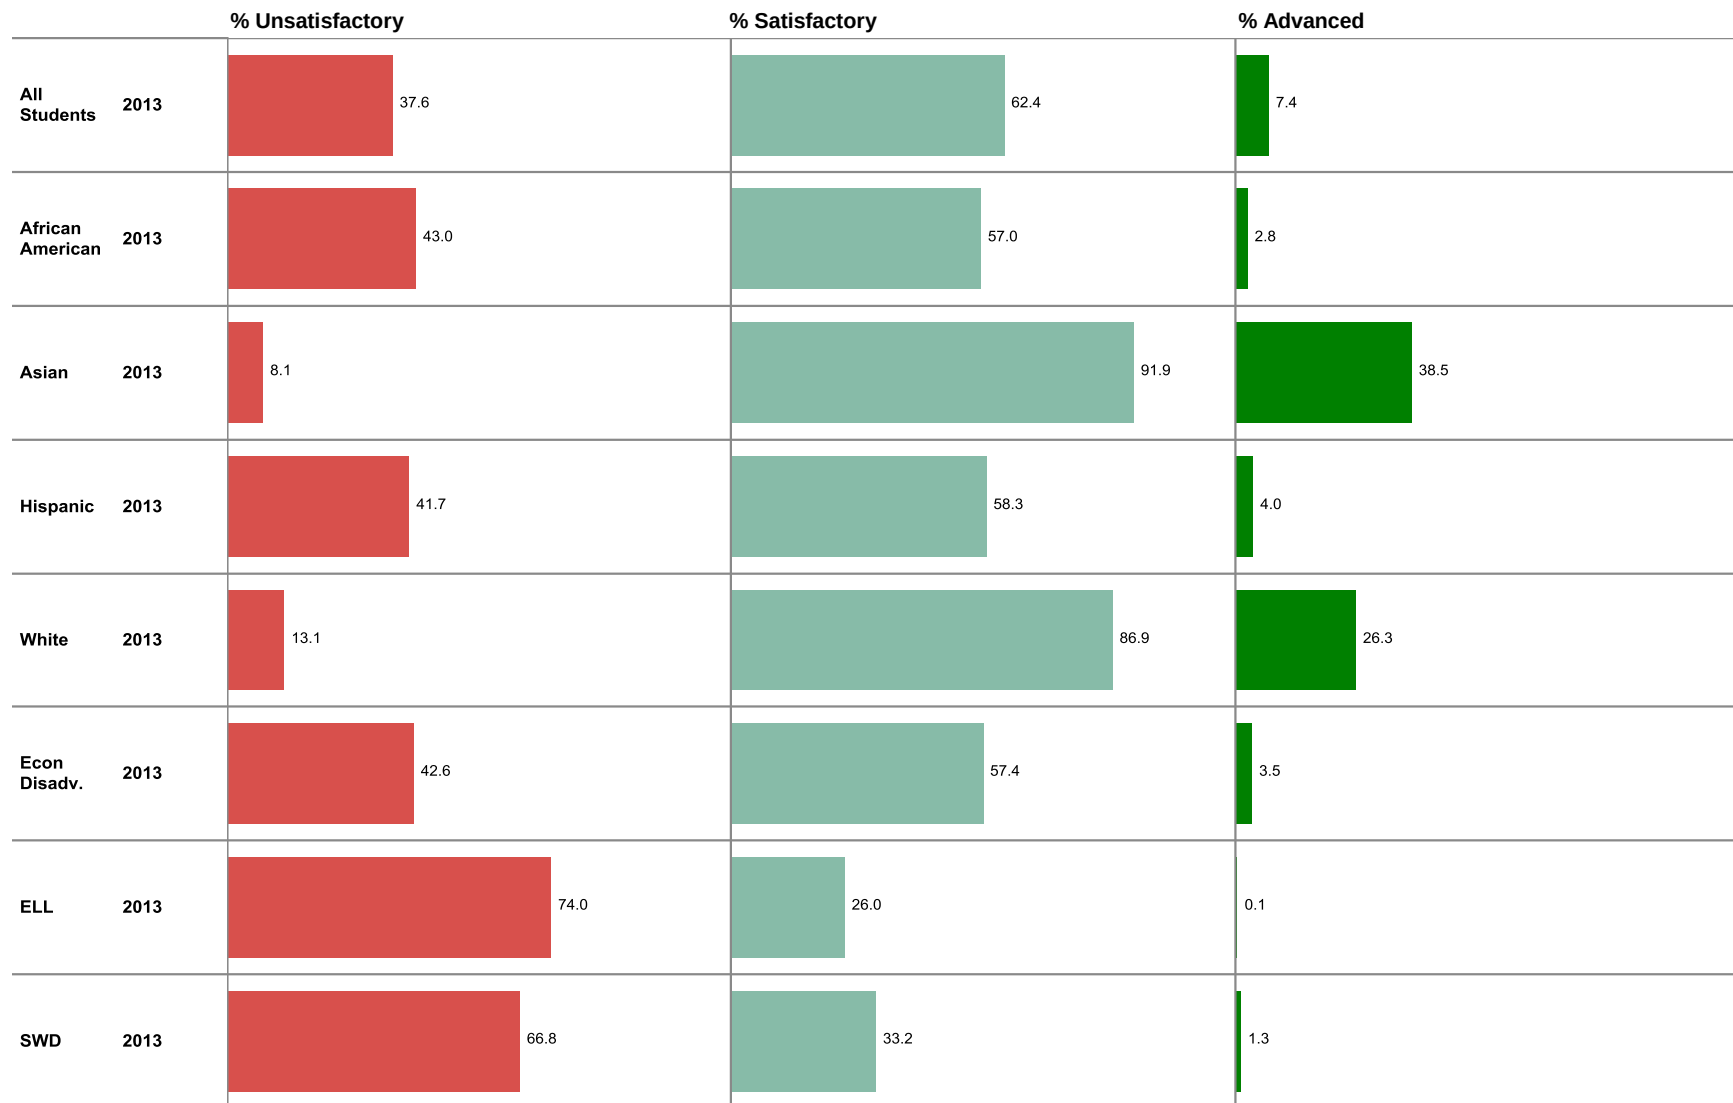

STAAR L, STAAR Modified, and STAAR Alternate are not included.

**Figure 4: STAAR EOC Chemistry, % Performance Levels, by Student Group: 2013**

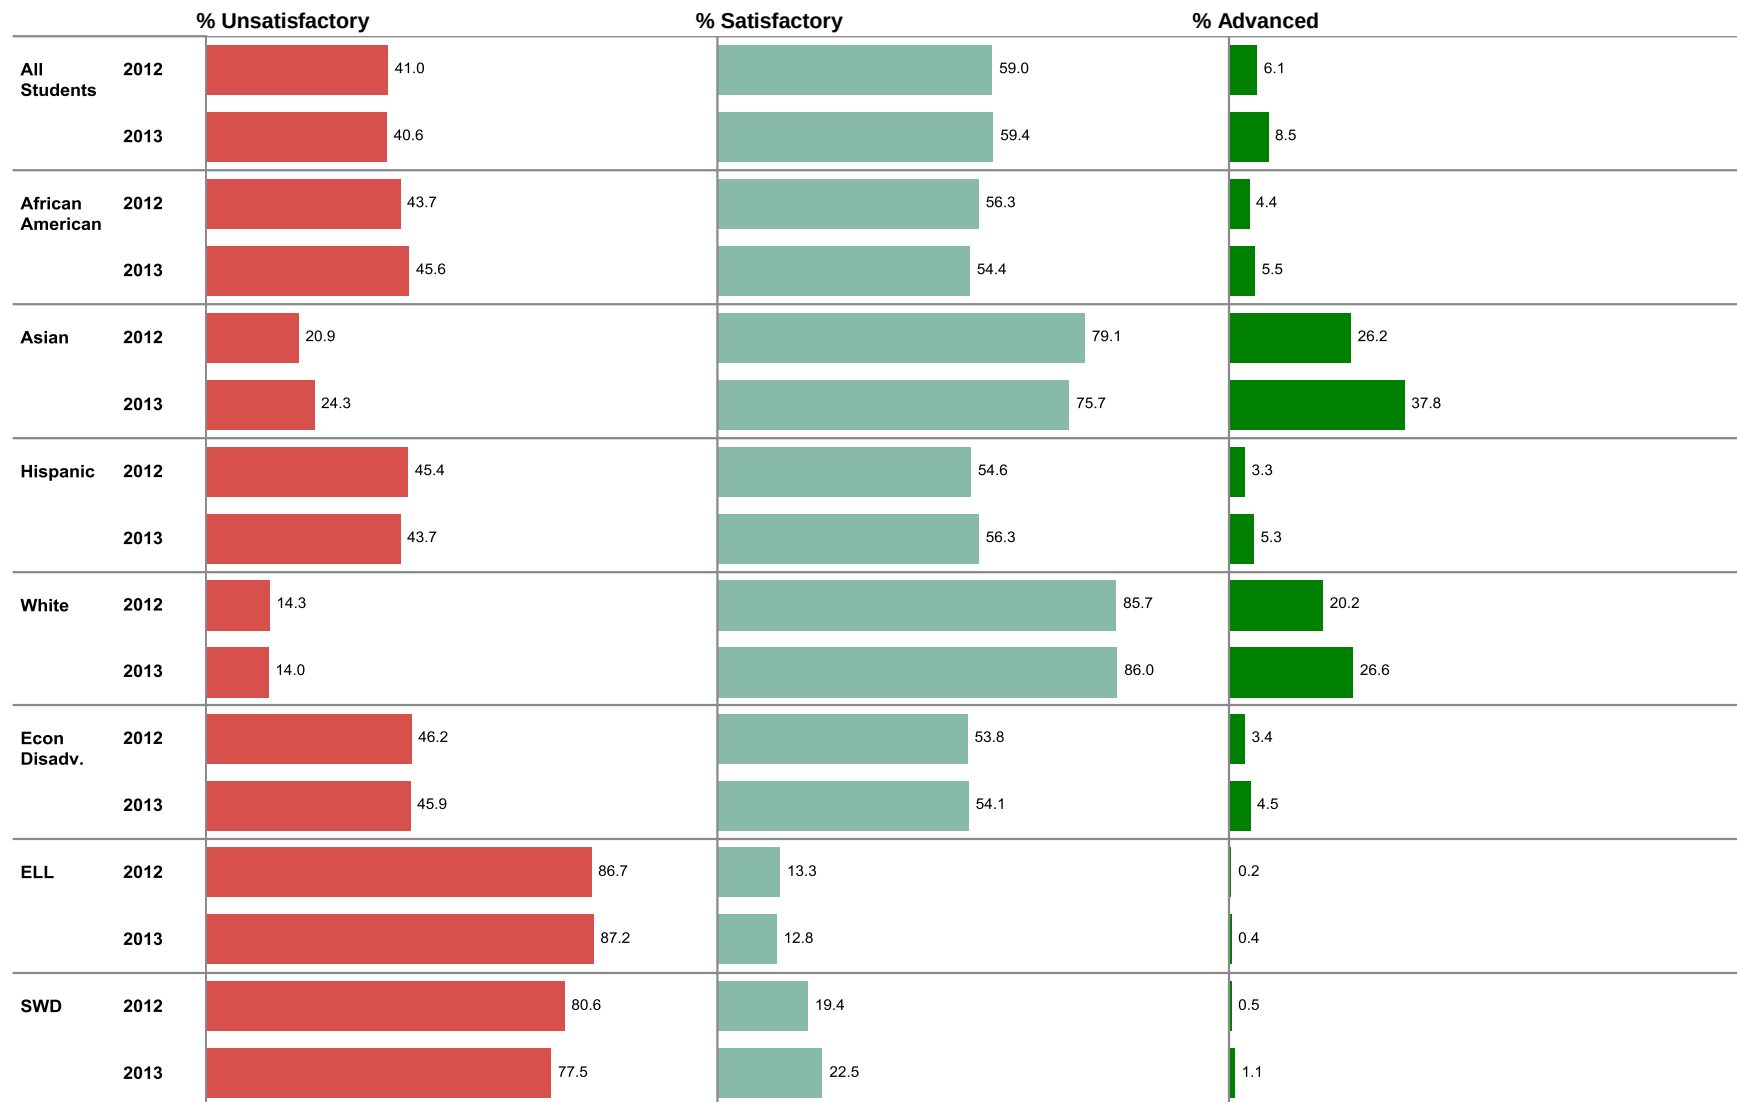

STAAR L, STAAR Modified, and STAAR Alternate are not included.

**Figure 5: STAAR EOC World Geography, % Performance Levels, by Student Group: 2012 and 2013**

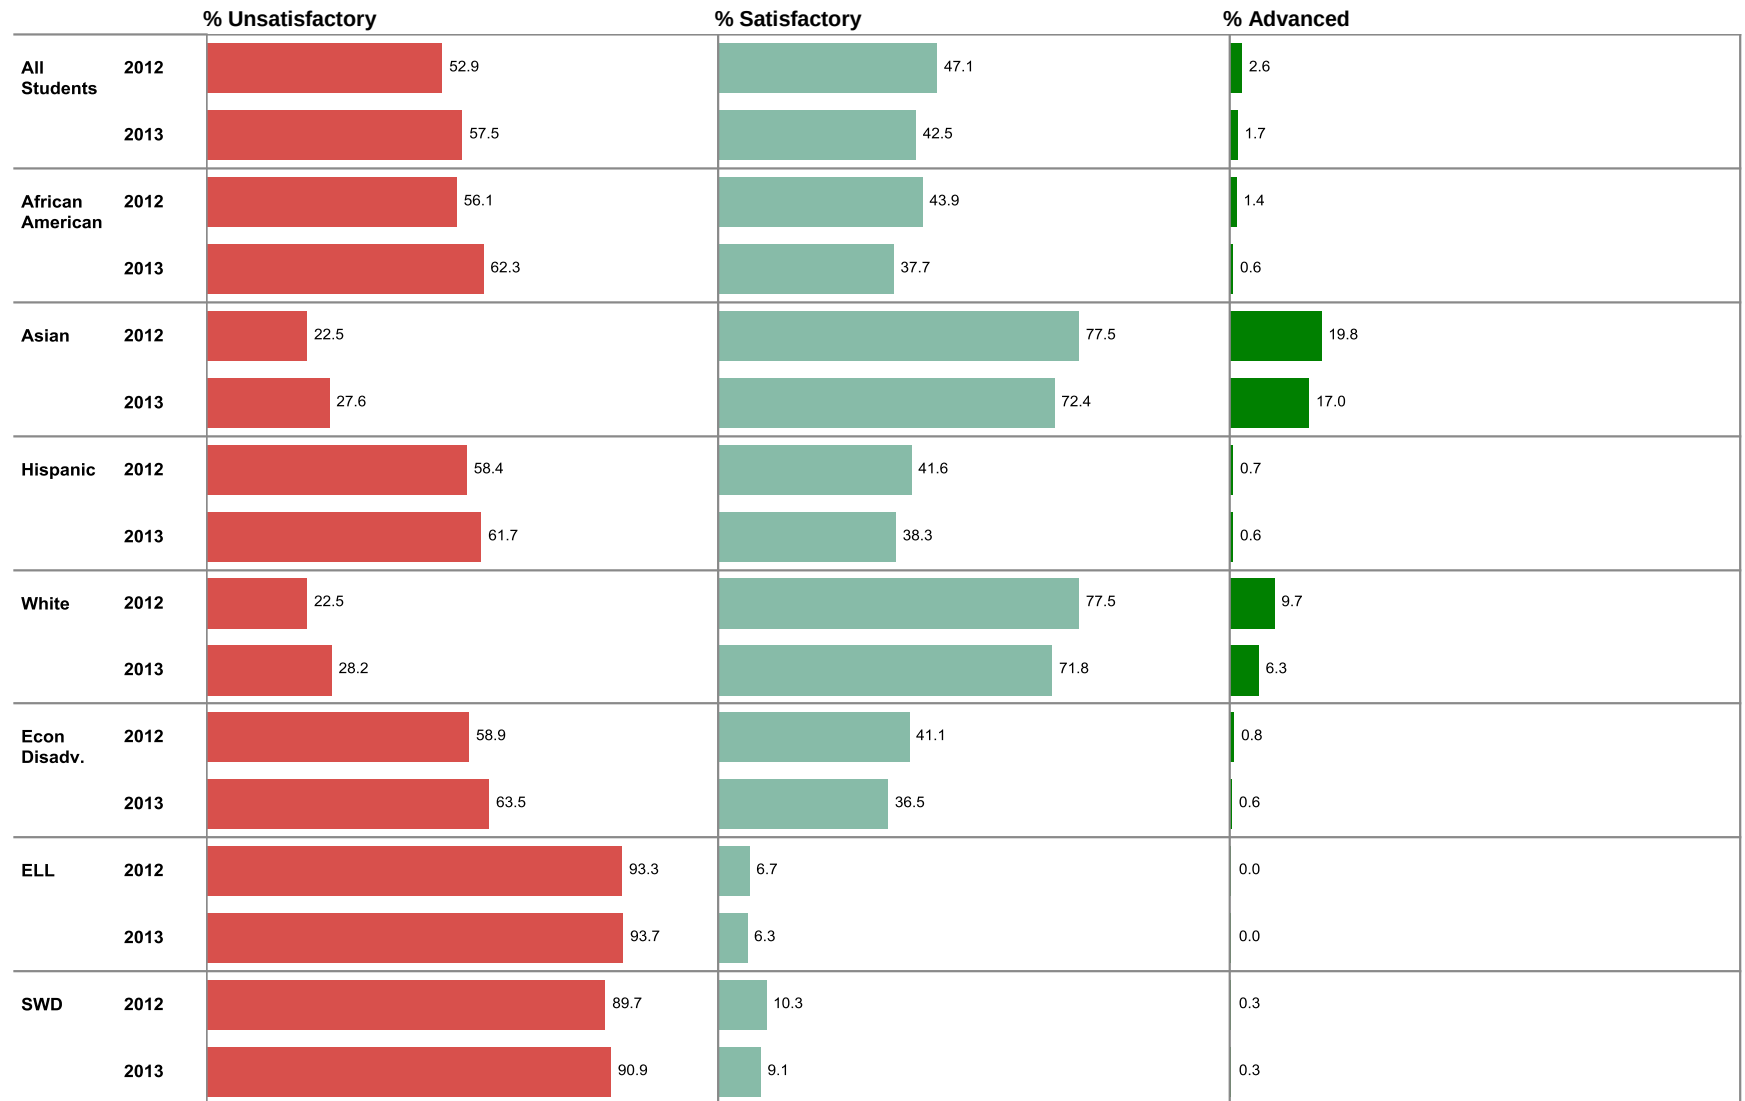

STAAR L, STAAR Modified, and STAAR Alternate are not included.

**Figure 6: STAAR EOC World History, % Performance Levels, by Student Group: 2013**

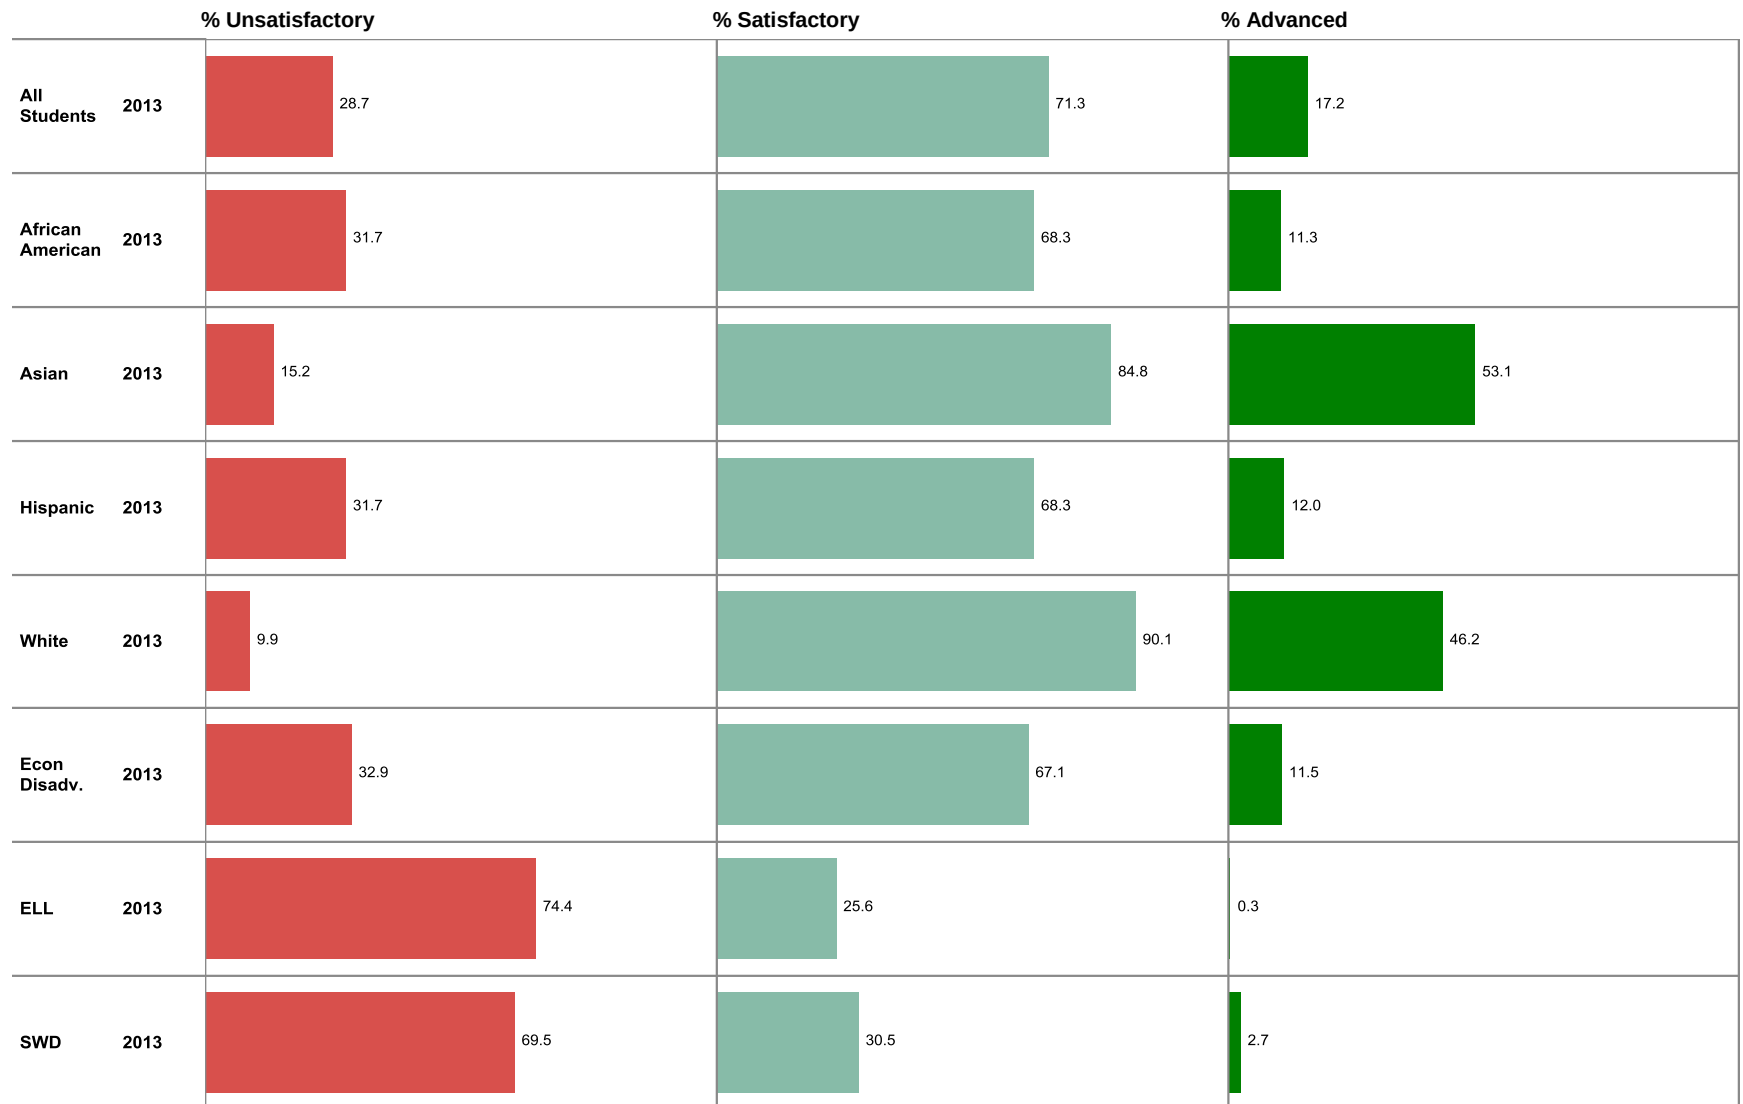

STAAR L, STAAR Modified, and STAAR Alternate are not included.

**Figure 7: STAAR EOC English I Reading, % Performance Levels, by Student Group: 2012 and 2013**

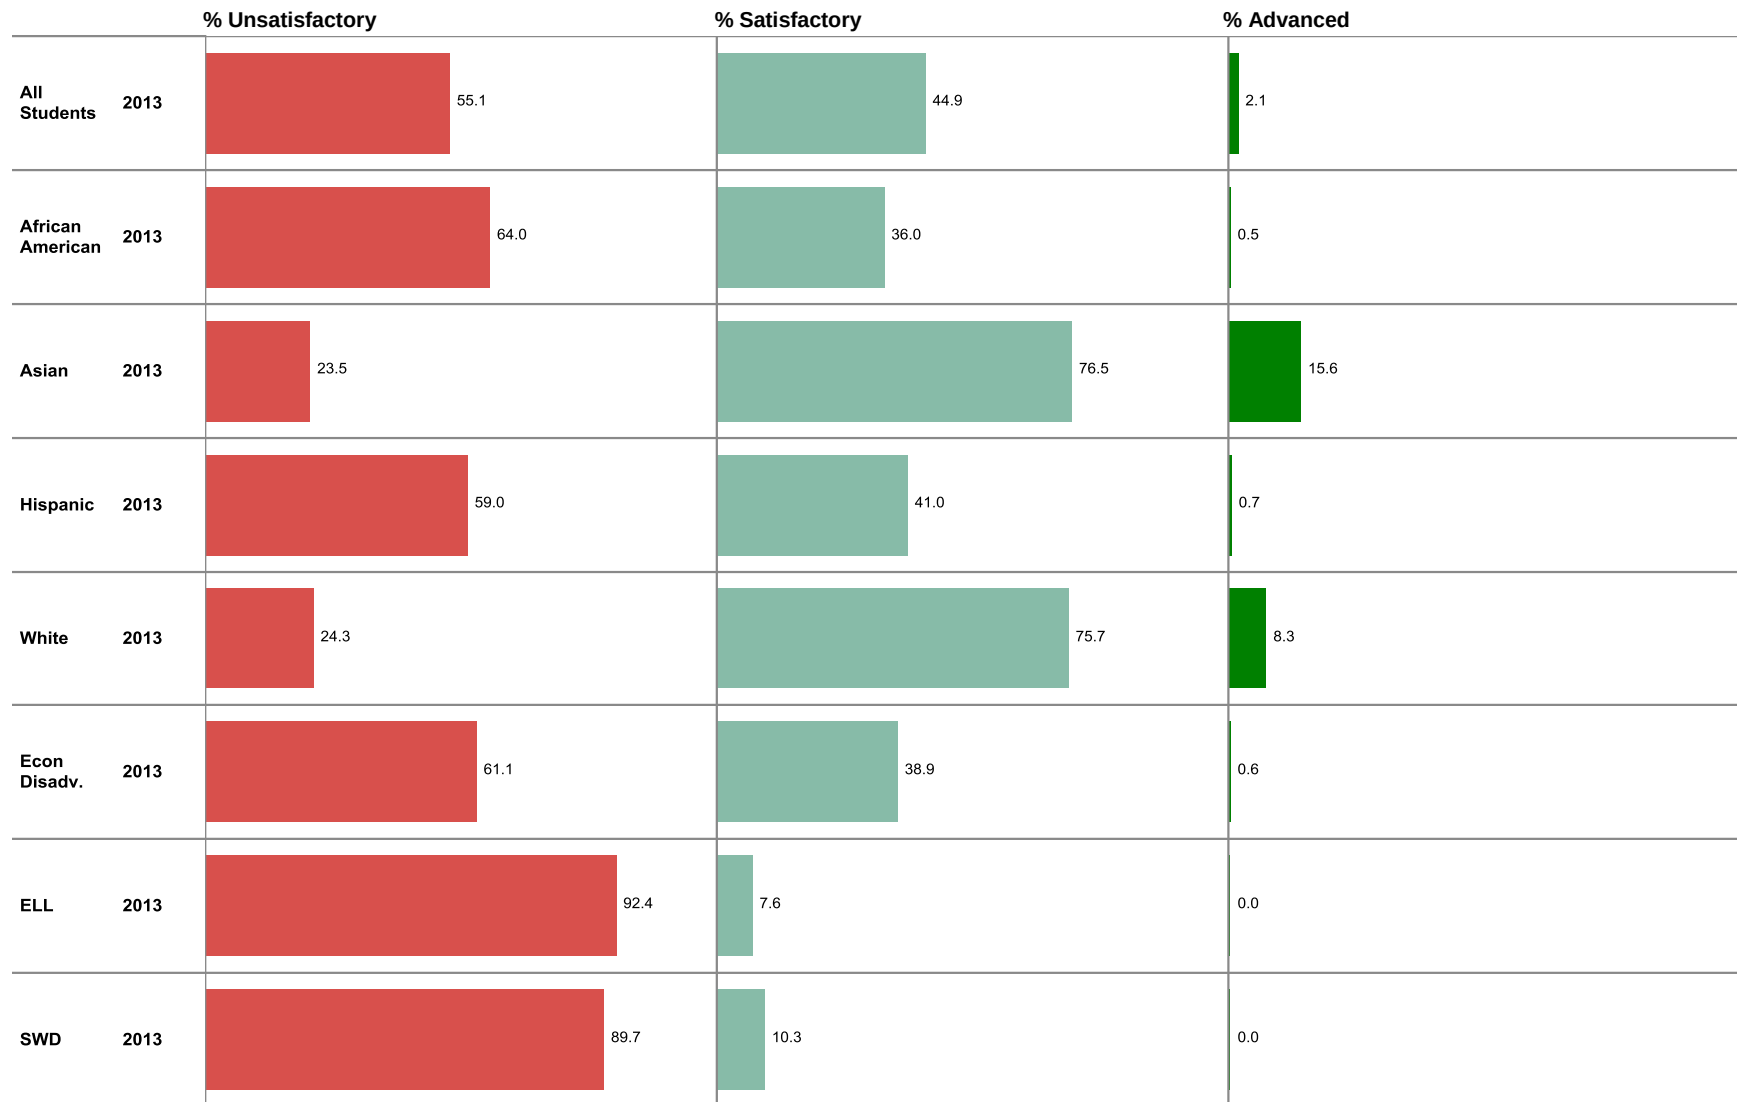

STAAR L, STAAR Modified, and STAAR Alternate are not included.

**Figure 8: STAAR EOC English I Writing, % Performance Levels, by Student Group: 2012 and 2013**

STAAR L, STAAR Modified, and STAAR Alternate are not included.

**Figure 9: STAAR EOC English II Reading, % Performance Levels, by Student Group: 2013**

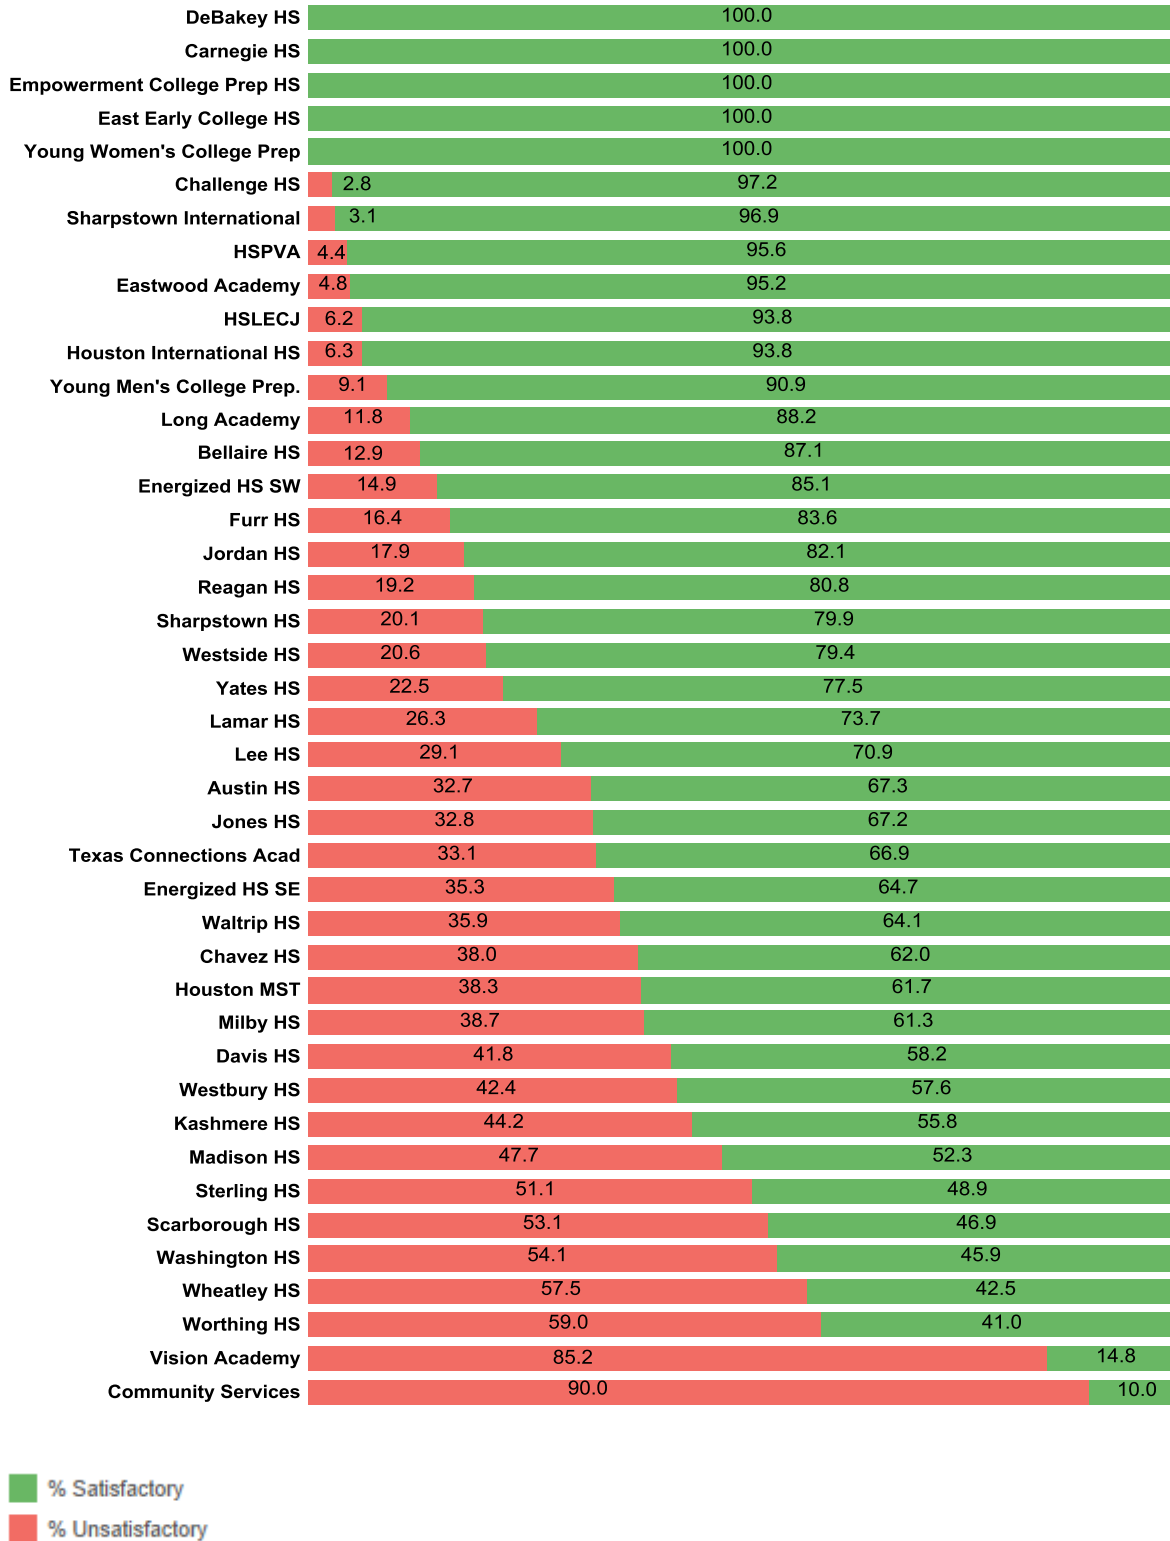

STAAR L, STAAR Modified, and STAAR Alternate are not included.

**Figure 10: STAAR EOC English II Writing, % Performance Levels, by Student Group: 2013**

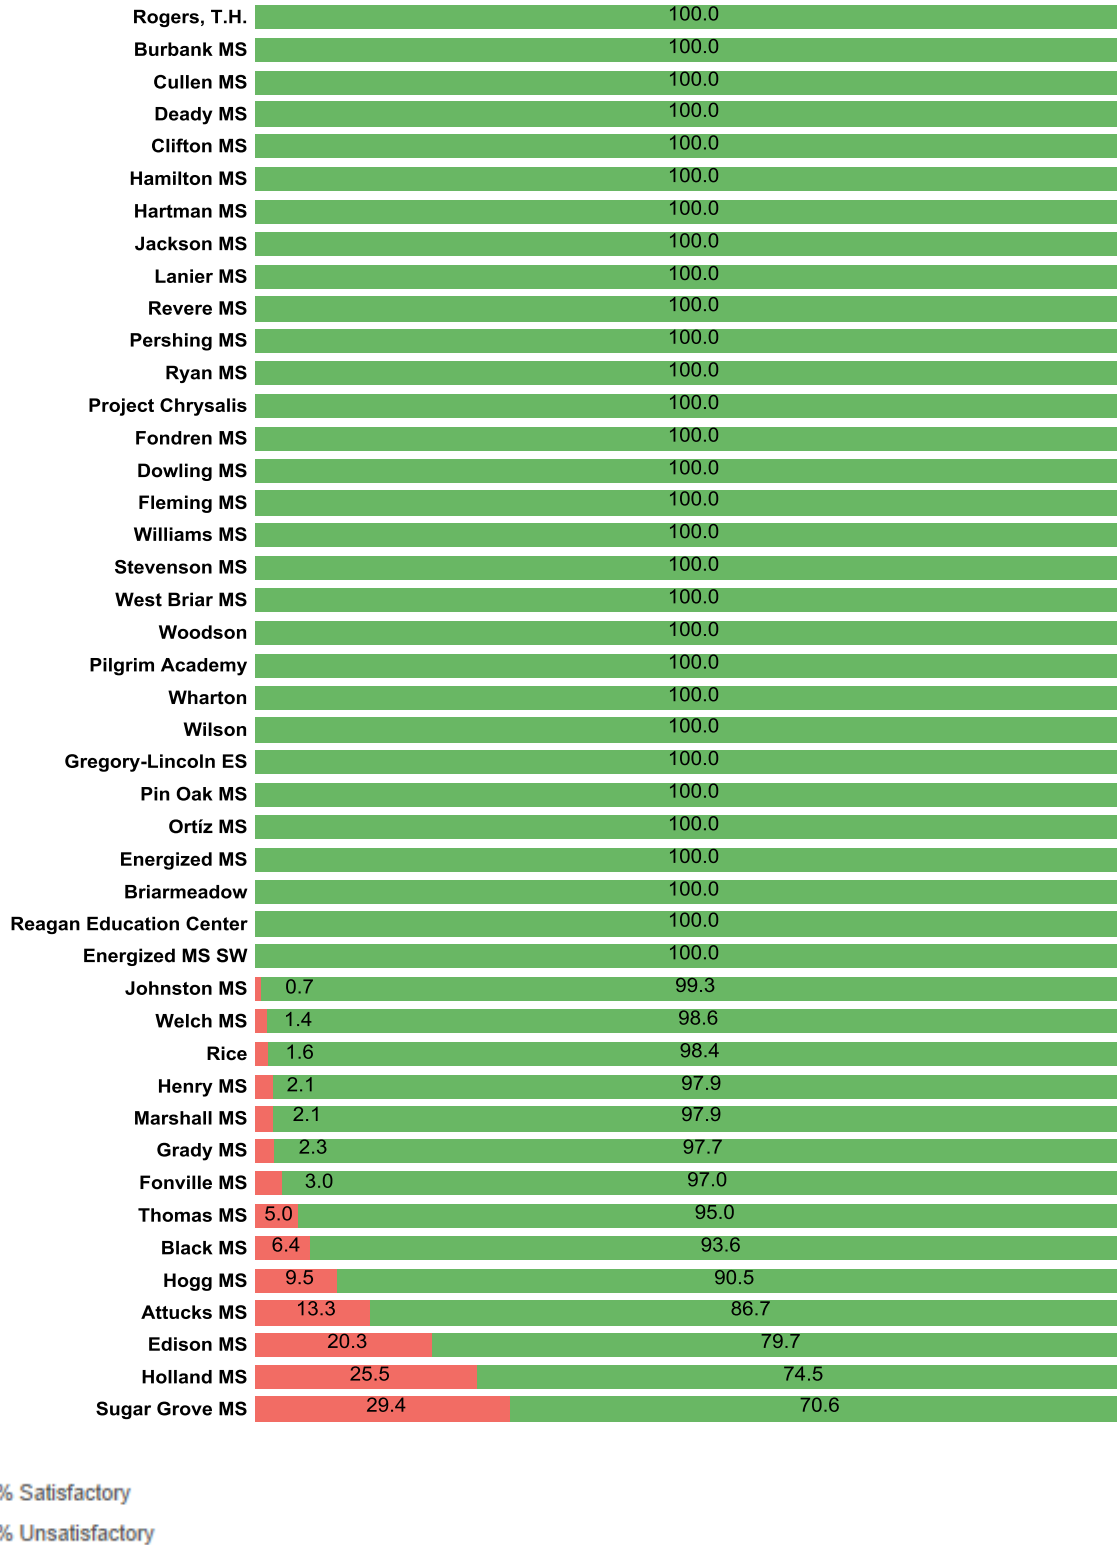

STAAR L, STAAR Modified, and STAAR Alternate are not included.
