**SUBJECT: 2011–2012 STAAR GRADES 3–8 RESULTS: PHASE-IN STANDARDS**

The attached report provides the results of the spring 2012 State of Texas Assessments of Academic Readiness (STAAR). These results indicate passing scores based on standards recently released by the Texas Education Agency (TEA). At grades 3–8, students are tested in mathematics and reading. Students are also tested in writing at grades 4 and 7, science at grades 5 and 8, and social studies at grade 8. Because this is the initial STAAR administration, previous years' results are not available for comparison.

This report provides the results for the spring 2012 assessments of STAAR, STAAR Spanish, and STAAR L based on phase-in 1 standards that were set by TEA in January 2013. Results of STAAR Modified and STAAR Alternate for Students with Disabilities (SWD) will be provided in a subsequent report. Some key findings in this report are as follows:

**Level II: Satisfactory Academic Performance at Phase-in standards:**

- The gaps in mathematics between HISD and the state range from 2 to 5 in all grades except in 7<sup>th</sup> grade where there is a gap of 18 percentage points. Although large, the gap is not meaningful as there were 4,151 students enrolled in 7<sup>th</sup> grade who took the 8<sup>th</sup> grade STAAR exam.
- The gaps in reading between HISD and the state ranged from 4 to 8 percentage points.
- HISD 3<sup>rd</sup> graders taking the STAAR Spanish exams outperformed the state by 7 percentage points in reading, and by 10 in mathematics.
- In 4<sup>th</sup> grade, HISD students outperformed the state on the STAAR Spanish exams by 10 percentage points in reading and writing, and by 12 in mathematics.
- Asian students in HISD taking STAAR exams outperformed their peer group in the state by 2 percentage points in 3rd grade reading 8<sup>th</sup> grade science, 1 point in 3<sup>rd</sup> and 6<sup>th</sup> grade mathematics, and by 4 points in 4<sup>th</sup> grade mathematics.
- African American students in HISD taking STAAR exams outperformed their peer group in the state by 3 percentage points in 4<sup>th</sup> grade writing, and by 1 point in 5<sup>th</sup> and 8<sup>th</sup> grade science. On STAAR Spanish exams, African American students in HISD outperformed their peer group in the state by 7-10 points in 4<sup>th</sup> grade reading, mathematics, and writing.
- Hispanic students in HISD outperformed their peer group in the state on STAAR mathematics by 1-5 points in grades 3-6, and 8<sup>th</sup> grade. On STAAR Spanish exams, Hispanic students in HISD outperformed their peer group in the state in all subjects by 7-12 percentage points in grades 3-4.
- White students in HISD outperformed their peer group in the state by 3-8 percentage points on all STAAR exams in grades 3-8 with the exception of 7<sup>th</sup> grade mathematics (gap of 12 points), and 8<sup>th</sup> grade mathematics (outperformed state by 1 point). White students in HISD also outperformed their peer group in the state by 14-27 percentage points on all STAAR Spanish exams in grades 3-4.

- English Language Learners (ELL) trail the all student group by 14 percentage points in reading, 4 percentage points in mathematics, 16 percentage points in science, 12 percentage points in writing, and 31 percentage points in social studies.

**Level II: Satisfactory Academic Performance at Recommended standards:**

- The percentage of HISD students meeting the recommended satisfactory standard ranged from 31 to 37 percent for reading, 14 to 35 percent in math, 27 to 33 percent in writing, 30 to 31 percent in science, and 19 percent in social studies.
- On the STAAR Spanish exams, the percentage of students meeting the recommended satisfactory standard ranged from 23 to 37 percent in reading, 8 to 30 percent in math, 39 percent in writing, and 5 percent in science.

**Level III: Advanced Academic Performance at Recommended standards:**

- HISD outperformed the state by 1 percentage point in 4<sup>th</sup> grade math and by 2 percentage points in 4<sup>th</sup> grade writing.
- In reading, science, and social studies, HISD performed within 1 to 5 percentage points of statewide performance.

**Administrative Response**

To improve student performance on the 2013 STAAR exam, elementary schools in the Houston Independent School District are ensuring that students are well prepared by specifically addressing several areas of concern.

- Identify "Best Practices" schools with similar populations to address the increased student performance gaps.
- Continue to participate in Neuhaus reading trainings, professional development, and walkthroughs that address the components of foundational literacy.
- Monitor student assessments, and grades, to ensure that failing students receive early, intensive interventions including in-school, after-school, and weekend tutorials.
- Emphasize K-12 math instruction to ensure that foundational math skills support the development of 3<sup>rd</sup> grade students.
- Implement a consistent school-wide writing and science instruction beginning at kindergarten to support students develop foundational skills.
- Assess the student's potential challenges to determine the extenuating circumstances that prevent the student from achieving success and develop possible alternatives including, but not limited to, academic, social services, etc.
- Assist teachers in identifying and addressing student concerns through ongoing weekly PLC's attended by campus administrators.
- Implement the following strategies to support English Language Learners (ELL) as they transition into all English classes:
  - Monitor ESL instruction in schools,
  - Analyze ESL data and student progress in exiting the bilingual program
  - Emphasize reading in the transitional bilingual classrooms. As the Spanish STAAR results can attest, our Spanish instruction is solid; however, the performance of the transitional bilingual students is lagging.
  - Discuss appropriate language of testing for children in Bilingual programs separating the Stanford from Aprenda scores on the Principals' Assessment so that no one school can have scores that are inflated due to high Aprenda scores and low Stanford or visa-versa. This will allow us to clearly note performance issues at the lower grades and to help get to the root cause analysis.

- Visit three districts: Spring Branch, Chapel Hill, North Carolina and Clark County, Nevada to review their Dual Language Programs.

In the middle schools, specific strategies have been put in place to better prepare students and ensure their success on the upcoming 2013 STAAR exam.

- Progress monitor the Secondary Reading Initiative programs and tools – Portals, LANGUAGE!, Read 180, and System 44 -- to determine the effectiveness of instruction and interventions.
- Continue the use of Istation formative assessments as the framework for response to interventions (RTI) in support to the district's secondary reading initiative. Once student weaknesses are identified, school administration will schedule interventions according to the data. Principals may use Istation's reading intervention program as a student's primary intervention, or as a supplemental intervention strategy, based on the data. Istation's scripted teacher directed lessons may also be used to deliver focused small group instruction, depending on the school and data.
- Continue the Think Through Math implementation to support teachers in addressing differentiated math instructional needs, as well as improving understanding of critical math concepts, higher-order thinking, and problem solving skills.
- Enabling Teacher Development Specialists (TDS) to provide increased support of ongoing weekly PLC's in all core areas.
- Expand on the work of collaborative schools that have created benchmarks to address critical areas.
- Continue the support, and continuous improvement, efforts of the National Center for Urban School Transformation (NCUST) for site visits and walkthroughs in our Tier III and IV schools to implement the best practices from urban schools for improving curriculum rigor, instructional effectiveness, and school culture and climate.
- Continue to participate in Neuhaus reading trainings, professional development, and walkthroughs that address the components of foundational literacy – decoding, fluency, vocabulary, comprehension, and writing.
- Continue to conduct campus walkthroughs with the Curriculum, Instruction, and Assessment Department Director, and staff, to ensure classroom instruction is in alignment with the district's curriculum.
- Review and analyze first benchmark data to ensure principals address critical areas, and help teachers plan instruction by providing specific information about targeted instructional needs of students.
- Monitor the development and implementation of school budgets to ensure that budget allocations, expenditures, and resources are aligned with the district's positioning statement, and their own school position statements, in regards to math reading and safety.
- Enabling the sharing Teach Like a Champion effective teaching strategies and classroom management best practices, routines, and techniques from the seven middle schools piloting the program across teachers, classrooms, and other middle schools.

The Curriculum, Instruction and Assessment Department have several initiatives in place, and several planned, to ensure students are also well prepared.

*Initiatives in Place:*

- In collaboration with district teachers, the Curriculum, Instruction and Assessment Department (CIA) both rewrote, and revised, the HISD curriculum (Pre-K-12) for the

2012-2013 school year to ensure that students have multiple opportunities to master key concepts and skills prior to STAAR, in preparation for the next grade level or course.

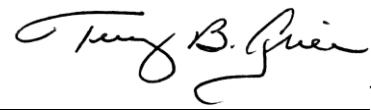

- HISD curriculum documents include a wide range of formative assessments that teachers can use to monitor student learning and inform instruction.
- Literacy tools (i.e., strategies, resources, and assessments) are embedded in all content area curriculum documents to improve students' reading, writing, thinking, listening, and speaking skills.
- HISD has implemented a formative assessment initiative that includes EdPlan, Istation, and Think Through Math to adjust and focus instruction and to support intervention.
- CIA and Professional Support and Development (PSD) planned comprehensive training to support core instruction and to build teacher capacity to differentiate instruction based on assessment data.
- CIA created curriculum-based, district-level assessments to determine students' mastery of key concepts and skills, and used the resulting data to develop intervention documents for teachers.
- The HISD curriculum planning guides were aligned to the district's Instructional Practice Rubric to reinforce district goals concerning the planning and delivery of quality instruction.
- Renzulli Learning System, an online differentiation tool, is accessible to all elementary campuses.
- The Secondary Reading Initiative was launched to support struggling readers in grades 6 and 9.
- Springboards, Laying the Foundation, and Advanced Placement trainings and materials have been provided to support secondary ELA and math teachers in delivering rigorous lessons.
- Neuhaus Education Center has provided training to K-6 and grade 9 teachers on foundational literacy skills, including fluency, phonics, phonemic awareness, comprehension, and vocabulary. Neuhaus resources and strategies are referenced in the district curriculum.
- To encourage differentiated instruction, Neuhaus provided training- of-trainers sessions on small-group instruction for representatives from all elementary campuses.
- As a follow-up to the Neuhaus training provided to administrators, CIA collaborated with Neuhaus to facilitate instructional rounds (focused on literacy) on elementary and middle school campuses. This instructional activity equipped principals to monitor and support literacy instruction.
- CIA has structures in place to regularly meet with campus lead teachers and department chairs to train and to disseminate critical information on district data, STAAR preparation, and implementation of new curriculum documents.
- CIA and PSD continue to partner with the Baylor College of Medicine and the Rice University School Mathematics Project to develop curriculum materials and deliver teacher training.
- To further support teachers in the implementation of the curriculum, CIA and PSD partnered to create online curriculum preview videos focusing on grade 3 math, grade 4 ELA, grade 6 reading, grade 7 math, English I and Algebra I.

*Initiatives Going Forward:*

- CIA will continue to revise the curriculum based on data, classroom observations, and teacher and administrator feedback.

- CIA will create new documents to support the transition to, and the implementation of, new K-12 math standards. Documents will include new scope and sequence documents, pacing calendars, planning guides with transition information and support, and exemplar units. New math standards will be assessed in 2015-16.
- CIA will continue to develop exemplar units (Pre-K-12) based on the district planning guides. These exemplars provide teachers with models of well-designed, standards-based lessons.
- CIA is writing 160 new formative assessments that will be embedded in the district curriculum to help teachers gauge student growth. Over 100 of the assessments are literacy-based, and require students to read and write to demonstrate understanding. Many assessments will be linked to the EdPlan Assessment System to provide teachers an opportunity to track student success.
- CIA is designing and scheduling additional professional development opportunities for elementary and secondary teachers. Sessions include the following: foundational literacy skills, lesson design, the teaching of math, science, social studies content, and of critical reading, differentiating instruction, and the expository, persuasive and literary essays.
- CIA will create both fall and spring district-level benchmark assessments for the 2013-14 school year to help campuses evaluate students' STAAR-readiness and make instructional adjustments.
- CIA will support the 1:1 Digital Learning Initiative by infusing technology resources and effective digital learning strategies in the district curriculum.
- CIA will facilitate the adoption process for the selection of districtwide instructional materials to support TEKS-based instruction in mathematics, science, and technology applications.
- CIA will collaborate with PSD to ensure ongoing comprehensive training on the implementation of new K-12 state mathematics standards.

**State of Texas Assessments of Academic Readiness (STAAR)**  
**Final Results: Grades 3-8, Spring 2012**

**Introduction**

The State of Texas Assessments of Academic Readiness, or STAAR, replaced the Texas Assessment of Knowledge and Skills (TAKS) program in spring 2012. The Texas Education Agency (TEA), in collaboration with the Texas Higher Education Coordinating Board (THECB) and Texas educators, developed this new assessment system in response to requirements set forth by the 80th and 81st Texas legislatures. This new system focuses on increasing postsecondary readiness of graduating high school students and helps to ensure that Texas students are competitive with other students both nationally and internationally.

At grades 3–8, students are assessed in mathematics and reading. Students are also assessed in writing at grades 4 and 7, science at grades 5 and 8, and social studies at grade 8. There are two cut scores, which identify three performance categories. For the general STAAR assessments, STAAR Modified, and STAAR L, the labels for the performance categories are:

- Level III: Advanced Academic Performance,
- Level II: Satisfactory Academic Performance, and
- Level I: Unsatisfactory Academic Performance.

The performance at Level II will be phased in over four years before the recommended standard is applied. The phase-in 1 standards will be in effect for the STAAR assessments in 2011-2012 and 2012-2013. Phase-in 2 standards will be in effect for 2013-2014 and 2014-2015. Finally, the recommended standards for Level II performance will be implemented in 2015-2016. There is no phase-in for Level III performance in grades 3-8.

For high school, general subject-area TAKS assessments were replaced with fifteen STAAR end-of-course (EOC) assessments. STAAR EOC assessments are available for Algebra I, geometry, Algebra II, biology, chemistry, physics, English I-reading, English I-writing, English II-reading, English II-writing, English III-reading, English III-writing, world geography, world history, and U.S. history.

This report provides the results for the spring 2012 assessments of STAAR, STAAR Spanish, and STAAR L based on phase-in 1 standards that were set by TEA in January 2013. Results of STAAR Modified and STAAR Alternate for Students with Disabilities (SWD) will be provided in a subsequent report.

**Administration of the STAAR Examination to HISD Students**

The STAAR Examination schedule (**Table 1**) lists the various tests administered districtwide during the spring of 2012 for grades 3-8.

**TABLE 1. The STAAR Examination Schedule for Spring 2012 (Grades 3-8)**

<b>Exam</b>	<b>Grade Level</b>	<b>Date Administered</b>
Writing	4, 4 Spanish, 7	March 27-28, 2012
Mathematics	5, 5 Spanish, 8	March 27, 2012
Reading	5, 5 Spanish, 8	March 28, 2012
Mathematics	3-4, 3-4 Spanish, 6-7	April 24, 2012
Reading	3-4, 3-4 Spanish, 6-7	April 25, 2012
Science	5, 5 Spanish, 8	April 26, 2012
Social Studies	8	April 27, 2012

All tests in the STAAR program have a four-hour time limit. The tests start when students are directed to turn to the first question. Accommodations for extra time or an extra day are available for students who meet eligibility criteria for their use.

## STAAR Exam Versions

As with the TAKS assessment, there are four versions of the STAAR exam offered to students:

- **STAAR** and **STAAR End-of-Course (EOC)** are available to all students in grades 3–8 and first-time ninth graders who do not qualify for one of the other STAAR assessments. A Spanish version is available for grades 3–5.
- **STAAR L** is a linguistically accommodated English version of the STAAR assessments (grades 3–8, and EOC) in mathematics, science, and social studies. STAAR L is provided for English Language Learners (ELLs) who meet participation requirements for a substantial degree of linguistic accommodation in these subject areas.
- **STAAR Modified** replaced the Texas Assessment of Knowledge and Skills—Modified (TAKS—M) for third through entering ninth grade students who meet the STAAR Modified participation requirements. Admission, review, and dismissal (ARD) committees will use the participation requirements to determine if the STAAR Modified is the appropriate assessment.
- **STAAR Alternate** is designed for the purpose of assessing students in grades 3–8 and high school that have significant cognitive disabilities and are receiving special education services.

## TEA Reporting of STAAR Examination Results

For STAAR grades 3–8 assessments, reporting occurred in three phases. In early June 2012, data files with raw score information were provided by TEA to the school districts. In late June 2012, updated data files and information pertaining to Adequate Yearly Progress (AYP) reports were provided using an equating study relating STAAR results with TAKS. The final phase occurred in January 2013 when performance standards were set.

**FIGURE 2C. HISD AND STATE (GRADES 3-8): PERCENT MET LEVEL II (SATISFACTORY) PHASE-IN 1 BY STAAR VERSION, SUBJECT, AND GRADE LEVEL (HISPANIC STUDENTS)  
SPRING 2012**

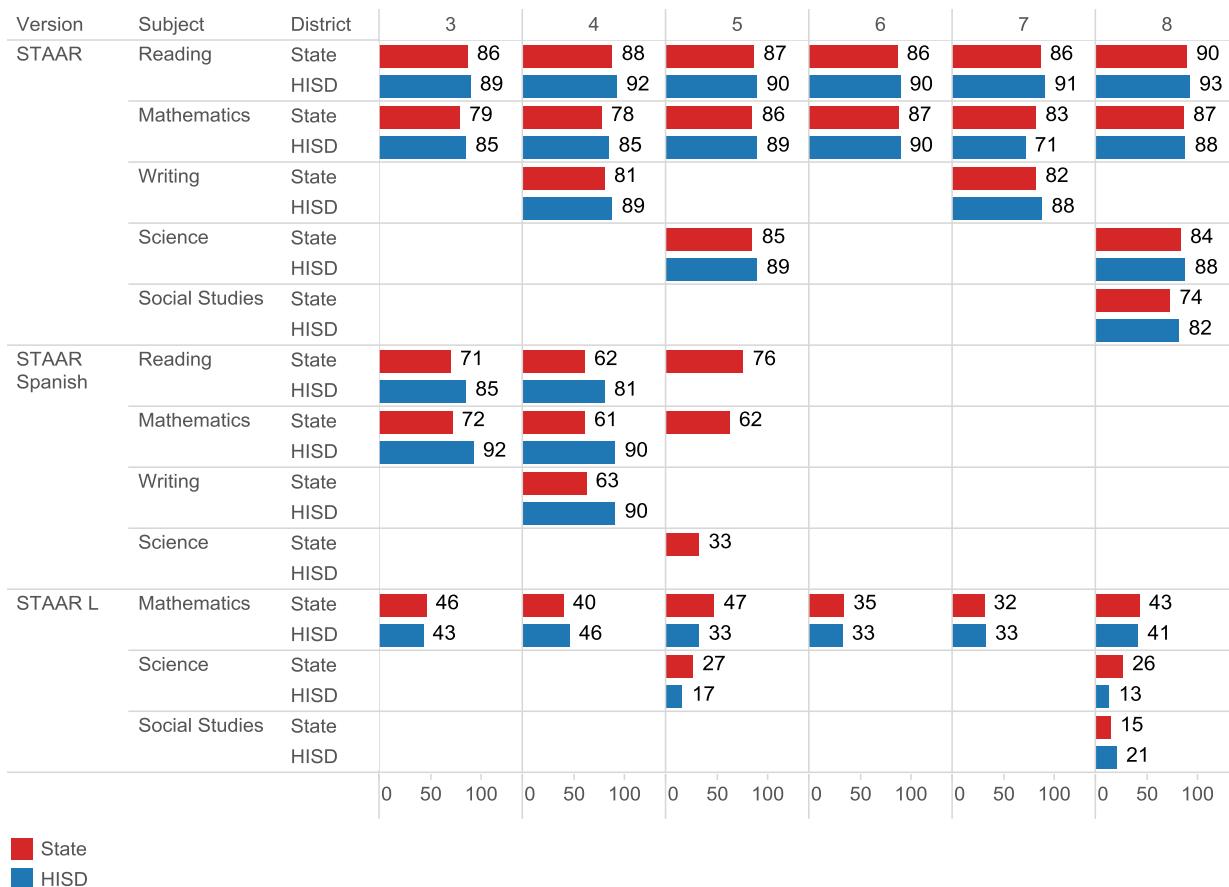

**Figure 2C** shows the following gaps in percentage points between the percent met Level II (satisfactory) at phase-in 1 standards between the state and HISD (Hispanic students) in the exams in grades 3-8:

- HISD students in grades 3 and 8 matched the state in STAAR reading. The gaps in grades 4-7 ranged from 1 to 3 percentage points.
- HISD exceeded the state by 1 to 5 percentage points in grades 3-6, and 8 in STAAR mathematics. In 7<sup>th</sup> grade, the gap of 9 percentage points, although large, is not meaningful because of the distortion caused by students enrolled in 7<sup>th</sup> grade who took the 8<sup>th</sup> grade STAAR exam.
- HISD students matched the state in STAAR writing in 4<sup>th</sup> grade but trailed by 2 percentage points in 7<sup>th</sup> grade.
- HISD students exceeded the state by 1 to 2 percentage points in STAAR science in grades 5 and 8.
- HISD students trailed the state for 8<sup>th</sup> grade in STAAR social studies by 1 percentage point.
- HISD exceeded the state by 7 to 12 percentage points in STAAR Spanish reading, mathematics, and writing in grades 3-4. In 5<sup>th</sup> grade, HISD trailed the state by 11 to 25 percentage points in all subjects. However, less than 40 students were tested in this group.

- HISD students in grades 3 and 5 outperformed the state in STAAR L mathematics by 5 to 20 percentage points; in grades 4, and 6-8, HISD trailed the state by 3 to 9 percentage points.
- HISD students exceeded the state average in 5<sup>th</sup> grade STAAR L science by 3 percentage points but trailed the state by 4 percentage points in 8<sup>th</sup> grade.
- HISD students trailed the state average for 8<sup>th</sup> grade in STAAR L social studies by 4 percentage points.

**FIGURE 2D. HISD AND STATE (GRADES 3-8): PERCENT MET LEVEL II (SATISFACTORY) PHASE-IN 1 BY STAAR VERSION, SUBJECT, AND GRADE LEVEL (WHITE STUDENTS) SPRING 2012**

**Figure 2D** shows the following gaps in percentage points between the percent met Level II (satisfactory) at phase-in 1 standards between the state and HISD (White students) in the exams in grades 3-8:

- HISD students in grades 3-8 exceeded the state by 3-5 percentage points in STAAR reading.
- HISD exceeded the state by 1 to 7 percentage points in grades 3-6, and 8 in STAAR mathematics. In 7<sup>th</sup> grade, the gap of 12 percentage points, although large, is not meaningful because of the distortion caused by students enrolled in 7<sup>th</sup> grade who took the 8<sup>th</sup> grade STAAR exam.
- HISD students outperformed the state in STAAR writing by 6-8 percentage points and science by 4 percentage points.
- HISD students outperformed the state in STAAR social studies by 8 percentage points.
- HISD outperformed the state by 14 to 29 percentage points in STAAR Spanish reading, mathematics, and writing.
- HISD students trailed the state by 2 to 3 percentage points in grades 3, 6, and 8 in STAAR L mathematics, and by 14 percentage points in 5<sup>th</sup> grade, but exceeded the state by 1 to 6 percentage points in grades 4, and 7.
- HISD students trailed the state in STAAR L science by 10 to 13 percentage points.
- HISD students outperformed the state in STAAR L social studies by 6 percentage points.

Percent of students meeting Level II enrolled and tested in the same grade are highlighted in yellow.

**Table 2A** shows that 245 (2%) of the 12,125 students enrolled in grade 6, 4,350 (38%) of the 11,459 students enrolled in grade 7, and 2,642 (23.4%) of the 11,290 students enrolled in grade 8 did not take their grade-level STAAR exam in mathematics. Collectively, 27,637 students (79.1%, highlighted in yellow) out of the 34,946 students enrolled in grades 6-8 took their grade level STAAR exams in mathematics. Consequently, the percent met Level II (satisfactory) shown in the bottom row for the tested grades are distorted due to students who did not take their grade-level exam. The performance has been re-constructed by the enrolled grade level, and the results shown in the last column provide an un-biased rendition of the percent met Level II (satisfactory) in mathematics for grades 6-8.

The results in mathematics indicate the following:

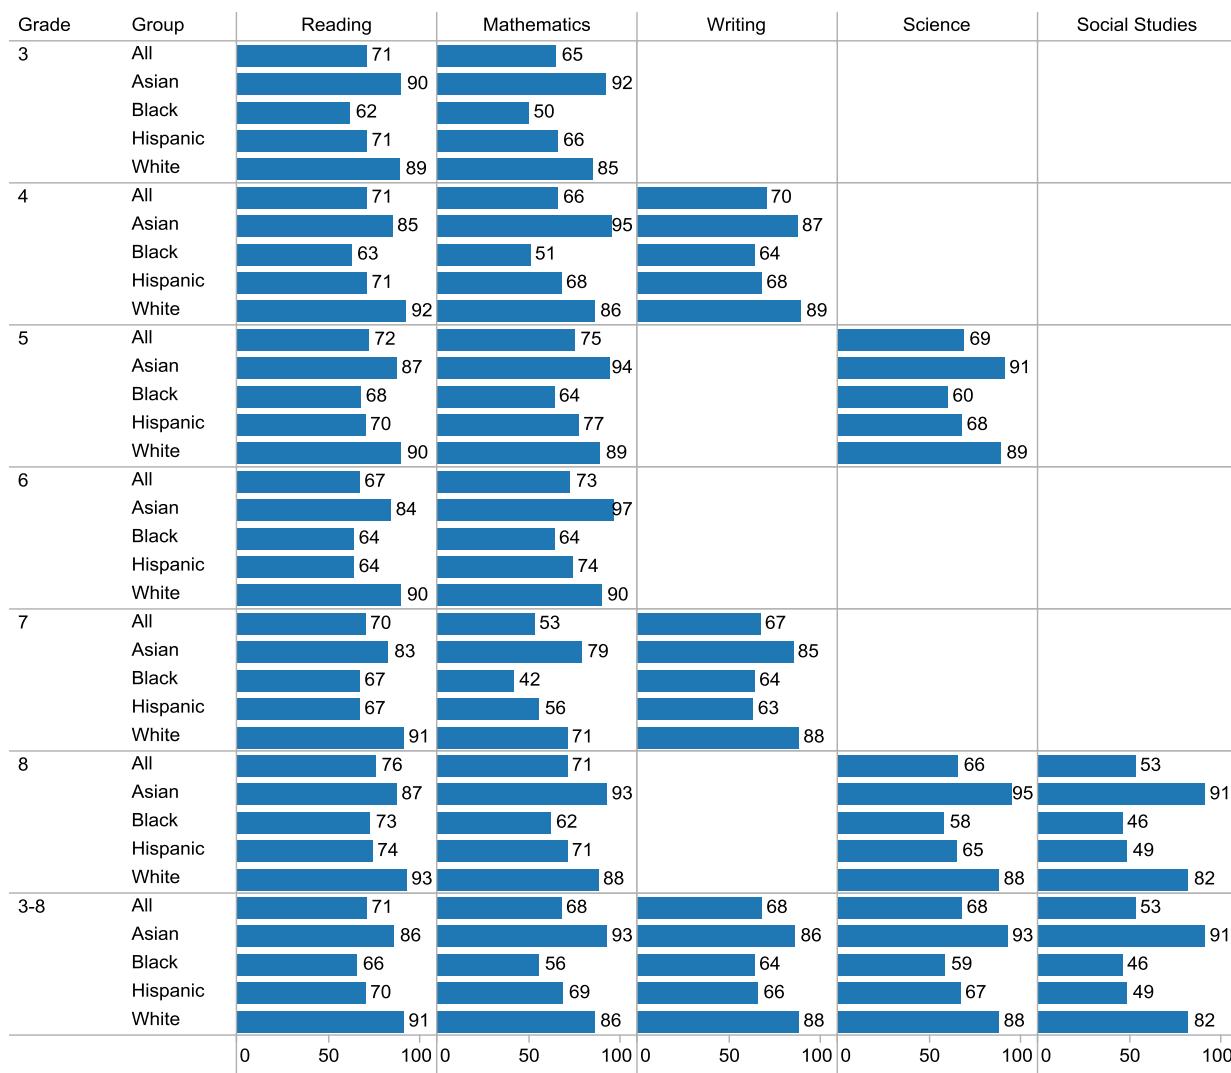

- 72.8% of students enrolled in grade 6 met Level II (satisfactory) compared to 73.5% of students tested in grade 6.
- 64.0% of students enrolled in grade 7 met Level II (satisfactory) compared to 52.9% of students tested in grade 7.
- 73.1% of students enrolled in grade 8 met Level II (satisfactory) compared to 71.0% of students tested in grade 8.

**Table 2B** shows the percent met Level II (satisfactory) under phase-in 1 standards disaggregated by enrolled and tested grades 6-8 in mathematics. Based on the number of students tested as shown in **Table 2A**, **Table 2B** indicates the following:

- 91 (37.1%) of the 245 students enrolled in 6<sup>th</sup> grade and tested in 7<sup>th</sup> grade mathematics met Level II (satisfactory) standard.
- 3,345 (80.6%) of the 4,151 students enrolled in 7<sup>th</sup> grade and tested in 8<sup>th</sup> grade mathematics met Level II (satisfactory).

It should be noted that the HISD is unique among Texas school districts, not only from the standpoint of its sheer magnitude but also in offering the test-up program. The test-up program allows students in an enrolled grade to take an assessment at a higher grade level. This program paved the way for 2,428 eighth grade students to start the 2012-2013 school year in high school with Algebra I EOC credits already in hand; 96 of these students also earned Geometry EOC credits prior to entering high school in 2012-2013.
