TO: Parents of Students Attending Longfellow Elementary

SUBJECT: Explanation of HISD Curriculum

The Every Student Succeeds Act (ESSA) requires all Title I schools to provide to parents a description and explanation of the curriculum in use at the campus. The State Board of Education adopted the Texas Essential Knowledge and Skills (TEKS) as the official K–12 curriculum for all Texas schools. The TEKS identifies what students should know and be able to do at every grade level and in every course in the foundation and enrichment subjects as they move successfully through schools. These learning standards will help ensure that all students can meet the following challenges of the 21st Century:

- Each student must become a more effective reader.
- Each student will have to know and apply more complex mathematics.
- Each student needs to develop a stronger understanding of science concepts, especially in biology, chemistry, and physics.
- Each student must master social studies skills and content necessary to be a responsible adult citizen.
- Each student must master a wider range of technology.

To view the descriptions of the TEKS online, visit: http://www.tea.state.tx.us If you do not have access to the Internet, please call the contact person listed at the end of this letter and this information will be provided to you. The HISD curriculum, which is based on the TEKS, includes non-negotiable objectives that must be taught at every grade level; however, individual schools are held accountable for innovative, instructional programs and results. Every student will be provided equal access to rigorous instruction and academic programs. HISD recognizes, however, that some students may need extra assistance to obtain high academic achievement, and this assistance is available through the Title I program. HISD will include parents in appropriate decision-making opportunities to support student academic achievement. If you have questions concerning this letter or need paper copies of the material referenced on the web site, contact the school’s Title I Campus Contact Person, Julia Griffin at 713-295-5268 during school hours, or email Jcampbe2@Houstonisd.org.

Sincerely,

Katherine Keafer, Principal

TO: Parents of Students Attending LONGFELLOW ELEMENTARY
SUBJECT: Explanation and Description of Assessments

The Every Student Succeeds Act (ESSA) requires all Title I schools to provide to parents a description and explanation of the forms of academic assessment used to measure student progress. Below are various assessments that HISD and its schools use throughout the year. In addition, local assessments that are used at Insert school name to measure student progress are also included at the end of this letter.

In the Spring of 2012, the State of Texas Assessments of Academic Readiness (STAAR™) replaced the Texas Assessment of Knowledge and Skills (TAKS). The STAAR program at grades 3–8 will assess the same subjects and grades that were previously assessed on TAKS. At the high school level, however, grade-specific assessments will be replaced with 5 end-of-course (EOC) assessments: Algebra I, Biology, English I, English II, and U.S. History. Students enrolled in grades 11 or 12 and have TAKS as a graduation requirement, will be administered Exit-Level TAKS until the standard has been attained.

The Texas Education Agency (TEA) has developed the State of Texas Assessments of Academic Readiness Alternate (STAAR™ Alternate 2) to meet the federal requirements mandated under the Elementary and Secondary Education Act (ESEA), a federal education law reauthorized as the No Child Left Behind law. STAAR Alternate 2 is designed for the purpose of assessing students in grades 3–8 and high school who have significant cognitive disabilities and are receiving special education services.

IOWA is a norm-referenced achievement test that measures students’ academic achievement in reading, writing, language arts, mathematics, science, and social studies.

Logramos is a norm-referenced achievement test for students whose primary language of instruction is Spanish. It measures students’ academic achievement in reading, language arts, mathematics, science, and social studies.

TELPAS is designed to measure the English language proficiency of K–12 English Language Learners in four language domains: listening, speaking, reading and writing.

The CogAT measures reasoning and problem-solving skills in three different areas: verbal, quantitative, and nonverbal. Reasoning skills develop gradually throughout a person’s lifetime and at different rates for different individuals. Reasoning abilities are good predictors of success in school and are important outcomes of good schooling. CogAT does not measure factors such as effort, attention, motivation, and work habits, which also contribute importantly to school achievement.

To find out more about the STAAR study guides and released tests, visit the Texas Education Agency’s Web site at www.tea.texas.gov/student.assessment/staar/. If you do not have access to the Internet, please call the contact person listed at the end of this letter and this information will be provided to you.

In addition to the assessments above, Longfellow Elementary also uses the following assessment(s) to measure student progress:

*Houston ISD (DLA, Snapshots, Running records, Renaissance 360, STAAR Interim)

If you have questions concerning this letter or need paper copies of the material referenced on the Web site, contact the school’s Title I Campus Contact Person, Insert Title I Campus Contact Person name at Insert phone number during school hours, or Title I Campus Contact Person Julia Griffin at jcampb2@houstonisd.org.

Sincerely,

Katherine Keafer, Principal
